Friend Ephraim Esq

We have just recd your  
bearing date Nov 16<sup>th</sup> and it <sup>gave</sup> us much joy to  
hear of your good health and other good folks  
from New Canaan we had heard from Saml he  
wrote in Aug he was in the Southern Mines with  
an old Miner he did not tell his name his  
health was poor he said he would come home in the  
Spring rich or poor I am afraid he will not like  
to see the Regent hills of N.Y. again but there is  
not much need of borrowing to build it will come  
fast enough we have just heard that S. J. Sacinote  
and Sturton is buried I hope it may prove a false  
report Dec 25<sup>th</sup> I have ~~just~~ <sup>come</sup> from the flat got  
Gang about it sailing some I think we shall have  
a fair turn when he gets along I have lots of  
wood and Bark to draw but there has been no  
snow of any amount yet had got a first rate  
team to do it with if there should come some  
Shipping where is Winter D. Smith and who did  
say Murray told Fortiers I am sorry his business  
would not pay I think I could make it pay and some  
to boot where is Tames I wish you would write  
to Wm White and ask him where Henry Brown  
is if he is alive as his friends are very anxious to hear  
from him have not heard from him since he left that  
place he may know where he is if he is dead they

want to get the Insurance of 500 his sister was  
here last night if you should find that he is dead  
and would get two persons to give their oaths that  
they saw him ~~here~~ die and buried and the oath  
of the attending Physicians they swear that amount  
of money with those articles it would not be diffi-  
cult to get those if you was ~~sure~~ <sup>sure</sup> he was dead to singular  
he has not written for so long a time I am quite busy  
at this time getting in logs it is pretty hard work get  
them in in ~~in~~ with oxen mostly I don't make them down  
by their horns as that ~~is~~ <sup>is</sup> ~~very~~ <sup>very</sup> ~~hard~~ <sup>hard</sup> ~~work~~ <sup>work</sup> ~~get~~ <sup>get</sup>  
them brought us through that muddy but fine  
Country neglected in everything that can make them  
comfortable I would like to live there if I could  
have any society that was good I am sick of this cold  
and disagreeable Climate I was much pleased with  
that part of your letter where you speak of your  
Wife cherish those sentiments as long as your  
life is spared <sup>and</sup> ~~to~~ your will come out right if I  
could live my life over I should try and not be  
so homesick I often think of the pleasant rides we  
had in that distant land particular the night  
in <sup>the</sup> Cat Patch and the many trying scenes we  
were in coming home I hope you will be more  
fortunate both in time and money be sure and  
have more clothing and if you feel the chills coming  
on take plenty of Cayenne and Hot drops they are good  
of driving them in the beginning, excuse this but better  
write ever much Believs Me Always G. H. Little

I received yours from your  
Father in which you stated you would  
sail on the 20th Feb. I answered it and directed  
it to Hattistons N.Y. did you get I just  
received a letter from Sumner to the states  
that Captains on the death of Mack took an  
inventory of the Goods and shut up the  
shop I felt better as that looked  
honorable I hope you will find all things  
right and get through and return to  
your anxious friends as soon as possible. I  
begin to feel quite anxious to hear from  
you I have written to your Father since I  
got the letter from S. I hope he will come  
with you as he says his health is not very  
good Give my best respects to Jack Hinton  
Levy Mr Gallman D. Strick and all who may  
enquire for me I have been using one of the  
Black Balls he does very well rather better  
than some of those Pills I drove after your  
advice I look on with that old  
Court on, I had after think of it that some old  
Court is made in into quite a decent garment  
I imagine you will be more anxious to get

Home to that good little Wife you left  
behind you I hope you may have the satisfac-  
tion of meeting her soon as possible how is it  
now do you get any Waves Frore or Senchy  
Carlinity or Gizard Murr I would like to know  
how the Doctor gets along fear try on the  
part of the land I after think of that Old  
hump of Sheet Iron going across the Deck of  
the Old Kim how could he touch it the Old  
thing I suppose is running on the Pacific now  
God help the Old built and the Dr Shanon  
I think they must meet it by this time I hope  
you will get through before the fall next  
for some concerns you can come so much more  
conveniently I shall ever remember the happy  
hours we have spent together leaving a lasting  
impression on my mind more especially your  
kindness to me in that far off land when I was  
broken down in spirits and nearly penniless I  
owe you debt of gratitude that I should be very  
happy to pay the interest you have but could  
not have seen since you and

I recd your good long letter and was pleased to hear that you had so fine a time getting to Cal some difference between yours and ours have I have no other excuse for not answering it before but buying time we have got half through our grass is very light not over half a crop the season is very cold and dry I have not heard any thing from your family lately I was glad to hear that Sam had done so well and was coming home this fall he had better not come in a rush it will cost double besides the inconveniences I hope you will get through or come with him he may be sick on the way or if you should be he will stick to you till the last I have not heard from George yet I will write him he lives in Carrollton Carroll County Miss he told me I was sorry to hear of Dick's death George will feel very bad I have been trying to sleep but I need no use the flys are so thick flies here fleas with you I have been working rather hard for me feel rather O.K my health has been quite good most of this summer I was sorry that you found

business in so bad a state let your boys <sup>run</sup> of Jack Hinton's poor health do of these those  
 proved him self what I thought him to be nothing to him but splicing he understood  
 that very well I am sorry that I am could not have had the management of  
 your affairs he would have saved some more of the mack but you will do well  
 yet <sup>if</sup> you have my prayers if they will do any good and I have no doubt they will  
 the prayers of the righteous avail much the reason of it is being so busy from your  
 wife and friends but to keep up good courage  
 It is a long road that never turns so thought I coming through Central America last  
 fall I suppose you have given some a detailed <sup>account</sup> of our journey home it would amuse  
 him must your finding your affairs in the state you describe reminds me of my own  
 my father in Spain did not do as he would be done by I think I will tell you more  
 when I see you I have not yet been able to get a settlement though I have asked  
 for it a number of times if only the moving balance shales its way right adjusted  
 and so goes the world each trying to cut his way through but some of their knives are  
 rather dull if I have my health I can get a living and give some by the time  
 I get ready to live if I live to this come over age of men I shall be ready to die I was born to

of Jack Hinton's poor health do of these those  
 cursed Spains have ruined to many good men but as the Dutchman said only just  
 not but I am sure you and my next best  
 your own little girl says give my love to Sam  
 and Mr. Moral I should like to see them very  
 much that I can to come often here give  
 to him and tell him me heard from our oldest  
 Brother as about time ago he has six children  
 and doing well I must close by wishing you  
 health happiness and a quick return to your  
 wife and anxious friends is the wish of your

I have just recd yours of  
Feb 2<sup>nd</sup> it is strange you do not get my letters  
you do not get more than one in 3 or 4 that I state  
I am sorry to hear of <sup>your</sup> bad luck in that overbur-  
dened Estate I should have rather gone to work  
and send twice as much a Cross occurs to  
follow every thing that ill fated man had  
to do with I was in hopes you would be able to secure  
some thing from it and get back before this I think  
there must be something wrong about the Risking Estate  
but so goes the world or most part of it I was much  
pleas'd with that part of your letter when you  
speak of <sup>your</sup> Wife the anguish of mind on being  
separated from a beloved Wife so long is almost  
to much for a sensitive mind to bear but do not  
let it undermine your health hope for the best  
It is a long road that never tenses I have been  
sailing most this Winter to the Copperas Hill  
and stowed 156 cords I had a better price than  
the other day he said he saw at <sup>my</sup> 3 he thinks  
we had better come out to Col and make  
it our home he is much pleas'd with his  
language I think his character is good I hope his  
health will be good I wish we were settled  
on one of those Chaires I will wait till I see  
you if you can leave your parents I will go with the

to any part of the Earth you think best  
provided there is good Water and Climate  
My health has been quite good for this  
last Estimate it will take me a year or two  
to close up my business here to advantage  
I have just closed up my Farming write in your  
next when you think you can get away I hope it  
will be soon by the by we have just had our  
Sequestrates taken in one frame quite a sight  
four of us be get me thank them ever my mother  
hatten face would moment our heads turned our  
little see such looks very nice with her feet in  
her mouth I would like to have the pleasure  
of handing it to you soon I wish I had yours if I had  
thought as much of it last winter as I have since I  
would have had it Remember me to your Wife and  
all who may enquire for me and accept the largest

You just received yours  
bearing date Aug 15<sup>th</sup> and I was so much  
excited on reading it that I could eat no  
supper so you have cheated me out of  
one meal but never mind I wish I could  
be cheated in that way twice a month  
you said that Sam had left and you  
thought he had come home but did not  
state where he had gone to me have not  
seen or heard from him for some time  
feel quite anxious about him he may be  
sick or the other way I am sorry that you went  
back to settle that Business I am afraid that  
you will get sick there in that land of Pines  
I hope if you should you will not fall into the  
hands of such friends as we did going to Cal  
I was in hopes you and Sam would come home  
together dont let your bad luck in settling  
the Estate weigh down your spirits but be  
cheered by the thought of once <sup>more</sup> returning to your  
Friends in this rugged but get hospital China  
and when you do return I hope you will have  
no time in taking your Wife and making us a  
long visit Tell Mr Fallman that if he dont  
pay that money to you he is just such a man  
as my Aunt and more at all getting fair or just money

if you can be always has money I am surprised  
that he did not let him on your asking him for  
it there are plenty in the Company that have  
money he could borrow if he wished his credit &  
that is good as also his word take <sup>him</sup> down after say  
day if you see then ~~that~~ he will have hundred  
much to dodge you I hope you will have the good  
luck to get through before six months I write you  
to N. York in my going up going back with you  
advising you to sell your ticket and go home  
and let Hunter settle your business but I  
think you did not get the better <sup>I hear</sup> whether  
you there or four times at Sunday I hope you  
will get this and immediately answer to give  
all respects to Dr. Hunter & Dr. Smith and all  
who may enquire for the same that I do the  
same I am and accept the manner wishes of

I have nothing particular  
to say to you except that Sam has  
not got home but went to the South  
wishes me have not heard from him since  
August he was not very well he said  
his pantices look well & 22 in three days  
he did not like the mines coming back  
in the spring I am afraid he will not start  
it but hope for the best I am sorry he left  
you I am in hope he would some time with  
you I am sorry you have so poor success in  
settling your business don't be discouraged  
or let your heart be brought down your  
spirits but I could help it when there  
there is no place like home my prospects are  
not very flattering though I have done well for  
this country think quite a contrast this your  
comparison with where I was about but  
enough of this kind of talk I don't like to  
have husbands the more I have to do with  
man kind the less confidence I place in them  
in the language of Burns I'll not then and  
William all the soul burdened wretched who  
have no choice but to run Sam in to a few  
rests but Oh Man kind and was not

Shakes its rusty righ<sup>t</sup> adjust<sup>ed</sup> I hope you  
will get through as soon as possible and <sup>have</sup> ~~and~~  
more good visit together I must out of patience

Dr Sir

I received your favor of June 17<sup>th</sup> and was glad to hear of your prosperity in San Diego I received a letter from George a few days since he expects you are on your way home and intended to come out with you if you should come to Cal again when I saw you in San Francisco last winter James Rundlett was in Petaluma when I returned to P., he had gone to San Francisco and at work at his trade so I thought it best to inform you of the fact before going to any expense as the expense of going to San Francisco and looking him up would eat a good hole into 25 dollars of it and that would not pay in my way of thinking

give my best respects to all who enquire for me and except a <sup>large</sup> quantity to yourself

We have just read your kind long ~~long~~ letter and be assured it gave us much <sup>more</sup> joy to once more hear from our old friends <sup>and</sup> nothing <sup>more</sup> ~~particular~~ that will interest you <sup>in</sup> particular except that I had come to the conclusion to leave to sail next fall if nothing should turn up to prevent had I received your letter sooner I would have done this fall but I cannot do it without to much loss I was offered One hundred \$ for my trade in the Sept Term in the summer I will name that I had taken it twice are not quite so good as they were last year Money is rather tight but not as tight as in your place according to your and Sam's letter he is still at Peterboro he was trying first Oct to sell out and come home he is foolish to come here at this season to meet the hard winter I don't mind them I can have but I must try and keep my thoughts in show banks and go to work at something that will bring the fitthy June and let time roll on I sent you a Pair of Attorney last spring had

you ever received it I very much regret that  
I can't go out this fall Francis don't like to go  
so far from her native hills she has had a narrow  
escape from Consumption one more such a trial  
~~would~~ in this climate would carry her to  
her grave it is the climate and to be with  
you that has determined us to come out  
I can make something more than a living  
here but I am sick of working five months  
to keep the animals the other 7 I have  
been rather well for a few days just I am bound to  
go with the Consumption if I stay here and I  
promise that by winter that I get to your place  
that all the best chances will be taken as  
we shall have to march up and down like  
the poor natives and live on tripe the butchers

I received a letter from  
you written in Jan<sup>ry</sup> <sup>and</sup> I answered it  
on the receipt of it you will believe me when  
I say that I was amazed to hear that you  
with your family were determined  
to be separated or more in this dreary world  
though not without some bright spots  
the winter has been very hard and long  
the most chagrinful I ever known such  
in this climate I think sometimes that  
I will sell out what little there is  
left and go back to the elderly but  
glad on though I have no reason to complain  
of last week since I <sup>can</sup> have I have cleared  
one thousand dollars it is in a firm on the  
Connecticut River besides the rise of my land  
here I sent the horse at the Depot and the  
pasture for 53 dollars the travelling is curious  
on the horses started to leave the Bay  
I shall cut I think that I could do little  
to take this course than to move on to it

this year have you heard any thing from  
Squire he wrote in Jan that he was leaving  
home in March that is the last we have  
heard him my fingers were so stiff that I can  
hardly hold the pen so good night  
May 29<sup>th</sup> here I am at the old desk trying  
to say something that is new by this <sup>word</sup> have  
you ever heard from Henry Burman his friend  
think him dead what has become of Mr. West  
your Cousin I have not yet. My Corn planted  
just hope to by June I think some of getting  
out and <sup>light</sup> <sup>to</sup> <sup>be</sup> <sup>in</sup> the full please  
give us your opinion the <sup>with the papers</sup> ~~papers~~ here are  
so hard I don't to face them I met every one of  
them last winter there was some hard days  
I wrote you May 30<sup>th</sup> <sup>this morning</sup> ~~to say~~ to ever that as  
a tropical climate this afternoon it is cold  
enough for a frost and there will be one  
if the wind goes down but we have plenty  
of mud in the stone and so ends this chapter  
also planting corn today shall finish in the  
morning so once more a good night to you  
May 31<sup>st</sup> well we got it <sup>well</sup> though not very hard  
every thing here is very high Potatoes are  
worth the 15-25 till 100 per bush Corn 81 or 90 per bush  
per the Oats 5-6 to 8 to 10 cts in market

every thing else in proportion lumber is doing  
quite well also I have a span of Bays  
to sell worth some over \$200 have a gubbe of  
working Oxen that I have been offered \$130 for  
Enough of this now for Politics the Kellogg  
Bill has passed by thirteen majority a bill  
that will break down the Slave far more  
than any Bill that <sup>has</sup> passed for the last  
half century in the opinion of this House  
I don't very often take much interest in  
affairs but the Executive Slave Law was  
bad enough without adding insult to  
injury I should make a bad slave dealer  
I think it the greatest curse that ever  
was put on any Country especially a land  
that boasts of its free institutions and would  
be if <sup>everything it affects</sup> ~~the~~ <sup>could</sup> ~~be~~ forgotten  
I should not have voted Negroes on any condition  
whatever they never ought to live among the  
Whites but if they must be in this Country  
let the United States be what it  
pretends to be a free Country the Curse  
of God will follow this Country or any  
other that attempts to enslave his fellow  
being the European War is getting better

rather exciting & think they will  
have bloody times before they get through  
more so than they have seen for a long  
time and hope it will end <sup>ing</sup> in  
about a complete revolution & mean  
a better form of Government than they  
now have I think you will say that  
George is getting rather tedious I won't  
blame you for saying so this is something  
new for me to write so long a letter  
Give your best respects to your wife

would come with him but I am so glad that your  
Lydia has joined you that it just pays for the  
long expected <sup>but disappointed hope</sup> of seeing you two years last  
month we parted in Boston expecting to meet in  
N.Y. in so short a time I did not meet you  
I have several apologies to offer the longest is now  
mining round the floor playing with her older  
sister now and then she gets a bump then  
comes a squall sometimes she gets a punky  
then her little lip curls in the pride of Baby hood  
I enclose a power of Attorney to your Partner the given  
name of Taborn & have forgotten I have left a blank  
you can insert it I think it C.B. but am not certain  
I have put in the interest bit if you get the going  
do you will do better than I think you will

The Winter has been very changeable here so  
much so that I wish some times that I was in your  
City tell your Lydia that I may conclude to come  
out there in the fall if you should think it  
best I am doing post haste for this receipt I enty

With a sorrowful heart I commence  
this letter by informing you of the death of my  
beloved Wife she died the 8<sup>th</sup> of this Month of  
Consumption leaving me with three small  
children the oldest five the youngest 6 months  
we moved here the middle of Dec<sup>r</sup> District to  
your self what <sup>my</sup> feelings are on leaving one so near  
and dear to me The last letter I wrote you I told  
of our intention of joining you in the Colorado in  
the fall but due to the Gods blessing our hopes I do not  
know what course to take but shall try to do that  
that is for the best I want to see you very much I wish  
you and your Wife would give me your advice my  
business affairs are not in a very good condition  
I had a letter from Sam in Nov he was well I have  
had two papers from your society if I could run in  
and see and talk with you it seems as though I  
should not feel half so lonely but here I am in  
Cold Id and you far away For the Bicknans  
I hope the time may come to meet <sup>you</sup> again in this cold  
and heartless World but every thing is so uncertain there  
is no reasoning on anything but don't break don't fail to  
write me a good long letter on the receipt of this your

My Dear Friend

We received your kind and sympathizing letter if you knew the Thrill of Joy that runs through my veins on receiving one of your friendly letters you would not after I was married to a Widow Lady the 15<sup>th</sup> of June so that my prospects of domestic happiness are not so bad here I place children have the luck to get so good a Mother in Law as mine have what is the excuse for schooling children at your place I still wish to join you I put up at Publick Auction last fall over three thousand dollars worth property intending to go out in the fall but losing my Wife frustrated my every plan and put me back 92 dollars at least My Wife says she will be ready as soon as I will write and let us know what the fare is from N.Y

It is something of a job to pull up  
stakes <sup>and leave</sup> ones native hills but I hope  
it is for the best <sup>what</sup> more things it would  
be best turning with us talk as though  
I was coming out immediately I would be  
glad if it were to be so but I cannot tell  
how soon it may happen <sup>in a</sup> <sup>new</sup> job  
a farmer don't shift his residence so easy  
as men of other occupations we have had  
a great deal of rain here lately grass looks  
finely corn is rather late owing to some  
drought & our is worth \$1200 per acre every thing  
in proportion it costs more to support a  
family here than in your place according  
to the papers I think we can get a living  
if we have our health some how I  
should like much to see Binton & give  
him my best respects when you see  
him and accept a large share your  
believe write often

My Dear Friend

It is with  
a heart full of sorrow that  
I try to say a few words to  
you when I saw the super-  
scription how my heart  
leaped for joy but like everything  
of this world doomed to the  
bitterest disappointment I can  
sincerely sympathize with you  
in your loss of your Dear Wife  
two years ago next Month I lived  
My Dear Frances I have three little  
girls left that and constant  
application to business saved  
me till now until I became  
gradually more reconciled to the  
loss she must try to be reconciled  
we must for the sake of our  
children our friends and our  
future we must submit to  
the will of Heaven nor will I  
try to conceal My feelings of  
Sympathetic Grief on reading yours

I nept like like Child nor  
do I think it unmarly but but try  
horrant ourselves as well as possible  
I wish I could be with you if I  
could sell. I would come to your  
place but my Wifes health is not  
very good our eldest Girl has the Coker  
Nash is quite sick we are moving  
through one of our hard New England  
Winters The Thermometer 26 deg below  
zero in the morning some dark snow  
in Oct he is not very well my Mother  
died this fall of Consumption aged  
70 years the only thing that hinds  
me to this part of the world if you  
do not come to N. England I shall  
sell out the first opportunity and  
remove to San Diego our Winters  
here are so hard I would confine  
my mind to acting business as soon  
as possible it is your best course  
there is nothing like it

Yours as ever

Dear Esbrouin I wrote you  
the first of May at the time  
my Wife died I have had  
a letter and a paper from you  
since that time in it you  
ask me if I am coming out  
there is such a rush for the  
West that it is next to impos-  
sible to sell out for a fair  
price I lived on rather stayed  
here to the 19<sup>th</sup> of July I  
was then united to a fine  
young Lady by the of Sarah  
W. Preston of Stafford. V. I  
a rather narrow time to officiate  
but we will try and do the  
best we can and now my  
Dear friend if I can send you

you any advice in this part  
of the County in the same  
line of business and I think  
a man or woman cannot do  
better to connect themselves  
with an amiable companion it is  
so natural for us to want  
some one to sympathize with  
us in this troublesome World if you  
will come V.G. I will do all in  
your power for you and if after you  
see how I am situated you can  
judge better what you think it  
best for me to do I nearly wish  
you would come and bring  
your little Edward since  
I hear this I have received your  
letter I thank you for the kind  
sentiments so warmly expressed  
in your letter don't fail to send

this fall and if you think  
after seeing how we are situated  
you can judge better my Wife told  
me this morning if I thought it  
best she would go to Sa Diego  
now I fear I have a <sup>slight</sup> fever  
my mind that affeers the  
most like your dear Lydia  
of any person that I ever saw  
she is my Wifes sister this  
is the first time in my life  
that I have tried to make  
a matter but if you will come  
to V.G. you shall have a chance  
to judge for yourself nothing  
but the strongest interest in  
your Welfare and happiness  
would induce me to write  
thus excuse this but send

Dear Ephraim

I received  
your kind letters and  
by the land route the 20<sup>th</sup>  
of this month also one  
by steamer I hope you will  
do well in your mining but  
risk to much lest some un-  
fore seen accident may destroy  
your hopes I have sold and  
place our making every  
effort I wish to come to your  
place this fall or winter my  
health is quite good the rest  
of the family are well write  
in your next what I had better  
bring out with me I may not  
get away until spring money  
is very hard here now

but I think it will not last  
more than 3 or 4 months at  
most I was married in July  
but it does not prove a happy  
union she dislikes my  
children she looks upon  
them as useless rubbish I am  
not the Man to live with  
such a Woman at the time I  
received one of your's she seemed  
in various Misery for fear that  
I loved you better than I did her  
what folly I have had two prices  
and one blank and such is  
life my love now is for my  
three little Angels the Pictures  
of their Mother My Prayers  
they may become as much like  
her as possible I / I must till  
Spring I shall leave by the <sup>Orient</sup> route

I will go to your Father's before  
I start and get your little  
Boys Dejected I am quite  
soon spirited at leaving my  
children behind but I hope  
it is for the best hope what an  
ashor for few Mortals to  
cling to how many hearts  
would break entirely if it  
was not that I will try and  
get the best works or Mineral  
for you there is a Copper Mine  
six miles from us they are  
smelting most of the time  
the best there is an old  
General of Mine I will get  
all the information I can  
on the subject I remain as

My Dear Friend Please  
Affliction upon sorrow  
My Dear Wife is no more  
She died May first of  
Consumption She caught  
a severe cold the day  
we were married and  
had a cough ever after  
then I am now home left  
with three small girls  
dear little Angels  
the picture of their Mother  
an Old Lady keeps house  
for me I think seriously of  
coming to San Diego in the  
fall the same vessel in which  
the monster that has taken the  
Amalia's Company from

me calls loudly for me and  
if I stay in this climate I  
must go that way it is the  
prevailing disease of New England  
I will decide on something in  
my next my health is not  
very good this spring I shall  
not I think winter here  
any way I received six papers  
from your quarterly and glad  
to see by them that you  
as well as Sam Day were  
going ahead the Place is  
dear to land up I think  
now I have more hopes than  
I have ever had of it hope  
what a Beautiful word if not  
for that Bright word how  
many Hearts would have  
never to beat again

hope on my Dear Effie

Friend Morse I received  
yours, leaving date Nov 21<sup>st</sup>  
last night and was much pleased  
with your kind interest  
in our welfare I am sorry  
to disappoint you in not  
being with <sup>you</sup> at an earlier  
date than I can leave  
I cannot leave till May  
I have sold out but the  
money is not due till the  
first of Apr we now live  
on the old place so you can  
direct to the place where  
this dated it I shall get  
them sooner than at Pompey  
I have not time to get the  
information that you desire  
in regard to Copper Ore before this

Mail but I will in my  
next there is a Copper Mine  
3/4 miles from here they  
get out a great deal of Copper  
I never have been into their  
Gornuce but have been just  
it many times I will get  
all the information that  
I can in regard to it I have  
had a severe trial with my  
Wife my life was rendered  
so miserable that I carried  
her to her Fathers she came  
back the next day and acknow-  
ledged her fault since we  
have lived more happily I will  
tell you the particulars when  
I see you & pray you are  
my Wife and Children wish  
you a happy New Year

Mistaken about Snow  
here we had our first snow  
Storm to day the Weather for  
this Climate has been quite  
mild so far but such Winters  
as we have had here for 3  
years past are awful to  
think of Snow is in Wiscon-  
sin in a Mill the same  
old sixpence has gone up  
how much he says I don't  
say not knowing my Wife  
said when I read your letter  
she wished me more than  
if you knew how <sup>severely</sup> I  
I feared that wish the time  
goes slowly I assure you  
I shall write every Mail till  
I start I must be bring my family

do you think it best have  
much are fattings worth per  
pound in your place and what  
other articles can I bring that  
will pay the best of us here

Friend Morse

I have been  
to the Copper Co at Stafford  
and they say that the Copper  
Co at Boston by Ore by the  
present but the price of Copper  
generally it refined Copper is  
worth 16 cts per lb at this time  
but usually from 20. to 27 their  
estimates are at 22, they have  
a Furnace in operation most  
of the year this ore runs from  
4. to 15. percent it is strongly impu-  
rified with Sulphur they have  
to roast it three times the best  
has learned to analyze the  
Ore it costs about  $\$4/00$  to haul  
and get the apparatus besides  
the time if I thought I should be  
fit

for the business I would soon  
to find the <sup>different</sup> ~~different~~ parts  
of Copper Ore but my knowledge  
of Chemistry is too limited the  
Copper Company at Baltimore  
pay the highest for Ore I am  
told their profit if the Ore is  
correctly analyzed is in the goods  
now at 235¢ per a ton that is their  
practice in buying to get that is  
considered a Miners ton it costs  
\$8.00 per ton to smelt Ore  
at Point Shirley near  
Boston that will cover all  
expenses it seems to me that  
if your Mine is rich it would  
pay to put up a furnace this  
one that I visited cost \$2500  
I wish you would write more  
particulars how many per cent your  
Ore contains of Copper and when ~~per cent~~

I am quite impatient  
to join you in the Land of  
 Mines and Flowers I never  
had time well so slow but  
once that was when we were  
in the Warren I cannot close  
up before spring money is  
very hard here but this time  
I am selling as fast as I can  
but very low prices all well  
at this time the weather is  
pretty cold today is the  
coldest of the season!

I am in Wisconsin  
taking charge of a steam  
Mill at a salary of \$400 per  
year all gain in this line  
to you Give my regards to  
Jack Hinton and all who  
my enquire for me yours as ever G.H.L.
