

News Release sent to the San Diego County Press, Radio and TV of the Regents Meeting on May 18-19

May 9, 1961

The Regents of the University of California will meet on the San Diego campus May 18-19. The first day and Friday morning will be occupied with committee meetings. The meeting of the full Board will take place at 2:00 p.m. Friday, May 19 in room 3164, Sverdrup Hall.

On Thursday afternoon, May 18, at 4:15 p.m., The Regents will join the San Diego faculty and staff in dedicating four recently-named buildings on the Scripps campus and in celebrating the beginning of construction of the new School of Science and Engineering on Torrey Pines Mesa. I have sent you a news release giving the details of these events.

Please call me at GLencourt 9-2388, if you need further information or would like special arrangements made for coverage of the ceremonies on Thursday or The Regents' meeting on Friday. Several of you had attended the press conference Chancellor York held in March. The Regents are to meet in that room. Since there are usually some 20 members of the Board present, you will realize that space for spectators will be very limited. It would be a great help, indeed, if you could let me know if you plan to attend the meeting or are sending a representative, so that we can try, at least, to save space for the press.
