Dear Sir:-

I understand the tolls for the Warner's Dam Accounts in the future are to be collected from Wm. G. Henshaw, 762 Mills Bldg., San Francisco, California. Will you kindly advise me, in answer to my letter of February, 12th, if the \$16.24 is to be paid from that source also.

Yours truly,

Dear Sir:

As per our conversation of recent date am quoting you prices on materials and printing.

On the materials, excepting Imperial tracing cloth, Kohinor pencils and Higgins ink, we will allow five per cent discount from list prices and considering Higgins ink, would state that we now have a great sale for our own Dietzgen's improved drawing ink, and am taking the liberty of sending you a trial bottle and hope you will try it and let us know how it works out. This ink has been manufactured by our company by a new process and formula, the result of a

long series of a careful experiments. It is manufactured in our own laboratories, and we positively guarantee every bottle. However should this ink not come up to the standard, we will exchange same for Higgins ink.

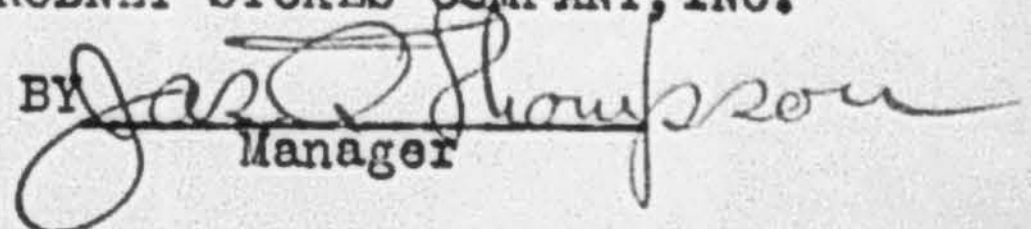

As to the printing, can quote you price of  $2\frac{1}{2}\phi$  a square foot for blue prints,  $6\phi$  for blue lines and  $12\phi$  for blue lines on cloth. We will also guarantee every job of printing that comes from our establishment and also guarantee the work to be delivered when promised and on time. But at any time should you find the work not up to the standard, we would esteem it a great favor if you would return it and we will make it right. As you know we carry a very complete line of maps both recorded maps and compiled maps. Our own compiled maps we are working on them most of the time and make them as complete and as up to date as possible. Would be glad at any time to quote you prices on map or maps.

Trusting that you will favor us with a trial in the near future, and thanking you in advance, I beg to remain,

Very respectfully,
