Cross Cultural Center

The Cross-Cultural Center is dedicated to supporting the needs of UCSD's diverse student, staff and faculty communities. Our mission is to create a learning environment in which the entire campus community feels welcome. Within this general charge and in collaboration with existing campus programs, one of the Center's major priorities is to facilitate the academic, professional and personal development of those student, staff and faculty who are members of underrepresented groups. The CCC provides a network of services and programs in an effort to provide and foster discussions of issues related to the creation of a multi-ethnic, culturally conscious university. All members of the university and greater San Diego communities are welcome and encouraged to participate in the programs and activities of the Center.

Gay Youth Alliance

The GYA serves young lesbians, gays, bisexuals, and transgender youth. The group provides LGBT youth with a safe environment by offering social activities and educational opportunities including HIV prevention. The GYA takes pride in supporting youth during the constant process of growing and learning.

Groundworks Books

Groundwork is not just the progressive bookstore at UCSD — we're a political collective working toward the social change needed to give people more control over their own lives. It may not seem that a collective running a bookstore would be a very important place to try to change society, but it is an ideal place to work on some critical problems that would be difficult to tackle in a large organization. For us, the most important of these problems is how to organize people in such a way that they'll have real control over the decisions that affect them — for example, working together without a boss to give orders. Our aim is to set up a liberated zone where the conditions are more conducive to learning to become powerful with other people. We've made a lot of progress: we have an idea what the skills are that we need to learn, we've developed some theory to describe what we're working toward, we've developed a structure which moves us in the right direction, and we've developed some skill. But it's a mighty long road and we have so far to go, so won't you join us?

SUBJECT: LGBT RESOURCE OFFICE STEERING COMMITTEE

Thank you for your service on the LGBT Resource Office Steering Committee during the past year. Under your guidance, the Resource Office is off to an excellent start.

Your original appointments were for one year, through March 2000. I now write to extend your appointments until such time as a LGBT Resource Office Advisory Group shall have been formed.

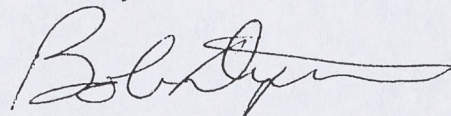

Until the formation of an Advisory Group, the Steering Committee's charge is to guide the Office in the following ways:

- Developing a budget based on allocated funds;
- Defining the role and responsibilities of staff;
- Developing policies for what kind of activities and programs will be carried out;
- Organizing initiatives;
- Advising the staff, and providing interface with CACLGBTI.

Professor Steven Epstein has graciously agreed to replace Professor Harry Hirsch as Chair of the Steering Committee.

Again, thank you for being willing to serve a bit longer in this important capacity.

Sincerely

Robert C. Dynes
Chancellor
