RESEARCH SUPPORT--John E. Bennett (left), manager of the Lockheed Ocean Laboratory at Lockheed Missiles and Space Co., is shown presenting a check for \$3,000 to Dr. William J. McGill, Chancellor of the University of California, San Diego. The money is from the Lockheed Leadership Fund and is earmarked for scientific research at Scripps Institution of Oceanography. The money will probably be used to finance research travel for graduate students at Scripps. This is part of the continued support from Lockheed to the University.
