

## JOHN C. VEYSEY IS A PROPAGANDIST FOR THE ABSENTEE LANDOWNERS

In the March 27, 1986 issue of the local newspapers is a Voice letter by John C. Veysey, who is listed as Vice-President of the 45th Agricultural District of the State of California.

I have already told you how the California Women for Agriculture pushes its propaganda in the grade schools and high schools of Imperial County. They are bad enough with their lies but John Veysey is worst.

For instance, in the 3rd paragraph, he writes, "The Preble Building once again housed the "fruits of our toil". This is a lie for it should read, "fruits of the toil of the people of Mexicali" for ninety percent (90%) of the farmwork here is done by inhabitants of Mexicali, Mexico.

Then in paragraph 8, he writes, "I believe the 10 day show was a "shot in the arm" for the Valley's morale". The merchants still have bad business for the Mexicali farmworkers take their puny wages back to Mexicali to spend and the MidWinter Fair did not change this. When the Vargas Circus comes to the Fairgrounds, the children have just as much fun without being subjected to the propaganda of the big farm interests and their allies. The unemployment still remains 40%.

In paragraphs one, two and nine, he raves about the 4-H and FFA especially as to the livestock being so wonderful. So you should know the history of the Veysey family to not believe the hogwash that Veysey gives out. Victor Veysey, his father married a rich woman who gave the family the 800 acres it has. The father of John Benson whom I attack also for being a propagandist, built up his ranch from nothing.

Now the absentee landowners who own ninety percent (90%) of the farmland as tax shelters, DO NOT WANT THE LITTLE PEOPLE OF IMPERIAL COUNTY TO GET THE EAST MESA LAND FOR FARMING. THE LITTLE PEOPLE COULD GET THIS LAND FOR \$320 FOR 160 ACRES. So the children of low income and mid income in the 4H and FFA are kept in ignorance so that they do not write letters to U.S. Congressmen and Senators to sell the East Mesa land to the little people. Just after World War II, the Federal Government began selling the East Mesa land and ALSO THE MESA LAND JUST EAST OF YUMA, ARIZ. But John Elmore and Jack Benson went to the Truman Administration in Washington, D.C. and got the sale of East Mesa land stopped. THE SALE OF THE LAND EAST OF YUMA CONTINUED.

Then every year, the local newspapers have a picture of a rich child standing next to an animal sold at a high price at the Fair. What happens is that the father of the rich child has a friend buy the animal at a high price and secretly pays back the money to the friend. THIS DOES NOT HAPPEN TO THE ANIMAL OF CHILDREN IN LOW OR MID INCOME GROUPS. The 4-H and FFA are just propaganda organizations where the children are kept in ignorance so that the children of the wealthy are publicized as being able to GROW WONDERFUL ANIMALS. So the non-wealthy children have much heartache at the MidWinter Fair if they have animals to sell!

Do not forget to write in Dr. Yellen for Sheriff when you vote June 3, 1986. The Sheriff's salary of \$41,000 yearly will be used to hire lawyers so that your electricity bills be reduced 66%. When this happens, John Veysey instead of paying about \$36,000 for irrigation water yearly, will pay \$160,000 and the electricity swindle will be stopped.
