

\$3,000 grant for support of graduate research awarded UCSD

January 8, 1963

A \$3,000 grant for support of graduate student research in physical oceanography has been awarded the University of California's Scripps Institution of Oceanography by The Bendix Corporation, Detroit, Mich.

Dr. F. S. Spiess, Acting Director of Scripps, accepted the grant recently from David Sherwood, representing Bendix Pacific, North Hollywood.

The university grants program was established by Bendix to assist Instructional and research program of American universities. The awards are made by a corporate committee which selects the recipients from among recommendations submitted by various Bendix divisions.
