00:28	Trevor Henthorn: Welcome to <i>Spidersonic</i> . There is a theme of eight that goes on here. Eight is an important number. It's how many legs there are on a spider and it helps us organize how we're going to do things. In my world, sometimes, it's just important to make a decision, to agree on something and move on and get work done. It doesn't matter what it is, what color it is, how it works, just make a decision and let's go.
06:15	Trevor Henthorn: We have 12 megabits softer. It's not: stop immediately. It's: slowly get softer and stop.
