Black Speaking!

Oct 27 I'm black on the street  
just walk and don't meet  
Someone says welcome home  
I hope you have one that  
has heat

I walk along and ~~casual~~ <sup>with my voice</sup> ~~just know~~  
you around

safety first is our motto  
all Shadrach trained me

I wish I had twenty

Don't worry white sister

<sup>a black woman at</sup>  
I'm at the window just whisper

Try lower Manhattan if  
you want a tough beat

I'm black on the street  
oh brother how many

can follow directions

Yes sir and some can  
make corrections

a preacher a teacher I walk

on the street protect me

~~at~~ if you can in lower Manhattan

# Greats

I want you to know that there are many many greats. Not too many people understand. I feel I myself am going to die. Mum that's because I am ~~not with my friends~~. It doesn't take much to learn mum but it takes a lot to teach. One must choose it isn't just enough to have an astral visible or invisible. It means protection. It isn't always clear that's all the person who uses the astral must be as pure as possible. Yes mum otherwise the astral isn't clear. How many people have visions mum only the greats.

WOW  
WOW

Some can  
have real visions  
Some can predict the  
future  
Some can be taught or teach  
through their visions  
Sometimes personal contact is necessary  
sometimes by phone or letter  
These things pass  
one cannot go on having visions  
forever  
yes  
can one watch TV 16 hrs  
a day  
it is just a matter  
that you could do this for 3  
years  
frankly some nations  
still come back at least to some  
people  
yes  
and learned through visions  
As far as predicting the future  
some people can and  
some are forewarned  
many people die  
in our day because of their  
knowledge  
frankly  
I do not name  
people can change their identity
