

Dr. Harold Urey presents new theory on earth evolution

April 10, 1972

On Tuesday, April 11, 1972, Dr. Harold Urey, Nobel laureate and a member (emeritus) of the faculty of the University of California, San Diego will present a paper before the 163rd national meeting of the American Chemical Society, in Boston. A release based on the content of that paper is attached.

Please observe release time and date: P.M.'s Tuesday, April 11.

Dr. Urey's formal title at the University is "University Professor, Emeritus." "University Professor" is a special, high-level appointment, presently shared by only five professors throughout the University of California's nine-campus system.
