G. Weiss, M. D. Willard-Parker Hospital East 15th Street New York, New York

Dear TW:

My naturalization has been accelerated and I have to be in New York for a hearing on Monday, June 22nd. I shall probably arrive in New York Saturday morning.

Would it be possible for you to break into my room at the King's Crown Hotel and look into a rather dusty brief case which contains my documents? What I want to know is whether there is in it a birth certificate and whether there is attached to the certificate an English translation which is certified. If the translation is sworn to by the translator before a notary public that would be sufficient. I seem to remember that I had such a translation made at the time when I immigrated to America in 1931 and it may be that that translation was certified in that manner through the American consul in Berlin. Could you please look into this question and send me a telegram as soon as you can? If there is no such translation I may have to come to New York Friday morning in order to have such a translation made.

By the way, it seems that it would be advisable for you to make your preliminary application for your second papers at once. There is no law about the date of the preliminary application—only about the actual filing of your petition for naturalization. Therefore, by the time action is taken on your preliminary petition your five years will be up. In any case it can do no harm to file your preliminary application now since in the worst case you will be notified that you have filed too early and asked to file again later.

What is your schedule this week?

Yours, LA.

Juns .

G. Weiss, M. D. Willard Park Hospital Foot East 15th Street New York, New York

Dear T. W .:

It seems to me that the formal side of the problem is perfectly simple. It is entirely a matter between M and the superintendent of the hospital. If M wants you as a collaborator it would be advisable that he should write at once to the superintendent informing him of this fact and also state that he has asked for a clearance for you in Washington. He should make it clear that until he has obtained such a clearance he is not in a position to make a definite offer. The purpose of his writing to the superintendent is merely to ask whether in principle they would be willing to release you to do war work at the Harvard Medical School. It would be advisable to write officially, using the Harvard stationery.

I think you should write M suggesting that he write in this sense to the superintendent of the hospital and making it clear that you would not be free to accept unless the hospital is willing to release you. You could, if you wish, inform the superintendent that you have written to M and told him that the matter is up to him and the Willard Park Hospital. Of course you would be glad to do war work if you receive a definite offer and if the hospital releases you. If you wish you can mention that you applied for some such work in M's laboratory two years ago, but I do not think that M should mention anything of the sort in his letter. It is sufficient if he states that you would be particularly suitable for the specific war work which he has in mind and the nature of which he naturally is not free to disclose.

As you see, all this is perfectly simple and there is hardly any need for you to take any action since the matter really is not up to you.

I do not think that the salary offered is particularly low, but I see no reason why you should not express your doubt about this point frankly. to M. He is not in a position to change the salary, but he can possibly explain to you how one can live cheaply at Cambridge, Massachusetts.

As to the merits of the case from a peace time professional point of view, it would be no doubt wiser to try to get a really good residency at a really good hospital and gradually drift into public health work. Since this is war, I find it difficult to apply peace time standards and to try to be rational in an irrational world. If you decide for Cambridge, you may consider it as a well deserved vacation from routine work after three years of internship.

August 6, 1942

I should not worry about the delay in your naturalization caused by the necessity of staying six months in Cambridge before you can file your petition for citizenship. It is likely that it would take you six months in New York between the filing of your preliminary application and the filing of your petition and in Cambridge you might have the advantage of benefitting by National Defense preference in the process of naturalization.

Sport am somewhat doubtful that in the long run you will want to remain a scientist doing research and while I am somewhat regretful about your interrupting a line of activity in which you certainly were doing a good job, all this is perhaps not enough to advise against trying something new, a fluing which which invariably has a strong appeal for all adventurous spirits.

I certainly do think that you should ask for two weeks vacation starting August 15th and I do not think that it will be refused on the ground that the hospital might release you in September or October for war work. If you mention this possibility you should mention it rather casually, in accordance with the uncertainty as to whether or not you will be cleared.

Today I have to write a few more official letters, so I am closing this. If there is an unexpected development you might call me at my hotel at 8 A. M. Chicago time, which is 9 A. M. New York time.

Yours,

Lev

Dear T. W .:

Could you perhaps telephone Mr. Arras at the King's Crown Hotel and tell him the following:

Early last week I wrote to the King's Crown Hotel an air mail letter asking them to send me the mail that has accumulated. A few days later when nothing arrived I sent a telegram repeating my request. Again nothing came. I would have expected that if I had no mail they would have written a few lines that there was no mail present. Consequently I am at a loss to understand why I did not hear anything from them.

Could you drop me a line letting me know what Mr. Arras said?

Yours,

G. Weiss, M. D. Willard Parker Hospital Foot East 15th Street New York, New York

Dear T. W:

I have not the faintest idea who may have transferred money to you from England unless it is Bryher who wants to buy a Christmas present for Kenneth. I think, however, that you should investigate the matter and leave the money where it is, rather than accept it, until you know who sent it, and for what purpose.

Yours, Levbilon

Leo Szilard

THE QUADRANGLE CLUB Munday, Nov 23 Senr Ch, bein pook op Brek ist gut angehammen; ich habe mich solvan fervindert ob du'in einem trefen und schner bhouley " tock " list . - Ich mende min Mile Ententone Winnel der Weisher't bei felegenter Z anochong bunnershap it her eine Kunkeneus mother banne ich ugenklich may palmen, trabe when noch him from haber burt, wen's so hier jeket anich frun lunderel ist much ich michen sehn burg lein. - Joh broke then ein symponthisches (aler micht bedendendes) Brick ysteren Brankield: Night in Brunky Enhunst bilke ich schar fürsklar dringend nikig
