# YOU WILL KNOW ITS GRIP

WHEN YOU SEE ONE!

You are practically covering more ground, saving time, labour and fuel by utilizing full tractors power.

## TRACTION SURE GRIP Rear Tractor tyre,

COVERS MORE GROUND...WITH LESS FUEL

### POSITIVE BITING ACTION

The Traction Sure-Grip tractor tyre features an open-centre design with lone, deep, broad self-cleaning lugs to enable a firm bite in the soil. The unique wedging action of these precision-straight lugs lessen slippage and spin-outs, providing traction unequalled by any other tyre in its class.

### JOB-TESTED STAMINA

Goodyear's exclusive 3T tyre cord process involving tension, time and temperature - triple tempers the cord to give it the strength of steel. This exclusive process guards against the buckling, buckle breaks and cracking most associated with rugged field conditions.

### SAVE TIME, MONEY

The Traction Sure-Grip tractor tyre has been expressly designed to control the higher torque and increased tractor power. It literally turns 'twisting action' into positive traction, saving time, labour and fuel by utilising full tractor power.

### LONG - WEARING

Goodyear's exclusive 3T tyre cord triple tempering process gives the carcass the strength of steel to ward off the harmful effects of cuts and bruises encountered in the field. This means far more retreads, too thus assuring greater durability and serviceability for the life of the tyre.
