

Media Advisory, Emergency Preparedness Drill at UCSD

September 28, 1990

MEDIA ADVISORY

EVENT: Emergency Preparedness Drill at UCSD

Occupants of all UCSD residence halls and dining facilities at the five UCSD colleges will vacate those facilities and assemble at designated triage areas until the all-clear signal is given. Emergency fire and police crews will participate and injuries will be simulated.

DATE: Oct. 4, 1990

TIME: 7:15 A.M. to 7:45 A.M.

LOCATIONS: The drill will take place throughout the campus. However, since a number of residence halls and eating facilities border the Commons area of Muir College, that would be a good location for visuals.

REMARKS: The drill is designed to improve UCSD's ability to respond to a major emergency that would require evacuating buildings and moving people to safe areas.

INTERVIEWS: Blue Robbins, Assistant Resident Dean of Muir College is an organizer of the event. He will be in the Muir College area during the simulation.

CONTACTS: S. Blue Robbins 534-4200, Winifred Cox 534-0363
