Hotel del Coronado

C o r o n a d o

CORONADO is the one grand beach resort of the Pacific Coast. Ideally situated on a peninsula opposite San Diego, and between San Diego Bay and the Pacific Ocean, Coronado is favored with a balmy and almost perfect climate the year 'round.

The famous Hotel del Coronado enjoys the distinction of being the largest resort hotel in the world, as well as one of the most magnificently situated and arranged. It is located in the midst of beautiful grounds, immediately on the ocean beach.

Coronado's even climate means every day an out-of-doors day and you will find every facility for golf, polo, tennis, boating, bathing, fishing, motoring, etc. It is just a four-hour ride from Los Angeles, and for fifty miles the train skirts the

Pacific Ocean. You pass within camera shot of old San Juan Capistrano, one of the earliest and most picturesque missions of California. The ferry ride across San Diego Bay to Coronado only adds to the charm of this short journey.

A delightful stopover may be made at Del Mar where there are splendid hotel facilities—Stratford Inn, just recently completed. Stratford Inn is an additional gem in Southern California's string of magnificent hotels. Del Mar is just three hours from Los Angeles enroute to San Diego.

At Del Mar are splendid bathing facilities, both surf and an excellent new bath house. The view from the Inn is unsurpassed for its matchless magnitude, the hotel being a hundred feet immediately above the shore. No one can regret stopping over at this beautiful resort.

U. S. Grant Hotel

San Diego, California

SO much has been said and written about San Diego, the old and the new — the southwestern-most city of the United States — that no one, be he tourist or native of the great West, ever misses the first opportunity to visit it, and perhaps later make a home there. San Diego has endless charms of which to justly boast, but latest of all is its marvelous new hotel which cost over a million dollars.

This wonderful hostelry is centrally located in the city and contains 500 rooms of which 350 connect directly with private bath. It is an absolutely fire-proof building constructed entirely of steel and cement and bears the distinction of being, architecturally, the most beautiful con-

crete building in the world. This modern caravansary is not only a place beautiful and vast, but is also a model of luxurious comfort.

Situated as is the U. S. Grant Hotel on the bay and ocean, with rugged mountain peaks bordering mesa and valley as a background in the midst of pretty homes and well-kept grounds of the city, an alluring picture is presented. San Diego will especially appeal to those who are in search of an ideal location.

Round trip rate to San Diego, limit ten days, \$5.00.

Round trip rate to San Diego, limit thirty days, \$7.00.
