

Media Advisory, Asoka Mendis and Carl Mcllwain report on "cooperation in space"

October 21, 1987

MEDIA ADVISORY

STORY: Two UCSD scientists report on "cooperation in space" after visiting Soviet Union for 30th anniversary of Sputnik.

DATE: Monday, October 26

TIME: 3-4:30 p.m.

LOCATION: Garren Auditorium, Basic Science Building, School of Medicine

SPEAKERS: Professor Asoka Mendis, Electrical and Computer Engineering Professor Carl Mcllwain, Department of Physics

REMARKS: Mendis and Mcllwain have recently returned from the Soviet Union where they helped celebrate the 30th anniversary of the launching of Sputnik, the first space satellite. They will discuss the future of cooperative efforts between the U.S. and the Soviet Union in space exploration as well as the current state of the Soviet space program. Each will speak for a few minutes, then answer questions from the audience.
