VOLUNTEER CONNECTION AT UCSD (VCUCSD)

CHARTER

DESCRIPTION

The Volunteer Connection at UCSD (VCUCSD) exists as a student organization in coordination with the ASUCSD, the administration, and the entire UCSD Community, to connect undergraduate and graduate students with volunteer projects in the San Diego area.

GOAL

The VCUCSD is an ongoing effort to inspire and facilitate a minimum of 350 UCSD volunteers to devote approximately 3 hours per week for a quarter to community work related to poverty and education. The hosts for such volunteers are the San Diego Unified School District and about 30 of the area's non-profit organizations.

POLICY

The VCUCSD will not discriminate against any student or organization on the basis of sex, race, creed or sexual persuasion. We reserve the right to screen and to evaluate individuals and organizations involved in our volunteer effort and to refuse service to those whom we feel adhere to a policy of discrimination.

OFFICERS

To implement the above program, the VCUCSD will elect by consensus the following student officers:

Chair: A head and moderator of the group who will serve as a spokesperson and contact with the UCSD community and the committee on University -- Community Services and who will act in additional organizational capacities.

Treasurer: Financial Officer who will account for all expenditures of the VCUCSD, regulating and requesting funding from available sources (S.D. Community Foundation, ASUCSD, and future endowments), working with other officers as needed.

Publicity Chair: Communications officer responsible for all advertising and press for the VCUCSD, contacting both campus and community media for coverage of events and ongoing visibility in the San Diego Area.

Universities Coordinator: Liaison with the University of San Diego and San Diego State University and other educational institutions who will act as spokesperson of the VCUCSD with these universities, updating our group of their activities and vice-versa, as well as maintaining a good, coordinated volunteer effort between the three college campuses.

Student Contacts: All current members (until increased membership allows for an independent role) will facilitate selection and placement processes, with aid from our advisor, and continue to evaluate individual volunteer programs.

MEETING TIMES

General: About once every two weeks according to need. Committee working groups will meet informally on an individual basis.

TIPSY TAXI PROGRAM

PURPOSE: The purpose of the Topsy Taxi program is: one, to provide students with an alternative to driving under the influence; two, to give an alternative to passengers who feel that the driver is under the influence; three, to give hosts an alternative to letting their guests drive home under the influence; and four, to show that UCSD students believe that drinking and driving is of great concern and must take an active part in reducing this problem.

SPECIFICATIONS:

1. This project is limited to only UCSD students. A valid I.D. must be shown in order to use the service.
2. Due to certain abuses of the service trial run, a 10 mile radius around the UCSD Campus has been set. A 10 mile radius includes most areas where UCSD students live.
3. This service will operate only on Fridays and Saturdays from 5:00 p.m. to 3:00 a.m. every week of the academic year.
4. Funding of this program will be from General Unallocated. For a total expense not to exceed \$5000 for the taxi service, with an additional \$250 to be allocated for the publicity of the event. For a grand total of \$5250.

Publicity for this service is to include a UEO Banner to be used at all TGIF's, Flyers, Posters for all Kiosks, and business cards .

Faithfully Submitted,

Craig Gomberg

THE UCSD TIPSY TAXI PROGRAM

Purpose and Background

An examination of programs that provide students with a viable alternative to driving under the influence was recently completed. Two programs, those of University of California, Davis and University of San Diego, were very helpful in creating a plan to implement a Tippy Taxi Service at UCSD. This examination helped answer many questions that arose. The most important question was what type of transportation should be used. A taxi-run service was picked as opposed to a student-run shuttle or other similar programs for a variety of reasons. The first is that there are many liability problems that the ASUCSD and University would be faced with if a student-run shuttle was used, and thus the cost would be too high to implement such a program. And secondly, it is important that the service be easily accessible and reliable for students if the program is going to be successful. Both UCD and USD drew similar conclusions and favored a taxi-run program. Their experience thus far, with a taxi-run program, has been positive.

In creating this program for UCSD, steps were taken to make the service as efficient as possible. In January, a survey was conducted to assess the need and feasibility of such a program. The 706 completed surveys were favorable and provided helpful information for the logistics of the program (see Table I). Next, letters were sent to various taxi companies soliciting their support for the program. Many replies were received and negotiations with the taxi companies are currently underway.

The purpose of the Tippy Taxi Service program is: one, to provide students with an alternative to driving under the influence; two, to give an alternative to passengers who feel that the driver is under the influence; three, to give hosts an alternative to letting their guests drive home under the influence; and four, to show that UCSD students believe that drinking and driving is of great concern and must take an active part in reducing this problem.

Description of Proposed Program

Students will call the taxi company directly and present a valid UCSD I.D. and the taxi company will bill the ASUCSD directly. A trial run will take place on Friday May 2, Saturday May 3, Friday May 9, and Saturday May 10. That is, the weekend of the Cinco de Mayo celebration and prior to Greek Week, and the weekend of Greek Week and the Sun God Festival. This trial run will enable us to evaluate the program and decide whether or not to start a full program in the Fall.

Operations:

1. The Coordinator organizes all media correspondence and publicity.
2. The Coordinator continuously evaluates the taxi company's performance and verifies all charges.
3. The Coordinator handles all special requests for taxi operations from fraternities, sororities and private parties.
4. The Coordinator works with the President of the ASUCSD to ensure the program is being run according to the wishes of the student government. (See Table II).

Based on 532 surveys

ASUCSD "Tipsy Taxi" Service Survey

The following survey is an assessment of the need and desire for a "tipsy taxi" service at UCSD. The service would provide ASUCSD students with an alternative to driving under the influence, to riding with someone who is intoxicated, and to allow hosts to provide a safe drive home for their guests. (The service will use a local taxi company for its transportation and will have little or no cost to the student.)

PARKING AD HOC COMMITTEE
November 12, 1986

INTRODUCTION:

Parking at UCSD poses a serious problem for students. The student often faces two options: arriving at school before 8:00 am, or parking at peripheral lots far away from their classroom buildings.

While there are many long term plans for parking, including the introduction of a parking structure in 1990, the situation on campus is growing rapidly worse. In July of 1987 this problem will be compounded by the elimination of approximately 700 spaces due to the creation of bike lanes along North Torrey Pines Road, La Jolla Village Drive and Torrey Pines Road south of La Jolla Village Drive in July of 1987.

Students are finding the replacement of "S" spaces with "B" spaces and "A" spaces in various lots across campus. Furthermore, the opinions of the student at large are not fully represented within the decision making process.

Action: Creation of an Ad-Hoc Parking Committee of 5 undergraduate students appointed by the A.S. President. The Chairperson of the committee will be responsible to report to the A.S. President, and will attend all Parking Advisory Meetings on behalf of the A.S. All conclusions will be reported to the Parking Office. The committee would be charged with the following responsibilities:

- * Investigate the feasibility of prioritized parking.
- * Work with Parking Office to solicit student opinion.
- * Evaluate the Faculty/Staff/Student parking ratio.
- * Evaluate the feasibility of van/car pooling from areas of high student population.
