V. ANNOUNCEMENTS

A. Dave Marchick announced that with the present Judicial Board proceedings going on it is important that we, the council, buckle down and work really hard on our other projects as well as help those with charges being brought against them. Secondly, the Volunteer Connection Orientation was an enormous success, about 55 students and some of the Council Members attended. The United Way showed a film. As it looks this will probably be one of the best services the A.S. has to offer.

B. Dave Manheim announced that the Warren College's Spirit Night Dance with the Mardels was a relative success, approximately had 300 people and it was a great time. This, Friday night, Dec. 5th is Phi's and Thigh's in the International Center, its \$2.00 at the door, and should be a lot of fun.

C. Gina Silva introduced the new freshman senator, Brian Tolfsky.

D. Richard announced the first week of Winter Quarter, SAAC, is putting on their first retreat and he encourages everyone to attend. Its a chance to meet the new interns and get a chance to meet everyone and learn about each other. Everything is provided, transportation, food, etc. If you're interested you can sign up with Renee Cadena in Student Center B or talk to Richard.

E. Greg McCambridge congratulated Eric Weiss on becoming a finalist for the Student Regent. He announced that the UCSA will be meeting here on campus on January 9, 10 and 11 and they will be selecting the student regents at this meeting. He encourages everyone to attend.

F. Katherine announced The Evening of the Spoken Word it is four poets, artists doing a series of poetry readings and word music synthesis, in the Triton Pub starts at 8:30 pm. The Newsletter is underway and she needs articles right away, preferably before you leave for Christmas Vacation, it will be out second week but it needs to go to the printer.

G. John stressed the importance of the newsletter and encouraged everyone to turn in article on projects they're working on and the goals they intend to reach next quarter. John gave his second State of the Campus Address today in conjunction with Dave Marchick and Eric Weiss. He discussed the issues of student facilities and services and being sure that these items do not diminish but grow and expand as student population does. He asked students to be watch dogs and to know what services are available to them, specifically those funded by student fees and to notice if there are any cut backs in hours or staff, and if they feel that the service is not meeting the needs and requirements of students to bring it to the attention of the A.S. Council so they can take direct action. There are two items brought to the attention of the A.S., the Computer Literacy Accounts and Weight Room Hours at Canyon View, the hours were to be cut drastically and through work of John, Joe Watson and the 600 signatures from the Weight Room they have reached a compromise that will allow more hours at the Weight Room on weekends and late nights. Cultural Programming is another issue John is working on, he sent a letter to all the Student Orgs that he felt had a cultural emphasis, asking them to have a designee from their organization in his box by Nov. 14th and all he received is one. He encourages student orgs to have one so that they can work with Joel on the programming. Noon Concerts is another issue that John's been working on. This quarter they were put in the Pub to see how it worked out and now they are working on having them back on the Gym Steps, hopefully this Winter. Lastly, Greg Hom and John are putting together a Student Leader of the Month Award, this award will go to outstanding student leaders on campus, in the A.S., College Councils, Student Orgs, Res Hall Programming Boards, Student Affirmative Action Committee, etc. They have chosen winners for October and November and the winners will have their photo and what they have accomplished displayed in the A.S. Office, for October there are two Eric Weiss and Jill Marchick for educating students on External Affairs and November is Joel

Schachne for his outstanding work in programming. The next award will be Janaury. If anyone has any suggestions for great student leaders see John or Greg Hom.

D. Greg Hom announced that sometime in January, he would like to do a variation of "Chatting with the Chancellor" but it will be "Chatting with the A.S." where the Council will go to the Res Halls or some place on campus to talk with students and hear their ideas.

E. Eric called the attention of the Council to an Article in the latest edition of the New Indicator, on page 9 referring to Eric, he said that they are not only untrue but slanderous and libel. He feels it is very serious and should not be taken lightly by anyone on Council.

F. John announced that he ran an ad in last week's bulletin and he advertised for a Presidential Intern, she will be working with John about 3 to 5 hours a week on projects and doing research and a little leg work as a basis for some of the projects on campus. She's very interested and eager to start working. If any of the other Council Members would like help with their projects they should see John.

VI. STUDENT INPUT

A. Samoa Koria, member of the Asian Pacific Student Alliance. He announced that Asian Pacific Student Union is a body of about 35 Asian Pacific Islander Student Organizations throughout the West Coast and they basically work together to meet the educational needs of Asian Pacific students. One of the ways is through the annual conference they are planning to hold here at UCSD in February. At the conference they address students' immediate concerns, that range from immigration, educational rights, Asian women, political issues, etc. The Asian population at UCSD is 13%, they are asking for \$1200. from the A.S. for this conference. The A.S. does represent the student body which is a very diverse group on campus and therefore he feels that the A.S. should represent the different interests of the student population. He felt that not funding them because it is not exclusively for UCSD students is irresponsible. The A.S. does fund a lot of cultural events that are relevant to the entire UCSD Community. Many from the statewide network want this conference to be a success and how the A.S. votes will reflect how the UCSD Community is looked at by the Asian Pacific Islander Student Organizations.

B. Jen Takomiya read a letter stressing the importance of this conference and the fact that the A.S. should fund it for the benefit of the UCSD students and community, as it will affect everyone.

C. Joe Wainio from the New Indicator Collective spoke on behalf of the Asian Pacific Students and their request for funding the conference. He stated that it's not only important to the Asian students but the whole campus and it should be something that the A.S. gets involved in. Whether or not the A.S. has the money to fund, they do have the money. He also stated that whenever the A.S. feels like it they can wave their bylaws and he doesn't feel there is any rule that would stop them from funding this conference. If there is a rule then they can just wave it as they have before. He said it is not a matter of whether the A.S. has the ability but if the A.S. is willing.

D. Gregory Wilpert spoke on behalf of the Progressive Student Alliance that has been started back up and has requested funding from the A.S. for Winter Quarter. They have scheduled four events they feel are very beneficial as they will help students to see various points of view and a good chance for many different students to get involved.

E. Rick Pollack of Majorca Magazine stated that if their budget as a new media is approved he would like to print the first issue on a glossy finish type of paper that will really improve the quality and will look really nice.

F. Theresa Wikin of the Progressive Student Alliance stressed her sincere concern for the passing of funding for an event they've scheduled that will benefit the UCSD students and community.

G. Lincoln Mitchell also commented on his concern of the funding for the Progressive Student Alliance and the fact that their events will be beneficial for everyone involved.

They'll also be working on having one of the new Chancellor's appointed to be a woman or minority. IF you have any questions about anything talk to Eric or Jill.

M. Russ welcomed John Robison the new Muir Freshman Senator.

N. John announced his first state of the campus address will be this Tuesday, January 13th at noon at Revelle Plaza, two more will be Feb. 3rd and March 3rd both tuesdays at noon. There are a few more projects for Senators who are looking for some, the International Cafe at the International Center, where A.S. members interact with International Students. In addition, the first event for Sports Activity Board, also known as Triton Waves, will be Jan. 24th Second Annual ASUCSD Student Organization Spirit Night against Claremont, the first 250 people in the door will receive free t-shirts and the winning student org will receive 50 tickets to the Padres Opener. Four basketball games, 3 volleyball games, as well as a Swim Meet have been slated for give aways at the games and there will be a campaign with buttons and stickers for awareness of Inter Collegiate Athletics this quarter. He also announced a letter he received from Vice Chancellor, Dr. Watson about Football and for people interested, he has outlined that for Football to exist on this campus, Division III, it would require a special student referenda that would ask for a special fee, it would be anywhere from \$5.00 to \$7.00, John has put on the agenda he has put together a committee to investigate and see what money is required and to put together a referenda question to see this go through. From the tone of Dr. Watson's letter it seems he's willing to accept such an idea, but the initiative is going to have to come from the student body and Intercollegiate Athletic Dept.

O. Greg Hom announced for Randy that he has applications for 1987-88 California Assembly Fellowship Program, if your a graduating senior and you have your B.A. or B.S. and you are a U.S. Citizen your eligible and feel free to talk to Randy about it. Greg asked to see all the Senators after the meeting and starting next week if your unable to make the meeting be sure to let him know before 5:00 pm or leave a note in his box.

P. Dave Manheim announced the Ad-Hoc Student Parking Committee, the first meeting, they discussed even though there's a parking problem they have tried to come up with a short term idea to enhance parking, they came up with the idea of going around to all the cars parked on No. Torrey Pines and

place a piece of paper that looks like a ticket that says, Park Right, Park Tight, Please in consideration of others park as close as possible to adjacent cars. Thank you Associated Students, UCSD Parking Office, and UCSD Police Dept. What this will do hopefully is promote people to park tighter, to make at least 20 to 30 more spaces.

VI. STUDENT INPUT

A. Jeff Hoffman a sophomore at Warren said he had been following the Alternative Media about funding for a year now and he has come up with an idea that is pretty common in this country, and that is when Presidential Candidates run the amount of money they raise the Government matches. Therefore, each media should raise a certain amount of money and the A.S. should match that dollar for dollar. This would allow the A.S. to have the Football team that is wanted, more TG's and would promote better campus spirit. There are papers that are already doing this and it would give more people initiative to make their own money.

A. Greg Hom asked if people will be here on Monday, January 19th, at 1:45 to 3:00 pm. There will be a note in the boxes about a meeting for the A.S.

B. John received a memo from Tom Tucker about the Human Core. John read a paragraph from the memo, "His purpose in requesting information, is that each campus of the University is required under language contained in this year state budget to establish a Human Core Program, to encourage students to become involved in Community Service Activities. In order for our Human Core Group to respond to the language with an appropriate plan that does not duplicate existing programs, we first need to compile an inventory of all the ways in which the students on campus already provide service, to members of the general public and University community. The University will also incorporate the information you provide into its report to the legislature. In the budget, they are asking for the students of the University to give a little back because of the tax payers money to the University System. If anyone is interested they should speak with John. Secondly, he received another letter from Muir College Council, that states they have decided on having Greg McCambridge as Interim Senior Senator this appointment will last until Greg MacCrone's situation has been settled, from Dave Sheldon. The third letter is a letter addressed to John Giebink, from Dr. Watson and it is regarding the continuance of TG's and alcoholic beverage sponsorship of student events. The letter reads as follows, "I am writing to request your recommendations and advice on two matters which there continues to be expressions of strong concern if not opposition and objections. They are 1) Whether the campus should continue to permit the serving of alcohol at TGIF's and 2) Whether the campus should permit alcoholic beverage companies to sponsor campus events, particularly recreational and inter collegiate events. I am forwarding a copy of this memo to College Deans, A.S. President Riley, and the Inter Collegiate Athletic Directors to encourage their providing you and the Alcohol Substance Abuse Committee with their considered views and advice on these two issues. I look forward to receiving your recommendations and hope that they can provided with the reasoning for them fairly quickly". John Giebink is basically one of Watson's assistants and he sees over Counseling and Psychological Services as well as the Alcohol and Substance Abuse Committee. John stressed that the A.S. needs to get together and plan a strategy in exactly how to present their views on alcohol on this campus and alcoholic sponsorship of certain events on this campus and present it to the Alcohol and Substance Abuse Committee of which John and Dave Marchick are both members. It is a very important matter, please contact John. John also announced that yesterday, tuesday, Jan. 13 he attended A Group Dynamics Workshop, sponsored by University Events, an excellent speaker Kathy Allen. He has a packet from the workshop that deals with getting people motivated, how to approach certain problems, resolve conflict within groups at meetings, there will be another Workshop on Conflict and Resolution on January 20th, and Model for Personal and Professional Development on February 3rd, there very informative and he strongly urges members to attend. The International Cafe, he has information if you want to get involved. Men's Basketball is playing Point Loma in the Gym on Saturday Night, Jan. 17th, the winner will be considered the second best team in the city.

B. Ira announced that Finance meets at 5:30 on Wednesdays and Student Org Finance Board will be meeting at 10:00 am on Wednesdays.

C. Katherine completed the newsletter and it will be going to the typesetter tomorrow and it will take up to two weeks for typesetting and a week for printing, so all of the articles that were dated will be out of date.

D. Larry announced Third College is having a general assembly entitled Back to the Basics on January 26th.

E. Alina announced a lecture on California Demographics with Alan Nishio from Cal State Long Beach, January 21st, 5:30 to 7:00 pm in Peterson Hall 103. Asked people to take flyers to their respective College Councils.

F. Joel announced tonight's movie was CrossRoads and next week's will be World According to GARP. Next friday, Jan. 23 there's an alcoholic TG with Talk Back. He said the problem with TG's this quarter is that its cold, so they will be about an hour, has proposed a TG in the Tent to keep it warmer, would make it a fun weekend on Sunday afternoon could have a concert.

G. Bill announced that Media Board meets next Wednesday, Jan. 21st at 5:00pm in Multi Purpose Room.

H. Eric announced that they referred someone to the systemwide committee on Human Core. The door to the computer room needs to be kept shut, be sure its locked, it is for the council use. He announced he will be doing a presentation to the Board of Overseers, the body he is a member of. The board has requested a presentation on a student perspective of what its like to experience undergraduate education at UCSD, Eric is only one of 12,000 students, would like to meet with others and get their ideas and views, encourages everyone to meet with him. The Grapevine, which is the computer hook up with Sacramento and other lobby's is working and going real well, Eric sent his first transition today and its very useful. This weekend was the SAAC Retreat and not many people went because of UCSA so he asked Richard for a report.

I. Micki spoke about Greg MacCrone being thrown off Council and she felt that the reasons were "Bullshit". She is wanting to stand up for his rights to stay on council, or if anyone has any input on changing what he was thrown off Council for she really would like to hear it because she feels the reasons were totally inlegitimate. She asked everyone to please talk to hear about it because she really is interested.

J. Dave Marchick added he feels the Council should really back Greg and help him as much as he needs it and really stick together through this.

K. Greg Hom announced for Lily's McCoy, there will be a speaker on Jan. 20th thru 23rd, sponsored by IVCF. He also announced that not everyone is not coming and checking their mailboxes and because of this key committees have not been able to meet and get what they need to get done. He said its bad enough that certain members get by just coming to council meetings but it's worse when they don't even check their mailboxes. He asked everyone to at least come in the morning and the end of the day to check for messages and times for meetings so that signals won't keep getting crossed and so that committees can meet and get what they need done.

VI. STUDENT INPUT

A. Chris Rys announced he is the Chair for the A.S. Ad-Hoc Football Study Committee. The resolution that the members will be voting on is very important. ASUCSD RESOLUTION ON UCSA 1/14/87

(1) Whereas the University of California Student Association (UCSA) Board of Directors has recently affirmed its opposition to "pet projects" of certain individuals; and

(2) Whereas the pending and attached UC Irvine Graduate Student Association Nicaragua resolution is a "pet project" regarding a subject about which many students may be concerned, but is not of central importance or consequence to UC students as students; and

(3) Whereas UCSA has limited resources and therefore must, in order to be effective, focus its agenda on only the most important issues which directly affect students, despite the number of "noble causes" and injustices in the world; and

(4) Whereas the UCSA Board and staff is already overextended in many issue areas to the extent that meetings can rarely be accomplished on schedule; and

(5) Whereas UCSA faces financial cutbacks and a near depletion of resources; and

(6) Whereas there already exist many more important issues which do directly affect students, however upon which UCSA does not have the resources to act; and

(7) Whereas the approval of said Nicaragua resolution would require diversion of resources away from the many more important issues of the UCSA Social Responsibility Committee, the full Board, and its constituent members; and

(8) Whereas UCSA is the sole and officially representative organization fighting specifically for UC students' rights Systemwide and in the Legislature; and

(9) Whereas there exist many other organizations whose sole purpose is to deal exclusively and effectively with issues such as United States foreign policy; and

(10) Whereas the pending Nicaragua resolution also calls for a "day of protest" during which no classes will be held in the University of California; and

(11) Whereas if a day of protest were held for every injustice in the world, the entire academic year would be cancelled; and

(12) Whereas the ASUCSD is a voting member of the UCSA Board, as well as a financial contributor;

(A) **THEREFORE**, let it be resolved that the ASUCSD opposes the passage of stated Nicaragua resolution; and

(B) Let it be further resolved that the ASUCSD strongly urges UCSA to reject said resolution; and

(C) Let it be further resolved that the ASUCSD strongly urges the Associated Students and Graduate Students Association Councils of all the UC campuses to oppose the pending Nicaragua resolution and recommend to its UCSA representative to do the same; and

(D) Let it be further resolved that the ASUCSD strongly urges UCSA to limit its agenda to those issues which it can effectively and adequately handle, giving first priority to issues which directly affect UC students as students; and

(E) Let it be further resolved that the ASUCSD urges all other UC student councils to enact similar legislation to that of the ASUCSD prior to the February, 1987 UCSA Board meeting.

V. ANNOUNCEMENTS

A. John asked everyone to relay the message to those that are not present that it is ludicrous that we are having problems with quorum. The situation regarding the Alcohol policy is the discontinuance of alcohol at TG's and the discontinuance of Alcohol Beverage Companies/Distributors of sponsoring campus wide events. The A.S. plays a very strong role in this and the position we should take are two items under new business which is a Resolution on TG's and a Resolution on the Alcohol Beverage Company/Distributor Sponsorship. In addition, there will be a petition going around the campus, he hopes to get as many signatures as possible by Friday. So that he can go to the Alcohol Substance and Abuse Committee meeting on Monday, somewhat armed with student support on this issue. John passed around a sign up sheet for those who want to help out in getting signatures on this petition. He would also like people to get signatures during the TG and in the Pub. He also announced what is happening with the Mandeville Parking Lot, they are starting construction on the new Faculty Club an interesting note is they cleared away parking spaces which are student spaces, last year there was a different format in the parking lot and over the summer it was changed and they put the student parking spaces in the far eastern section and those are the spaces that have been cleared away. Thursday morning, John is having a meeting with Dr. Watson and the four college council chairs, Student Center Board Chair, Rob Lewis, Reg Fee Chair, Vern Perez and they will be discussing many issues concerning parking, possible shuttle, football, alcohol business, etc. Any input on an issue they would like John to bring up with Dr. Watson let him know. Sports Activity Board is busy, first event is Saturday, they will be giving away t-shirts. In addition the Student Org with the most spirit will be receiving 50 Padres Opener. Our Basketball Team is now 13 and 5 it has won 7 straight games. Depending upon the support these t-shirts get they may be selling them on Revelle Plaza.

B. Ian announced Thursday, Jan. 22, at 7:30 pm in the Chancellor's Complex 11A, there will be a liability forum sponsored by the Pre Law Association. Its very important for student org leaders and other leaders in the area. He hopes for everyone to attend.

C. Joe announced he received copies of the general ledger from Josie and he will be auditing the A.S., Student Orgs, A.S. Services & Enterprises, etc.

D. Johnny announced that Topsy Taxi will be starting up in the next few weeks and encourages everyone to get involved and keep their eyes peeled.

E. Larry announced that the computerized surveys they had everyone filling out are being tallied and he will have results in the next week or so.

F. Brian announced Third College is having Awareness Day on January 26, 1987 from 11:00 am to 2:00 pm. On the same day there will be a "Back to the Basics General Assembly" from 6:00 pm to 8:00 pm, Peterson Hall 110.

G. Luis announced on January 27th at noon in the undergraduate conference room, Director for the Graduate School on International Relations on Pacific Rim Studies will be speaking on how to prepare for Graduate Studies in International Relations and what types of careers it leads to.

H. Bill announced that Majorca Magazine should be coming out in the next two weeks. Media Board will be meeting every other week on Mondays at 5:30 pm this is tentative.

I. Dave Marchick announced the first ad-hoc parking committee meeting is Friday, Jan. 23 at 9:00 am. He also said the Alcohol issue John is passing around is something everyone should be working on.

J. Eric announced that Item A. under IOIC will be withdrawn because he is rewriting the resolution. The reason for this is because he wanted it to go through Rules and with some recent developments, there is a better way to handle the situation, it introduced the element of Nicaragua which is not his goal of the resolution. He feels it can be alot more successful with a different approach and people will not misinterpret it. For Black History Month the External Affairs will be sponsoring two speakers, President Michael Berry of the UCSA will be speaking at Revelle Plaza on Feb. 13th at 12:00 noon, and following will be Leon Williams, Black City Council Member for San Diego will be speaking on the need for students to get involved and student leadership, and student government.

K. John asked for the Senators that know who their representative for the Alcohol Substance Abuse Committee are let him know. Also the legislation on Dave Marchick's ACUI conference, John vetoed, because it passed 8 to 6 to 1 and it is an item of IOIC and it requires 2/3rds majority vote, so it will have to be resubmitted.

L. Ira announced there will be auditions on February 1st, in room B210, for the UCSD Undergraduate Players presentation of the Pajama Game, anyone who is interested in being a musician, dancer, actor, anything, he wants people to come and try out.

M. Ira made announcements for Greg Hom, the first one is that from now on there will be a limit of 5 Opens per meeting, he set the rule last quarter but now he will enforce it, remember Opens are at the Chair's discretion, there will be no Opens IOIC unless absolutely necessary and submitted by Executive members only. The second is, he needs schedules from all council members in his committees of times they absolutely cannot make meetings, he needs these as soon as possible. The third is, All standing committees will now have attendance taken by the Chair and reported to Greg, from here on out anyone who misses three meetings for the rest of the quarter, will be removed from the committee and the issue will brought up with the College Council and A.S. Judicial Board, pursuant to Section VI, of Council Bylaws.

N. Randy - For those who are graduating seniors, the California Senate Fellowship Program application process has begun and Randy has information packets for those who are interested. Robert Rios one of last year's council members was a Calif. Senate and he has his number if anyone would like to contact him.

VI. STUDENT INPUT

A. Wendy Sterman from the Volunteer Connection asked a question about the A.S. Bulletin, and what type of response it was getting. John Riley answered that basically last year the A.S. Bulletin was two pages and it cost \$10,000. the price had basically doubled so they went for one page for the same price. As a result student org space was limited and the typeface had been made smaller, what John has done is put an item on the agenda an allocation of \$4,000 for two page issues for the remainder of the year, it will allow more space for A.S. and Student Orgs.

VII. COUNCIL CAUCUS - NONE

VIII. REPORTS

A. Withdrawn

B. Greg McCambridge reported on the UCSA Meeting, held here on Jan. 9-11. They had a meeting to select 3 finalist for student regents, they are Jacqueline Ross an undergraduate from UC Davis, Emeca Ezera graduate student from UC Berkeley, and Martha Ramirez a graduate from UC Santa Cruz. Also the Academic Affairs Committee sent a resolution to President Gardner regarding the Smelser Report Michelle talked about, asking him to informally communicate with the UC campuses, and pressuring them in asking their academic senates for responses to the report and suggestions and ideas. Affirmative Action is working of women and minorities and the Systemwide Administration Affirmative Action meets on February 6, 1987 at UC Davis. Collective Bargaining area we passed the student wage policy plan, will be sending to the UC Administration, President Gardner, it calls for a consultation, student advisory committees, salary surveys, etc. They will develop a student employee handbook to help students to know what they can and can't do. Another decision UCSA made was to require a oral test for non-native speaking t.a.'s, but they felt if this was to pass it should be for all t.s.'s so there no discrimination. If anybody wants to know any details or are interested you can speak with Greg McCambridge.

C. Eric reported on his meeting with the Board of Overseers this morning. The Board of Overseers, asked for a presentation from Eric on what its like to be a undergraduate student at UCSD and some of the issues he brought up were how UCSD is such a more broad focus school, not just a biology school it was known to be, he also brought up there is need for a more unifying force between the Administration and the A.S. More problems he identified with were, communication problems with T.A.'s, there's a lack in evaluating Professors, the Teaching vs. Research issue which is a higher priority, some facts to take note, enrollment has increased tremendously and a UC Santa Cruz the classes are so crowded that there was sit in in the Chancellor's Office, UCSD GPA will be approximately 3.75 which is really high, 50% of all entering freshman next year will probally have a GPA of 4.0, you wonder why the reasons are is private tuitions have gone up. There is also a new Engineering Structure that will be simulatng Earthquakes on campus using the super computer, there are only two in the whole world, it will be studying how the buildings can handle earthquakes, it will be a world class facility. As far as how UCSD is rated in the Country, we are first among all public institutions in the country, which is really amazing. As far as the

T.A. problem, it stems from supply and demand and the fact that there is tremendous demand for T.A.'s and their indentifying the problem as we need more americans and I felt it should be more we should be helping the foreign borns if there is a problem.

Secondly, the UCSD Football Club had their first meeting, and they passed around some little pamphlets that explain what football would be on this campus and could be, he passed it

There's a new issue coming up and its called the "Trolley" its a mass transportation system in San Diego. Its a very big issue as far as UCSD is concerned, there is one proposal to have it go through campus, another proposal for it to go up I-5 and John has the packet if anyone is interested in it. The next state of the campus address is next tuesday, February 3, 1987 and the items of discussion will be the alcohol policy, parking and some of the give aways at the games with the Triton Waves. Lastly, the Elephant Bar is having a Student's Night Out its on Thursday from 9 to 11 and its 23 oz. beers for \$1.50, John and Ira will be there.

VII. COUNCIL CAUCUS

VIII. REPORTS

A. Joe Lima postponed until next week.

B. Ira reported the following allocations, \$175.00 to Art Student League for Operating Account for the rest of the year and \$175.00 to the American Society of Mechanical Engineers for Operating Account for the rest of the year.

C. Michelle reported on the University of California Student Council on Academic Affairs Meeting she attended last weekend in San Francisco. They attended the Master Plan Committee Meeting. The Master Plan has been mandated by the legislature to review higher education in California. There were two research papers they wrote and one was on garaging education, the second one was on Undergraduate Education Post-Secondary. Two things that were brought up were admission to the UC System its the main problem that they face. They can't determine whether we are a research institute or are we hear to _____, and basically what the commission said that the UC System should re-evaluate itself and one of the issues was to get rid of undergraduate education and it is in consideration. They talked about the awards structure for teaching and there are no awards for teaching, and the money comes from people who write the books, so its just pure recognition and no monetary award given. The second issue that was brought up was they talked about how the emphasis of the UC System is Graduate Studies and that kind of creates a research ethic. Another thing one of the commissions members came out and blatantly said that the UC System was directed by institutionalized forces the Regents have lost control of Undergraduate Education and that the UC System has not lived up to the committments to Undergraduate Education and these were some pretty harsh things to be said, because this Commission is followed by the Media and so its definitely getting the word back to the Regents that Undergraduate Education really needs some attention. She said there will be another meeting at the legislative conference Jill mentioned that she will be attending.

D. Richard reported on SAAC and basically what it is. SAAC stands for Student Affirmative Action Committee and it is a advisory committee to the Vice Chancellor of Undergraduate Affairs and it has 1 voting membership from the 6 underepresented clubs on campus. The committees charge is to advise Dr. Watson on policies and programs that deal with underrepresented groups and affirmative action on campus. The committee hires interns, Richard and Denise Miura are the two executive interns and they monitor four research interns and SAAC determines what they will research. This year they are working on EOP/ORS, Student Financial Services, and dealing with Academic Retention. What SAAC has accomplished the first half of this year is the intern working on Financial Aid and monitoring it, the recruitment intern is looking at EOP/ORS and why the turnover in personnel is such a problem. In facilitating communication between student orgs and the A.S. they have had events such as their Luncheon and Annual SAAC Retreat which

was very successful and they had many speakers that were informative, they will be having it next year so if anyone is interested let Richard know. Another project they've worked on is setting up a sub-committee to look at under representation at the Graduate level, they are very optimistic about it. They are also working on the Community Cultural Awareness Day, a tentative day of April 16th is set. There were many other issues discussed and if anyone is interested in more detail please see Richard.

VI. STUDENT INPUT

A. Adam Torem addressed the issue of three students from UCSD, two that committed suicide and one that was murdered. He feels this campus is headed in a downward direction, winter quarter is tough on everybody and he strongly urges the A.S. to stand up and talk to Psychological Services, to get some forums set up teaching other students how to deal with their friends dieing, failing a test, dealing with failure and what else there is to turn to. Alot of R.A.'s are under heavy stress feeling like their residents will be the next to go they don't really know what can happen and there is only so much the R.A.'s can do. Psychological services is more than willing to team up with the A.S. and use resources to help get some speakers and a facility for these students so that they do have somewhere to turn.

B. Jelger Kalmijn passed around a paper with information regarding the Democratic Initiative: which is a proposal for a new student constitution that he feels would be to all the students benefit. He said he was reading a letter in the Guardian written by John Riley and Eric Weiss and he feels that there is still alot of misunderstanding going on, because they really didn't address any issues that were being raised, Jelger said that he set up a meeting with Eric at 1:00 on Friday and if there is anybody that wants to know what is going on he could help to explain it to you and it really is something that could democratize the whole university for students. He encourages people to come to the meeting at 1:00 pm with Eric, and he also said that he was more than willing to speak with anybody who is interested.

VII. COUNCIL CAUCUS- NONE

VIII. REPORTS

A. Jill reported on the UCSA Legislative Conference that she attended along with 17 other students from UCSD, on Feb. 6 thru 9. They met with legislators in the area and lobbied with them on issues. Willy Brown gave a really interesting speech on more student involvement. Some of the problems that we're facing, is the higher cost of education, there will be an increase of 9.1%, UCSA has agreed to this small increase as compared to a 200% increase that happened in 1981 and what needs to be done is getting a campaign together to fight President Reagan proposal to cut Cal Grant and other financial aid by a billion dollars which will strongly affect students. Currently 80% of the people that apply for financial aid only 20% receive it which is an extremely small percentage. Another problem that students are facing is a cut in student wages, of the 80% of people that go to school they work, if there is a cut on student wages they won't be able to afford to go to school its a problem that we all face and have to work hard on. They also lobbied on the Weapons Lab, people at UCSA are worried that we are spending too much energies working on defense and we really need to work on it.

B. Dave Marchick reported on the Shuttle System that is under proposal for UCSD. He met with Vice Chancellor of Business Affairs, Steve Relyea who is in support of the shuttle, they are working to get the shuttle for Fall of 1987. Jeff Steindorf also met with them. Dave showed on a map, some of the construction that will be starting with parking in the near future. He stated that the new parking structure is going to be about three football fields from campus. The main reason for the shuttle will be because of the long walks from parking lots, also in terms of safety. They would basically have shuttles running about every 15 minutes, there are four main paths that have been observed which he pointed out on the map, they would operate from 7:00 am to 7:00 pm. He also discussed the many different costs for the shuttles and schedules of times they would run. For more details and information see Dave.

C. Chris Rys reported on the Ad-Hoc Football Committee. He has been working with Judy Sweet, Athletic Director and she told him that to start a football team for the first year would cost \$512,000. The breakdown she gave is as follows: the start up would be \$127,000, home games would be \$20,000 the away games would be \$15,000, the insurance for players would be \$15,000, the equipment would be \$22,555, Uniforms \$50,000, Scouting \$21,000, Pre Season expenses \$36,000, and other minor expenses. The biggest expenses would be hiring coaches and he feels there is alot of faculty that originally came here to coach football and they should be given the chance. He also feels that she doesn't want to make any compromises where some could be made, so he does plan to do more research and work on the issue more.

D. Ira announced that he allocated \$175.00 to LAGO for a non-sexist dance, in March at the Che' Cafe.

E. Ellen Caprio from the Volunteer Connection reported on the meeting that they had on tuesday this past week some of the issues covered were current projects they are working on, Human Corps, Spring Quarter Goals, Summer Session, 1987-88 Budget, Evaluations, and Possible Staff Positions. Their current projects consist of Tutor Training Orientation, Clothing Drive, High School Presentation, Recognition Banquet, CPR Training, Open House, Conferences, Hewlett Foundation money, Brochure and Certificate in draft form, and a possible Apple Computer. Ellen feels the volunteer connection is doing very well and encourages everyone to get involved and support it.

VI. STUDENT INPUT

A. Jelger Kalmijn addressed the issue of Gregory MacCrone's reseating on the Council. He has two very strong reasons to reconsider the decision Council has made in allowing him to participate in the meetings. First of all, the reason for his being reinstated is that the Muir College Council is interpreting the word officers to not to include senators, now officers are the one's that vote on council, there the one's that have all the responsibilities of the A.S. Council, so he's not an officer he can't vote, if he's an office he can vote, so its clear that your basically throwing out your constitution by allowing Greg to participate in the meeting. Another good reason, just today he heard the charge the Judicial Board outlined in this argument in saying that it is completely false for Greg to participate in Council Meetings, in participating here it would equivalent to Jelger coming in here and voting. What they are asking for is all A.S. Council decisions that are made during the meetings that Greg participates in, votes, or acts a Muir Senior Senator should be declared null and void. Also by you not realizing the seriousness of this, your just letting anybody come in here and vote, he's just anybody now, a student, he's been declared null and void as a Senator, your just throwing out your constitution. We the students have to reevaluate what kind of people you are running the government, if your willing to accept such blatant violations of your constitution. If this continues, we will be asking for the removal of John Riley for not vetoing legislation and for removal of the Council, and the starting of a constitutional convention so that these things can be put in the constitution so they don't happen. You guys all know this is bullshit, he was thrown off council, and the reasons he was put back on council completely dreamed up. He held up a charge sheet filed by the New Indicator to ask for a temporary restraining order, null and voiding any decisions made last week and this week in the meetings MacCrone participates in.

John told Jelger that it was not the Council's decision to have Greg reinstated, that it was completely up to the Judicial Board and Muir College Council. Jelger said it was our decision, John said no its not. Jelger went on to say that it is up to us to decide if he participates, if he votes, the council can recognize his vote or not, its up to them they're running the constitution.

B. Cedric Lewis also commented on what Jelger said, saying he feels the same, that Greg shouldn't have been reinstated, basically for the reasons he was removed. That we say these are the leaders of UCSD and if we have leaders that can't control their tempers I guess that creates a problem. He also stated the he is the SAAC Chair and has been working with Eric Weiss on the A.S. SAAC External Outreach Program, which he feels is a very important program that Eric is trying to implement. There is 78% Anglo Students, which leaves the rest as underrepresented students and he feels this program will be beneficial for everyone and encourages everyone to support Eric.

C. The Chair of the Black Student Union-Student Affirmative Action Representative she came here for the Black History Month Committee and Black Student Union is very proud and thanks the A.S. very much for the funding for Black History Month. She also stated that Eric Weiss's program would be very instrumental, because EOP/ORS does not give out support on a student to student basis, as students you will listen to eachother first before listening to an Adult. That is why this program would be extremely instrumental. She then asked who Joel was, and she feels that someone should really talk to him because he has a very bad attitude. She spoke with him on the phone, he had called their Activity Coordinator to discuss the Ashra Kwasi event and he said he wants to make sure my money is being put to use, it is not his money, it is our money and she thinks that if it is being sponsored by A.S. in conjunction with BSU, he should have said he thinks it should be done this way, it is our money, it is the students money and we are students.

VII. COUNCIL CAUCUS- NONE

VIII. REPORTS

A. Michelle reported on two items, the first was that last thursday night she attended a Affirmative Action Retention Committee Forum it was an excellent forum, there were about 10 anglos and anglo-saxons in the room and about 50 underrepresented students, she has never on this campus felt like a minority except at this forum. Very good things came from this, they talked about students and the interaction with student ethnic groups, and the barriers, and cultural barriers. Everybody dealing with different ethnic groups, and instead of worrying about what color the person is, basically working together as one human being to another. Also, Michelle's event on Saturday, Feb. 14th, the International Valentine's Day Panel & Party, went pretty well, about 30 foreign T.A.'s, the assistant Dean of Graduate Studies, Audrey Littlefield, and some undergraduate students. Some of the issues, that are very controversial were the T.A.'s said they needed more supervision, more guidance, and more clarification on what their role is. One of the Chinese T.A.'s stated when he came to the U.S. 7 years ago he wasn't given any instruction, or introduction on how the students are. They also stressed how hard the language barrier is for them and they would like

to see it be improved. They were definitely in favor of anything that might help to improve this problem.

B. Eric reported on a project he's been working on for a few months, hasn't been easy. He passed out copies of the draft for the A.S. External SAAC Community Outreach Program. It's an issue that definitely needs to be addressed, if you look at what A.S. has done in the past for Affirmative Action Students, and yes we have given money to Cultural Programming and for Black History Month, but he feels there has been a lack of actual personal involvement by the Council. This program addresses that, without actually becoming an Affirmative Action Program, per say. The A.S. would, in this role, be promoting the student body with activity fee. What the program does is forms a steering committee which develops different presentations for High Schools in the area and these presentations are done at the various high schools that have a large number of underrepresented students, and it sells them on the activities of UCSD, the extracurricular benefits, people like student leaders from various groups will be going on these presentations. The issue of Affirmative Action relates in that is a positive approach to the problem, affirmative action is looked down by many students, a lot of the students feel they are being cheated because they are not affirmative action students. The proposal right now is just to get the ball rolling, work the bugs out and start it as a regular A.S. Program next year. This is the third draft if anybody has any input or suggestions he strongly encourages them and is more than open to them. Richard commented that it will be an extremely beneficial program that he strongly encourages. If anyone has questions or would like more information, talk to Eric or Richard. Eric then commented on the UCSA Resolution was well received when it came around. We were very successful with the presentation and received support from about 5 other UCSA Representatives. He thanks everyone for their support.

G. John Robison announced that he just wanted to clarify the reason for Muir College Council's actions regarding Gregory MacCrone, because they sounded pretty bad in the statement of clarification, the reasoning was due to a lack of information from the judicial board and acknowledging the College Council's decision.

H. Dave Marchick announced that tomorrow, thursday, Feb. 26th in the North Conference Room at 2:45pm the Volunteer Connection is sponsoring a tutor training program to help get students involved in tutoring underprivileged children, etc. Last friday, Feb. 20th was a meeting of the Parking and Transportations Alternatives Advisory Committee basically all our efforts with the petition to try to overturn the decision on the meters were successful, now all we are waiting for is the Vice Chancellor to act on it, if anybody is interested in doing the same he encourages them and contact him.

I. Joel announced that he cancelled the A.S. Talent Show due to lack of support of the committee. Last week's TG went very well. Film Series have been averaging about 200 people every week, next week's movie is Stand By Me, he just ordered all the films for next quarter so its all set. The Sound System he's been looking into with Mark from UEO is somewhere in the range of \$20,000. and it should be more than adequate for TG's, Noon Concerts, etc. TG next week is the Uptones, it is the last one of the quarter, there is an opening band called Elvis Christ, its a local punk band. Greg has the number to contact them.

VI. STUDENT INPUT

A. Shoon from the Asian Pacific Student Alliance spoke of behalf of the organization. He stated that they are trying to get at least one Asian American Studies course. At the Pacific Rim school they do not have a single course that deals with Asian Americans. He feels the Resolution on Asian American Studies will greatly increase their chances and will help to set aside a FTE specifically for this. We do have community support and faculty support and all they need is the students support and he feels that this resolution is the best alternative.

B. Samoa also from the Asian Pacific Student Alliance also stated he was in favor of the resolution and that he hopes the A.S. will pass it. This type of program does not exist at UCSD and other colleges and universities at least have one in existance, he feels its very beneficial and is needed.

VII. COUNCIL CAUCUS - None

VIII. REPORTS

A. Mary Grana from the Campus Community Planning came and reported on the Campus Trolley. The Trolley is operated by the San Diego Metropolitan Transit Board is a State Agency. The advanced planning is carried out however by the San Diego Association of Southerners and it has gone on for over a year now. People from the Campus Planning Office have participated in the SANDAG Task Force to determine the alignment of the Trolley from downtown San Diego and Old Town, along I-5 up through Sorrento Valley, they had looked at the possibility of coming through the main part of campus and the Task Force rejected that idea. Last January however, the transit board changed their mind and decided they wanted it to go through the Revelle Part

of campus after all. Although the Trolley is not scheduled until 1995 or 1996 the adoption of the alignment is very important as it sets the requirements for the Trolley in advance. She then went on to point out on the maps she provided the different alignments being proposed for the Trolley. This is an issue that will need a lot of consideration from all people that will be involved and affected by the Trolley. If anyone is interested in more details or to get involved they can contact the Campus Community Planning Office, John Riley, or Dave Marchick.

B. Larry reported on the Programming Surveys that were filled out by people at the Registrar's Office last quarter. It is a very extensive survey and contains different data by college, by race, by on campus, by off campus, by sex, etc. He will be giving the report to Randy and would like the senators to encourage their college councils to come and make copies of the sections that pertain to their college as he feels they can really benefit from it and it does have really good information.

C. Greg reported on UCSA and the issues that are being addressed at the present time. There have been severe cut back on financial aid, and salaries of T.A.'s, R.A.'s and scholarships are all taxable now. Because of the cutbacks on financial aid, students are being forced to borrow more money to get through school which is really putting them in debt when they do graduate. President Gardner hasn't responded to the Smelser Report which should have been done by December 1st, not only have they not responded but no action has taken place on any campus. Some bills that UCSA has supported are Child Care, Health Services on Campus, and Child Care leave on Campus.

Greg then read a letter from Chips Dreilinger, Muir College Dean, regarding Gregory MacCrone as Muir Senior Senator, please see attached.

Q. John announced that our new receptionist will be starting on Monday, her name is Nancy.

VI. STUDENT INPUT

A. Denise Miura introduced herself as a representative from the Student Affirmative Action Committee and she stated that she was here to ask the A.S. for their support on an issue their taking up at present. Recently AIPAC and UPAC brought to the attention of KFMB a character that Larry Himmel plays, Casey Wong a chinese acupuncturist who has buck teeth, wears thick black glasses, wears a lab coat and acts like a nerd and retard which is very offensive to the Asian Community and her personally because she is not like that and she doesn't feel people should be able to look and see a character like that representing Asians. The San Diego Union wrote an article and in that article Randy Miller of KS103 invited the best chinese jokes to the station to be aired publically, this was on thursday, she then played a tape that was basically his formal apology over the radio, AIPAC and UPAC felt this had a very negative affect on the public and she feels its very bad and causes extreme racial problems. What they would like the A.S. to do is write a letter to the radio station in regards to this apology and say that it is a racist statement, she asked the Council to support this and write a letter.

B. Wendy Watt introduced herself as the Executive Director of ASIO and she wanted to urge the Council to vote for legislation that will be coming up tonight to fund them for a new brochure for ASIO which is desperately needed. They are currently circulating a leaflet that was printed in 1981 which is very outdated, it is very important and they really need it.

C. Byron Morton introduced himself as a concerned student and he addressed the issue of Health Services on this campus. Health Services are run by Dr. Giebink, he spoke with Dr. Giebink today concerning health services. He stated that he had caught the terrible flu that was going around and he had to be rushed to the emergency ward, he told the person who was driving to go to health services because they do have emergency 24 hour service, much to his suprise there was no more 24 hour service and this happened about 4 years ago when Reg Fee decided not to fund this anymore. Unfortunately now if you are sick after 4:30 pm and you go to Health Services they either send you back to your dorm or resident or you are sent to the hospital. He feels this is an extraordinary case of insensitivity and lack health care services on this campus, there is a need for 24 hour health care service on this campus. He said its up to the members as concerned

students to look into this problem. What concerns him is as this campus continues to grow the Health Services are diminishing, the Health Care is just not there. He urges everyone to look into this problem, and make it public to other students to look into why health care services aren't available. Another issue he commented on was that the Judicial Board is the body that governs the A.S. and interprets and determines the Constitution. Greg MacCrone was found guilty by the Muir College Council in regards to the student conduct code when he assaulted Mr. Kroopkin on May 28th during a Council Meeting. He was banned from the New Indicator Office during production. The Judicial Board is another matter and he thinks Chips Dreilinger is mixing the issues. Student Conduct versus violation of a conduct of a council member.

C. Greg MacCrone addressed what Mr. Morton just said, stating that Muir College Council and Muir Judicial Board found his guilty of an altercations, not of illegally assuming the chair or not. The issue at hand though is not this, its neglect of their duties, John Riley, Ira Rubenstein and Eric Chazankin and the administrators trying to bar me from Council. The fact of the matter is the Judicial Board has no authority of College appointments. What governs all of us is the UC Student Conduct Code and it supercedes the A.S. Constitution, the A.S. Constitution cannot exist without the University. The University rules the government with the Student Conduct Code, the A.S. meaning the A.S. Council is a body for the pride of students supposedly working for students, as Greg read in the letter from Chips, Student Conduct Code says I'm on Council and the Judicial Board has no authority in this case. You can use a phrase from the constitution to railroad this through, but I swear I will take you to court and you will lose. I expect to sit on Council tonight.

VII. COUNCIL CAUCUS

Is there a need for a Council Caucus, Yes, it was second, 18 approved, 2 Opposed, passed, Council moves into recess for 15 minutes.

Council readjourned. Motion to suspend bylaws to seat Gregory MacCrone, second, 13 approved, 6 opposed, motion passes. Motion to seat Gregory MacCrone on Council as Muir Senior Senator, second, objection, Vote to call the question, 10 approved, 8 opposed motion fails. John stated that he is objecting to this issue mainly because it is suspending the Council Bylaws, in essence what they are doing is warping the agenda by moving the last item all the way to the front, in previous council meetings we have taken a firm stand not to suspend any type of bylaws, whether they be financial or council and he hopes that they would be consistent in their rulings with council bylaws, Ira then stated that because the motion failed to call the questions there should be no debate on the issue therefore we are moving on to Item A. of Reports. Ira then stated that when someone moves to suspend the bylaws, it goes straight to a vote there is no calling the question, therefore they will redo the vote, All in favor of suspending the bylaws to seat Gregory MacCrone, 13 approved, 6 opposed, motion passes, the bylaws have been suspended. Motion to seat Gregory MacCrone, All if favor of calling the question, 14 approved, 2 opposed, motion passes, Move right to a vote, All in favor of the seating of Greg MacCrone, 10 approved, 4 opposed, 4 abstentions, motion passes.

VIII. REPORTS

A. Russ reported on the Library Surveys, he brought the attention of a few of the questions that were most important, 6a. regarding libraries being closed from midnight to 7am, this year undergrad library cut back their hours from 2am back to 12 midnight, he asked this because there is no place open after 12 midnight now, an astonishing 86.4% said yes they feel it is necessary to have a study space, it doesn't have to be a library, just anywhere like a commuter lounge or some place similar. Then on 6b. specifically during finals, 4.46% which is a high frequency during finals, which is relevant. At this time, he's trying to formulate some type of referenda questions that will address this. Basically, on the whole the Libraries are doing a good job. He thinks it definitely deserves a referenda question, if you have any questions or an idea for a referenda question please talk to Russ.

B. Ira Rubenstein & Joel Schachne - Report on NACA Conference was postponed until next week.

C. Jill reported on the AAUS Conference that her and Robert Frankl, the Federal Director attended in Dallas this past weekend. Basically what it was a support group, they met with about 200 other students from various part of the country and they talked about problems they all are having in student government. Some of the issues, were more community involvement and making the community more aware of our presence and getting involved and volunteering, we are one of the only schools in this country to have a volunteer connection. Dr. Kimberly from the Secretary of Educations Office came and spoke regarding financial aid, he did tell them that President Reagan would be cutting the defense budget by 3% and those funds would go to education, but he will still continue to cut Cal Grant, and basically the cuts won't effect us next year but they will affect students in 1988-89 year. Other areas discussed were alcohol policies and media, they gave Jill some really good ideas on both issues and if anyone is interested you can talk with Jill.

XII. OPENS

XIII. ADJOURNMENT/ROLL CALL

ASUCSD COUNCIL
Meeting #21
Wednesday, March 11, 1987
North Conference Room
6:30 pm

I. CALL TO ORDER

Meeting #21 of the ASUCSD Council was called to order at 6:35 pm by Ira Rubenstein, Vice President Finance.

II. ROLL CALL

Present for the first roll call were:

Katherine Barnhisel	Dave Marchick	Joel Schachne
Richard Castellanos	Jill Marchick	Ian Taras
Eric Chazankin	Kristen Meister	Brian Tofsly
Bill Eggers	Claire Mollard	Eric Weiss
Larry Gilbert	Leysia Palen	
Deb Goodfried	Johnny Patterson	
Russ Heilig	John Riley	
Michelle Hopkins	John Robison	
Alina Kulikowski	Ira Rubenstein	
Greg MacCrone	Chris Rys	

Excused were: Dave Friend, Greg Hom, Joe Lima, Rob Lewis, Dave Menheim, Leysia Palen, and Luis Ramirez.

Absent were: Micki Archuleta and Greg McCambridge.

Greg MacCrone requested a Point of Order, Ira denied Greg stating he was not on this Council and he let Eric Chazankin, the Council Parliamentarian justify the issue.

Eric went on to state that this is a very complicated situation but what it comes down to is that the conflict is not between Greg MacCrone and the A.S. Council or between Muir College and the A.S. Council but between Greg MacCrone and the A.S. Judicial Board. A.S. Judicial Board is the one that removed him, under our constitution the Council does not have the power to review decisions by the A.S. Judicial Board, their decisions are final, they have the power to interpret the constitution as they see fit. If we recognize Greg MacCrone contrary to their findings that read that Mr. MacCrone be barred from A.S. Office and cannot function as Muir Senior Senator in any form. We could be brought up on charges by the A.S. Judicial Board for violations of the constitution ourselves. The question of whether MacCrone's case is just or not is immaterial to our action right now, we cannot recognize him without violating our own constitution.

Ira then continued with the Minutes of Silence.

III. MINUTES OF SILENCE

His movie last week he had over 500 people standing in line and he was the only one taking tickets, they showed it twice. He cancelled the TG but was able to put the band in the pub. There is a TG on Friday at the Warren Apartments.

H. Dave Manheim announced that the TG at Warren this Friday at 4:30 pm there will be a huge BBQ but it is non-alcoholic.

I. Dave Marchick announced that Monday they had the Alcohol and Substance Abuse Committee Meeting and Dr. Watson was there, there seems to be just discussion and no decisions at this time. He secured the Purchase Order that they put out to return Parking Meters which should be back in the next couple of weeks. He is also working on his second report for the Services and Enterprises if anyone has any suggestions let him know.

J. John announced that he and Joel have managed to secure Noon Concerts on the Gym Steps again. If anyone is interested in representing the A.S. in a St. Patrick's day Parade to ride on a float in Balboa Park, let him know.

K. Dave Friend announced that Condom Vending Machines will be placed in bathrooms on campus. Hunger Project is May 28th and he welcomes anyone's help.

L. Eric announced the March on Sacramento for Education, there will be something under Opens, regarding funding for a bus to send students from Third World Groups, he passed it around for people to look at.

M. Ira reminded everyone that Opens are at the discretion of the chair and unless they are financial or dated items they will not be accepted. Also there is a Judicial Board Hearing tomorrow night at 5:00 pm to 7:00 pm charges are against the A.S. Council, everyone is a defendant should try to show up.

VI. STUDENT INPUT

A. Denise Miura stated that she was here to comment on the issue she talked about the week before regarding the issue of K.C. Wong. She said that students had approached her and asked if she felt that they were violating the freedom of the press by taking a stand on this issue she feels that no they are not as students they have the right of freedom of speech and all we are doing in regards to this issue is voicing our opinion. Someone else asked her if stereotypes really hurt society and her answer was yes they do they can have a negative impact on them. She invites anyone to come and talk to her in depth about the issue she can be reached at SAAC. Also Eric and Jill will be submitting a resolution and she asks everyone on Council to please give their support.

B. Shoon from the Asian Pacific Student Alliance spoke and he further elaborated on what Denise said. They have said that these rights listed in the constitution cannot deny the rights of the people. These stereotypes positive or negative are dehumanizing, which means you are no longer working with human beings. When you dehumanize people whether it be a racist joke or not then you are violating their rights. One D.J. said "well since Martin Luther King was shot we get a day off, why not shoot 4 more black people and we can have the whole week off that is Public Irresponsibility what we are trying to say is show some Public Responsibility and as citizens everyone should be concerned about this.

C. Samoa Koria from APSA spoke on the Randy Millner issue, he said that 562 students came for the APSU Conference and one they played the tape of his apology, "So sorry Charlie, so sorry" the temperature raised, they will be putting pressure on this issue, its racist and they don't like it. Another issue he spoke on was the March on Sacramento for Education, this is important because there is a crisis in education and he presented these facts, more than one-third of all youth in California and up to 80% minority youth in Urban Centers failed to graduate last year, 44% of that being american teenagers, 56% latino teenagers, are illiterate due to public school education. From 1977 to 1983 African American College Enrollment was dropped 20%, Chicano college enrollment fell by more than 25,082. Budget cuts on financial aid are affecting all students not just Third College. He wants the A.S. to support them in getting a bus to send 47 students to this March.

D. Robert C. Smith spoke on behalf of the African American Student Union of UCSD in support of this March on Sacramento. He stated that they are in the process of securing funds to get a bus to send 47 students to attend this March in Sacramento. He wanted to ask for the Council to put this under Opens and make it IOIC as timing is of the essence, because by the next meeting there wouldn't be enough time to get the funds needed. This event is of extreme concern to Third World Students and others. It will have dramatic affects on us.

E. Judy Rodriguez very strongly urges the endorsement of the Council for this March in Sacramento. A couple of issues to be aware of, Governor Deukmejian cut \$11 million dollars out of San Diego County schools therefore they had to cut all their programs, teachers that were to receive raises this year aren't getting them, he states how he wants to increase education but you don't start at the college level you start with high schools. She hopes that everyone will support the funds for the bus.

F. Anaperec spoke on education in general, she said that we are probably asking ourselves why we should be concerned, but we should be, we have to think of our future. Everyone needs education, it is the basis of our society. We need to talk about the low quality of education, not about brown people, black people and asian people not getting educated we are talking about our future. One of our main concerns should be How are schools are being run, How much money are they getting and where is the rest of the money going? The A.S. needs to take a serious look at education now and support this March, for the benefit of all the people.

G. Greg MacCrone asked for the indulgence of his former colleagues. Once again, being made the scapegoat for the Council, I don't like it, Muir Seniors don't like it, Muir College Council doesn't like it, Muir Dean doesn't like, Academic Counseling doesn't like it. The fact of the matter is, I would like to read to you my logical train of thought, that I've compiled by quotations from the Student Conduct Code, AS Constitution for why you must recognize me. Statement #1, The ASUCSD must operate within the framework of UCSD Policies and Campus Regualtions, this comes from the A.S. Constitution, Article II, what that says is the A.S. may not make new policies that come into conflict with the UCSD Policies and Campus Regulations, this states that all articles, sections, subsections, policies and procedures shall be consistent and appropriate with UCSD Policies and Procedures, therefore saying that the A.S. Constitution, constitutionally pledges to adhere to the UCSD student conduct code, it is policy of UCSD.

pledges to adhere to the UCSD student conduct code, it is policy of UCSD. Furthermore, it is possible to remove a student from membership on the A.S. Council? Yes, it is possible to remove someone. However, the UCSD Student Conduct Code, Section 6 under Sanction and loss of privileges, it is said exclusion or participation of designated privileges and extracurricular activities for specified academic terms, so you can remove a person, but the question is now, Who has the right to remove a person?

Ira stated that time has run out, Motion to extend time for 10 minutes, passed by consensus.

Greg MacCrone continued, stating that on November 21, 1987 the Judicial Board handed down a decision that Greg MacCrone (me) be barred from A.S. Council, my question now is it possible to remove a student from A.S. Activities, and who can enforce such a sanction, I did say it was possible but who can impose such a penalty, the A.S., the A.S. Constitution says: "Any elected officer may be removed from office upon notice after a hearing before the Judicial Board, who shall be the sole judge of said case and render the final decision of the ASUCSD" so according to your constitution, the A.S. Judicial Board may render a final opinion, however the ASUCSD and the ASUCSD Council must operate within the framework of University Policy, i.e. Student Conduct Code and Campus Regulations include the student conduct code which the ASUCSD Council and students at large must abide, Section 6 of the student conduct code says: "College Deans are designated to take action on any report submitted from a hearing by" who could recommend to the dean such a action, student conduct code says the college judicial board councils will have jurisdiction to hear non-academic misconduct cases involving students in their respective college. I am a Muir student, I represent Muir, people that hear me are Muir College not the A.S. Judicial Board. Furthermore I have not been accused of academic misconduct, since Muir Judicial Board has not recommended that I be removed, The dean has not proposed any such sanction, the A.S. Judicial Board has the result of their decision, and John Riley and the A.S. Council acquiescence, they have usurped the power of the Muir College Judicial Board, Muir has no representative to the Senior class according to you. Basically, the Judicial Board has overstepped its bounds, it has no jurisdiction in this case as it is stated in the Student Conduct Code it is a College Judicial Board decision, my advice to you Ira is to recognize me, what you're doing is illegal, it is a violation of the Student Conduct Code.

H. Dan Epperly talked about the issue of allocating funds for the bus for the March on Sacramento for Education. He said the Council always wants to defend student's interests, student's rights, we are all students, we are all facing these fee increases, and cut backs on financial aid. Now, just addressing this social justice issue, the amount of people that are able to go to the University anymore has been drastically cut, there are very few working class students that are able to go to the University because of the hikes in education, fees, etc. I think this is a matter of the Council recognizing that there is this crisis in education there is something going on that is concrete that the Council can act on and support by funding this bus to send students up there to Sacramento.

I. Raquel introduced herself as a member of the General Store Coop. She came to ask the Council for their support in the Coop Referendum question that they are trying to pass to be on the ballot for the Elections. It would be a \$1.00 increase in fees that would go specifically for expanding existing coops and introducing new coops. She's feels very strongly about this issue as coops are very beneficial to the students and University. She urges everyone to support this referendum question.

J. Byron Morton spoke on the issue that concerns Greg MacCrone. He said there was a student conduct code violation stemming out of the May 28, 1986 altercation with a new indicator member Monty Reed Kroopkin which was heard by the Muir College Council, Judicial Board, and the Dean. This is unrelated to the assumption of the stated illegal chair of the A.S. Meeting. There was a decision rendered from the Muir College Judicial Board banning from the New Indicator Office and the facilities during production. What I would like to say is Why did you participate in the Judicial Board Hearings, all day long that Saturday in early November if indeed you never believed it was a legitimate body to hear your grievances or the grievances, that is my question why did you participate in the first place, it was not until the decision was rendered,

Ira asked Byron to address the topic to the Council and not people in the audience.

Byron continued by asking the question to everyone in the room, Why did Mr. MacCrone participate if indeed it was the wrong body? and his other question was Why is the Council wasting so much time on this issue? And what really is the motivation behind this MacCrone thing, what is the reason behind this, Is this an economic reason, Greg has to come back because he needs the money? Is there a political agenda that is not fulfilled? Is there a personal feeling thing, he feels rejected from the Council? Please, I am asking everybody, what is the real reason Mr. MacCrone is persevering in this and not allowing the Council to go on with its business, this is wasting so much time, it is an insult on the Constitution, on the business of the Council and to the entire students of UCSD, you should gracefully have said on November 21st 1986, I had my day in court, this is the decision, my appeal with Tommy Tucker went down, I had my day in court, and just back off and let the Council appoint someone else, what is the real motivation behind this?

VII. COUNCIL CAUCUS - none

Motion to recess for 5 minutes, second, passed by consensus.

VIII. REPORTS

A. Jill Marchick - postponed until next quarter.

B. Brad Earhart, Chair of the A.S. Judicial Board reported on the Greg MacCrone issue. He stated that he has made a potpourri of the different sources that he is basing our lack of insight in his case. For one thing the student conduct code is for cases arising on misconduct. The way he described misconduct is everything so why have a Judicial Board. It is indeed meant for things like altercations, being drunk and harrassing other people, that sort of thing. I cannot see how Muir College could logically

people, that sort of thing. I cannot see how Muir College could logically make a decision on something that had to do with the A.S., seeing how they don't know how the A.S. functions, for one thing they are not familiar with the constitution, they don't work under the constitution, so how could they render a decision on the constitution. They have no jurisdiction. Secondly, a lot of people feel that there has been a vendetta against Greg MacCrone on the part of the judicial board, there have been a lot of rumors flying I don't think substantiate them. I don't think anyone can say I have spoken hostilely behind his back or even to his face and I think that he has wasted your time immensely and I don't know if it's because you don't value your time or that you praise him so much. Brad then offered to answer questions, and the first was asked by Dave Marchick, he asked Did you state that he could not be appointed again by Muir College Council? Brad answered that no they did not, but that was clarified by their Statement of Clarification, saying that logically and implicitly that you would not reappoint someone that was removed from office, therefore we interpret the constitution which is in our right to do so. Deb asked if the Muir College Council has the audacity or not, is that not their decision, and it isn't stated directly in your decision, doesn't Muir College Council have the right to appoint whomever they choose? Brad answered, No, because we reserve the right to interpret the constitution, and we didn't think they would have the audacity to do it, so therefore we never addressed it. Dave Friend asked Do you think that the fact that Greg MacCrone was reappointed deserved another hearing? Do you think that the Court was aggressive in going after Greg MacCrone, in the statement of clarification, you state that they can't reappoint him, now the judicial board was not asked if they can reappoint him or not, they were asked for a clarification on the decision handed down. Do you think it was appropriate to have another hearing to decide on the reappointment and also Was this a decision of the whole judicial board or just a decision made by yourself? Brad answered that they all met, not as a hearing, because we did not recognize their decision as a decision, per say. Yes, we did meet informally, but not as a hearing. Questioning continued. Time ran out, Motion to extend for 2 minutes, second, motion passes, 11 approved 8 opposed. Questioning continued extensively and if you would like more details on this issue please speak with Brad Earhart or Greg MacCrone.

C. Ira Rubenstein & Joel Schachne reported on the NACA Conference. They passed around pictures. Joel reported that basically what it is, is they showcase a whole bunch of talented acts, in hopes that you take interest and then you contact all the other schools around and they book a big tour at a reasonable cost for each school. Edward Jackman is a comedian we will be having for the Sun God Festival and because other schools are having him, we were able to get him for a lower price. Its called block booking. Joel also said he went to some sessions on education, how to do a concert was one of them, he went to one on stress management, became more aware of what he needs to do. He said the exhibits are real good. You get to know the acts one on one and they try to sell themselves to you. Joel recommends that when it comes up in the fall it would be very beneficial to send the programmer. Ira added that he went to some student org financing seminars, currently we have set requirements for non-allocations, what should be developed is standards for what we will fund. Also, other schools do fund their student papers and money for yearbooks, the only school without problems on their yearbook is Georgia because they hired an outside Advertising Agency to do it. He also said that he and Joel did meet a lot of people from up and down the coast, they are all programmers and they got their numbers so that we

Regional Conference will be in November up in L.A. he strongly recommend that we send as many people as we can, its very important for everybody.

Because of this philosophy many of the Intercollegiate athletes are forced to pay for their equipment and travel costs, sometimes amounting to hundreds of dollars. In addition, the administration of UCSD has determined that in order to establish an Intercollegiate Football Team at UCSD a referendum must be passed by the students, specifically stating an increase in student fees in order to finance the football program. As a result of this increase, all students will be admitted to home football games without admission charge. If passed, the funds generated by the referendum below will be used to Upgrade UCSD's intercollegiate sports programs and to establish a Division III Football Program. A. Evan Weisenfeld spoke about the Elections, in regards to the Revelle Senior Senator. He feels that the decision made by the Committee, due to the closeness of the races; anything within a 5% difference they would re-run the race, I feel this is wrong. After the recount the results had not changed, it stayed exactly the same. There are also members of the Revelle College Council that feel this is wrong also.

B. Cheryl Monblatt also spoke about the Elections with regards to the Revelle Senior Senator race being re-run. She feels its unnecessary because as Evan stated, nothing changed after the recount, the results were the same and she is still the winner and shouldn't have to go through another campaign for no real reason.

A.S. COUNCIL

We would like to take this opportunity to extend a sincere invitation to all of you to attend *Voz Fronteriza's* Twelfth Anniversary Celebration on May 30, 1987. The theme of our commemoration will be:

Voz Fronteriza: Press Committed to the People

The purpose of our celebration is to acknowledge the important contributions *Voz Fronteriza* has made in documenting, reporting and facilitating our people's historical conditions throughout the past 12 years. These conditions incorporate both student and community perspectives on our culture and society. Very few other Chicano Mexican news publications, with their bases in the people, have survived the sweeping changes of the 70's and 80's. The University can take pride in our continuing existence.

We at *Voz Fronteriza* have always strived toward our goals of: increasing the retention and recruitment of Chicano Mexicano and Latino students at UCSD; maintaining their awareness of the community they are part of; enhancing the educational and social atmosphere at UCSD through alternative journalism; and facilitating the link between the University and the San Diego community at large. These goals have always been, and continue to be great challenges; but the fact that we are here today is testament to the fact that they can be accomplished.

Our Twelfth Anniversary Celebration will be an event in which UCSD students, staff and faculty can interact directly with members of the Chicano Mexicano community of San Diego. University people can serve as role models to increase the likelihood that parents and youngsters in the community develop a positive attitude toward higher learning. At the same time, the community can express its own needs in relation to the accomplishments of the academic world and its institutions.

In order for us to actualize such an event, we need your encouragement and support. We respectfully request your financial support especially in order to make our Twelfth Anniversary Celebration as special as it should be. We have attached our monetary request and supporting documents. Please consider our petition.

We sincerely hope to see all of you at our celebration. We know that it will be greatly enhanced by your presence.

Siempre en la lucha.

VIII. REPORTS

A. Alina Kulikowski reported on the UCSA meeting she attended at UCLA. UCSA stands for University of California Student Association for those who don't know. They are going to be meeting on April 30th with President Gardner and a couple of the issues they will be discussing are the current Chancellor Selection Process, the Smelser Report and UC System Defense Research, because right now the two defense research laboratories in the United States are under UC management so they will be discussing that. Also Affirmative Action and Student Wages. Currently they just put out a policy statement on affirmative action and articulating responsibility in acting upon affirmative action for Universities and they want to empower students into the process. There are three new chancellor appointments, Robert Ewing is UC Santa Barbara, Ted Holler is UC Davis and Robert Stevens is UC Santa Cruz, and there is a woman chancellor now at UC Riverside. Another project UCSA is working on presently is a Teacher Evaluation Program this would propose that each University would form committees to evaluate their teachers and Professors each year and these committees would consist of faculty, students and alumni, they will be putting it out to all the deans and provosts. The final thing was the Master Plan for the University and it will be reviewed by UCSA at their Long Beach meeting.

L. Dave Marchick announced Tuesday at 9:00 am in the School of Medicine Dena's Conference Room; there's a very important Parking Meeting a few items to be discussed are the implementation of the Shuttle next year and whether or not the school will differentiate between residents and commuter parking and whether residents are going to be displaced in parking lots, also as of July parking permits will be required on campus from 7:00 am to 10:00 pm during the week and from 10:00 am to 5:00 pm on the weekend, in my opinion it is not very viable or viable policy, I don't believe student opinions were heard before making it, its a very important decision, and its a bad one, if anyone is interested please talk to Dave. It will be a Year in Review for our Council, Student Government, it will also be featuring "The Incidentals", it will be kind of a noon concert slash state of the campus address.

B. Richard announced that this Sunday, SAAC has purchased tickets to go see a play, that has been getting alot of publicity, they would like to invite the whole entire council, there is free transportation and tickets, the bus is leaving from Mandeville Parking lot at 12:30, if you are interested please sign up on the sheet he is passing around. He urges people that will be on next year's council to go to this, you will be able to meet students. Its a great play.

C. Dave Manheim announced the 8th annual Earl Warren Moral Symposium, tomorrow May 7th, 9:15 in Mandeville Center, the title of the symposium is "Living and Dying in an unsafe world", featuring Judge Miles Bore, he will heading the panel discussion, will be the judge of the discussion, after the discussion Dave will be taking him around. If you have not had the chance to hear this gentleman speak he strongly recommends it, he's entertaining, extremely worldly and witty, he's great, he's a very important figure in law today. PTAC met yesterday morning at 9:00 am, there was a big turnout of students, due to the extension of hours of parking permits, they brought the issue to the floor, it has been sent back to Vice Chancellor Himel, they clarified it as a mistake on V.C. Himel's part, the green sheet he sent out was incorrect, they will not as of July 1st be instituting such a program, they will begin looking into it at that time and bring it up next year. The next meeting will hopefully be next month, and the shuttle will be brought up.

D. Larry announced that tomorrow, thursday at 3:00 pm they will be setting up the booths for Sun God, at Urey Lawn, if anyone can help they would appreciate it.

E. Dave Marchick announced for next year's council there will be a meeting next tuesday, May 12th, 6:00 pm to 10:00 pm its mandatory that you attend. People who are leaving office this year please talk to your replacement, its very important that you tell them what's going on, advise them on the budget process, what you should have had it your budget, etc. Another thing about the PTAC meeting was that the committee voted to go forward with the differentiation of resident and commuter parking. So as of next year resident's will have to park in peripheral lots. Also we noted this should not be done without a shuttle system in place.

F. Ian announced on Monday, the Phi Delt's won soccer. Tonight the Sammy's beat the Zeb's. The finals of the IFC Soccer tournament are thursday night at 9:00 pm, Muir Field.

G. John Robison stated that the parking lot being built for Muir Residents, is the new one they are building past third overflow, the need is adamant. The other colleges got spaces close to them. The College Council is in the process of starting petitions, and the Dean and the Provosts are writing letters to the Parking Committee because they are very disappointed in the decision.

H. Katherine reminded everyone that tomorrow night, thursday is the A.S. Last Supper at 6:30 pm at the Old Del Mar Cafe, everyone should come it will be alot of fun.

VI. STUDENT INPUT

A. Barbara Blake from the Women's Resource Center announced the Leadership Conference being sponsored by the WRC, this Saturday, May 9th. At 7:00 pm Angela Davis will be speaking in Mandeville, she was very instrumental to the development of Third College, she personally invited everyone, and encourages everyone to come.

B. Greg MacCrone stated his concern with the amendments to the new Council Bylaws, that are on the agenda tonight. He has a problem with a particular section and the council should too. Section XI. #3, page 16, regarding the President Pro Tempore, the problem I have with this is it states that the Prsident Pro Tempore may assume the chair only if he or she has not participated in debate of any legislation currently on the floor. What this essentially says is the President Pro Tempore, one of you people on the next council, cannot have an opinion, cannot express that opinion, because being Pro Tem his or her discussion on any topic will preclude him or her from taking the chair. If you understand, a person who is Pro Tem on Council cannot speak on any issue because he or she may be called to the chair to govern the meeting. That either has to be changed or eliminated, because of that flaw, everyone on council should have an opinion and should express their opinion or at least given the right to by their peers. This totally precludes input from the President Pro Tem as an acting council member but not as a chair, because the fact that the chair may step down at any time without notice and the President Pro Tem has to take over the chair. I urge you to please consider this, and amend it or change it or eliminate it, in some way so that it does not pass this way.

VII. COUNCIL CAUCUS

VIII. REPORTS

A. Jill reported on the UCSA meeting she attended last weekend in Berkeley. The first two days was on the Collective Bargaining Conference, and that dealt with drug testing, if they should test athletes or persons in the work place, our constitutional rights, etc. They also discussed the effects of unionizing students that work on campus, they will probably be unionizing graduate students and T.A.'s in the next two years. They discussed raising salaries for T.A.'s, and with that they will be having to go through a test, so they know they can speak the language and communicate effectively, the regents will be meeting on this next month at UCSD. They

will also be talking about the affirmative action policies. Next year there will a 9.1 fee increase, with that increase the excess funding will go toward the faculty and a raise in their salaries, this is something everyone should be aware of, because usually a fee increase it goes right back to the state, therefore it is something that you should be aware of and bring to the attention of the Chancellor.

C. Cris announced that a member of the council has filed charges against me, one part stated that he was a burden to the whole entire council and an ineffective senator. This charge really hurt me a lot, because I feel I've worked hard. There will be a hearing tomorrow and I would like to call a lot of people as witnesses, I realize you might not have time to come, but I am passing around a note asking for your signature and it basically is saying that you don't feel I've been a burden or an ineffective council member.

D. Russ announced the new provost for Muir College is Patrick Ledden, he has been an acting member at Muir for 20 years now and we hope all goes well.

E. Dave Marheim announced that if all goes well this evening Warren College will be having its Spring Luau on May 29th, everyone is welcome to attend, it should be a lot of fun, there will be two bands, tiki torches, free food.

H. Richard announced that the Sunday event went really well, he was sorry no members could make it. SAAC like the A.S. is going through a transition, and he wanted to introduce some of the people that will be taking over, for his position Abel Rodriguez, and another person who will be working as a research intern is John Martinez. Richard thanked council members that have worked with SAAC this past year, and keeping them up to date on the activities and happenings in A.S., etc. He feels its very important the link between us as student leaders and organizations and students, it makes for a better council, thank you for your efforts.

VI. STUDENT INPUT

A. Robert Frankl spoke about Item E. of Old Business, amendment to the Triton Waves Board Charter, deleting Article III. Section A, Voting Members #3. It states that the TWB will have one member serving as an ex-officio of the A.S. Council. He feels, as V.P. Finance-Elect for next year, this sets a dangerous precedence for student organizations, which there are more than 100, he urges everyone to pass the legislation, so that it is clear to the student organizations who are members of the council.

B. Ms. Pat Bayes of the Wild Horse Sanctuary of Southern California addressed the council on an urgent matter regarding wild horses. What has happened is the government has introduced legislation that will enable them to begin slaughtering of the remaining wild horses in this country, 90 days from May 22nd. May 22nd is next week it is the last day for public response on the issue, they haven't even given us time to respond to the issue. We would like the council to come to our aid by passing a resolution and turning in signed petitions. This is only asking for a moratorium so that the issue can be discussed rationally with appropriate Society and Bureaus. We would like to see the experts of these groups come up with a solution besides settling for the killing of wild horses.
