

June 4, 1913.

Mr. Jas. H. Barry,
Spring Valley, Calif.

Dear Sir:

Enclosed we beg to hand you a copy of a letter addressed to Mr. G. A. McNeil, which is self-explanatory.

Mr. McNeil evidently has used one fourth inch of water during the month of May, and at the same time, he has no rights whatever, and has not bought the Weatherbie Ranch that has a water right. Under the circumstances, it would be impossible for us to furnish Mr. McNeil with water for irrigation purposes, and if such is the case, the water to Mr. McNeil should be immediately shut off.

Also we are enclosing a bill for the water used in May which we would ask you to present to Mr. McNeil and have him give you his check.

If we had the water in our reservoirs, we would be only too glad to accommodate Mr. McNeil, but as it is, from the 15th of May, we put every consumer on one half supply, and unless we get rains before this year closes, it will be necessary to make a further cut in the supply.

Yours very truly,

c/o Jas. Berry, Spring Valley, Cal.

Dear Sir:-

Herewith please find Book of Rules and Regulations approved by the Railroad Commission last year. Kindly read Rules 5, 8 1/2 and 9. In order that your delinquent consumers do not work a hardship on those who pay their water rentals, I suggest that we arrive immediately at some understanding as to turning off these delinquents on the 31st of the month rather than make the ones in good standing suffer as a consequence of the non-payment of the others as you will see by the rules may result.

Is it my understanding that your Mr. Berry is authorized to make turn offs for non-payment of bills each month and keep said water off until the consumer shows a receipt in full for bills since June 30th last year or a receipt for the preceding month in case he is delinquent as mentioned in Rule 5. I suggest that you write us a letter along these lines so that we can deal directly with such agent and endeavor to keep such accounts in good standing, starting say with the 20th of June.

Yours very truly,

Inspector of Services.

P.S. Water supply months should end on the last day of each month, that is, should extend from meter reading to meter reading so that an excess will not show one month and a deficiency the following.

Dear Sir:

The following consumers under the Helix Mutual Water Co's pipe line, having failed to pay their water rentals and being in arrears for same, we would request that the water be shut off from each of these consumers and remain off until rentals are all paid, of which we will notify you from time to time as they send in their checks.

We are sending a copy of this letter to Mr. Harritt instructing him to reduce the amount of water through your pipe line. If you remember, a few days ago we were talking with you over the telephone regarding the meter readings for the month of April for Spring Valley, and you promised to see Mr. Hester and have him mail same in. So far, we have not yet received the readings, and we are writing to Mr. Hester, also, asking him to furnish us same at once, so that we may complete our records in this office. Is it not possible for us to get these readings each month soon after the first, without having to annoy you by

telephoning. Anything that you can do to assist us in this matter will be greatly appreciated.

The list of consumers above mentioned is as follows:
