1991 Spring Election Referenda Questions

- 1) While every other UC has a Women's Resource Center funded and staffed for a wide range of counseling and support services for women, the UCSD Women's Resource Center has no paid staff and only receives limited funding from the ASUCSD as a student organization. The University maintains that all services for women are currently being met and should be met by existing University services and considers all of the University departments to be funded at a level to serve women students efficiently. The A.S. government believes that such a service being geared towards women will better meet the needs of women students on campus, and should be funded by the University.

Should the University pay for staffing at the Women's Resource Center?

Yes 804

No 346

- 2) The University has plans to build a 900 car underground parking garage. While University parking fees will fund this project, some University officials would like to exclude student parking from the structure.

Should the University make the allocation of parking spaces proportional to the amount of funding each group (e.g., student, staff, and faculty) contributes?

Yes 808

No 158

- 3) Among other charges, the Campus Community Planning Committee gives final approval to the planning and construction of all buildings on campus. Currently, there are five faculty, five administrative, one staff, one graduate and one undergraduate representative who have voting privileges on this committee.

Should the University allow more student voting representation on this committee?

Yes 1033

No 128

- 4) As increasing numbers of Latino and Pilipino/Filipino students have met minimum University enrollment guidelines, the University has decided to discontinue targeted High School outreach to those groups. The Associated Students Council is against this on the grounds that these groups still have below average High School graduation rates which are used as a basis for establishing target enrollment numbers.

Should the University continue targeted High School outreach to these groups?

Yes 799

No 333

- 5) Third College is planning to establish a course that would award students general education credit for volunteer public service work in the community.

Should the remaining four colleges actively work to establish similar courses awarding general education credit for volunteer public service work in the community?

Yes 972

No 193

- 6) If a program offering academic credit for volunteer work were established, would you participate?

Yes 921

No 233

1990 ASUCSD REFERENDA QUESTIONS

1) STUDENT PARKING FEE REFERENDA QUESTION

Currently, student parking fees are earmarked to fund parking facilities and on-campus road improvements. The University has allocated parking fees to on-campus road improvements not related to parking facilities.

Should the University use student parking fees to fund on campus road improvements?

373 - Yes

1404 - No

178 - No Opinion

2) COMMERCIAL SPONSOR REFERENDA QUESTION

Should commercial sponsors (e.g. alcohol, sports, etc.) be allowed to help fund the new RIMAC facility and reduce student fees?

1699 - Yes

190 - No

63 - No Opinion

3) REFERENDA QUESTION ON NUCLEAR WEAPONS LABS

The University of California manages the Lawrence Livermore and Los Alamos National Laboratories, the only two labs authorized to design, develop, and test all U.S. nuclear weapons.

The UC Regents are required to make a preliminary decision in September of 1990 whether to continue the University's management responsibilities. The current Department of Energy contract with the University expires in 1992.

The University's primary duty in managing the labs is to appoint directors to each of the labs. The UC does not participate in the programming or budgeting processes of the labs; this is done by the Department of Energy and the Department of Defense.

The University receives a management fee of twelve million dollars of which approximately half is available for University use. From this, the University allocates \$1 million annually to support collaborative research between the labs and UC faculty and students. This money makes up less than 1% of the UC's total research budget.

Over fifty percent of the labs' budget goes to the research and development of nuclear weapons and seventy seven percent of the labs' total budget goes to military research in support of national policy as communicated to the labs by the Department of Energy. The remaining money is allocated to non-military research programs.

There have been four faculty reports regarding the management of the Labs. The first three recommended continued UC management of the Labs only if substantial modifications in the nature of University management occurred. The most recent Academic Senate report, the Jendreson Report of 1989, recommended that the University should discontinue its management of the Labs.

Do you support the University of California's management of the weapons laboratories at Livermore and Los Alamos?

787 - Yes

772 - No

361 - No Opinion

Dear Paul:

As per your request, and in following the Guidelines for Student Fee Funded Facilities, please find below the anticipated costs associated with holding the RIMAC referendum February 6, 7, 8, 1990. The figures represent costs as of this date. If any changes occur within the next few weeks, I will let you know.

There are two options for the ballot. The first is the traditional Votamatic voting machine ballot. The second is a single round hole ballot with the question printed on the ballot card. I have included the costs of both.

Election Costs

League of Women Voters - poll workers	2,500.00
Student Workers - runners, ballot and poll support	553.00
Truck Rental - pick up / return booths, supplies	77.00
Tables/Chairs	56.00
Computer Printouts	100.00
Parking Permits	220.00
Votamatics, Voting Booths, Ballot Boxes	-0-
Subtotal	3,506.00

Ballot Tabulation

Option A - Votamatic System

10,000 Votamatic Ballots @ 125 per thousand	1,250.00
8,000 Votamatic Ballots @ 125 per thousand	1,000.00
1 Votamatic Leaf Set up	100.00
40 Leaves @ \$.25 each	10.00
40 Templates	40.00
40 Masks	40.00
1 Ballot Counter including Programming, Operator, and Election Day assistance	750.00
Subtotal	3,190.00

Option B - Round Hole Ballot

10,000 Round Hole Ballot	1,350.00
8,000 Round Hole Ballot	1,100.00
1 Ballot Counter including Programming, Operator, and Election Day assistance	750.00
Subtotal	3,200.00

Total Costs: Option A	6,696.00
Option B	6,706.00

The Round Hole Ballot is a viable option only if the question will fit on the ballot.

May I suggest that the polls open no earlier than 9:00 a.m. Also, I would suggest that the poll location at the shuttle stop be eliminated. To me, it seems extraneous since there are polls at Peterson and the Gym Steps. I would also appreciate it if you would clarify how you would like the SIO/SOM poll rotation set up. Since the pool is low at SIO, I would suggest

setting up the polls between 11:00 a.m. - 2:00 p.m. only. Please advise me as to the committee's decision.

If you have any questions, please let me know.

COLLEGE BASED PROGRAM FEE ALLOCATION REFERENDUM

The Colleges currently support, in part through A.S. Funding, College-based programs, activities and graduation ceremonies. Currently, the Associated Students allocate \$.50 per student per quarter to each College Council from the \$13.50 per quarter Student Activity Fee.

Do you support increasing this \$.50 cent allocation to \$.65 cents per student per quarter. This allocation would not entail a fee increase.

INTERCOLLEGIATE ATHLETICS UPGRADE AND FOOTBALL REFERENDUM

Because of the diversity, growth, and large number of participants in the UCSD Intercollegiate Athletic Programs, it has become increasingly more difficult to adequately support UCSD athletic teams in their entirety. Presently, many of the student-athletes are paying for preseason expenses, equipment, and travel costs.

Students have expressed interest in establishing an Intercollegiate NCAA Division III football team. It has been determined that in order to establish a football team, a referendum must be passed by the students authorizing the creation of a new fee. If the referendum passes, the funds generated by the new Intercollegiate Athletic fee will be used to provide additional financial support to existing intercollegiate athletic programs and to establish a Division III football team. Further, should the referendum pass, the new fee will allow all UCSD undergraduate students to be admitted free of charge to all future regular season intercollegiate home events, including home football games.

Do you support the creation of a Intercollegiate Athletic Fee of \$15.00 per quarter effective Fall 1988, with a maximum of \$10.00 allocated to the establishment and operation of a football program and the remainder of the increase to provide additional financial support to existing intercollegiate athletic teams? Funds received through this assessment will be administered by the Intercollegiate Athletics Department with the advice of the Intercollegiate and Recreation Athletics Advisory Committee.

Any officer of the ASUCSD may be removed from their ASUCSD office upon notice after a hearing before the ASUCSD Judicial Board, which shall be the sole judge of said case and shall render the final decision of the ASUCSD.

Section F: Vacancies

1. A vacancy shall be deemed to occur when any elected officer of the association shall have lost membership in the ASUCSD, resigned, is removed from office, or becomes otherwise ineligible for office as provided in this constitution.
2. In the event of a college senator vacancy, it will be the responsibility of the individual college involved to fill such vacancy.
3. Any vacancy which might occur in the council other than college representative shall be filled after open interviews by the ASUCSD Council. This appointment is to be made no later than twenty-one (21) days after notice of vacancy, and shall be made upon recommendation by the president in consultation with council.
4. Any person that has been removed from an office shall not be eligible to fill the vacancy of that office during the term in which that person was removed.

5. Intercollegiate Athletics Upgrade & Football Referendum

The University of California, San Diego's Intercollegiate Athletic Philosophy states that because of the vast diversity of UCSD's athletic program it is unrealistic to suppose that adequate finances will ever be available to support all of the programs in their entirety. Because of this philosophy, many of the Inter-collegiate athletes are forced to pay for their equipment and travel costs, sometimes amounting to hundreds of dollars.

In addition, the administration of UCSD has determined that in order to establish an Intercollegiate Football Team at UCSD, a referendum must be passed by the students specifically stating an increase in student fees in order to finance the football program. As a result of this increase, all students will be admitted to home football games without admission charge.

If passed, the funds generated by the referendum below will be used to upgrade UCSD's intercollegiate sports programs and to establish a Division III Football Program.

Do you support an increase of \$6.50 per quarter in the "Rec Facility Fee" effective Fall Quarter 1987, to be administered by the Director of Athletics on approval of the Intercollegiate Athletic Advisory Board to further finance the existing Intercollegiate Sports and establish a Division III Football Program?

Yes - 1204

No - 755

6. Coop Referendum

Do you approve of an increase in the current University Center Fee by \$1.00 (one dollar) per quarter per student; locked in to specifically pay for a Coop Administrative Staff and to facilitate the expansion of existing on campus student-run cooperatives and the establishment of new UCSD student-run cooperatives.

UCSD REFERENDUM MARSHALS CHARTER

1. The Referendum Marshals shall be responsible for the overseeing of all student referenda in which issues being voted upon directly affect both undergraduate and graduate students. The Referendum Marshals responsibilities will include, but not be limited to, overseeing referenda involving imposition of new all-student fees or policies regarding the expenditure of student funds.
2. The Referendum Marshals shall consist of three students, and chosen by and from each of the following groups: the Associated Student Council, the Graduate Student Council, and the Registration Fee Committee. Each sponsoring group (the A.S. Council, the GSC, and the Reg Fee Committee) shall determine its own method of selecting and removing its representative on the Referendum Marshals.
3. The mechanism by which a Referendum shall be brought to the Referendum Marshals will be as follows: A student organization; either being a subcommittee of one of the sponsoring groups or one whereby a representative of one of the sponsoring groups is a voting member, must submit a reasonable issues, as described in No. 1 above, to the Vice Chancellor of Student Affairs. At this time the Vice Chancellor will forward the issue to the three sponsoring groups, whereupon a vote for or against putting the issue up for referendum will take place. If two out of the three sponsoring groups vote affirmatively, the Referendum Marshals shall be activated to:
 - a) Draw up a pertinent question or set of questions relating to the issues,
 - b) Designate a group of students to perform the mechanics of operating the referendum, and

OFFICIAL BALLOT

UNDERGRADUATE STUDENT ELECTION/REFERENDUM

APRIL 20-21-22, 1977

PART A -- ASSOCIATED STUDENTS OF THE UNIVERSITY OF CALIFORNIA AT SAN DIEGO OFFICES
REQUIREMENTS:

The following candidates are presented for consideration by all registered undergraduate students for election to those offices specified in the ASUCSD Constitution Article V, Section A, subsections 3,4, and 5 provide that:

- 3. No student shall hold any of the offices designated in this Constitution who shall not have at least an overall 2.0 grade point average or who shall not be eligible to hold the position for its entire term.
- 4. No student shall run for more than one elective office during any one election.
- 5. All regularly elected ASUCSD officials shall take office six academic days after the general election and shall serve for one (1) year or until removed from that office.

In order to be elected to an ASUCSD office, a candidate must receive at least 50% plus one vote of the validated votes cast for that office. In the event no candidate receives the required number of validated votes for a particular office, the two candidates receiving the first and second highest number of validated votes for that office will participate in a runoff election on May 3 and 4.

VOTING INSTRUCTIONS:

For each of the following offices the candidates are listed in an order determined by chance. Place an "X" in the box next to the candidate you prefer for each office. Voting for more than one candidate for an office or marking your ballot outside of the boxes provided will invalidate your vote for that office.

When you have finished voting, tear off the ballot number stub in the upper right hand corner of the ballot. Deposit the stub in the box provided and fold your ballot and place it in the separate ballot bag.
