FRUITOLA

A Remedy for

Stomach Trouble

Acidity, Bitter Taste, Indigestion, Weak or sinking Spells, Bloating after Meals, Specks before the Eyes, Flatulence (wind or gas), Constipation, Malaria, or any condition resulting from impaired digestion, inactive or torpid liver.

DIGESTION AND NUTRITION

Upon the perfect working of the digestive or nutritive system depends the health of the whole body. The slightest functional disturbance of the stomach affects the whole system; stomach trouble is stomach weakness, a failure to furnish fluids of sufficient strength to digest the food, which remains too long in the stomach, ferments there and decomposes in the intestinal tract, inducing inflammation (catarrh), generating foul gases which taint the breath, produce a sense of fullness or bloating, regurgitation or bringing up of sour or bitter fluids, suffocating or dizzy spells, pressure and pain, inducing fear of heart disease and other unpleasant symptoms. The bowels become deranged, either constipated or unduly relaxed, there are depression, irritability, lack of ambition, weariness, and all the disagreeable features of dyspepsia, all due to the clogging of the stream of nutrition, which has become a stagnant pond.

Among the conditions which contribute to

these disagreeable symptoms are

GALL-STONES (BILIARY CALCULI).

These deposits prevent the flow of bile which is necessary to complete digestion,

but are seldom suspected unless there are attacks of

BILIOUS COLIC

which begins with severe and prostrating pain on the right side, spreading to the left; there are perspiration, cold extremities, and spasmodic contractions of the abdomen, due to the pressure on the obstructions from behind by the bile. When the pain ceases there is soreness and prostration. Until the cause is removed the sufferer is subject to recurrent attacks.

BILIOUSNESS.

When the bile is forced into the stomach, by pressure from below, it causes the condition known as biliousness, indicated generally by bitter taste, coated tongue, naused and vomiting of green or yellow matter, sick headache, dull pain in the side, etc. When the pancreas is affected it causes a peculiar indigestion, pain on the left side, uneasiness or heaviness, sometimes burning at the pit of the stomach, a craving or sinking feeling and dizziness, there is distaste for fatty foods, the sufferer is thin, sallow and yery miserable.

APPENDICITIS

So called, is an intestinal inflammation extending to the quill-like attachment to the Caecum called the appendix.

In the chronic form where there is uneasiness or soreness indicating inflummation as well as in other forms of intestinal inflammations which cause digestive discrders, Fruitola has been used with beneficial result due to its cleansing and soothing character.

and enemb energy DROPSY a nonfew and tand

Which so often accompanies both Liver and Kidney troubles, has been reduced by the laxative action which carried off the water through the bowels in watery stools.

Filere are person. Altorion Strembles, and

In all functional disorders of the digestive system Fruitola, when used according to direction, has produced most beneficial results. Of its nutritive quality and cleansing properties there is no question. It is purely vegetable, contains no opiates or deleterious drugs. It has been recommended and re-recommended by those who have used it for these conditions and derived benefit from its use.

Pittsburg, Kansas, Feb. 8, 1911. Pinus Medicine Co., Los Angeles, Cal.

Dear Sirs: I feel that it is my Christian duty to you, as well as to any one suffering from gall stones, to write this testimonial. I suffered for two years with gall stones. I had so many doctors but they did me no good. I. had my brother try your medicines for both gall stones and rheumatism, and they cured him. He begged me to try Fruitola and Traxo in my case. I have taken them since Christmas and am writing to know if I would better take more. I feel like a new woman, sleep well at night, and my work no longer seems like a burden. I will advertise your medicine in every way possible to those who suffer from this dreadful trouble and wish you to use this testimonial in your booklet.

MRS. ALICE SPANGLER (55 years old)
Pittsburg, Kas.

Route 4.

DIET

Persons suffering from Stomach, Liver or Kidney trouble should avoid all greasy fried food, eggs, sweet milk, potatoes, pastry, hot bread, pork or veal. White bread if used should always be toasted, vegetables that grow above ground will be found better than those that grow underground.

Beef, lamb, game, poultry and fish except salmon may be eaten; cooked fruit will usually agree better than if eaten raw, buttermilk is good, coffee and tea should be used with moderation.

Avoid a liquid diet. Give the muscles of both mouth and stomach something to do.

Most of the so-called breakfast foods are starchy and clog the system; we do not advise their use. These are merely suggestions, but users of our medicines are invited to write us and questions will be cheerfully answered.

TRAXO

Trade Mark Registered in U. S. Patent Office A Tonic and Regulator for the LIVER, KIDNEYS AND SKIN.

THE LIVER

Is the great filtering apparatus of the alimentary system; it separates the pure and healthy blood from the poison-laden bile; when, from any cause, it fails to do this, the bile is carried into the general circulation, where it acts as a rank poison, gradually sapping the strength, clouding the brain and undermining the tissues. As the poison accumulates it discolors the skin and eyes (jaundice), affects the kidneys and breaks down the system. The liver is nourished by the blood sent in from the heart, and if the heart receives poisoned blood, that is what it will send out again. FRUITOLA cleanses this disordered state, and to revitalize, restore to permanently healthy action, and supply it with pure healthy blood, we ad-

TRAXO.

This preparation is recommended for its tonic and alterative properties and its action on the liver, kidneys and skin; to stimulate and regulate the flow of gastric iuice, hinder the formation of gall-stones, and, by restoring bowel action, to prevent constipation. Its gentle action on the kidneys removes waste, and by removing bile from the general circulation it clears out and tones up the sallowest and muddlest complexion. A dose of Fruitola should invariably be taken before beginning Traxo.

Price \$1.00 per Bottle.

A

RELIABLE REMEDY

FOR

Rheumatism
Sciatica
Neuralgia
Gout

Price, \$2.50 per Bottle
By Express, \$2.75

RHEUMATISM

Rheumatism is the most common of all the ills to which poor human flesh is heir; perhaps no one malady causes so much suffering and loss of both time and money.

• Every imprudence in eating or exposure • to the weather is sure to aggravate it, and unfortunately, none of us are wise enough, to be always on guard.

Notwithstanding the large number of sufferers from this disease, comparatively few understand its source, nature or proper method of treatment.

Rheumatism is purely a disease of the nerves and muscles, and is caused by impurities in the blood and derangement of the blood-purifying organs, the liver and kidneys.

It is developed by cold, dampness or too sudden chilling while perspiring; all or any of these impairing the healthy action of the kidneys and throwing back upon the system the uric acid which should be carried off through them. This acid becomes partly crystallized and is deposited in the fibrous textures surrounding the joints. When this causes inflammation, great pain and swelling and changes from one joint to another, it is known as

INFLAMMATORY RHEUMATISM.

When it attacks the muscles between the joints and there is no fever, it is known as

MUSCULAR RHEUMATISM.

When it attacks the nerves of the joints, causing severe pain, but with little or no swelling, it is

CHRONIC RHEUMATISM.

When the muscles on the posterior part of the neck are affected, it is known as

CERVICAL RHEUMATISM.

And when it attacks the loins, it is known as

LUMBAGO.

If it affects the sciatic nerve, causing pain in the small of the back, down one or both limbs, or up the spinal column, it is

SCIATICA.

GOUT and NEURALGIA are kindred diseases, all due to the same course—excess of uric acid in the system, due to impaired action of the kidneys.

RHEUMATIC GOUT, especially where chalky deposits have formed, as well as SCIATICA, comes from a disordered state of the liver; in these two forms of the disease, as well as when constipation exists, FRUITOLA and TRAXO should be taken in conjunction with PINUS.

That part of the nervous system which is weakest will be first attacked, but in time Rheumatism may extend until the patient is afflicted with two or more, and in extreme cases of long standing may suffer from a combination of all kinds of Rheumatism.

It is not a Cure All, but is prepared expressly for Rheumatism, from ingredients which act directly on the liver and kidneys, and incidentally regulate the stomach and bowels, acting as a tonic in promoting a good appetite, enriching the blood and strengthening the system.

Being taken internally, this remedy reaches the source of the malady where outward application affords temporary relief from pain.

It has been found necessary to give this remedy a distinguishing name, to prevent fraud by substitution. Hence it is called

If the directions are strictly followed this medicine will be found very satisfactory.

We do not desire to furnish this remedy to any one who will not use it according to directions, and therefore desire purchasers to advise us as to results.

So often patients ask, "What shall we eat?" that a suggestion regarding diet seems quite in place.

Proper living will not eradicate Rheumatism; but it most assuredly will help "Pinus" to achieve its happiest results in freeing your existence from its torturing pain and saving you from a very bad end. A rheumatic must be nourished; most especially one who has a languid appetite. Three meals a day, with something between, are not too much for such a one. As to what you can and can not eat, here is the rule.

Do NOT eat hot bread, or cakes, rich pastries or foods fried in lard.

Eat sparingly of white bread; plentifully of whole wheat, graham, or rye. Use olive oil as a frying agent and as a dressing.

Do NOT eat venison, veal, goose, or anything in the line of pork. Eat lightly of broiled beefsteak, lamb, game, sweetbreads, brains, etc.

Do NOT eat lobster, crab or fried fish, but enjoy oysters, clams and any light fish, baked, boiled or broiled without sauce. Of vegetables, do not eat tomatoes, cucumbers, or salads with vinegar dressing. Lemon juice should be used instead, as it enters the system as alkali. Eat lightly of potatoes, dried beans, peas, or raw onions, but plentifully of green beans, peas, carrots, turnips and well-cooked greens, asparagus, and celery, cooked and raw. For starch eat rice. Plenty of well-cooked rice is

worth all the bread, potatoes, beans, etc., put together. All cooked fruits are good. but let raw apples, pears, strawberries. grapes and even oranges alone—until you are sound and well.

Where there is creaking of the joints.

beat the white of an egg with a few spoonsful of lemon juice, and a half glass of distilled water, and drink the first thing in the morning. If using "Pinus," wait two weeks before using this; then take it upon alternate mornings.

Drink sparingly of tea and coffee, plentifully of cocoa, milk, water-hygienic dis-

tilled water if possible.

Do not drink liquor. Campagne, beer and claret act like poison on a rheumatic system. Between meals a fresh egg beaten up with milk is an excellent stimulant. Do not attempt violent exercise; if able to get out in dry, sunny weather, walk until tired but not fatigued. The object is, to use the muscles regularly.

It is most essential to avoid the cold bath, substituting the hot, and taking it rapidly. Wear close, light-weight woolen

underwear all the year around.

While all these suggestions are not essential, they conduce to your own wellbeing and accelerate the action of the

medicine.

Numbers of persons have felt constrained to write us in regard to the effects of "Pinus." These letters we do not publish, but keep on file in our office, where they may be seen at any time. We prefer that "Pinus" should continue to recommend itself; but correspondence is solicited and names and addresses cheerfully furnished if desired. was to asset being sool

Saginaw, Mich., March 14th, 1903

Pinus Medicine Co., 734-736 Valencia St., San Francisco, Cal.

Gentlemen: While at Albion, California, I purchased from you one bottle of Pinus. For ten years I had been troubled with chronic rheumatism. I often wished myself dead. I had tried nearly everything without result. I have taken nearly two-thirds of the bottle as directed and I find myself nearly well. I know that when I have finished the bottle I will be entirely cured, for all the pain and soreness has left me. I sleep well and eat as well as I ever did and I am 25 lbs., heavier than when I began to take Pinus.

Yours truly.

J. M. KERR, 670 N. 5th St.

(Copy) San Francisco, March 15th, 1904. To the Pinus Medicine Co., 734-736 Valencia St., City.

For thirty years I was a victim of neuralgia, biliousness and severe headaches. During all that time I did everything in my power to get relief. I was under the care and treatment nearly all the time with some of the best physicians either in this city, Chicago or New York, but none of them could relieve me of any of my trouble. They would all say that my liver and stomach were affected and give me hundreds of kinds of medicines hoping to reach the cause of my ailments, but none of them seemed to do me any good. In 1901 I was advised to go to you, but I did not have faith that you could cure me, as after so many years of suffering I had about made up my mind that it was useless to do more than I had already done; but in December. 1902, after suffering a bilious attack and neuralgia that was almost unbearable for a week, I decided to go and see if you could

help me. You at once told me that my trouble was caused by a torpid liver and gallstones. I at once began to take your medicines and I also at once began to get well. I commenced to take Fruitola, Traxo and Pinus. After taking the first bottle of Fruitola I passed fully a teacupful of gall-stones, the second brought fully as many, and the third more than either of the other two. After this they diminished in both size and quantity. I took the medicines as you directed, and from that time on I have had no bilious attacks or headaches, and I want to express my great thankfulness for the change you have brought into my life, for you cannot imagine how much comfort and relief I have realized from taking your medicines, which I consider far superior to anything else that suffering humanity was ever given the opportunity to use for the ailments from which I suffered.

Very sincerely yours, J. H. WESTON, 304 Montgomery St., City,

Residence, 645 Bush St.

Pinus Medicine Co., 734-736 Valencia St., San Francisco, Cal.

Dear Sirs: I feel that it is my Christian duty to you as well as to any suffering from Gall-Stones to write this testimonial. I have suffered for seven years from Gall-Stones, tried all the best doctors in the city, but nothing they could do for me did me any good. I at last gave up in despair. I visited my daughter in Louisville, Ky., and there, through Mr. Storch, I heard of your wonderful medicine. I purchased four bottles of the Fruitola and two of the Traxe, took the medicines as directed. I am now a well woman. I will cheerfully recommend this medicine to any one suffering from Gall-Stones.

Yours truly.

MRS. WM. HETLINGER, 1609 Thompson St. Jerome, Arizona, Dec. 9th 1909.

Pinus Medicine Co., 622-624 West Ninth St., Los

Angeles, Calif.

Gentlemen: I have taken your medicine for the past six months. I was examined by Dr. ----, specialist of Los Angeles, who told me I had gall stones and very bad and would have to be operated upon, but kept on taking your medicine and took fourteen or fifteen bottles. I passed more gall stones than you could hold in your hat.

I was down to 124 pounds, very weak and haggard. I am now well and back to 152 pounds and your medicine did every bit of it. It is safe to say that any one troubled with gall stones, liver or stomach trouble will find a sure cure by taking Fruitola. Very truly yours, pealled would I leller bas trolmoo domm

H. I. RUSSELL,

Superintendent United Verde & Pacific Railway Co., Jerome, Ariz. Copy.

Columbus, Ohio.

I have suffered for several years with stomach and bowel trouble, and in August of this year was forced to bed. My case was then diagnosed as appendicitis and an operation ad-

One of my friends calling at my house the night before I was to be taken to the hospital recommended Fruitola and Traxo for my trouble so highly that we sent to the Hatton Pharmacy for a bottle. I took the Fruitola and Traxo as directed, and the result was that on the following morning I passed 268 gall stones, some as large as hickory nuts.

I continued the use of Fruitola and Traxo and in two days I was back at my post better than I have been in years, and I am now entirely cured of all stomach or bowel trouble.

I have recommended Fruitola and Traxo to a great many of my friends, and in every instance, as in my own case, it has done more than you claim for it.

You may use my name in your advertising if you wish. Gratefully yours,

A. J. LATHOUSE,

State Electrician Ohio Capitol.

Pinus Medicine Co., 734-736 Valencia St., San

Francisco, Cal.
Gentlemen: I wish to express to you the gratitude I feel for Pinus and the good it has done me. Words fail when I try to express all I feel. Any one who has suffered from Sciatica as I have, in the last four years, will know just what I mean. I had tried nearly everything without the slightest benefit until I obtained Pinus and it has cured me. I am working hard every day and feel like working, which I have not done in the past four years. Any one, or I may say everyone, in this community knows the state I have been in and any one who will take the trou-ble to write me here can find the truth of what I say. I am willing to make oath to every word in this letter if it be necessary. I did not write before, for I wished to be sure that Pinus had cured me and that one bot-tle had done it. Now I know it and am only too glad to let you and others know it. You are welcome to use this letter as a testi-monial if you see fit, and to refer any one

Yours most gratefully, BERT EDDY.

San Francisco, Cal., October 2d, 1901. Pinus Medicine Co., 734-736 Valencia St., San Francisco, Cal.

Gentlemen: For years I have suffered from recurrent attacks of inflammatory and muscular rheumatism. I tried every remedy that my physicians could prescribe or that was adver-

tised or recommended, entirely without avail.

The last attack lasted from November until May, and three physicians agreed that I would never be well again, but hearing of Pinus I was persuaded to try a bottle. To my surprise, after a few doses I began to improve and in a week was able to sit up in bed for several hours at a time. I was greatly reduced in flesh and strength and my stomach was in a frightful condition. I could eat nothing of any consequence and could not retain what I did eat until I began taking Pinus. I cannot express my gratitude to you for my complete restoration to health. Hoping all who are afflicted with that worst enemy to comfort and health, Rheumatism, may hear of Pinus, and be cured. I am again thanking you for the good you have done be. Very gratefully,

463 Valencia St.

MRS. IDA HILE.

Gentlemen: Your very pleasant letter received. Was glad for such favorable reply to

my letter.

My rheumatism is altogether gone and I feel so much better otherwise, you little know just how thankful I am that I was fortunate enough to hear of such a successful treatment for rheumatism.

I shall lose no opportunity to recommend Pinus to sufferers from this painful disease.

Yours thankfully,

(Mrs.) ALICE WRIGHT.

(Copy) Cornwall, Cal., March 4th, 1904. Pinus Medicine Co., 734-736 Valencia St., San Francisco, Cal.

Enclosed find \$2.50 (express order). Please send by express to above address one bottle

of Pinus.

I cannot find words to express the gratitude
I feel towards "Pinus." When a young girl
I contracted rheumatism and for nine long years suffered, as only those who have had this dread ailment know. Doctors and visits to well-known "Springs" failed to help me. This last summer several people told me of Pinus, I purchased a bottle and after taking part of it all pain entirely disappeared and after the full contents of the bottle had been taken I felt like a new person, full of life and vitality. The large joints in my feet, knees and hands, caused as the Doctors said, by cha y deposits, were two-thirds reduced. The reason I am sending now for the second bottle although free from all pain and in the best of health, I wish to see if this second bottle will continue to reduce the joints and restore them to normal size.

I am so happy, so thankful, so grateful for the great blessing of health, which Pinus has been the means of giving me, that I want others who have suffered as I have to be blessed in the same way, so I am preaching Pinus as I go along. I only regret that I cannot spread the good news far, as well as near, to all mankind.

Very sincerely,

MISS LULU B. DAVIS.
