KOMENTRI

Husat bai strongim lo na oda?

TOKTOK long polis i yusim gan na soim long Mema bilong Palamen na Minista long Gavman na pretim em i no gutpela nius.

Sapos kain pasin tru i bin kamap dispela bai min olsem manmeri we ol i mas kism strong long polis nau bai pret na paul long hap we ol i mas go long kism strong taim hevi i kamap long ol.

Moa yet sapos polis i nogat rispek long ol lida long komyuniti, bai ol i soim rispek long ol manmeri nating olsem wanem. Ol manmeri i save na i lukim polis olsem fos em ol i mas go long kism sapot na strong taim hevi i kamap long ol.

Na taim ol polis i mekim kain pasin olsem ol i mekim long. Vanimo, dispela bai mekim ol manmeri i tubel long wok bilong ol polis.

Kain pasin bilong ol polis bai mekim ol manmeri askim sapos i gat stretpela pasin long polis fos o sapos ol i kism gutpela skul na save long wok bilong ol.

Sapos nogat dispela i ken mekim komyuniti na kantri i go insait long bungim bikpela hevi bilong nogat fos bilong karim lo na oda na kantri i ken go bagarap.

Nius i bin tok olsem hevi long Vanimo polis na ol boda rensa i kamap long wanem polis i lukim ol renja i yusim krangi pawa ol i gat na bagarapim nating ol manmeri na samting bilong ol.

Ol rensa em spesol grup Mema bilong Vanimo Grin, Belden Namah, i putim long was long ol kain wok we i wok long brukim lo we i wok long kamap long boda, olsem ol manmeri husat i go long Jayapura, Wes Papua, na baim na karim i kam long Papua Niugini.

I gat lo long ol manmeri i mas baim takis long ol samting em ol i kism i kam long narapela kantri na kism i kam insait.

Long Vanimo dispela i no save kamap long wanem Mista Namah i lukim olsem ol polis i no save mekim wok bilong ol long sekim ol manmeri o karimaut lo long lukim olsem ol manmeri i baim gavman takis.

Long dispela em kirapim ol rensa.

Tasol ripot i tok ol polis i no amamas long wanem ol rensa i go moa long pawa ol i gat long en na i save bagarapim nating ol manmeri na samting bilong ol.

Long dispela as polis i no wanbel long wok bilong ol inap long taim ol i soim dispela hevi bilong ol long las Sande. Tasol long olgeta samting ol manmeri i laik lukim olsem ol polis i mas mekim tru wok bilong ol na ol lain husat i helpim tasol long karim lo na oda i mas mekim tasol wok em ol i makim long ol long mekim. I no go moa long pawa ol i gat long en.

Obama soim gutpela piksa long PNG

LAS wik tasol yumi harim na lukim long nius olsem Amerika (United States of America) i gat nupela presiden. Nem bilong dispela presiden em Barack Obama. Barack Obama i wanpela blakman. Papa tru bilong em em man Afrika (Africa) na mama tru bilong em em meri Airis (Ireland).

Tasol wanpela waitman na waitmeri long Amerika i kism em na lukautim em gut tru na putim em long skul na nau em kamap presiden bilong Amerika.

Amerika i wanpela bikpela kantri we i gat bikpela strong na i go pas long planti samting long wol. Sapos bisnis bilong Amerika bruk, planti kantri bai i gat hevi long mani.

Amerika i save sapotim na helpim planti kantri. Amerika i helpim ol kantri long woa, bikpela bagarap long taitwara na guria, ples drai na nogat kaikai, birua bilong teroris na planti arapela hevi. Na em dispela presiden husat bai givim dispela tok orait long Amerika long helpim wanem kantri i bungim hevi.

Barack Obama em i namba 44 presiden bilong Amerika tasol em i namba wan blakman long holim dispela wok.

Yumi save harim stori olsem Amerika i kamap long wanem planti man bilong Afrika i bin go wok kago boi long hap na kirapim dispela kantri. Ol i bin go olsem ol kalabus we ol wok aninit long ol waitman long brukim graun na wokim haus na kantri i senis na kamap olsem nau. Olsem na yumi save lukim planti skin blak manmeri long Amerika tude. Em ol kolim ol yet Afrikan Amerikan manmeri. Bipo yumi save kolim ol Blak Amerikan.

Ating kamap bilong dispela blakman long Amerika i givim wanpela piksa long yumi ol blak manmeri bilong Papua Niugini tu. Kantri bilong yumi i kamap aste, tasol planti manmeri i stat long kism gutpela skul na wok. Tasol moa manmeri bilong yumi

i stap yet long ples we nogat gutpela rot, bris, ples balus, haus sik sevis na ol arapela sevis. Tasol yumi wok hat yet long painim dispela gutpela senis. Yumi i mas noken slek na kros planti o sutim tok nabaut. Yumi i mas wanbel na wok hat long painim dispela gutpela senis we inap kamap wanpela taim.

Sapos dispela blakman ken kamap wanpela bikman insait long wol tude, yumi long PNG tu ken kamap dispela strongpela kantri tu wanpela taim. Yumi i gat planti samting bilong kism kantri bilong yumi go het na sanapim nem bilong PNG namel long olgeta bikpela kantri.

MINISTRY OF EDUCATION

2009 OPENING OF THE SCHOOL YEAR MESSAGE FOR TEACHERS AND STUDENTS FROM THE MINISTER FOR EDUCATION HON. JAMES MARAPE, MP.

GREETINGS

It is with great pleasure that I take this opportunity to welcome all the teachers, inspectors and students to the new school year in Mendi, Southern Highlands Province.

I would like to thank the Prime Minister Grand Chief Sir Michael Somare for entrusting me with this very important portfolio as the Minister for Education.

Let me also acknowledge the contributions from the caretaker ministers before me, the member for Mul-Baiyer and Minister for Internal Security, Hon Sani Rambai, MP the member for Ambunti Drekiir and the Minister for Correctional Services, Hon Tony Aimu, MP and the member for Ijivitari Hon David Aore.

To the teachers and students in Southern Highlands and the rest of the country, I hope you have had a restful holiday and are ready to start the new school year fresh and mentally prepared for the challenges ahead.

I believe that by now all teachers are already in the schools they have been posted to and are preparing their lessons, schedules, timetables and enrolments for classes when students begin classes next week on the 2nd of February, 2009.

GOVERNMENT POLICY

The aim of the Government's policy on strong economic leadership and responsible and disciplined financial management is to ensure that the benefits of a stronger economy flow through to the people and provide more opportunities for people to make a living, especially in rural areas.

In Education, the focus of the Government is to improve access to relevant quality education and training. As stated in the Medium Term Development Strategy Plan the Government will support the implementation of reform aimed at achieving Universal Primary Education. Under the goal of Universal Primary Education all children will be able to complete nine years of basic education.

I intend to present to NEC a Universal Basic Education Plan in April this year for consideration. The UBE Plan will outline strategies of achieving Education For All.

The Government's MTDS indicates that efforts will be made to continue the efforts of Recovery and Development through the broad base inter-related objectives of:

- Good governance;
- Export Driven economic growth; and
- Rural Development, poverty reduction and employment through human resource development.

The National Education Plan 2005-2014 complements the MTDS by making an effort to continue to improve access, relevance and quality education and to ensure that education is affordable, sustainable, achievable and equitable.

EDUCATION SUBSIDY

The School Operation Grant totaling K130m went straight to schools in the form of cheques and the K13 million went straight to the Education Quality component to support the work on quality education which includes the Teaching division, Inspections and Guidance, TVET and the Curriculum Division.

The funding is administered by the Department of Education.

The Government's Education Subsidy to the Department of Education was further increased by K21.7 million and paid to the provincial departments as function grants. This was administered by individuals in the provincial administration.

The Education Subsidy Policy has changed over the years. It began as a "Government Assistance to Quality Education Program in 1982. In 2002 "Free Education" was introduced. In 2003, it reverted back to cash grants in the name of School Infrastructure and Maintenance Grant and in 2007/2008 it went out as "School Operation Grants."

The allocation of subsidy to individual schools was determined by the number of students through the School Census Forms for 2007.

2009 SUBSIDY

The National Government has again appropriated K143 million for the 2009 school year.

The break-up of the 2009 fees will be announced as soon as funding with the Department of Treasury is confirmed. The Department will also need to confirm the enrolment data in order to work out the component of fees to be paid by the Government and parents in line with the 2009 NEB Fee Limits.

I call on all school authorities not to turn students away from school at the start of the year for non-payment of school fees.

"While parents are responsible for paying fees, I also appeal to all school authorities to allow students to enroll and attend classes even if they have not paid any fees while their parents and guardians sort out their school fees. Children should not be deprived of their right to education."

Schools should not be demanding full payment during enrolment but should accept payment of fees in installments.

Parents must also realize that schools need money to operate and at this time of the year, schools will need money to purchase materials and resources for teachers and students to use to start the school year on a good note.

Fees parents pay contribute a lot to the operations of the school therefore parents must ensure that they play their part by paying fees for their children.

SCHOOL FEES

The National Education Board (NEB) in August last year approved the Maximum Fee per child in 2009 as K100 for elementary prep to grade 2, K250 for grades 3 to 6 and K250 for grades 7 to 8 in primary schools.

For grades 7 to 10 day students in secondary and vocational schools the fee is K825 and K1,200 for boarders. For grades 11 and 12 in secondary schools and national high schools the fee for day students is K900 and K1,400 for boarders.

For students at the Flexible and Open Distance Education (FODE) the approved maximum fee is K90 per subject.

The fees for pre-service teacher training at Primary Teachers Colleges and the Papua New Guinea Education Institute will be K1,100 for students who are fully sponsored under the Higher Education Contribution Assistance Scheme (HECAS) and K1,125 for self sponsored day students and K2,225 for self sponsored or Corporate sponsored boarding students.

For Technical and Business Colleges, the fees have increased by 5 percent for all the courses offered as of January 2009. The tuition fee for a full year (44 week) Diploma or Technical Training Certificate (TTC) course is K4,830. This includes the messing fee of K1,800 for boarding students.

After two years of no increase in fees there is a slight increase by 10% in the fees for all sectors except Technical Colleges.

FUNCTIONS AND RESPONSIBILITIES OF NATIONAL AND PROVINCIAL LEVELS

It is important to note that Education is a shared responsibility. The National Education System consists of a national component comprising of national institutions and the provincial component comprising of member schools other than national institutions in each province.

The National Education System shall be administered in accordance with and for the objects and purposes expressed in the Education Act and any other laws of Parliament relating to education matters and provincial education laws in relation to a matter within Section 42 of the Organic Law on Provincial and Local Level Governments.

The Provincial Education Acts that are already in force provide for the administration of member provincial institutions within the provincial components of the National Education System.

In the principles of partnership I, as the Minister for Education shall ensure that education authorities within the National Education System exercise their powers and functions under this Act and any other law relating to education with respect for the identity of schools and the philosophy of all education agencies.

The Head of the Department of Education who is the Secretary Dr Joseph Pagelio is responsible for ensuring that the principle of partnership of all education agencies is upheld in practice in accordance with Section 28 of the Education Act or any other law relating to education matters.

The Minister and Secretary for Education are responsible to ensure that the education authorities exercise their powers according to laws with respect for identity of schools and philosophy of all education agencies and further to ensure that the principle of partnership of all member education agencies is upheld in practice in accordance with laws relating to education matters.

The Provincial Education Acts that are already in force provides for the education authorities within the provincial components of the National Education System. The education authorities in a province include:

- a) The Provincial Education Council
- b) The chairman of the Education Services
- c) The Provincial Education Board
- d) The Provincial Education Adviser
- e) The Teaching Services Commission
- f) The Local Level Governments
- g) The education agencies
- h) The District Education Administrators, and
- i) The School Governing Boards.

PROVINCIAL RESPONSIBILITIES

Provincial education authorities must continue to support their schools by providing effectively for school operations, maintenance and development as well as teachers' salaries and emoluments. Provincial administrations must make available sufficient funds every year to enable teachers to travel to their new postings and resume duties on time.

I challenge the members of school boards and governing councils to continue to support their teachers and manage and develop their schools efficiently and honestly. Communities must support teachers, school boards and parents to protect their schools from criminal activities and make sure the school environment is clean and the facilities are in good condition before classes begin on February 2nd, 2009.

I challenge all the parents to continue to support and encourage your children in their education in every way possible. This includes paying their school fees and other requirements to ensure that they start school on a good note.

I encourage all teachers to work together with their school boards, communities and provincial education authorities to provide quality education and a sound environment for our children and young people to study in.

Let me also acknowledge the donor community for their willingness, commitment and generous support towards the development of education in Papua New Guinea.

In recent years some Department of Education core functions, such as inspections, examinations, supply of curriculum materials and teacher training and upgrading, have only been able to operate effectively because of donor funding.

I look forward to continuing the good working relationship we have established with our donor community in Papua New Guinea and the other stakeholders.

TEACHERS TRAINING

With another school year beginning it is again very important to acknowledge our teachers throughout the country who are very important partners in the education and training of our children. We will continue to provide in-service training for our teachers to teach the new curriculum.

The Department of Education has developed a plan to train 1000 teachers in 2009 and are now working with 1000 clusters.

The main purpose of the Teacher In-service Plan is to build the capacity of the Department of Education to support the implementation of the reform curriculum. This is based on every classroom training through clusters using personnel already available. Teacher In-Service Program (TIP) is a component of School Learning Improvement Program (SLIP) and has four broad phases.

TEACHER RESUMPTION

Now I would like to talk about the resumption of teachers this year. All Provincial Education Advisors (PEA), District Education Advisors (DEA), Principals, Headmasters and Managers of all Education Institutions must be advised that all teachers in all

the institutions under the Education system must resume duty on Monday, the 29th of January 2009.

All teachers are required by law to complete a Resumption of Duty Summary Sheet (RoDSS) on the first day of the school year.

This form is very important because it will determine the continuity of the teacher's salary payment for the year.

Teachers must ensure that the form is filled out correctly with the correct position number, employment number, employee name and date resumed duty are coded. Any errors in filling out these information will affect the teachers' salary.

All Resumption forms must then be forwarded to the Provincial Education Office for teachers in provincial institutions and to the respective Assistant Secretaries at the Headquarters in Waigani for teachers in National Institutions.

If a PEA is on duty travel or is sick he or she must make alternate arrangements in writing for a delegate to sign the forms.

All forms must then be forwarded to the Payroll and Related Services Branch at Waigani as soon as they are checked, signed and sealed by PEAs.

The forms must be submitted to the schools on the dates allowable by the school zones.

All teachers whose resumption of duty forms have not been received at Waigani by the 10th of March will receive their last pay on pay number 6 which will be on March 13, 2009.

All teachers whose resumption of duty forms are not in Waigani by the 10th of March will be automatically suspended from payroll on Pay Number 7 which will be on the 27th of March 2009.

The teachers will be restored on payroll if the Provincial Education Advisors notify Waigani by lodging copy of the Resumption of Duty Forms for the teacher affected.

NEW GRADUATES

Graduate lists from Primary School Teachers Colleges have been received and officers at the Payroll and Related Services Branch are now allocating file numbers.

They will come into the payroll proper after their Resumption forms are received and entered into the system.

The new graduates are also required to complete the Teacher Record of Appointment Form and attach copies of their qualifications and Teacher Registration Certificate to be submitted together with the Resumption of Duty Forms.

CHALLENGES TO EDUCATE AND SKILL PNG

While we are making steady progress in education, there are many challenges that remind us to remain focused and consider creative alternatives.

In 2009 the Ministry will continue to address the following issues and challenges related to educating and skilling our citizens:

- Continue progress towards Universal Basic Education and stopping children dropping out of school
- Increase opportunities for post primary education and training, especially skills training for self reliance, income generation and adult literacy
- Continue to improve and restore basic education services, especially in remote and disaster stricken areas
- Establish strategies to build capacity at provincial levels through the Education Sector Infrastructure (RESI) program
- We will continue to provide in-service training for our teachers to teach the new curriculum
- We will conduct a curriculum review to ascertain education standards
- We will develop appropriate teacher incentives to make teaching a more attractive profession

PARTNERSHIP IN EDUCATION

Providing education and training for Papua New Guineans would not have been possible without the support of many of our partners. I acknowledge the contribution of the National and Provincial Governments, the churches, private citizens, aid agencies and other Government Organizations, in their efforts to provide education for the development of our children.

Last year the department hosted a successful Church State Partnership Conference which will strengthen the existing partnership we have with our existing Church State Partnership has resolved to support the Government's MTDS strategy for the period 2008-2014.

In a brief history, back in 1968 there were only 6 disjunct churches who were working together to provide education with 3000 students and 90,000 teachers.

Today there are more than 12 million teachers and more than 100 churches and after 35 years the Seventh Day Adventist Churches joined the group.

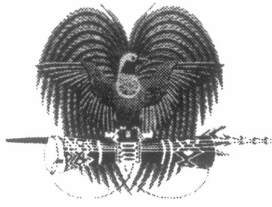

I challenge all our partners to continue to work together, improving communication and to continue to recognise our partners in supporting the Ministry of Education's efforts to educate our children.

CONCLUSION

In conclusion, I would once again like to express great satisfaction that I have had the opportunity to open the 2009 school year in Mendi, Southern Highlands Province.

I encourage all stakeholders to continue to work together in order to provide a relevant quality education and training for our children and young people. I wish all students, teachers, parents and stakeholders a successful 2009 school year.

HONOURABLE JAMES MARAPE, MP
MINISTER FOR EDUCATION

DEPARTMENT OF EDUCATION

2009 OFFICIAL OPENING OF THE SCHOOL YEAR MESSAGE FROM THE SECRETARY FOR EDUCATION DR JOSEPH PAGELIO

WELCOME

Let me first of all thank the Governor for the Southern Highlands Honourable Anderson Agiru, the Provincial Administrator Mr William Powi, the Provincial Education Advisor Mr Robert Rami, the teachers and students, parents and the singing groups for their participation and contributions in staging a very colourful welcome for the official opening of the 2009 School Year in Mendi, Southern Highlands.

I also welcome all our teachers, students and partners in education to the 2009 school year. The school year begins on January 26 for almost 40,000 teachers and on February 2nd for an expected 1.2 million students.

2008 was a very successful year. Schools were operating successfully without much problems. The year ended well and I commend all our partners for this success. The National Government and Provincial Governments, our Churches and donor partners must also be commended. Your collective efforts have contributed to a successful year in 2008.

BEGINNING OF THE SCHOOL YEAR

For 2009 I would once again like to call on all our partners to work together to make 2009 a successful school year by performing their responsibilities and being committed to their work.

I call on all our Provincial Education Advisors to manage their provinces well and our Provincial Education Boards to meet regularly and assist to manage the education services in their provinces.

All Boards of Management must also be active in managing their schools and I also call on all Headmasters and principals to settle down and run their schools honestly and efficiently using the limited resources they have available.

All teachers must prepare their lessons well and present them well to the students and be totally committed to their jobs.

All Parents and citizen Associations must also be take an active role in school activities and fundraising for the schools. The community must take ownership of their schools by looking after and helping to clean, maintain and keeping it free from any criminal activities or landowner problems.

Teachers must ensure they are in their schools by January 26 and ready to start teaching when the students resume classes on February 2nd.

Teachers must fill in the Resumption of Duty Summary Sheet (RDSS) and ensure that they quote their correct position numbers, employment number, correct spelling of names and the resumption date before they are returned to the payroll.

Headmasters, Principals, Managers and Site leaders are to ensure that they sign the forms after teachers complete the forms and forward them to their respective Provincial Education Office.

THE NATIONAL EDUCATION SYSTEM

The National Education System in Papua New Guinea promotes and protects the principles of growth and development as stated in the National Constitution as well as our national culture and identity.

EDUCATION REFORM

Now I would like to talk to you about the reform of our education system. I want to assure all our good parents and stakeholders that the reform of the education system is good because of several good reasons including the following:

- The reform's key objective is "To develop an education system to meet the needs of Papua New Guinea and its people which will provide appropriately for the return of children to the village community, for formal employment or for continuation to further education and training according to the National Education Plan.
- The foundation of the reform is the promotion of culture, values, attitudes, knowledge and a range of skills appropriate for the PNG society along with the need for international competitiveness.

- The key features of the education reform are:
- A new and more relevant curriculum which emphasizes skills development and the use and maintenance of the local languages of the community.
- Nine years of universal basic education,
- To ensure that the quality education is improved.
- To ensure wholistic development of a child and the integral development of a person.

Elementary Education is part of the reform of our education system. Elementary education is good because our children learn using a language they understand well and as a result it helps build their confidence and learning. We will continue to address the issue of bridging which we have identified as one of the main issues affecting elementary education.

I call on all our stakeholders, the teachers, parents and the different levels of Governments to be united in order to move education forward. The reforms are a new era of responsibility however; all our children must be given equal opportunity in education which is more important.

Education reforms provide opportunities for Papua New Guinea to transform its education system to meet today's needs.

NEW INITIATIVES

Investing in Education training is investing in the future of our country. Every year the National Government invests almost 17% of its public expenditure in education.

All students and teachers must appreciate this investment by the Government for the future of our country and make use of every opportunity to be in school and to work hard to realize their dreams and values from this huge investment.

In 2008 we made some significant achievements at all levels of education.

The achievements include the Behaviour Management Policy, the development of the Use of Mobile Phones in Schools guidelines, the Introduction of the One Laptop per Child Policy and working together with the Department of Health to develop the Mental Health Policy.

The Education Department has also achieved milestones in the Information Communication Technology (ICT) roll out in High Schools and Vocational Centres, the development of policy for the establishment of the Community College System and the creation of the HIV/AIDS office.

We have continued reform of the curriculum and supported teachers' in-service training on the new curriculum and skills, values and attitudes.

In 2009, we will continue to reform the curriculum. We will ensure that we supply selected textbooks to all schools, develop elementary materials as well as orthographies. We will also further develop the secondary curriculum.

We will continue to ensure that our schools are visited by Standards Officers. This will ensure that key behaviour management and HIV programs are continued to be implemented and School Learning and Improvement Plans (SLIP) in targeted schools are developed.

In 2009 the Department will continue to provide the required number appropriately trained teachers by continuing to implement the full time elementary and examine ways to increase the supply of specialist secondary teachers.

We will continue to establish and maintain a sufficient number of schools and improve teacher housing standards. We will also maintain and extend library facilities in targeted schools.

We will also continue to support the work of the UBE Task Force to ensure that all our children have the opportunity to attend school and complete nine years of basic education from elementary prep to grade 8.

Technical Vocational Education and Training will also be supported in order to better meet industry and community demand.

EDUCATION SUBSIDY

Now I would like to talk to you all about the education subsidy.

In 2008 the National Government appropriated a total of K143 million as education subsidy which we successfully distributed to schools. Many schools are beginning to show improvements in the upgrading and maintenance of their schools through these grants.

This year the Government has again appropriated K143 million which we will distribute to all schools as soon as we receive the money from the Department of Treasury.

I call on schools to continue to spend the money wisely and on the areas that will help improve the quality or standard of education in the schools.

2009 EDUCATION THEME

This year the Department has put its focus on training as the 2009 Education Theme. The theme is "Achieving a Better Future Through Quality Education and Training".

It means our young people must be equipped with quality education and training to develop proper attitudes and values that will enable them to improve their own lives, and contribute to the development of the nation.

The overarching theme for the Department is "Prosperity Through Self-Reliance" which falls in line with the National Education Plan 2005 - 2014.

NATIONAL HIV/AIDS POLICY

The Department's HIV/AIDS policy includes plans on how teachers will be trained and resourced; How affected teachers and students will be cared for and supported, New curriculum materials in life skills, Trained male and female counsellors in boarding schools, and a HIV/AIDS team at the Department.

HIV/AIDS is a major threat for Papua New Guinea today. It is a development issue that affects all of us.

The reform TVET curriculum includes training modules on HIV/AIDS and sexually transmitted diseases and emphasises the importance of living a healthy responsible life.

My dear students and teachers, you must realise that it is up to you to make decisions about your personal activities. You must keep yourselves and your families alive and safe.

Be responsible citizens of this nation by using your skills and right attitude towards a peaceful and prosperous society. You will face the consequences of your behaviour as you progress. Let these consequences be a result of wise decisions. Do not let alcohol or drugs rule your lives and always be a good example to all our children of this country.

CONCLUSION

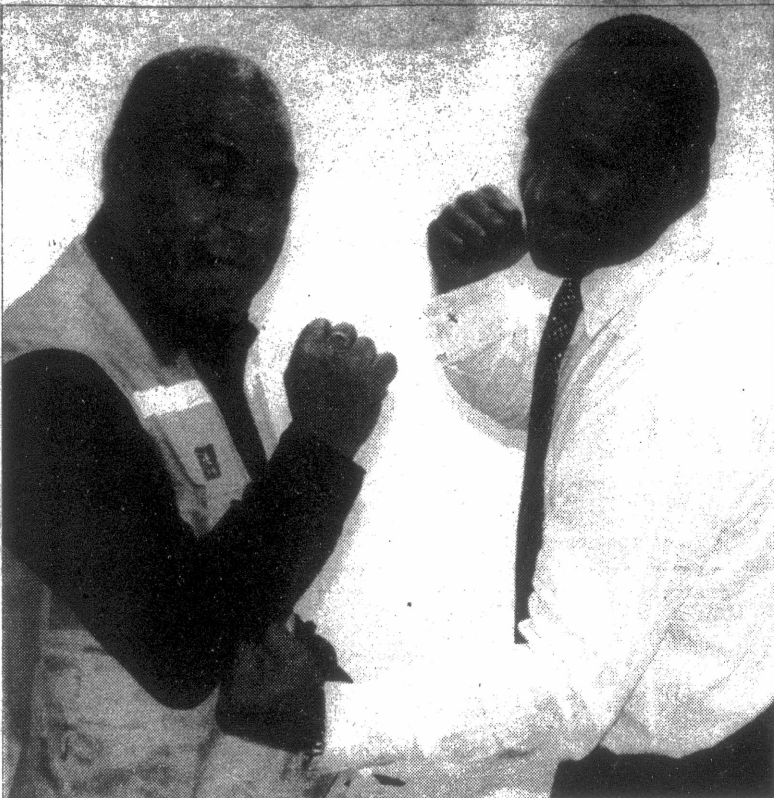

I trust that when you spend your time in school studying, reading, listening and attending classes you will see what you do as an investment in your future and the future of our country.

I thank and acknowledge the continued support of our important stakeholders in education, including students, teachers, parents, communities, churches, NGOs, donor agencies and Provincial Authorities in 2009 and look forward to a closer working relationship this year.

I once again welcome everyone and look forward to your continued help in building a peaceful and prosperous nation through education.
