It has been the most

When I first met old
Hughes Self, the universal,
my friendly spirit master.

On the other hand, perhaps
next year. . . . I have never
seen the leaves on 3
occasions (except as
reminders) One over the

a job, one over the
typewriter here, means,
I think, I can live here

I have begun to feel
better. I am interested to do
things. I want to be out every
night - even want to go to my
job. But over the night
dreamt of what some they
sing music for voices
I've heard it in a garden. There
were pictures on the program,
colored, like colored embroidery.
I dreamt of R. & another man

I wanted P's skin to touch mine.
A. has awakened my sensual
again with her erotic passages.
I masturbated to use the other
~~my~~ day. I didn't think I
ever want that kind of human
contact again. but after the dream.
I'm angry at A last night -
she was arrogant & rude to me in
front of M whom I am angry
at because she told O's mother
I had been to her house

with him & that started the
whole ~~photo~~ camera shot. M
wouldn't visit him in the
hospital either, no call & I
passed me off. I had asked
him not to tell he was
living with her. I don't
want any more court communi-
cation with the matter but of
course he walks in with
her while he's reading. I
can't stop him from

bringing the friend to the
house but still when I
think of what I gave up for
him to make him in the
way of formal contact - what
was forced on me because
I wanted to help him & do
what he'd ever listen to my
side of the story. But he
doesn't - & I don't put the
arrogance to yourself. He insists
he's 30 yrs old. I'd be glad

When he is 18 I don't have
legal hassles on my mind.
He was depressed while working
but he became arrogant &
selfish since he quit 3 days
ago because he couldn't be
bonded. Well he looks like
healthy, I just hope it was
from dope. Smell of orange
from the car on back bench.
I wonder if this would be more
interesting if each letter belonged

to a name, ^{to} lead name a
character, personality. There are
several B's here - ~~at least~~ 2
important ones, a lot of a few.
2 e's, etc. etc. To use an
initial, to compare the persons, is
A's do away with personality, the
ego? - to get down to the reality
of the feeling? ~~the~~ the
situation? Interaction?
Does it show the interest - a desire
that lie elsewhere? I find

imply judging a man now
by his opinion of past - she
had some lausy taste. We all
do, if we put people before
performance but still - I
don't want to make that
judgment that time has
beaked more clear. Perhaps
Boswell would be a great
writer, for me, but our
love of our selves for ourselves
in context with the Universe

goes on. I'm getting too
liturgical. In context indeed.
Well, the Usace may + it
may + I live with B (although
I would I sailed last autumn
when the info came I wanted
to spend - well we made
contact ~~or~~ on + thanks). Now
I have patiently to wait to
see if the other promise come
through - the apt - stayway
with B freely, no hassle -

teaching sat for the fall [8]

Last night things began to turn blue again. a yard high. My

energy is returning. It almost

6 mas since I left the sink.

~~But I tell you how I tried to get~~

red of the purple by covering

myself with blueberry syrup -

a job of the U. But I had to do

something amusing! So I

covered myself with 2 hair

blueberry syrup, used the

idea, that if I couldn't get
 rid of the purple - by turning
 green - perhaps I raised lymph
 or by turning pink again
 away - if the faded squish
 would leave a pinkish - purple
 tinge on the skin when washed
 off. I felt pretty sure I did
 not lack myself. The day
 after my birthday I decided to
 go without water for 3 days &
 test my stamina. I pretended

I was in a desert & the camels
 were late. I wanted sit in
 the sand & pour water over the
 part that was not submerged
 with a glass. I had a lot of
 little round 25¢ glasses from
 the 5 & 10 & used them all
 of them. After a while they
 turned purple & I would not
 use them anymore. I constantly
 wasted my right eye, also -
 it was always the most

backward part of my color
 scheme. Uninitiating was a
 trip - the sun was always
 the day before's color - I went
 in cycles - from purple to green
 to blue to copper + orange to
 metallic (the, the heavy)
 they hurt too - a corner, a
 silver color) all together
 to get to be pink or reddish
 pale green or blue like my
 pale orange pink + a blue +
 green blanket.

so I had to pee in my tent,
I was careful I didn't get on
my leg, I was myself by
throwing water up into the
crotch from a glass, being
careful not to touch
myself with the glass -
wipe myself - clean the
tent & get back in. What a
day. I cried for a base!
To wash my crotch & my
ass & my back. The

little glass. turned color
 I couldn't use them anymore.
 I threw them in a pile on the
 floor. Later I realized I was
 turning & returning color &
 I could save the glasses & use
 them. Lila - ~~that was the~~
 the purple was faded - green
 & blue & clear glasses. When
 they got too lacy I had to
 throw them away. The mercury
 would come off them in a

14
gungy fashion, let's look
that dent look. I was very
careful about my eye -
not only always used a clean
glass but I cleaned my hands
very thoroughly first - not
from dirt - there was none -
but from the air, I was out
energy that I was getting
out of. As I massaged my
legs arms ~~the~~ some of the
tension would go into my

hands + fingers + I had to
get rid of it so as not to
put it back in my eye.
I did this with my mind,
concentrating on the base of the
finger I worked along them
til the energy would leave
by the fingertips, sometimes
forming little blue + yellow
corules, + sometimes dotted
bladders indicated the
presence of bad energy. When

I had cleaned my hands in
this way my fingers & hand
always felt marvelous
relaxed, translucent in
feeling - ~~so~~ & my left
hand & arm particularly
achieved a limpidness that
was beautiful & graceful
without any tension at all.
With my left hand I could
hold open my eyelids &
with the right pour water

into the eye. After balding
the eyelid I would have to
always clean my left
hand, as it picked up tension
from the eye. I often heated
the water I used & "cleaned"
that too, always. The lid was
enormous, would flake at the
top & pop off. sometimes in a
little yellow dandelion
fluff. I could think I
off by concentrating. when

I saw a number of pictures of
 water lilies & pond flowers
 I knew the water was clean.
 He called a "mental picture"
~~although the water was too~~
 because the yellow fluff
 seemed more nearly so,
 composed of the energy I
 put together with my hand
 mind from the water. The
 lilies were a "signal" - like
 now the vision of the 2

candle wax lower. These
~~visions can~~ mental pictures
or signals can be very weak -
It is the information that
counts. At least that is how
I feel, not to indulge in
other worldly glories as I
give up to feel the comfort
& furnishings of my home
& my whole attitude
toward a nice clean
beautiful home with

good habits of all. Indulgence
in any form seems wrong to
me, a disease of the ego self.

What is not to say I am
perfect or anywhere near it,
~~my~~ ~~just~~ conscience of my
failures from perfection,
and to conscience at that,
or itself an indulgence, for
I recriminate myself - a
useless task relating to the
past, what is what I should

to leave where it belongs,
behind. Lately I have
asked about the book -
whether it will be published,
how much, or not - & get
no answers. So I continue
to believe in it, as I must,
simply, although writing is
no real pleasure for me. no
contact with the University in
Italy - I feel obliged to
report my contacts -

obliged to me - of course -
 who else. ~~But I hope this~~
~~book will be of some pertinence~~
~~to some people - that is more~~
~~relevant than that it be~~
~~interesting, although the latter~~
~~is the plan & hence the former.~~
 I mean if its nature is such
 you won't read it to find
 anything of pertinence to you.

free. As I always believe -
we do tasks according to the
need to have them done - not

 way. My calm to be getting to
 come back - in my check. It

 the color in my face. The
 TV no sound - while watching
 the movement of being I saw
as holes seen. naughty
pleasing holes

I can relate myself again to something I create. I see to it. I've worked in fashion it takes 2-6 years to get your idea from creation stage to mass acceptance, maybe less ~~acceptance~~ - so you used to immediate acceptance of idea gratification - a lifetime bond in love devoted to communicating based on love - I can't buy it -
