memories of the Mammoude 24 p. A 25
+ many long balls, cotton over eyes,
hair light, white nose ear
phones redness chan. See
sent of words submit on forehead
today mostly relating to past
experience, words. many collapse.
Get sid later that night. Images:
black + white eyes, many angles
+ nose sharp + long, white
hair over forehead, sharp
eyebrows - long thin + evil
looking, eyes from many
angles, also see round ball,
wad cur, curved ^{ow} on yellow
something that ⁶ looked like
anatomical structure, a piece
of light similar to a jet, a toy
monkey brass with ring
around the eyes. He was
sunshine appear + so does sun.
Hamerid says MISTAKE after I say

yellow. ~~total~~ a whirling mixture
that might be pallid. STATUES
When it came to the target,
despite the vision of colors
I had the overwhelming feeling
the target was black & white. It
was a table with a sandwich,
cat, gun, red tulips & lot
of sunshine coming through
slats. I said yes to animals
& no to architectural details
although I had seen a part of
myself waiting on a stool for
Barbara. I did not include
this as part of the impression.
I said there was no action (love)
no to manmade objects (I ignored
the jet impression) ~~no~~ no to food,
very certain (ha!) + ~~type~~ + 1 more
bit, maybe nature. Barbara
also had the strong impression
the target was black & white.

I cannot understand why I
omitted Cal after all the sun,
yellow, SUNSHINE, colored animal.
I was not using associated
material but was looking
for specifics, actual DETAILS.
Perhaps the ^{feeling} ~~event~~ related to the gen.
still the overwhelming impression
was black & white parts, also see
openly clear of statues then last
night happened. That was like
TOOTS, SUNSHINE PREVENTS CALCIUM
DEPOSITS. TRY MORE HOMEWORK
MEDITATION. I thought SUN referred
to my IMMEDIATE NEEDS. Barbara
saw 2 men together. I was
totally SHOCKED at the ~~lack of~~ lack of
lack of, to target.
