ATTENTION:

All interested sisters who want to fix food for the food for the Karamu (Feast) on Saturday, February 12, from 3-6:00 PM, at the Matthews Cafeteria, contact Saundra Davidson at 239-7284, Julia Meshack at 262-6085, the BSU Office X1167 or Jeanette Duette or Michael Lyons. A "Karamu" is a Black Communal gathering. Everyone planning to take part, please bring a dish and chair.

Applications are now being sought for the Urban Administration Fellow Program sponsored by the National Association of Schools of Public Administration. The program is for graduate study leading to a Masters of Public Administration degree from selected leading universities throughout the country. The program intends to give Fellows the academic skills and the credentials needed to enter the urban public service field, an area which minority group members have had difficulty in finding employment other than at the lowest levels. The program is open to Blacks, Chicanos, Puerto Rican, and American Indian candidates; and variable Fellowship funds are provided. For further information concerning eligibility, please contact William Siembieda, Director of Urban Affairs, P.O. Box 109, La Jolla, California 92037; phone 453-2000 x2076.

DEADLINE FOR APPLICATIONS: February 8, 1972

Lumumba Zapata
General Assembly

On Tuesday, January 18, the first Lumuba Zapata General Assembly Meeting of the Winter Quarter took place. The topic of discussion was the composition of the Board of Directors, which has been on the agenda since last quarter. At one point in the meeting, those present who were not Lumumba Zapata College Students were asked to leave.

In order to vote to change an item in the by-laws, there must be a quorum of students present for the voting. Then, the amendment is presented to the students by mail ballot. Therefore, the problem of the composition of the Board has not been resolved, as there were only 96 students present at a given time, and a quorum is 108 students, faculty, etc.

At present, the Board consists of 3 students, and others including faculty, staff, and the Provost. Some of the students feel that they are not properly represented because the Board is comprised of one Black, one Chicano, and one "other" student selected by the remaining students. As a result, one ethnic group may end up being represented by a person from another ethnic group, which some feel is an impossibility. Others feel that since the Blacks and Chicanos are the majority of students at L-Z College, that they should have more representation than the other ethnic groups at the college.

A motion was made to extend the Board to one Black, one Chicano, one Asian American, one Native American, and one White. Another motion was to extend the Board to two Blacks, two Chicano, one Asian American, one Native American, and one White. Then the question comes up whether or not the Board can function properly at this size.

We can't properly express the feelings of all the people, so we invite anyone to submit an editorial to the L-Z Bulletin staff. After you have gathered the facts, think about the importance of attending the General Assembly Meetings. Other people are working hard to get this college together, so ask yourself if you're doing your part.

dorm Info...

In the first Lumumba Zapata Bulletin of the Winter Quarter, there was an article about people on this campus stealing from other Third World people. Although that was two weeks ago, "things ain't gett'n' no better".

In Upper Ogden Hall, someone ripped off the drapes, and in Lower Ogden the ironing boards are gone. This isn't the only dorm that has been ripped off. In Drake the vacuum cleaners are missing. It appears that the dorm residents aren't the only ones suffering. Some bold person stole the stool from the Resident Dean's Office, and someone has been stealing cups and things from the Custodian's office.

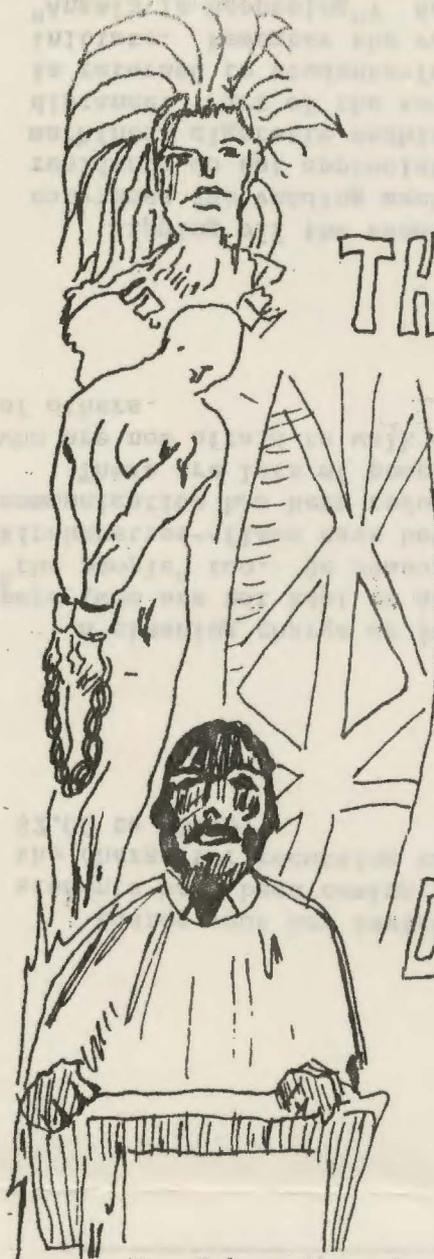

It may be funny to you if you haven't been affected directly, but soon everyone may suffer. It is under consideration to have Foot Patrols on Lumumba Zapata Campus. If this happens, the first move on the part of the students may be to petition against this action. Well don't wait until its too late, lets move right now and put an end to all the stealing from your Brothers and Sisters. As an extra precaution, don't forget to lock your door at all times, even if you're just stepping across the hall!

Losing your key invites uninvited guests to your room. Many students have been coming in asking for duplicate keys. Therefore, the charge for recutting and ordering keys has been increased from \$2.00 to \$5.00.

A cleaning charge of \$25.00 will be made to students harboring pets (who are not kept in aquariums). Our custodial service are "the people" too. Be reasonable--trash have been strewn in your... kitchenettes--fleas have been attacking your fellow residents... communication has been reduced to the level of barking.

There are lots of people who are afraid of dogs, and some who are now afraid to walk on the grass, so lets be considerate of others.

Ripping off the vending machines in the Third College dorms convinces the vending machine people that the Third College residents do not appreciate the convenience of having candy machines, cigarette machines or pop machines within walking distance. Part of the revenue received from vending machines is returned to students-for any activity students may wish to initiate. Remember the referendum you voted on to support "Angela is Happening"? So if you have to walk to the Bookstore when you get the "munchies", or need a smoke at 2:00 or 3:00 in the a.m., or if you want to support any kind of activity and there are no funds--you can thank your local petty thief!!

TOWARDS THE RIGHT OF BLACK MEN TO SHAPE THEIR OWN DESTINY

BOB MOSS

Mr. Robert Moss is a new faculty member with the Physical Education Department at UCSD. He is also the Faculty Representative on the Third College Admissions Committee.

Bob, age 32, has lived in San Diego all his life. He has a beautiful family of two children, Anita and Parry, and wife, Edna. He has a BA in Physical Education from San Diego State College. Formerly, he was a motivational counselor for Black students at San Diego High School. Working on his Master's in Counseling Education, Bob hopes to equip himself so he can continue to create some effective innovations in counseling training programs to make counseling more real to Afro-American students. In addition, Bob is pursuing an umpiring career in pro-baseball in the spring and summer.

Bob feels that the typical approach to counseling is the "Wizard-of-Oz" approach, where the counselor is one who has all the answers. In my interview with him, he expressed a desire to achieve more than this. "I would like to build Black identity that everyone says they have and use that as the basis for building self-esteem and self dignity. One thing that Black students on this campus have to deal with, is too many brothers and sisters walking around with Afro-hairstyles and "processed minds."

As a member of the Physical Education Department, he wants to make the department more relevant to Black students. His work with the Black Hawks (basketball team comprised of Blacks) is certainly a step in this direction. (Bob is the administrator of the team's activities, but says that Mike Haney, who has on-court responsibility is doing a great job.)

Bob is in the process of forming a basketball team which consists of "sisters" to add some beauty to the basketball court! The sisters from UCSD will play the sisters from State on February 18 at a special exhibition.

Bob is available anytime for brothers and sisters to come in and "rap." His office is located in the UCSD Gym (mezzanine) at the "sunny side," facing Revelle College. Once you meet him like I have, you will agree that he is a qualified and a concerned brother.

ELECTION RESULTS

The election of three (3) student members for the Board of Directors was held on January 13, 1972 by Ballot-Vote-in-Person. All Third College registered/enrolled students (as of 1/13/72) and all Instructional Assistants were eligible to vote. Unfortunately, a very low percentage of those eligible to vote did so. The participation level at Third College is very low. We hope that this will not continue during the better part of the academic year. The results of the election are as follows.

Reminder...

REMINDER TO ALIENS

All aliens (all non-citizens) are reminded that they must complete an "Alien Registration Form" during the month of January. The forms are available and should be submitted at any U.S. Post Office or at the UCSD Post Office on the Revelle Commons.

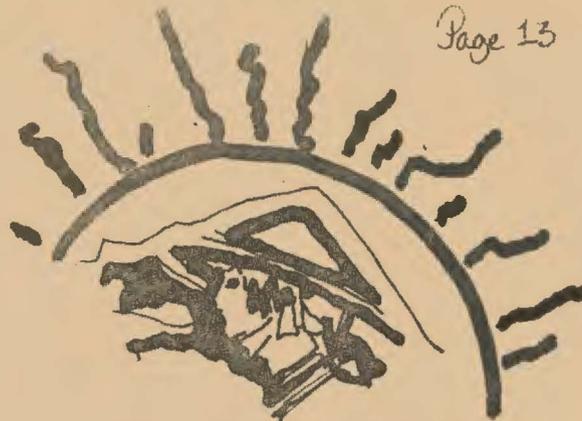

Everyone is invited to hear Mr. G.R. Tejada-Flores, a Chicano newsman and filmmaker at 11:00 am in Quonset Hut #304, Friday, February 4, 1972. Mr. Tejada-Flores will also show and discuss his work.

A program in dental research was designed to provide college students with the opportunity to engage in basic research related to oral health and to become familiar with some of the scientific areas in which dental research presents challenge and opportunity. It is hoped that some participants in the program will choose careers in dental research as a result of this experience. The 10 week summer program is open to any pre-baccalaureate student in good standing, who is a citizen of the United States and who will not receive his degree prior to May of the following year of his participation in the program.

Each research participant will be assigned to an appropriate research lab where he may work in the field of his choice. For more information contact the Minority Recruitment Office, UCLA, (tie line number: 851-7814), Room 13-44A CHS.

THERE'S A QUIET PLACE

Page 13

Need to write papers and can't find a quiet place to go? Can't locate any references within walking distance of the dorms? Well, we have just the place. Where? The Third College Reading Center, 410 MC. What do we have to offer? New books, new references, periodicals and journals. There are books pertaining to Third College classes, periodicals such as Ebony, Black Scholar, El Grito, La Raza, Muhammad Speaks, The New York Times, and more. We do not include regular library services, so books, articles, and periodicals must remain in the Reading Center, so that they are always on hand for others to use. Come and check us out soon and see what we mean.

On January 20, 1972 at UCSD, 252 Black students, faculty and staff were tested for sickle cell anemia. The testing was implemented by Professionals, Pre-med students, and specially trained undergraduates attending UCSD. Continued testing will occur at San Diego State College February 17 & 18, plus selected high schools in the San Diego area. A clinic in Southeast San Diego is being set up by the Black Action Council and the National Black Science Students Organization at UCSD, for the purpose of reaching the community for sickle cell testing.

Students are needed to work on a CITIZEN POWER program in Southeast and San Ysidro, sponsored by University Extension and the San Diego League of Women Voters. CITIZEN POWER is a series of group workshops with local people concerned about local government, and how citizens can exert power when organized and informed. Interested students (for volunteer, some paid work) should contact Bill Siembieda, x 2076.
