"TONY" LYLE STONE

One of the outstanding stories in the annals of sport is the story of "Tony" Stone, the girl athlete. "Tony" is a girl of 26 who through her outstanding performance in the realms of sport throughout the United States has established an enviable record in all sports and particularly in the field of baseball. Since 1934 "Tony" has thrilled thousands on the baseball field while under contract with such well known Clubs as the St. Paul Giants, the House of David and the Ethiopian Clowns; and now for the first time "Tony" will make her appearance in Canada as a member of the San Fransisco Sea Lions Club.

Free mats of the above cuts of "Tony" for advertising purposes available on request.

FEATURE ATTRACTION

One of the feature attractions of the Sea Lions Baseball Club that is sure to pack the crowds into any Ball Park and thrill the spectators is "Little Sammie" Workman, known as the wonder boy without hands or feet. He catches, throws and bats a ball and does his death's slide into a base.

At the age of two years old Sammie's hands and feet fell off completely: after being examined by more than fifty leading doctor's, today he is still baffling science in its search for the cause of this strange malady.

Free mats of the above cuts for advertising will be supplied upon request.

The San Francisco Sea Lions baseball club, Negro Champions of the Pacific coast and a most attractive and entertaining road exhibition club, would like to play in your city.

Besides being one of the nation's outstanding teams in it's stellar performance on the diamond, this club is a crowd-pleaser providing comedy and fine entertainment.

The Sea Lions will play 250 cities in western Canada, United States and Mexico.

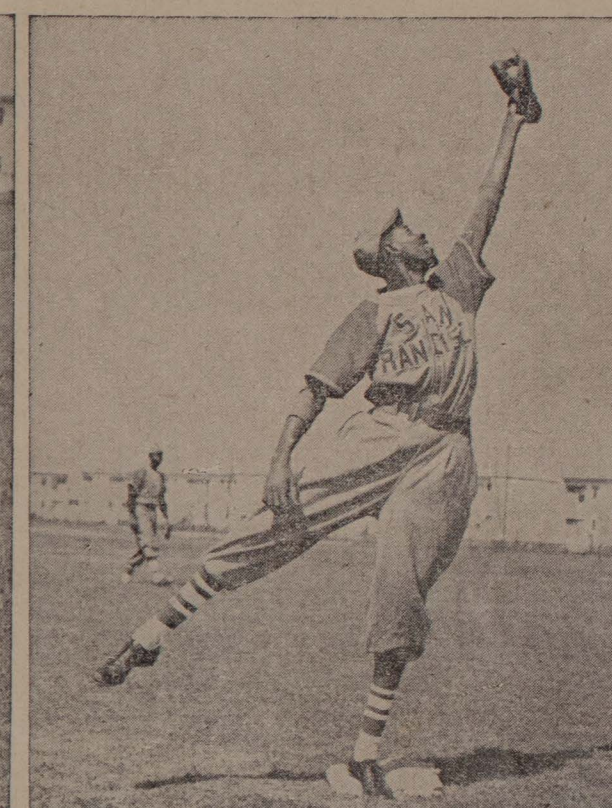

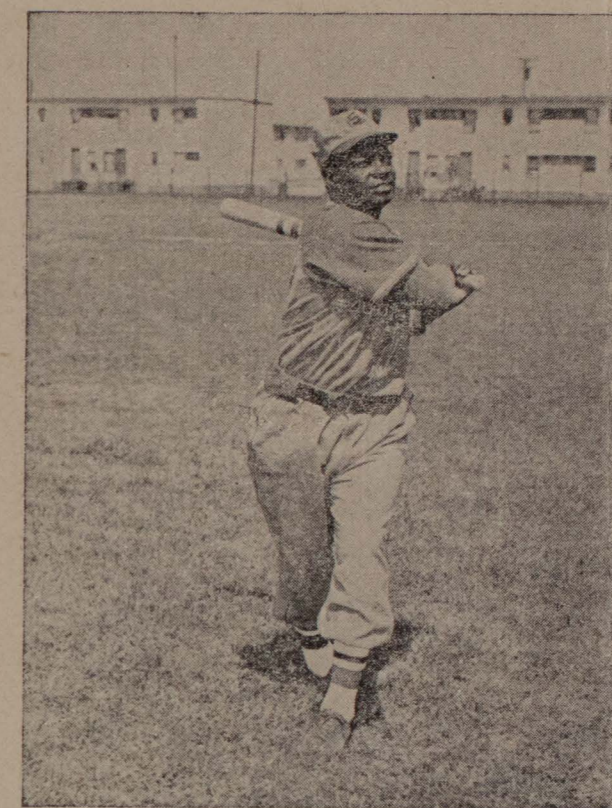

This is the second nation-wide tour this club has taken. Because they were highly successful last year in satisfying the fans and owners of the different teams they played, the Sea Lions have been invited back this season in almost every instance.

Let this team start your season off with a financial success at your box office and give your fans a well played ball game and comedy from the game of "Shadow Ball."

If you are interested in booking the Sea Lions, we would like to play in your city. Please inform us of the dates most suitable to your town.

The team has such star players as Porter Singleterry, hard hitting third baseman; Tex Anthoney, outfielder from the Chicago Bombers; Luther Branham, pint-size second baseman who batted .340 last season, including 30 homers; Chappy Gray, known as the chanting shortstop for his chatter throughout the game; and Tootie Richardson at first base, completing one of the fastest infields ever seen.

Catchers Eddie Turner and Jim Vaughn handle the slants of five of the best negro pitchers playing the game. Dink Woosley, curve ball artist, along with Wayne Carr, Fireball Smith, Curtis Hollingsworth and Jimmie Drake won 85 games last season, while losing only 18. On their 1949 tour of the Philippines and Hawaiian islands this staff won 19 games and lost only 4.

Besides being an attractive crowd-pleaser for their fine style of play, the team carries the two added attractions, as described elsewhere in this folder, "Little Sammie" and "Tony Stone" that fans throughout the country still remember for their stellar performances.

This clever, brilliant and powerful attraction will be coming your way this season and dates are now being accepted for this tour.
