Department of Native Affairs,

PATROL REPORT - BALUAN NO.2 OF 1955/56.

... Patrol Report Baluan No.2 of 55/56 by Mr. W.G. Murdoch, Acting Assistant District Officer Baluan Sub-District, is forwarded please.

The report covers the complete Census check of the Baluan-M'Bunai Census Division and, in addition, the supervision of the collection of the 1956 tax from the Baluan Native Local Government Council Groups. Both objects were achieved. Absentees and others have since paid their tax to the Council and the full Council Tax for the year 1956 has now been received. Tax collections for the year totalled £5045.

The patrol was a routine one as the area is regularly visited by the Assistant District Officer in his normal Council and supervisory activities. Reports of developments and activities are, in the main, covered in his monthly reports on Council activities and in the abstracts of the minutes of Council meetings.

During the past three months I have had various opportunities, both in the Council area and at Lorengau, of meeting the Assistant District Officer and the Councillors and officials and discussing problems relating to their areas. Matters covered by the report have been discussed, and in various ways are in hand.

The matter of the need for medical patrols has been taken up with the new District Medical Officer recently appointed to Manus District. He hopes to remedy the position in the reasonably near future.

The Assistant District Officer will submit individual recommendations covering persons eligible for Loyal Service Medals, as it is felt at this juncture that, following the highly successful visit of His Excellency the Governor General with His Honour the Acting Administrator, such medals would have a particular significance in the Council area. Mr. Murdoch will also submit separate memoranda covering those

20/7/56

ex-Servicemen who are still without their War Service Medals and an approach, if necessary, will be made to the Director for assistance.

The Assistant District Officer has expressed his regret at the delay in the submission of this report for the reasons set out in his covering memorandum of 30th May. I am able to confirm that he has been much occupied during the period with various pressing activities, not the least of which was the preparation for and the staging, of the Agricultural and Handicrafts Show held under the auspices of the Council at Baluan. The absence of clerical staff, combined with the visit of the Governor General and similar activities, prevented the earlier despatch of the report from this office.

The area covered is a most interesting one. It requires constant supervision and administrative care, but the evidence is that it is making progress at the present time and that generally speaking, the people recognise that the Administration is wholeheartedly working on a practical basis in conjunction with their own efforts, to bring them forward.

The various appendices have been forwarded to the representatives of the Departments concerned at Lorengau.

(J. Preston White)

INTRODUCTION:

For the first time since it was formed, the BALUAN-BUNAI Census Division was censused during the course of a single Patrol.

6,046 people were censused. The population shows a nett increase of 200. There is an excess of female over male births.

The sum of £ 5,045 in Head Tax was taken by the Council's Collectors. This is £ 208 less than the Tax collected during 1955 but more is expected from defaulters given time to pay and from absentees.

The presence of the workboat in the BALUAN area throughout the period enabled the patrolling Officers to take advantage of calm periods to do the long trips and keep lost time to a minimum.

The Village Books, old and new, were taken to BALUAN for checking. Many discrepancies were corrected and the old books repaired. They are gradually being returned to the villages as checking and repairs are completed.

NATIVE SITUATION:

See Monthly Reports.

Co-Operatives; PELIKAWA: Very little income as there are few palms in bearing and except for TAWI Islanders, the members have little trocus.

BUNAI: In much the same position as PELIKAWA with regard to copra but a little better off for trocus.

PAK: Still being organized, well off for copra but little trocus.

RAMBUTYO: Natives say comparatively few palms in bearing. Fair quantities of shell. No enthusiasm for the Society except among a few, probably due to inter-village rivalry.

PAUN: Producing copra energetically. The people of the other villages not interested because of rivalry and distance.

BALU: Progressing satisfactorily. Due to build their own storerooms copra shed soon.

MEPIL: Enthusiastic. Little copra can be produced but reefs extensive.

NATIVE SITUATION: (continued)

Cargo Cult; The outward signs of the PALIAU Cult are disappearing. Several villages have removed or neglected to renew the village name planks while at other places the prefix "LIPAN-" has been omitted. The system of "bells" is still carried on in some places, particularly LOI but appears to be on the way out.

It will be noticed that there are no absentees listed under JOHNSTON ISLANDS. The anti-work and anti-school attitude still seems to be strong here. Every other village has people absent at school or work (except MALAI which is near a school and a plantation). JOHNSTON ISLANDS was the centre of a Ghost Cult some years ago. (LANDMANS Report of 10/6/54). This is one of the few villages which greets Patrols with the National Anthem. It may be worth while establishing a school there next year to break the isolation of these people.

Census:

This is the first time that the BALUAN-BUNAI DIVISION has been censused as a Division. For reasons unknown, there was no Census in 1955 and the figures cover periods of from 15 to 18 months.

Inquiries at LORENGAU last December failed to reveal a District Population Register therefore the sheets have been written up in what is presumably a new order. The villages are listed in sequence commencing with KUPANO the Westernmost mainland village, following the SOUTH Coast to LOWAIA then from MOKERA THE Northern most "island" village through the islands to MBUKE the Western most island.

There is a nett population increase of 200.

Non_Council Villages:

KUPANO; Has associations with BOHUAI I and BOHUAI II, the three villages historically, come from the same place. Children attend school at BOHUAI II and people attend C.M. there. Use PELIKAWA Council Aid Post and associate with PELIKAWA in communal activity. Do not wish to join Council. "Too poor".

BOHUAI II; C.M. School under Native Pastor and Church. Wishes to join Council 21 for 5 against 13 no opinion.

PITEIYE; Remnant of original BOHUAI I village. Living on C.M. property of PATU. Do not wish to join the Council. Strong supporters of C.M.

UNDRAU, TAUI, DRABITO II, PITERAIT, METAWARI; PAU; Remnants of old inland villages after portion of the population had moved to the coast at LONDRU. School at PITERAIT and C.M. pastors in villages. Considerable movement between villages and LONDRU. Except for PAU will probably receive impetus from new road.

DRABITO I; The inland half of NOHANG. people live scattered in the bush.

MOKERA; Portion of this village lives separately at MULIREWA a S.D.A. hamlet. Have two schools one S.D.A. one L.M. Part of this village (56% of original inhabitants) has in past years moved to TANDUAL.

MALAI

NATIVE SITUATION: (continued)

MALAI; Occupies the Eastern end of PAK and eternally squabbling with TANDUAL and MOKERA. 40% of this village has in past years moved to TANDUAL the "Council" village. Adherents of the C.M. and L.M. Members of the LOLAC Society. With MOKERA and TANDUAL rich in coconut palms.

TONG; 100% adherents of the S.D.A. Mission. Intermarries with PAK villages. PAK people have sago rights on TONG Island.

LAGO; REI; PAUN; The three LOU villages. 100% adherents of the S.D.A. Mission. 26% of the people absent working for the Mission or at school. Majority away as family groups and no ill effects observed. Pro-rata have the largest number of Savings Accounts in the Division. Probably the richest group in the area. Have no traditional sea rights as they all lived inland away from the "sea" MANUS.

NATIVE AGRICULTURE AND LIVESTOCK:

See Appendix "D".

Patrol accompanied by Agricultural Officer who has presumably submitted a Report on the Agricultural Situation.

In general the non-Council villages are the richest in pigs. The MANUS and other villages on the coast keep their pigs in pens built over the water. The PAK villages are the recognised pig breeders and fleets of canoes from PAK occasionally move along the coast on trading and pig delivery trips.

Fowls average a little over one per three persons.

The MOK/POLOT group is the village with the greatest number of counted mature palms. A programme of clearing and planting has been in progress on the South Coast since the beginning of the year. The Council has organised the distribution of BAIBARA 'nuts in the area.

Gardens are producing well and the protein needs of most of the people are supplied from the sea.

MEDICAL AND HEALTH:

There are eight Aid Posts in the Division, seven of these are in Council villages. It is estimated that an additional five are needed to give a reasonable service.

PRELIKAWA: Serves 650 people as well as visitors from MALAI Bay. Permanent building. A.P.O. seems fair, questioned as to why he stated that he had no stocks of penicillin when several nearly full bottles were on his shelves, the A.P.O. stated that he took only one injection from each bottle.

LCNDRU: Serves 539. Permanent building. A.P.O. a very willing type.

BUNAI: Serves 1262. Permanent building.

PAK: Serves 423. Permanent building.

Very well kept.

LOAMAT (NDRIOL): See PR BAL 1-55/56

MEDICAL AND HEALTH: (continued)

for comment on siting of this Aid Post. Serves 666 most of whom live at a distance. Permanent building. A.P.O. appears competent.

PAUN: Non -Council. Serves 529. Semi-permanent building. A.P.O. appears unsure of himself.

BAIUAN: Serves 1200. Permanent Post and house for A.P.O. A.P.O. proficient.

MBUKE: 518 served. Permanent building. A.P.O. satisfactory.

Other Aid centres: PAK Plantation, C.M. PATU, S.D.A. REI.

The main medical need of the South Coast and Islands is a Medical Patrol. It is now two years since some of the villages were visited.

EDUCATION:

See Appendix "C".

Current teacher needs for the Division are 52. There are 22 Administration teachers at present working here and in addition there are 17 Mission teachers of unknown qualifications working in the villages of on Mission Stations. IF they were available, at least another 13 V.H.S. teachers could be employed.

Teacher requirements for the following five years are;

1957	55
1958	59
1959	60
1960	65
1961	66
(1962)	72)

Suggested school centres are; PELIKAWA 4, BOHUAI II 1, TAWI IS 1, LOI 1, TAUI/UNRAU 1, PITERAIT 2, LONDRU 2, PAU/DRABITO I 1, NOHANG/PATUSI 2, PERI/PONCHAL 3, BUNAI-LOWAIA 7, PAK/TONG 7, NAUNA 1, ADRIOL 2, PENCHAL 2, LENKAU 1, REI 3, PAUN 2, PAI 1, BALUAN 7, JOHNSTON IS 1, MBUKE 4.

Numbers refer to Village and V.H.S. teachers needed.

Mission schools at PATU and REI take pupils from outside the Census Division.

A curious system is followed at REI where pupils are admitted to the Central school if they pay the school fees. ~~XXXXXXXXXX~~ Apparently it is no drawback if the pupils have not been to school for a year or so.

Although there is an ~~apparent~~ shortage of teachers the Division is very well off when compared with some other areas.

ROADS:

Although the South Coast people are concentrating on plantations, a preliminary trace for the road from the South Coast has been cut and examined. Simple gradient measuring devices have been issued to the villages concerned and their work with these will be examined as opportunity occurs.

VILLAGE OFFICIALS:

Comments on Councillors are embodied in the Monthly Reports.

L.L. KALAPUS of TONG; Seems to keep his village in good order but is always complaining of non-co-operation by his people.

L.L. MARON of PAUN; Rather old but gives little trouble. Reported at one time that villagers ready to enter Council but when asked to vote on the matter, villagers overwhelmingly opposed to Council. No serious troubles in village.

L.L. SILI of PITERAIT; Appears to have good control of his people and is co-operative.

L.L. of LAUIS; Not in the Division but erected a marker 400 yards from POMASSAU village site and claimed that reef rights between POMASSAU and LAUIS belonged to LAUIS. As LAUIS is an USIAI village and only moved to the coast post-war, and POMASSAU is a MANUS village, LAUIS has no rights to any reef. Told to remove mark.

MISSIONS:

C.M.: Rev Fr. BEERMAN at PATU, school for 60 pupils, Aid Post, co-operative, ostensibly in favour of Council, has stated that he will be leaving the area soon after handing over to an American branch of his Mission. Has teachers at BOHUAI II, PITERAIT, BALUAN, PATU. Advised that the people of LONDRU have asked for a pastor. (Checked in village, about a third of the people in favour. Dissidents warned not to interfere.)

S.D.A. Mr. G. SMITH, teacher at REI, newly arrived in the Territory and has had no experience with Natives. Seems co-operative and ~~not~~ pro-Council. Teachers at BALUAN, PAK, PAK, TONG, PAUN and a Central school at REI.

POLICE:

Police did not accompany the Patrol.

APPENDICES:
