Ken:

Sorry to have kept the tape of City Junket so long.

Just wrestled it back from Erik Bauersfeld who wanted to get it copied but couldn't because of lack of help at station in the Production Dept.

Also, it would have been scheduled late at night (after 10pm) due to the sensitive language in the play and this would have been difficult as Erik doesn't have that much time allotted to his dept after 10pm and I have none.

This FCC stuff is really curtailing our recent efforts. I think it's all very silly but our lawyers say we shouldn't take chances with the present makeup of the FCC commission.

Hope all is well with you. Am working on new piece for 1975 Cabrillo Music Festival in August. Also readying trip to NY in October where I'll do one program at The Kitchen late that month.

Bests,

Charles Amirkhonian
