

## **Nuclear physicist Stanton Friedman will lecture on UFOs**

**April 6, 1976**

Nuclear physicist and lecturer Stanton T. Friedman, the only space scientist in the world known to be devoting full time to UFO investigation, will present an illustrated lecture at 8:30 p.m. Monday, April 12, in the Mandeville Auditorium at the University of California, San Diego.

Mr. Friedman's lecture, entitled, "Flying Saucers ARE Real," will include the use of slides depicting UFOs and data collected on flying saucers. Tickets are \$1.50 for general admission and \$1 for UC San Diego students. They may be purchased at the UCSD box office.

Mr. Friedman has studied UFOs for more than 17 years and was one of 12 scientists who contributed to the Scientific Symposium on UFOs held by Congress in 1968.
