

UFO program presented

October 7, 1977

"UFOs Today," a documentary program of slides, color films and first-person accounts of "peaceful, extraterrestrial visitations," will be presented at 8 p.m. Thursday, Oct. 13, in the Mandeville Auditorium at the University of California, San Diego.

Charlotte Blob and Catherine A. Reid of the UFO Education Center (Appleton, Wis., and Valley Center, Calif.) will discuss the research of the late George Adamski, an amateur astronomer who testified before the U. S. Senate and other legislative and investigative bodies about international evidence he had collected of sightings of spacecraft and encounters with visitors from other planets.

Blob, who worked with Michigan law enforcement authorities in 1966 during studies of UFO sightings by local citizens, says the UFO Center's purpose is to educate the public about the "peacefulness of the space travelers, to recognize that they are here among us."

Tickets for "UFOs Today" are \$2 for all students and \$3 for general admission and may be purchased at the UCSD box office, 452-4559.
