Manchester Sept 8th 1881

Dear Child, Sometime ago

I received a letter giving an acc-
ount of your journey, I have just
received another interesting one,
I think your journey must have
been very interesting and the scenery
so beautiful, How can the man leave
the bees alone especially in time
of swarming, how is the drouth
are the flowers any sweeter do
they make any honey, do have
to pay the man more, I think
the Minister and Wife have good
spunk, did your flowers and things
die, is it far to your indian schools,
do your batteries do either of you any
good. Our Stone man says they have
helped his Wife of a spinal com-
plaint and I have heard of others

Martha goes every week when she sees
the table laid taken out and put back
and lights and hands.

Mrs Greely has not been ~~very~~
very well this summer but
so she has been down to Mr
Baileys they are round yet he
is feeble over eighty, they do their
work yet, about the plumes,
Jennie only has her youngest
boy and he I think goes to school
and she enjoys more sewing,
that I think she would expect
to sell them right off at the
store, and Martha thinks
she cant get near as much
perhaps not half, I shall send
cards and keep up a correspo-
ndence with Jen and Martha
says if Mary is well she would
go up and carry them round and
sell them, she has not been well
this summer, not able to do the
work alone long she has a pain
in the left side of the bowels

and a lame back at times
we hope she will be better when
it is cooler, the medium says it
is a strain in the side and will
be all right, so you see we cant
tell what to say to you, but ^{Martha} says if
Mary gets better and they cant
sell them in Concord she will
take them here and sell them
if you cant do any better, there has
some new families moved in
there was some of the branches
loped a little to much in those
last year and I put a thread into
a darn needle and wound round
and fetched them up a little and
they sold much better than
have you got, they must set down
everyone they sell and give none
away, Martha says she should
like to go round with them if
Anna was well.

I should
be happy
to join your
circle proba-
bly shall
soon —
I dont wonder
you speak in
im high terms
of them all for
I think he is
all you claim
him to be
and those
who go to heav'n
have got to
look up too
see him —
I am yours
the same

I written to John Walker to see
if he will take on those con-
ditions. I think it would be a
a verry good place indeed.
I got my writing materials
yesterday but it was so terrible
hot I could not write and had
fan myself all day today
it ^{is} verry comfortable. I have
change my dress verry often —
We have a picture of the west
side of the house but not so good
he had to take it as he did or
you could not see our faces so
so plain. We have but few peaches
this year but plenty of pears and
grapes and apples and gar^{den} sage.
I made 2 two pairs shirts and
an under shirt out of your
riding shirt from your Mother.

Manchester June 18th 1792

Dear Child, I recd yours day
before yesterday, I was glad to hear
Mr M had gone a journey hope it will
do him good, I imagine he has not
business in his office for the other
two gentlemen as there is not much
land sold and not much business
done. Can you raise chickens at you
see March dont the bees sting them
how many ^{here} do you keep these ^{much} how
far eggs, where do they sell them
how many do keep ^{you} do you sell
any, does that Woman live near
who took care of your house,
Mrs Greely has been verry sick
again pluisisy and lame back
is better now all but her back
but looking bad. I think she will

pass over before long. Mr Will Shep
— and had a surprise party. by their
friend they left \$100.00 in silver
money, one of their neighbours said
he thought they were pretty hard up
he is a little better turning his
apple trees ^{can't do much} a while ago. I think
they must owe a thousand they did
a year ago, Nathan Bailey has been
sick. I ^{have} just written to Jennie
and given her your address and
asked her to be kind enough
to get some one to direct a letter
to you very plain and she will
see that the stamp is on good.
I think there will be no trouble
Abina said she thought they were
not all sold Abina sold some in
Concord and she thought there
was some there yet. I think she
will write you soon but she don't
know much if they are going to move
back this summer he could not get

work last winter, He was a very
foolish moove he might have
got more work in Concord so
Abina said. I have made five
bows for Mr Morse and one for
Charley he had some before.
Caroline gave me the silk —
I shall send one in each letter.
I think you can bend them ^{in shape} out.
It was quite a job for me. I can sew
but little while at a time. I have
made over ten pairs ^{for own folks} stockings and two
pairs feetings for L lately and do some
mending. I will acquiesce in what
you wrote and we will try and
get some tests. I don't think it best
to put it in your paper. I am glad
you have got good mediums. does
your little Boy come and chat
with yet. you don't see him. does
he talk indian. We have lately
received news in the paper that
the company who went to on an

exploring voyage with Mr Keysonth
Sonilaw to the Arctic regions have
had a distressing time many died
of starvation others have returned
to tell the sad story to their Friends
I think you have had already quite
remarkable tests, We have had a
very backward spring, If your
honey fails I thought perhaps you
might make a little by your
poultry, I should think you would
be troubled to get any one to carry
it on ^{of} the honey business. The profits
are so uncertain, Do you have
any turns of colic if you do drink
drink a great deal of hot water
and use a hot stone. Don't read even
Mr Smith who lived in our house
can see but little, many others blind
Do the cars have any passengers, is the
bank doing well, do they have any dividends ^{ends is both}
We trust that Mr M will keep every ^{thing}
all snait so that if you should both be taken ^{with}
away that all could be collected ^{from} ^{nothing}

Dear Child I need your verry
kind letter one week since

But I have been waiting for Jemies
letter, I wrote to her that if she would
send your letter to me I would
I would enclose it in mine and
send it to you. I feel quite relieved
to get rid of them any way I was
afraid I never should, I think they
have done as well as they could

They had I there all winter a hard
time any way as it turned out,
He was verry much to blame for
exposing family affairs, he is quite
too apt to speak but I think he
has had a hard fortune is poor
has poor health is all discourag^{ed}
is all broken to pieces, he is stiff and

come and the neck troubles him
and pains him very much clear
up into the back of the head will
swell all up behind his ears in a
few minutes, I have seen that.
He would be very glad to die any
time he has suffered so much.
Eveline Reed has not worked in the
mill for 2 or 3 years they have
sold their house for sixteen hundred
sixty and bought a new one for about
the same opposite Nat. Benkins.
I paid 3 cent on your letter, I cant send
a bow this time, I am glad if he
likes them, give my love to him
and tell him I should like to have
a little a bit chat with him on
railroads, I want to see you both
and tell you that I fully appreciate
all your kindnesses all though I have
never expressed as much gratitu^{de}
as I ought. But I hope your new one
will be in the future.

Lizzie has been here a few days
and made her a dress, these
are nice, she went to Chicago
stayed three years buried three
children in six weeks, came home
alone with three children the
youngest only three weeks old, they
had to leave the house and John
could not come then, Jennie
fell to the ground when they met
to see her with an infant and
unexpected, she has a little girl
and an infant nine months old
very pretty and bright here with
her, Jennie's folks are all at work,
and she makes dresses and
cloaks what time she can get,
they have six dollars next
coming from their house more
than they pay for next, I thank
and his oldest son have three
and a half a day the younger
son gets, they can pay their debts.

if they choose

The Lady is dead where they
paid seven at a month for ^{lay} more
or eight hundred for many
years when he could get it for six
Do you understand your boyd am glad
you have so nice a schoolhouse
When I can hear that people are
coming in and buying land I shall
be quite satisfied, is not the uncertain-
-inty of a crop of honey one objecti-
-on to people, coming in, I have
thought perhaps it might be
I think Mary, it is some better
but Martha is not well she is very
silly & Chery is not well but working
yet, I am round the same yet quite
tired of myself can sew on two
or two at a time. I dont know what
I am living for, The say for some ^{purpose} way
I doubt see it - your Mother

Manchester Nov 4th 1882.

Dear Son, I lately heard
of a gentleman who was going
to Cal I at once sent him that
paper with the pictures of your
city, this gentleman has been tell-
-en in the National bank for a
number of years, his name
is Edward H. Ruess.

Dear Child I ^{have} just received another
kind letter, which helps to keep
up my spirits, I sent you a pamph-
let on Samuel Bowles' experience
in spirit-life, when I sent my
letter. I am very glad your
indian school is to be continued, I
should like to sew a little for them
I do the mending here and made
over 12 pair of stockings lately how
I wish I could do yours. The Methodists
are having a dinner and fare for
the benefit of their church although
it is gone, Martha and I are having
rice baked pork for breakfast
and dinner, I have had a good
appetite the most of the time.
I don't take supper yet but some

had not thought ought to go and see
the judge herself, she
bad and is suffering for having for ten
times I take part of a cup of milk
on a verry little of something
I dont feel the need of much, I put
a bag of hops ^{handly} under one side of my
head and drink a little hop tea
when I retire ^{think} and I sleep a
little better, for it the tea is verry
good for a cough it seems to loo-
sen the phlegm, I think it verry
good, What are those figures for on
the envelopes, we have had the evil
inocial storm, how often do you
bathe. Shall I send you three pair
of good sized nice feeling and one
pair stockings or let them remain
untill you come on. You have
netting here enough to put on
a sp. and perhaps it would do to
repair or make a hose net,
shall I send that, we dont knit
now it dont pay stockings and so
hears, they have a patent to save the
heels of stockings 25 ^{is} verry good. If I

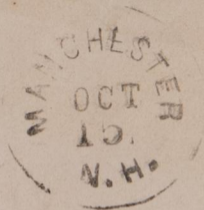

should send the feeling I will send
Mr M a pair they are a great
improvement. Maria Horn died
with the heart complaint. Caroline
is a verry nice dress maker I think
you must have worked verry
hard for the Indians, how come
San Francisco to give to the school,
I should like to visit school, hope
I shall have the privilege soon
I have ate more beans than I ever
did before. Old Mrs Rugg came
to the circle and said I should
pass away easy like going to sleep
Martha asked if it was the Old Lady
where we lived she the little
Indian fil said yes.

from your mother

Dear Aunt,

Grammother is very glad to have me help her out with her letter, and I am glad to do so, even if it is not quite as nice. It begins to feel as though we were going to have another winter. You do not have that to dread, you ask me if I think rubbing does me any good I do not know what to tell you. I did think in the first of it that I felt better but I do not know as I am much better. He says he can cure me which mercy knows I hope he will, for I have got tired of it. He says the ligaments of the womb are weak and it gets out of place and cause this pain to run down my leg and all around my back, but I do not know whether he knows or not. I do not have it might be, that is one blessing. Aunt Caroline Crockett and I went to a turkey dinner yesterday got up by the methodists to help pay for their new church that is being built. We enjoyed it very much. I am bound to go all I can. Charlie and I talk of going to the mechanic's fair in Boston. It is open the rest of the month I wish ^{and the} you could be here to go with us. It is almost equal to the Centennial. You had better come on and go. Our nurse sprained her ankle and staid in the bank 2 weeks. When she first did it she could hardly touch her toe she was so lame but she did not limp any but her ankle swells bad, but he drives her back and forth to the shop it all goes down when she is on the road but when she stands it swells. How is your horse I hope it will not be lame long. What is the fare out to San Diego now that branch is completed. I should think it ought to be cheaper. Charlie and I would like to go there. Mother does not desire to without she goes to live and never come back. I should want to see the place, and feel the benefit of climate before I decided to make it my home. I should want to come visiting first. I think perhaps it might agree with us better than here, the sudden changes are enough to kill any one. Give our love to Mr M and accept ^{the} the best wishes of ^{the} A. K.

Dear Child I recd your
kind letter three days ago
and was happy to hear that
you are both well, and other
news so favourable respect^{ly}
the Railroad. We have some
Congress news in our paper
and I read the Boston Herald
which has Congress news
I hope they ^{will} succeed in getting
Randall the speaker of the
house as he is so favourable
to the Railroad. I am looking
forward with great anxiety
almost dreaming to hear the
result, I shall be verry happy
if it is favourable if not you may
be sure of my sympathy in such

a trying and I might say aggraving case in the extreme of those justice will take place and the Central Pacific King be brought to suffer loss which they so much deserve, but we often see the wicked go unpunished in this world they flourish like the green bay tree they have no bands in their death but I think they must take it somewhere for such sins cannot go unpunished. Mrs Lydia Chase after a long and lingering sickness consented to have an operation with only five minutes notice, she was stretched upon a table 45 minutes and a tumor taken from the womb as large as a hen's egg which could easily been taken many months before when she had some strength she lived five days

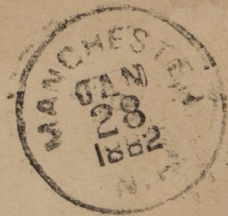

after the operation and suffered very much she had three Doctors. Her Husband is very near crazy almost beside himself, she was a very worthy Woman much respected. Mr Samuel George's stone house was burnt last spring the men folks were at work and Mr Graves was smoking in the shed the last one that was in the house went out to the men in the field when they saw the fire which commenced in the shed they saved most of the furniture I don't know whether they got insurance. They lived at Mr Morse's five or six weeks and moved back into a nice ^{own} two story wooden house of their own. Edwin lives with them and they have given Edmund the other place and have lots of money left. Mr Greeley has

built one house on his lot and
going to build another to let so
if he should die she will have
something. Marietta ^{has} had some
alteration made in her kitchen
but can't get roomers as she ex-
pected. They are owing something
I think but he went with her
to the beach this year she jor-
nies a good deal is quite fleshy.
Mrs Chases house is sold for 22
hundred and she up country.
Cecilia at New York in a theatre

she has spent the most of her

she has behaved verry bad and
lost all her credit here. This
little neck tie is the best I tried
to see what I could make out

begged three or four hats ^{by} which
I fixed over for poor children
this lace was pleted in one I took
the lace on that cushion and washed

My dear Child, I have just received your second very kind letter and paper, with very encouraging news, I am thankful for the rain and all other blessings I rejoice with you, my happiness depends on your welfare and prosperity. I have just written to Jennie and told her that you have not heard from her since she moved and told her to write at once and write particulars and her address without fail I presume she has not directed right or so soon they could not read it. it would puzzle any one, a man called before Christ was with plumes he sold the

The large white ones for ²⁵ 25

said in in your first that Mr
M. had a verry bad cold I am
glad you got the cough syrup
I think it the best, you can put
A verry little lobelia into it so
he can hardly taste it and it will
loosen the cough, continue it will
cure. I has gone to Webster a little
distance from Concord he works
this winter for his board,
we have had two or three
of the coldest days, it is warm
now, my cold is better so I am
around as usual make my
bed and go into the barn but
find I fail as I grow older and
would be verry glad to leave.

This from your Mother.

Dear

A CURE FOR SMALLPOX.

A Paris physician says: "I herewith append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the smallpox though the pittings are filling. When Jenner discovered cow-pox in England, the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world—that of Paris—published this recipe as a panacea for smallpox, it passed unheeded. It is as unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever. Here is the recipe as I have used it, and

cured my children of scarlet fever; here it is as I have used it to cure the smallpox; when learned physicians said the patient must die, it cured. Sulphate of zinc, one grain; foxglove (*digitalis*), one grain; half a teaspoonful of sugar; mix with two table-spoonfuls of water. When thoroughly mixed, add four ounces of water. Take a spoonful every hour. Either disease will disappear in twelve hours. For a child, smaller doses, according to age. If countries would compel their physicians to use this there would be no need of pest-houses. If you value advice and experience, use this for that terrible disease.

Dear Child, I received your
kind letter was verry sorry
to hear you are having a
a poor honey year, I think it verry
singular that there is no honey in
the flowers, I am glad j. Gould has
some spirit, I hope he will hold the
road and make them smart
for their for their folly, and extend
the road to S. D. Mrs Greely was here

owes eight hundred even since
he built the house and has paid
seven cents, why do you pay so much
interest because money was high
then but you can get enough for
five now yes I suppose I could, said I
I would not pay seven perhaps I
shall make a change

she told me the woman wanted
it to lay and have the interest every

Dear Child. I received your
your verry welcome letter.
day before yesterday. you did not
say you had received one from
me. you should have had one
before you wrote. I sent one
with a cuff. I imagine you forgot.
Our fair commences tomorrow.
I send in three black neck ties
and three white ones. I have lately
transferred three white ^{mushits} ones.
One for you one for Martha
and one for Anna. They are
thought verry pretty. The black
ones I transferred last year one for
Anna handsomer than yours.
I had a handsome vail given me
after I worked yours. The black one

I send now for you is the first
one I worked last year not so nice
I think I shall send the white
one in the next letter. I like
verry much to do the work and
feel lost without it. I shant work
on black and presume I shant
on white any more. Lydia
chase is confined to her bed yet
but verry little better. she has
flown so that it was verry difficult
to examine her but the Doct has
and says it is a polypus in the
womb & thinks he can take it
away if she can get a little stro-
nger but her appetite is poor she
stands a poor chance she was
flown all the fall and winter
and did nothing for it untill she
was sick in bed but might have
been cured at once if she had
called for medical aid Mrs May-
nard was troubled the same
she went to Washina and staid

one week had the polly ^{prostaten}
from her and was verry soon
as well as ever. two others have
been the same. Mrs Page a very
labour has had two ^{taken away} and is well
as ever. If you should ever be so hap-
py something done at once and there
is no trouble. Mrs Maynard
wants to know all about
the Kimballs circumstances
how does Horton get along, Martha
carries a loaf of bread with
two large Milliners boxes.
We have an Omnibus and horse
cars lately. she is washing this
morning and baking her
bread and going to enter the
things. She would wash any
way. I am afraid she will melt
it is a verry hot day. we have
had a verry hot summer but
I stand the heat better than
I did the first of summer.

edema is same better about
the same as usual, we are
about as usual Charley not quite
as well. Poor ned proved to
be foundered his shoulders and
legs verry stiff and so he could
hardly trot. he swaped him
after keeping a year some
for a balky horse that would
not start from own own door
but would usually go every
where else. Charley could
not bear that and he got
Mr Bailey who keeps a stable
to trade him off for a horse
that has the horse ail he has
had one some break and an
other just ready to break, his
throat is verry badly swolen
he is young and worth four of
the other if he lives but that
is doubtful. they now tie his thro

Dear Child, yesterday I recd
another verry kind letter from you.
I was verry glad to hear that your
bees are doing well. I hope they will
find sweetness in the flowers

a few days ago I received four papers
soon after the union and the graph
I think it verry beautiful and interest^{ing}
I think I understand the map and can
see how the Railroad is situated. How can
you derive much benefit from the papers,
I suppose they are only sent to private
individuals, will ^{they} be used in public or re-
printed, I hope they will have the desired
effect to call people to your place. I think
the news in the papers is verry flatterin^g
with regard to the Railroad, I think Mr
Foster lived and died with Betsey three

years ago, Mrs Greely has been verry
sick she is better now she says she
thinks she could not live through
another. She does her own cooking now
the cooking where they took diners
did not suit them. They eat milk
for supper now, Martha saw a Lady
the other day who lives three miles
from Mr Moses son, she says he
passes by her house every day with
a milk cart and she knew nothing
but that he was steady and doing
well, he went to the same meeting
she did dont rub his back verry often
with liniment. I think I kept myself
lame^m for years by rubbing too much with
liniment. a plaster cures Cousin Cherryls

you that the ^{of} light was mine. I have
worn my seven cent dress ^{all winter} it looks as
well as all well. The weather has
been horrid cold, we have scarcely
seen the sun for a week been
raining every day verry chilly indeed
Lizzie Whittle called has spent the
winter in Boston. She is going to keep

Dear Child, I have just recd
another kind letter from you
I am glad to hear that things are
so favourable, I lately heard of
a gentleman going to Cal with
his family on account of his wife's
health Martha at once carried her
- on that paper with the picture
of your city with a letter of
introduction to Mr Morse, he ^{has} seen
the 10th of Nov to visit southern
Cal, he said he thought he should
go to San Diego, his name is ^{John} Fair
he has been teller in the station
bank here for a number
of years, I have a bad cold but
still I am around the house,
I recomen^{ed} hop tea to you but -

come to use it - I think it too bra-
-cing, I use the cough syrup, they
have got a new straw carpet
for my room, I hope you will
both be on the look out for every
thing is so uncertain in Cal one
day you may be worth millions
the next day not a dollar -
This gentleman will not be
at your place for some time,
is the bee line called the Texas
Pacific, I have not heard from
ally lately, we have had a plenty
of rain, I think I shall soon
send the bundle, the mat is too
heavy to send you can take it
when you come, with some
things in the under drawer,
I don't think of anything more,
so goodby,

from your affectionate
Mother,

Dear Aunt,

I have got quite a space to fill out
and not much of interest to write, but
I will try and fill it with something
if it is not quite as bright we are having
cloudy weather most of the time. the
wind is out east a good part of the time
Yesterday we had a snow squall. It has
begun to threaten us what we have got to
have soon. I was down to Aunt ^{she} Caroline
Brockette yesterday and she said had got
sick of such cold winters and I have too, what
is the fare to go to your place now and can
you go all the way by rail I would like
very much to take a trip out but another
says she shall never go there untill she
you to stay it makes her so sick to ride
in the cars, but I enjoy it. I think we shall
be obliged to fu I have a cough a good
part of the time and Charlie has a trouble
in his throat and the east winds don't make

have your horse get
well, our horse sprang
his ankle and was

a fortnight, but she
is not lame now but
his ankle swells,
when she stands
and goes down
when he dips her, but
his ankle is weak
and he does not
drive her any more
than he can help,
I guess you will
say enough of such
scribbling, the cat

we have not seen Mrs Greeley for a long
time. I think she must be sick or she would
have been up here. She goes to her daughters
a great deal she can ride most of the way
in the horse cars. I do not know how Mr
Shepard is I saw him to the fair here and
he looked bad. Charlie drew a nice silver
watch at the grand army fair, there were
a hundred nice presents drawn, and he
was lucky enough to draw a watch. It was
a splendid fair. They sold over 5,000 tickets
one week ago last saturday Charlie went to

I have just received another
interesting letter bearing favour-
able news saying the Railroad is
finished for which I rejoice with
you very much. Does it make them
welcome. How can you ^{they} entertain
them all, do you have any. Your
house looks very well now you
have got it fixed up I suppose.

My Gossely saw a notice in the
Boston paper of a Southern Railroad
commenced. She could ^{not} recollect the
name but thought it might be
the Bee Line. I think it a mistake.
Mr Edgeton was here the other
day would like to see you send
her love. Miss Clark is at the
Old Lady's home pays three dollars

Angelina George is almost totally blind she owns a house lives alone a part of the time and a part with her daughter at a distance who is rich. She has been here goes round alone. Cyrus George has buried his son some time ago has one daughter and wife living he thinks to get two on ~~three~~ thousand pension his son died in Libby prison. Martha saw a notice in a paper of a lady who went from east Charleston S.C. to S.D. for an indefinite time. Martha has been to Mrs Gneelys is very weak and feeble she goes over to Louisa's every week, we have had a good rain, but little fruit, we have had our floor painted, I am around the house the same men and saw some where is Mr Negonith's daughter

John's house and land is a part of the old farm where he has lived Lizzie has had only B. size ^{boot} living, she is in good spirits singing and seems quite happy. Ed says he would come upon the town if he should leave ^{him} the boy has worked terrible hard. She looks younger than Jennie. They ^{have} bought a horse mouse for it. I am very sorry about your school. Mr Shepard is not so well they think he would live long many months. Let's a charm ^{ber} and wants to let her parlor. They can't find business to do in the office for three what does Whaley and Howel do, Mrs Coze died in Nashua with secty buried here to day, Mrs Wood lost several hundred by her brother west and thousand of life insurance. The company failed ^{leaves} ^{music} ^{and} ^{music}

Dear Aunt.

I now have another chance to write a few lines to you. It has rained very hard to day again and is not over yet, untill the other day that it rained we had not had any rain since the 5th of July quite a long time for us to wait: now it has commenced I expect we shall get enough of it. One week ago yesterday we came home from the beach after staying there 9 days we had a splendid time I felt nicely while there went fishing about every day. Tom and Ella and her little girl went with us and another family we had a cottage all to ourselves and cooked our own food which consisted of fish mostly, it tastes very different there. Do you have nice fish where you are. I know you do not have oysters that are very good. Grandmother wants to know if you have sweet corn. I had forgotten about it: whether you did or not. We have not had so much this year on account of the dry weather. I should like to have been one of the excursionists to have gone to your place. I hope now you will come on there will be no excuse now you have got a railroad. I am glad Mr. Morse has joined that society. I should think it might be a great benefit to him and certainly it would to you if he should die. If Charlie should die (which I hope he won't before I do) I should draw about fifteen hundred from the Odd fellows. Aunt Maria's name died very sudden of heart disease. He felt very sad about it. He won't get another like her very soon. Aunt Caroline lives here and does drake making all the time. I go and see her very often. She lives in Knowles block, hires a whole tenement and lets some enough so her rent is only one dollar besides she has three rooms herself. She takes her meals out and seems to enjoy herself very well. I have been going to a clairvoyant and have been misled I thought I felt better but the wet weather or something makes my back feel back but I am going to give it a good try and see if I cannot be cured he says he can cure me in a short time I hope and pray he can for I have had it long enough I hope you are both well. Give our regards to Mr. M. and be sure and come on as soon as you can. M A K

Dear Child I recd your kind
letter several days ago but
having taken a severe cold
that prevails here I felt
unable to answer it. I have
got the note all right. I was
confined to my room only
two or three days. I am now
since better but not well.
Mrs Chandler's dear ~~old~~ ^{dear} has
passed away with a kidney disease
unconscious the most of the time.
I received your large paper
and bear a good deal of good
railroad news but I am very
sorry to hear that the Texas
Pacific has gone to S. F. what will
they do with the Depo land.

Mr Shepard is better but not able to work. Mrs Davis of Haverhill has a cancer been sick 16 weeks. I had a ^{st-}prose^{el} of a red woller worder from I dress warm.

Jan 1st 1882

I wish you and Mr Morse a Happy New Year. It does not seem much like January not any snow at all. It has been very warm for the time of the year. a little colder to day. we have had a great deal of rain. I suppose we shall have enough cold weather before spring. How I wish we were all out with you then we should not have any cold weather. I have not been well since last

spring. I was taken with what Dr Guerin called Neuralgia of the left ovary. I have had it at times ever since. It commenced in the left side of my bowels and run down to my knee. and sometimes it would go across my back. It is not very nice to have. It has taken the flesh off of me a good deal.

Mr Kimball of Haverhill the one that has had mother's money was found dead in his bed. Heart disease was the cause. when is the railroad going to be ready for travel so you can come on. They had ought to give you and Mr Morse a free ride to New York.

Mrs Greeley has had all her teeth out and new ones

in. she looks ~~to~~ a great deal
better. but they trouble her some
about eating. I suppose you had
Christmas presents. I had some very
nice ones. I had a nice watch and
a nice thistle ring a set of earjewels
and pin a beautiful Album a
box of handkerchiefs. & a basket
of ^{be} dried flowers. and a napkin ring.
did I not do well. I suppose Mr
Newman & Daughter have
arrived before this. I think he
is a splendid man so did
the rest. I am very glad you
had such good success with

Dear Child, I received your
 night before last a paper ^{with} the San
 news printed July 2^d. a few days ago
 I received one from ^{the Union} Mr. H. of July 10
 with a map of the city and Harbour
 of San Diego all Railroad news
 verry interesting so favourable
 to the Railroad, much more so
 than I ever expected to hear, espe-
 cially since the Railroad strike
 here, I was afraid that would be
 unfavourable to your noed and
 cause more prejudice against Rail-
 roads. Were those bows jammed you
 say you don't see where I get my
 stuff to make them. Mrs. Bayley gave
 me a nice cap which I could not wear
 with a great deal of lace on it which

she sent one with what I ^{heard} in the
house, the white satin came in a my-
sterious way, I said to Martha one day I wish
I had something pretty to make many
one bow more, and in the morning
she said to me there is a piece of
white satin on the window for you,
said I where did you get it in the wood
box with that old paper that came
off from your room. It was quite a
wonder to us but I think it must have
been rooled up with the paper
she bought at auction. If you buy at
auction look out for short nools,
mine is verry handsome. Charles
and Anna are gone to Candia to
carry Mr. to visit an old Neighbour
two or three days and to go berry
which she is very fond of especially
blackberries, I suppose you don't have

Adonias is rather better now about
as usual, they ride out every night to
exercise the horse, he rides to the
shop with Tibbets the man that spo-
his horse. Martha complains of
one side being ⁱⁿ rub but still will
great days work or walk two or three
miles and back, she is verry ^{less} ^{care}
I am now about the same, have
felt the heat more than common
and not quite as strong. Della Doe
stayed here the other night she and
Lissie went to Handwick and stop-
ed at Elbas three weeks was sent
for to go into the shop had ^{not} seen any
any of the other friends were inte-
nding to stay three weeks longer
on account of the babe, she said
they were all well she heard ^{ing} ^{nothing}
about Elbas eyes so I think they are
better. I write in my lap too if
you care to read it I shall be glad -
she said she came right through

Lydia Chase did not return with
stomach stoped to be Doctored but grew
worse had bad spells of flowing way
fetched home on a bed I think
thirty miles. She has flowed bad
by spells and had great clodders ^{spuff}
which caused great pain and
the Doct dares not stop her flow-
ing for fear she will mortify.

the womb but says he thinks
he can help her, but I think
doubtful as she has no appetite
no strength, Can you sell your

will be too hard for him. I hope
you will both take care of your
health while you have it.

here all winter.

Dear Aunt,

There is a little room

for me. I will try and fill it out with something. In regard to my health I have the rheumatism or some other kind of an ailment. It starts from the left side of my bowels and goes down to my knee and it has run around my back. It has been a year since I was first taken. I have been better. but now I am having another touch of it. we have such sudden changes that it is enough to kill any one without they are made of iron. I wish I was out where you are. I do not think I should have three aches. I hope we shall go there some time. Aunt you coming on here this summer I wish you would and perhaps we would go home with you. I hope mother will get all of her money but Charlie thinks if she gets half she will do better than he thinks for (Hee Kimball) was an old villain to do as he did. but we hope for the best. My love to E. W. M. and yourself

Your kind advice to Martha on my letter and all the favourable news from Cal. I think will be very be very beneficial to Martha. She has felt very bad. But I tell her she is well enough off she has got enough left. Many of us has been quite regular for some time. I have always felt a great desire for the welfare of Cal but have been more anxious lately than ever on account of the Chinese, I am looking in the paper every morning hoping to see a favourable bill passed. It appears that the Cal Senators were very much surprised when they found the bill vetoed. I hope everything will work for the best. Mr Shepard will have nine hundred left. Sarah Walker has married a man from Clatsqua his father is not dont know whether he has anything or not. he has fixed up the west part of her mother's in London which they will occupy. their house has

probably lose a large share of it. it is too bad, but these things must be attended to. We see Mrs Greeley once in a while. She looks very well with her new teeth. She wants to go out where you are very much. She had neuralgia in her head and liked to have died. Last Monday night the Odd Fellows had an anniversary of the Hillsbourn lodge of which Charlie is member. we both went. they had a great supper. I had to cook for it. I carried a Coconut Cream Washington pie frosted and sprinkled with cocoanut. and some frosted lemon cakes. I brought some good things to Gram. I have just had a new black

I received your interesting letter several days ago, but have neglected writing on account of having the freestone hit against my ankle which broke the skin and caused a sore I think it is healing and will soon be well, I have been confined to my room four or five days but shall soon be out. Lizzie Whittle has called and is at her sisters having been disappointed of two places in Boston. She can't sew, but is what they call darning lace for her sisters window curtains they are verry handsome.

what a mistake I have ^{de} made

Mrs. Greene has a verry bad sore on her face which they call salt-rheum, they can't seem to heal. Mr. Shepard is a little better, she says there is no bright spot for her. we sent a Christmas present a few days ago by mail two pairs cotton stockings a neck tie and a holder from Jennie we received a beautiful present from you three napkins. I shall send one to Margaret Chanley's sister the others I shall give to Martha and Doris. Margaret has sent me two cards I send one to you she sent one last year and says that mortgage safe on that ranch does he pay the interest and had not Martha ought to have

Dear sister

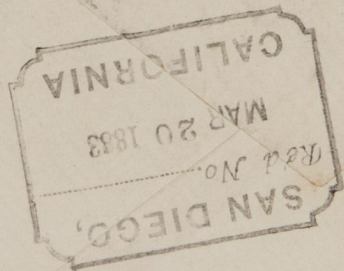

We have sent you a paper with Mother's death in it which I suppose has reached you. She passed away last Friday night at half past 10 o'clock. She was taken with cutarral fever was sick a week was unconscious 4 days never spoke nor opened her eyes. We think she had a shock. She has longed to go so long that we ought to rejoice that she has passed over. It will be such a beautiful change to her. Mrs Sullivan sat with us in the room & she saw floods of the most beautiful light hang over the casket & the

forms of spirits spirits
from little children to older
ones dressed lonely & all looking
so happy. She has been very
feeble for the last year but
did not want you to know it
She has had every thing for
her comfort blankets & cotton
batting we have wrapped her
in this winter & a fire in her
room all the time. She has been
confined to her room all winter
the most of the time. Lth was
here but the Concord folks did
not come on account of the snow
storm which was very severe
Mrs Greig could not come and
not able she is very feeble
Will Shepard is failing fast

has had another bleeding

I received your letter the 9th. Mother thought you would not be surprised when you heard of Grandmother's death. It seemed sudden to me for all she has been so feeble. She had not been hardly able to be around for more than a year but she would not let you know it and made me promise I would not tell you. so I did not. she seemed to suffer a great deal for months being short breathed and pain in the side. I think her liver was affected. but she would keep around untill she hurt her leg. she kept her room then about a fortnight, that was all healed and she had come out in the kitchen to her meals then she got this hard cold just such a one as

J. K.

11th 18

she had when you were on, only I did not think she was ~~so~~ sick, but of course she was we did every thing same as we had done for her and I thought she would be better, but she went in to that unconscious state and never came out of it, I wanted to have a doctor and she said she would not take their medicines. Your letter came after she went in ^{that} condition. I felt very bad to think it did not get here sooner, but it could not be helped. We miss her very much but what is our loss is her gain. I do not wish her back in ~~this~~ suffering world, we sent for L. as soon as she lost her mind, we knew then she would not get over it. I think she must have had paralysis of the brain. I did not dream but what she would get well untill she had that, she never opened her eyes nor spoke after monday night and she lived so untill friday night, none of the relatives came. It was very bad weather we had had a hard snow storm and the roads were almost blocked. The neighbors could not

hardly get in. Yesterday we had another hard storm. ~~Such~~ a quantity of snow you know something about it because ~~you~~ have lived here but let those that never have seen snow take a look at it they would open their eyes, we have had the coldest weather this month that we have had all winter. 23 below zero in some places in the city day before yesterday morning but it was only four below at our house at eight o'clock, that is colder than I like, we have all had very hard colds this winter, it seemed to be a distemper we never had such colds before. I think ~~your~~ mother had the same thing, and she was so old she could not bear it. About the board, you ^{know} what it is as well I, it would be just one year and a month from the time you gave us the note. You gave us a note for her board up to Jan 1st 1882 and that would make just a year and one month due besides. We are not in a hurry for it you can send a note for the remainder and

pay when you get ready, Charlie
has not gone to work yet, he is in
hope to find something to do soon. We
probably shall never go to San Diego
without we go there to live. it would
cost so much without you get a
new railroad fare would be cheaper
then. I am sorry for you that the rail
roads do not progess faster perhaps they
will take a start soon. I was in hope you
would had a good rain. Grammother
used to worry a great deal about the
railroads and the drought there.
Mother attended to the will. It was
here in the house not to Mr Maynard
as you supposed. Mother went and
asked him if there was a will there
before we looked and he said there
had been none left there. She came
home and looked around and
found it. Judge Cross will attend
to it and you will receive papers
from him. He said there would
not be much to do, so it will not
cost a great deal. I do not know as you
will ever want to come to see us now but I
hope you will and soon too. The funeral
expence were 72. dollars so far there will
be the expence of moving her in the spring that
will not be a great deal. Mother has settled
with the undertaker. I hope you will write
to me the same as you did to Gram. Mother
did not mean the farm in Amherst

that Mr. More put
about there
the ranch
she meant the ranch

On June 4/75 I transferred 20 shares of
Bank Stock & received my note

Be it known that I Lucy Walker of
Manchester in the County of Hillsborough and
State of New Hampshire do make and
publish this my last Will and Testament
in manner following:

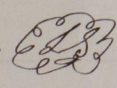

First: I give and bequeath to my son
Lyman H. Walker the sum of Five Dollars.

I give and bequeath to my daughter
Martha George the sum of Five Dollars.

I give and bequeath and devise to my
daughter Mary C. Walker all my real
estate situated in Methuen Massachusetts
and all my real estate in Manchester
aforesaid and all the rest and residue
of my real and personal estate and
property of every kind and description,
(after payment of my debts and legacies)
to have and to hold the same to her the
said Mary C. Walker her heirs and assigns
forever. And I do hereby constitute
and appoint my said daughter Mary
C. Walker sole executor of this my last
Will and Testament.

In witness whereof I have hereunto

set my hand and seal this 27th day of
August A.D. 1853

(signed) Lucy Walker 

Signed sealed and declared by the above
named Lucy Walker to be her last
Will and Testament in the presence of
us, who at her request in her presence
have subscribed our names as
witnesses thereto.
