 where is the concern for  
 the single - one - human

 are the trading centers

so I thought about all  
 the time I spent looking  
 one candidate to beat  
 another older more conservative  
 candidate + what man -  
 that did + compromise I  
 hear / hearsay - to let  
 the truth I don't follow it

 is it would work if I learn  
 everyone have constant

attention I worked  
constantly for the  
betterment of the City  
Government. ~~state~~

I am writing this in an  
apartment - I now share half of  
a single bed in a bunk  
up left bed in the back  
room of a 3 room (billed  
with bed in middle) floor  
apt surrounded by bars

And I'm much happier  
(well it only the first night)  
than I was in that beautiful  
house I left all to myself  
just 2500 sq feet. So  
at first, 2 days ago  
when my hair was shorn  
like a sheep I wanted  
to die + today I feel  
a new life can begin -  
I see possibilities and

around me in the  
youngest hole I meet.

The dead of areas run at

beside the matras on the  
board wooden floor + C's

beautiful shoe head

blue with green + red

allegate as no head me.

The long comfort of a shun

still it great to take a tall

latter I haven't lived

went a bit, spent for 2  
 weeks at the ~~E~~ Hotel, 4  
 weeks at A6 + 10 days at  
 LPR's. I & B had  
 shawls + I shawled  
 this morning before I left  
 + took a tub here when I  
 arrived. The sink was a  
 double sink 2 sometimes  
 I sat in the right hand  
 shawl part with the

metal garbage catch all  
 painted yellow enamel  
 & put my feet on the deep  
 side with a rubber stop  
 was a non painted little  
 metal ring which I couldn't  
 touch. The faucet had  
 been painted yellow earlier  
 but I still wrapped them  
 in paper & had to  
 keep changing & sometime

a piece of cotton biberin  
 pants to cover the metal  
 as the paint was off so I  
 wouldn't have to handle  
 the faucet without <sup>something</sup> cloth  
 inbetween. a jol of energy  
 would hurt out sides of  
 the rocks part underneath  
 stream around the  
 place were still usable.  
 I knew the pump was

Worst - I couldn't see it but  
I could feel it - as I said  
such hard energy that  
it hurt but the good  
has side I for example  
last year before an  
acid trip I stood by the  
wall when all the electricity  
to I could not only see it  
in the wall but could feel  
it. I felt like pain on the

(bad side) + I knew the  
bright green was near on  
the hot side but I couldn't  
see these colors + I didn't  
know they were the  
colors of energy, of sun  
+ I didn't know that what  
I was seeing. I was so  
frustrated + wanted so  
much to see, I thought  
it would be so much

simple to see & to know  
rather than asking questions  
& trying to figure out the  
answers. Sometimes  
I questioned the energy  
& friends had to  
sometimes it gave a  
negative on it would get  
a shock of energy. The  
clear me, I do consider well  
blue. I didn't know

That blue, which was the  
 equivalent of the green  
 in intensity, but was  
 the flame that did not  
 burn was the color of  
 electricity. When the low  
 energy purple + red + green  
 + red. Plus yellow were gone -  
 it was the purplish energy  
 between, it seems of the same  
 energy as the refined colors

leading to the white  
light. In I knew  
white was the highest  
manifestation of yellow  
the physical manifesta-  
tion of the clear light & the  
pale pastel came next,  
the next 2 green & the  
pale clear blue. Some  
of the men still frequenting  
out - (today) I saw many

pink & green thought  
forms in a group of  
people all fond of each  
other & some like blue  
which is a neutral color  
I guess but cold. I don't  
is not mixed with  
affection. (well not all  
thought are) So the  
energy would have  
out what I could use

+ I would use it. I changed  
the ~~short~~ method I  
asked questions of my  
higher self, a Charlie  
& was answered. 27 was  
now the 9<sup>th</sup> day since  
I had seen the winged  
green eye of K.K. & the 5<sup>th</sup>  
day I had spent alone & seen  
no one & the 4<sup>th</sup> day I had  
spoken to no one.

I was never alone. Never.

Not for one second, that

In fact I after wonder

what greater present perhaps

is unembodied - to unbelieve

'life' in that form is not

perhaps of greater use to  
manhood than as in our  
Lodo. I mean you have  
to have a feet + clothes  
a body + society which  
make it pleasant not  
to mention easy I mean  
it demands you give us  
your spirit to <sup>care for</sup> house

all that night, perhaps dozing

in the sink. I don't

I began to see little <sup>grey</sup> ~~stone~~

I had ways ride. I was  
getting the bad energy out  
of my arms & hands & when  
I got enough together, I  
felt & could feel it  
out the ends of my fingers

I got the bad energy out by  
massage & water as well as  
concentrating on it. Here's a

tonight should would it

 changing the water in the

 had to keep throwing water  
 on the <sup>spread</sup> bedspread that  
 covered the stove, ledge  
 the <sup>sheet</sup> part where the rat

Getting into the tent was a  
trick - I had to remember to  
step into one tent only, then  
raise my feet & wash them  
under the faucet - the floor  
was height open & I could  
feel the rain & then wash  
out the tent & then fill  
it with water & put my feet
