## PRESS STATEMENT BY THE HON. ALPHONSE M. WILLIE, MP GOVERNOR OF SIMBU PROVINCE

### Mount Crater Gold Project: A Call by Simbu Landowners on Macmin, NGG, Celtic Minerals and Mining Department for Recognition.

Following a half day meeting with a large representative group of people from the Karamui-Nomane District sharing the Simbu/Eastern Highlands Province Border with the Lufa District, the Governor of Simbu Province, Hon. Alphonse M. Willie has received clarification that the current Gold Exploration Licence No. 1115 held by Macmin Silver Ltd (Macmin), spreads from Lufa District over across the Provincial Boundary south-westward into the Karamui-Nomane District of the Simbu Province. The major concern is that the people of Lufa District, the holder of the licence No. EL1115, Macmin and also the Mining Department, has not to date acknowledged the people of Karamui-Nomane District who own land on Mt. Crater range at the border that separates the two districts, the Simbu Landowners told their Governor.

Subsequent to their diligent study of the maps at the Mining Department (Refer to map) by the Representatives of the people of Karamui-Nomane District, it clearly reveals that the current 13 blocks within the EL1115, almost 4.5 blocks overlaps into the Nimi Prospect Area. Therefore the Simbu people felt they were left in the dark for too long (it's 25 years) and it is grossly unfair that the licence holder Macmin has been talking and dealing with people who are not genuine landowners from Karamui-Nomane but maybe people from Lufa who pretend to be the landowners of Nimi Prospect Area in the Mt. Crater Gold Project.

The Lufa people's land interest terminates at the BORDER!! On the other side is Simbu Province and "WE HAVE TO BE RECOGNISED AS WELL FROM NOW ON INTO THE FUTURE" as exploration works continues to establish a minable reserve, the people told the Simbu Governor again, at the Granville Hotel meeting, in Port Moresby.

The people referred to the 9th February, 2004; reporting in the National, Macmin Silver Ltd's associated company (40% equity), viz: NGG - the "Miner reports high gold results in EHP" but neglects to report correctly to the General Public, Business and the Government - as the EL1115 crosses the border into Simbu Province - there is NO mentioning of Simbu!!! If we are going to be forgotten, then EL1115's land area for exploration must be terminated at the EHP and Simbu provincial boundary. On the western side of the Border - is the Karamui-Nomane District and that is evidently the Simbu Province. Further people from Lufa who claim to be principal landowners of the Nimi Prospect Area must desist from doing so and additionally cease getting any other forms of benefits from Macmin and entering into contracts of any kind with any other business houses. The people from Karamui-Nomane District sharing the border with the Lufa people demand this!!! In person to me as their Governor and urge that these issues be put right before any further exploration works continues on EL1115, let alone ELA1353.

Hon. Alphonse Willie in response told his People of Karamui-Nomane District that he will direct his Administration staff in Kundiawa, especially a team of Lands Officers and Surveyors to conduct a review of the Provincial Boundary line and establish concrete pegs from a northerly to southerly direction to define the provincial border - it already exists since the colonial days anyway. It is only proper that the people of Karamui-Nomane have land rights that "must be recognised" and these extends to the border they share with the Lufa people and not beyond.

The purpose of this advertisement is to completely dispel the belief and promotion of the Mt. Crater Gold Project that it is situated in the Eastern Highlands Province ONLY, as mentioned in our local news Mediums and also in Canada and the rest of the world through the internet website of New Guinea Gold Corporation Ltd (i.e. www.newguineagold.ca/CraterMountain.html). This is absolutely incorrect, and must be immediately corrected by NGG, Macmin and so on in all their official records, news releases and any other forms of publicity in Papua New Guinea and overseas as is the case even on websites, the Provincial boundary clearly separates the Nevera Prospect Area into Eastern Highlands Province and Nimi Prospect Area into Simbu Province since the foregone is not the case.

I call upon the Holder of Exploration Licence No. EL1115 (Macmin or whoever) to address this very significant issue that is fundamental to the continuity of exploration work in E.H.P and across the border in Simbu Province. So my people can work with your company and benefit also from spin-off businesses!

The Mining Department should address these issues with Macmin and Celtic Minerals (the new partner to be), the Simbu Provincial Government and the people of Karamui-Nomane. Then they have agreed and are willing to allow Celtic Minerals to add more blocks through an Application for Exploration to extend the Tenements further to the North and South along the border and further westward, as Mt. Crater is located in the corridor of the Grasburg - Porgera corridor of potential gold reserves.

As Governor of Simbu, I am very excited, knowing this opportunity of having a Gold Mine

developed in my Province - I have already set up an Geo-Science Office with qualified government personnel in Kundiawa to work co-operatively with prospecting companies with interests in oil, gas, gold and other precious metal exploration right throughout Simbu Province.

A week after the meeting with the people, the Consultant arranged a meeting with Dr. David Lindley of Macmin Silver Ltd at Airways Hotel for myself and my Government Executive and a Representative Landowning group lead by Interim Chairman John Soh Edward.

At the meeting, we specifically put up the border issues and the demand for Recognition for the Simbu Landowners just as much as Eastern Highlanders by Macmin and Celtic Minerals.

Dr. Lindley admitted that the ignorance of the E.H.P and Simbu Province border line that runs through the EL1115 area separating Nevera and Nimi Prospects in the last decade or so has been a OVERSIGHT BY MACMIN and it is now recognised that almost 4.5 blocks of the 13 blocks in EL1115 area is in Simbu Province and therefore the Simbu Landowners in Karamui-Nomane will be recognised along with the Lufa District people. Macmin is humbly asked by my government in Simbu Province to declare this in the media!

We agreed on all issues discussed and I told my Officers to meet and work closely with Dr. Lindley and Celtic Minerals staff. Together they will mediate with Landowners in Karamui-Nomane District in order to maintain stability between landowning groups by positively addressing Landowner issues from the onset. To enable smooth operations during the exploration period, and as NGG as already declared recently in the news media of the already discovered reserve of 25 million ounces of gold; further drilling operations should confirm a mineable reserve to warrant the establishment of a mining operation in the near future and am more happy to see it happening in Simbu Province.

At the major meeting of people from Karamui-Nomane at Granville Hotel, in Port Moresby, I accept and recognised Mr. John Soh Edward who has been working with the Lufa people for the last eight (8) years on the Mt. Crater Gold Project. He is introduced by his people, as Interim Chairman of the Nimi Resources Owners Association to be set up soon with the help of my Government, Mr. Edward leads a team of Chiefs from Haia, Karamui, Nomane and Salt areas of the Karamui-Nomane District. Who are going to be Members of the 8 man Working Committee Group to liaise with Macmin,

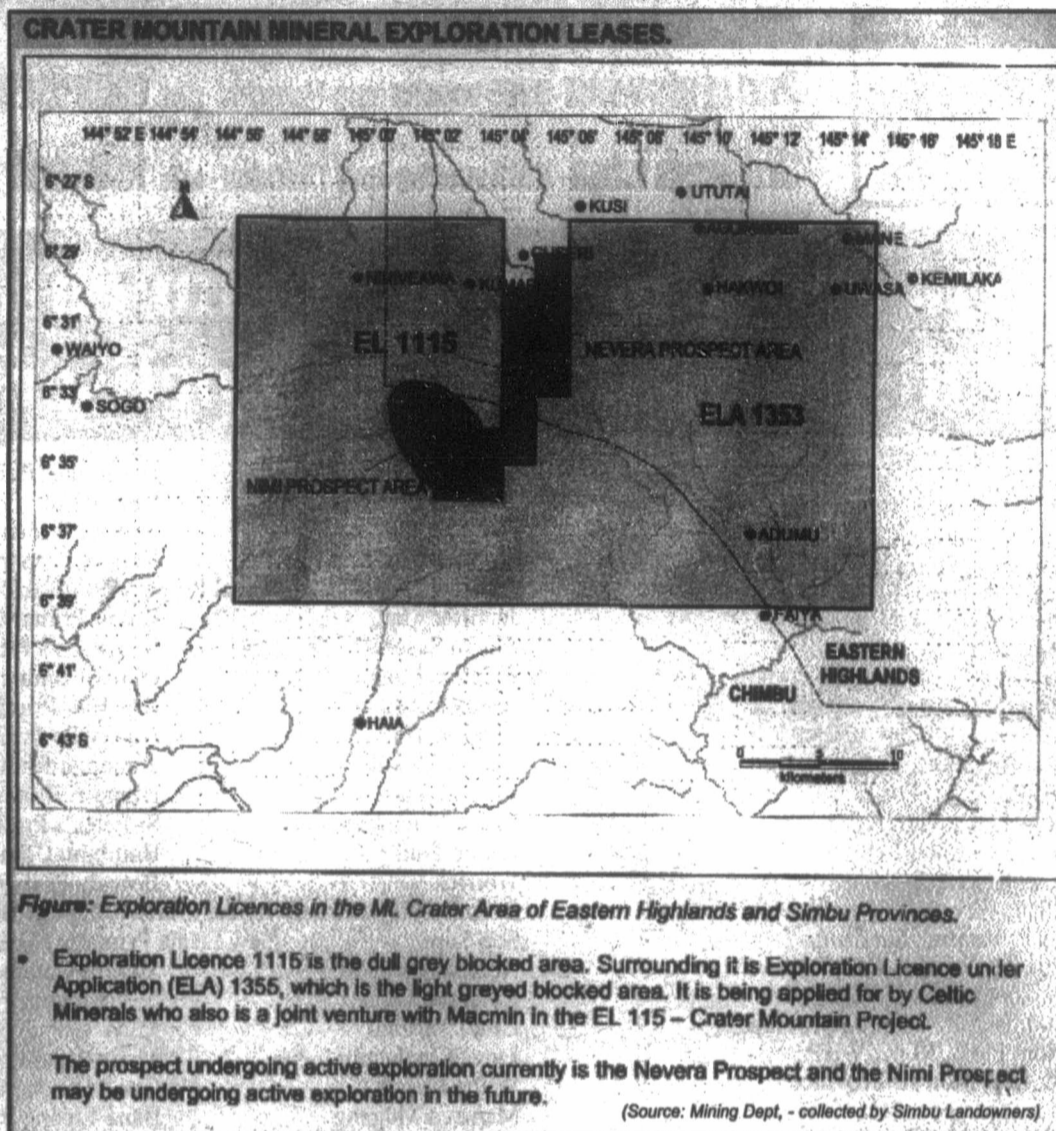

NGG, Celtic Minerals and the Simbu Provincial Government on all matters relating to the Nimi Prospect ONLY and all outlying areas of the Mt. Crater Gold Project and including 101 blocks out of the 209 blocks in the Crater Valley Prospect (ELA1353) recently applied for by Celtic Minerals on the Simbu side of the border.

My Government also accepts, and recognises a long serving Consulting Firm, namely; Kumul Resource Management Ltd (KRM) for the Nevera Resource Owners Association Inc. lead by Chairman, Mr. Kusiamo Kawale and Crater Resources Owners Association Inc. lead by Chairman, Mr. Peter Loreke (there is some understanding that they may have been replaced?). The consultant is engaged by their umbrella company, Unamai Investments Ltd.

KRM is headed by CEO, Mr. John W. Khallahle, CPA, and is currently contracted also as the Consultant to the Simbu Landowners of Mt. Crater Gold Project. I find it convenient to work with just one person, as he represents and advises landowners on all business, land matters, all inter-government issues, etc; to people from both sides of the E.H.P. and Simbu Province.

To round up, I call on landowners on both sides of the border to be reasonable and co-operative in their working relationships with the operators: Macmin, NGG, Celtic Minerals and Mining Department's personnel out on work in the fields. The sooner their exploration works are brought to finality, the better - as the results will determine whether this country can have another gold mine similar to the Porgera Gold Mine or even bigger!

Hon. Alphonse M. Willie, MP,  
Governor of Simbu Province.
