Angles 1

INTRODUCTION:

In grades 5 and 6 we learn about angles. Here is an activity that you can do that makes the learning of angles an interesting one. Here you will learn how to make a paper fan. You will then use this fan to demonstrate different size angles.

TERMS: ACUTE ANGLE, RIGHT ANGLE (90°) OBTUSE ANGLE, STRAIGHT ANGLE, REFLEX ANGLE AND ONE REVOLUTION.

Terms are optional: Grade 6 teachers may introduce all angle terms listed.

HOW TO MAKE PAPER FAN

Step 1: Get a sheet of paper (20 cm x 30 cm or 25 cm x 40 cm)

Step 2: Fold back and forth (2 cm width) as shown below

Step 3: When completed fold together and bend here

Step 4: Bend as shown below

Glue or stick together with sticky tape

Step 5: Complete your first stage of the fan as below

* Two fans attached together

Stage II
Step 6: Use the same size sheet as above and make another fan. Follow steps 1 - 5 above

Step 7: Attach the two fans together with glue or sticky tape as shown on the right above

* Hold from the coconut sticks to spread the fan to the desired sized angles

Note the way right angle is marked

* Note the way 45° is marked. Compare it with the way 90° is marked above

* Angles less than 90 degrees are ACUTE ANGLES
* Next week we will look at other angles in this series.

U.S. groceries for Rabaul

TRADESTORE owners shopping at the Koki market in Port Moresby will be pleased to note the recent opening of Koki Holsel, which will make bulk buying that much more convenient.

The new wholesale store, owned by Continental Trading Co Pty Ltd, is open seven days a week and caters for small tradestore owners, said Continental managing director Mr Wolfgang Bandisch.

The company also opened Koki Supermarket last month for vendors and visitors to the Koki market. Mr Bandisch said the people running the store had

WHOLESALEERS can be on the lookout for container shipment arrivals at Anderson's Foodland in Rabaul at the end of the month. Anderson's will be taking delivery of a second container from Certified Groceries of U.S.A. with 220 grocery products and 200 stationery, toys and homeware lines.

Mr Alex Ball of Anderson's said the first shipment sold like hot cakes. Anderson's in Lae has already received four containers from the U.S.A. which sold very quickly. A shipment from Sainsbury's in the U.K. is also expected with 150 grocery lines.

if they wanted to buy store goods to take back home instead of paying extra expenses to go to the supermarkets. Carpenters assistant general manager in charge of operation, Mr Barry Hughes described the foodbarn concept as a logical progression from half case supermarkets or foodbarns which have proved immensely successful in America and Australia.

A "no frills" food and general goods store carries basic ranges of merchandise, minimum staffing and little money spent on facilities such as floor tiles or air conditioning. Customers can find their goods easily and buy them cheaply without having to travel out of their way to find them.

They are located close to busy traffic areas like main PMV stops or local markets. This compares to the full range supermarket like our Big 'C's where you can find not just basic ranges of goods but a broad choice of brands and alternatives in a much more attractive environment, more staff to assist you, air conditioning, fresh meat and for these services to be provided you would expect to pay a little more than the basic foodbarn price," said Mr Hughes. Carpenters general manager Mr Paul Rogers said the initial reaction to the Lae market foodbarn was far greater than expected.

Living and Learning

We see many different signs around us every day. They are there to help us. They all give us information. Anyone can read these signs, so we call the information we read **PUBLIC INFORMATION**.

Reading Signs

Signs tell us things. Some have no words. Others have a few words.

Look at all these signs! What do they mean?

Signs are all round us. They are outside shops and office. They are inside shops and office. You will also see them on roads. We call these **ROAD SIGNS**.

ROAD SIGNS

It is important to know what road signs mean. it will help to stop accidents.

What should this driver do?
He should slow down.

Why should he slow down?
Because the sign tells him he is coming to a place where children cross the road.

You will also see signs outside shops and offices. These are **BUSINESS SIGNS**.

BUSINESS SIGNS

Offices and shops also use signs. So do doctors and dentists. The signs outside usually tell you the names of the business and the hours of work.

Look at this sign

1. Who owns this business?
2. Does he work on Saturday?
3. What is his telephone number?
4. Do you know what his job is? Does the sign tell you?

TESTING TIME

Where would you find these signs?

Next week we will learn about Reading Labels.
