### SCIENCES BUILDING CONSTRUCTION BEGINS

Construction began earlier this month on the seven story Sciences Building located on the former parking lot northwest of Urey Hall on the Revelle Campus.

The project is scheduled for completion May 30, 1993. During the two year construction period pedestrian and bicycle traffic will be rerouted to the south of Urey Hall and to the north of the Central Gymnasium.

The new building will contain 184,000 square feet of biology and chemistry laboratories.
