

SEVEN NOBEL LAUREATES TO SPEAK AT SYMPOSIUM TO HONOR DR. MARTIN KAMEN, DISCOVERER OF CARBON-14

August 28, 1978

MEDIA ADVISORY

Where: Sumner Auditorium, Scripps Institution of Oceanography, University of California, San Diego. August 28-30, 1978 Dr. Martin Kamen is a professor emeritus of chemistry at UC San Diego: he is co-discoverer of Carbon-14, a contribution which revolutionized the field of biochemistry. The symposium, which will feature 40 speakers from around the world, is being held in honor of Kamen's 65th birthday. The Nobel Laureates scheduled to speak include: Glenn Seaborg, Edwin McMillan, Willard Libby, Arthur Kornberg, Carl Cori, Fritz Lipmann, and Linus Pauling.

PRESS COVERAGE: All sessions of the symposium are open to the press.

FOR FURTHER ASSISTANCE: Contact PAUL LOWENBERG, Public Information Office (714) 452-3120 or DR. NATHAN KAPLAN, professor of chemistry, (714) 452-3052.
