43% of this fee increase will be used exclusively for the creation, maintenance and operating budget of the Student Promoted Access Center for Education and Service (SPACES).

14% of this fee increase will be used exclusively by the Associated Students commission on retention currently known as the Academic Success Program (ASP).

14% of this fee increase will be used exclusively by the Associated Students commission on access, outreach, and academic preparation currently known as the Student Initiated Outreach and Recruitment Commission (SIORC).

## **PULSE Referendum**

1.

### **Promoting Understanding and Learning through Service and Education (PULSE) Referendum**

Do you approve an increase in the Associated Students Campus Activity Fee by \$7.00 per student per quarter effective Fall Quarter 2007 to support student promoted retention and access programs. These programs provide academic and social support for UCSD students as well as opportunities for leadership development through community involvement.

29% of this fee increase will return to local need based financial aid.

The remainder of this fee increase will be allocated to the Associated Students, who must administer this fee increase in the following manner:

43% of this fee increase will be used exclusively for the creation, maintenance and operating budget of the Student Promoted Access Center for Education and Service (SPACES).

14% of this fee increase will be used exclusively by the Associated Students commission on retention currently known as the Academic Success Program (ASP).

14% of this fee increase will be used exclusively by the Associated Students commission on access, outreach, and academic preparation currently known as the Student Initiated Outreach and Recruitment Commission (SIORC).

The current Associated Student Campus Activity Fee is \$21 per student per quarter.

**PRO STATEMENT**

**CON STATEMENT**

## **YES on PULSE!**

The PULSE Referendum provides VITAL resources to enhance the Retention of the **Academic Success Program (ASP)** & the Community Engagement of the **Student Initiated Outreach and Recruitment Commission (SIORC)**. These two AS programs will be housed in the new Price Center Expansion (Spring 08) complete with full-time staff & resources in the **Student Promoted Access Center for Education and Service (SPACES)**. Our vision mirrors that of UCB, UCLA, UCSC & UCD - which already have well established & effective programs.

### **YOUR \$7 Breakdown:**

- \$1 for ASP
- \$1 for SIORC
- \$3 for SPACES
- \$2 for Financial Aid (required for referendums)

### **ASP - YOUR Path to SUCCESS:**

The goal of the Academic Success Program is to improve student retention. We want people who worked hard to gain entrance into UCSD to stay here, press on in their pursuit of a degree, & GRADUATE. If any student falls behind, we help them. That means going the extra mile to give you greater confidence in your academic pursuits!

- FREE BOOKS through our Booklending Program.
- Raise TEST SCORES through our Exam Archives.
- STUDY JAM and use our Free Bluebooks and Scantrons.

## ***Your Success, Your SPACES!***

### **SIORC - YOUR Connection to COMMUNITY:**

The Student Initiated Outreach and Recruitment Commission develops your leadership & engages YOU with the community. You came to UCSD (*not UC La Jolla*) and we strive to bridge the educational gap by providing you with the resources to help youth have equal access to higher education through Academic Preparation programs!

- INSPIRE YOUTH through our High School Conferences.
- BUILD LEADERSHIP through our Overnight Program.
- GIVE BACK during break through our Summer Summit.

**The PULSE Referendum promises many good things, but can these promises actually be delivered?**

**Consider this:**

1. **The PULSE Referendum serves as an immediate solution to the lack of state-wide legislative support for Student-Initiated Retention and Academic Preparation. Where are the projected long-term goals for the program?**
2. **No data exists to prove that our current programs are effective. Why give more money to an unproven project?**
3. **The campus has enough racial and ethnic diversity. What this campus needs is diversity of opinion.**
4. **The Academic Success Program successfully RAN and WON a referendum campaign back**

## ***Your Community, Your SPACES!***

### **SPACES - YOUR Student RUN & CONTROLLED Center:**

The Student Promoted Access Center for Education and Service is the culmination of DECADES of student struggle to improve UCSD for EVERYONE. Your \$7 expands ASP & SIORC and provides essential full-time staff committed to your success. Over 2000 sq. ft. is dedicated to SPACES, but w/o PULSE your center can't become a reality!

***With YOU in control, Anything is Possible!  
YES on Success! YES on Community!  
YES on PULSE!***

in 2001. Why is there a need for more money? (Refer back to 2)

5. The current SIORC funding model makes the funds "exclusive booty of the Student Affirmative Action Committee members" (Guardian Article). What are the steps to ensure this doesn't happen?

**DEMAND ACCOUNTABILITY.**  
Make a responsible decision.

## Mike "Hershey" Hirshman

At a big school like ours, it's probably necessary for me to introduce myself. I'm a Warren College transfer student, as well as the editor of The Triton, a campus publication I helped to found last fall. I hope to have spoken to many of you over the last week on Library Walk, at your student org meeting, or around campus. I'd also like to encourage those of you I haven't met to give me a chance to get to know you.

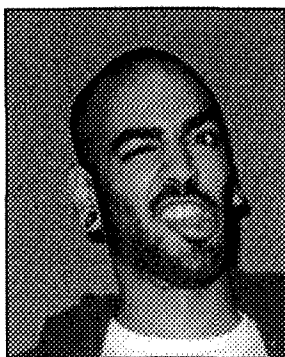

We've got a really smart student body here, and I know many of you have got ideas and suggestions about how to improve our school, but many of us think that it's too hard to get involved. If I'm elected, this will change. I want to make it as easy as possible for those of you who want to join a club, get involved with AS, or just make

UCSD a more welcoming place.

A top priority for me would be to revitalize our campus atmosphere. Why not have a "Bear Garden" every Friday? We should make this immensely popular event with pizza and beer a weekly occurrence. Perhaps we could have "Bear Garden" type events to coincide with athletic games. For example, on the night of big games in RIMAC, we could hold a "Bear Garden" in the foyer in front of the sports complex. This would not only boost attendance but would greatly contribute to the enthusiasm of Triton fans!

I'd also work to give student orgs more support. From fraternities to SAAC orgs to spiritual groups, our campus can be difficult for clubs to work with. For instance, many clubs say they can't easily get a meeting room. I'd work with the Registrar to make sure that all rooms on campus, not just Price Center, can be easily reserved by student orgs.

If elected, I'll put my heart into this job, and I'll make sure that each of you benefits as much as possible from AS. Vote Mike "Hershey" Hirshman for AS President!

## Junaid Hamid Fatehi

I am running with one major goal in mind. I want to increase school spirit at UCSD. My plan to go about doing this is to have more free beer given away on campus. I would like to see a return to the good old days of UCSD where every other Friday a band came to play and beer was given to students of legal drinking age.

I also want to see beer given away at more sporting events. Now with the drastic increase of Triton Athletics spending budget they should be able to buy a few kegs. The successes of a schools athletic department is best determined by the support they receive from there students. Free beer at games will have a huge impact on student turn out at these games. If I am elected A.S. President I will put pressure on Triton Athletics to give away beer at more games.

With your help we can make UCSD a more tolerable place.

## Student Athletic Support Fee Referendum

1. Do you approve an increase in the Intercollegiate Athletics (ICA) fee by \$78.04 per student per quarter effective Fall Quarter 2007 adjusted annually according to the California Consumer Price Index (CPI) to support the needs of intercollegiate athletics and the campus recreation sports program and to establish student-athlete grants-in-aid?

67.5% percent of this fee increase would be allocated to and administered by the Intercollegiate Athletics Department to increase its operating budget for a broad-based program and to comply with the NCAA Division II grants-in-aid requirement.

**3.5% percent of this fee increase would be allocated to and administered by the Campus Recreation Sports Program.**

**29% of this fee increase will return to institutional financial aid.**

**The current ICA fee is \$31.80 per student per quarter and is adjusted annually according to the CPI.**

Where is the extra money that they <b>don't need</b> going to go? <b>Salaries and money for administrators to travel on paid vacations to conferences.</b> That's right. They're asking you for raises and what they call "professional development." Is any of that needed to keep our athletics program? <b>No.</b> But they know by lumping it all together, they can get you to vote for their higher salaries because they can say athletics will be cut if it fails.</p> <p>Don't listen to them! <b>If this fails, AS has the option to put the \$12 the Administration really needs on the ballot for a vote in the Spring and no teams will be cut.</b> Don't pay \$78 when you can really pay just \$12.</p> <p><b>This fee automatically increases every year with no limit.</b> If you're a freshman, you could be paying \$375 for athletics every year until you graduate.</p> <p><b>VOTE NO!</b></p>

Athletics is one of the only programs that can provide such benefits as increased national reputation, school spirit and pride, alumni involvement and donations and MORE

These are all significant issues facing UCSD currently, and athletics most certainly can help, *while still being the only program that all students can enjoy.*

**VOTE YES**

**Leave UCSD a Positive Legacy TODAY**  
**Support the Program which has brought UCSD 29 National Championships, multiple NCAA Directors' Cups and the inaugural CCAA Commissioner's Cup.**

*STOP letting the administration ignore the under-funding of UCSD Athletics!*

## **RIMAC Annex Advisory**

1.

The RIMAC Annex is a new construction project that will be located adjacent to RIMAC and the NCRA field. The project will utilize approximately \$10 million in revenues generated from student fees and will include a café, terraced outdoor seating areas, two lounges with a coffee bar, a convenience store and a large meeting/activity room. No new student fees will need to be assessed for this project; it will be funded from the facility reserves and donated moneys. Revenues generated from this facility will be utilized to offset the cost of RIMAC operations.

The proposed amendments to the  
Revelle College Council Constitution

The proposed amendments to the Revelle

Warren College Council Constitution flexibly incorporate more student representation in accordance with the recently passed A.S. Constitution. One amendment proposes 4 Class Representatives with the understanding that each Representative will carry out class projects. Furthermore, the Freshman Representative will no longer be required to take council minutes due to more expectations of his/her position. Finally, the Chair's voting powers have been adjusted to reflect Robert's Rules of Order for reasons of greater discretion and council efficiency.

College Council Constitution conflict with some of the traditional proceedings of the Council. Allowing the Chair to vote when it may affect the result potentially eliminates the Chair's position of impartiality. Additionally, there is concern for the potential abuse of this change in voting power. Another amendment shifts the responsibility of minute taking from the Freshman Representative to the Clerk of the Council. It has been a tradition for the Freshman Representative to take minutes with the intention of him/her to become affiliated with the Council and its proceedings. This shift may deprive the Freshman Representative of this learning experience.

### ASUCSD Activity Fee Referendum

0.

#### FEE REFERENDUM

Do you approve an increase in the Associated Students Activity Fee by \$9.00 per per quarter, effective Fall Quarter 2006? This fee will be locked in and used exclu for AS Programming, which puts on events and concerts such as SunGod, TGs, N

FallFest, WinterFest, as well as other large-scale events at UCSD. 29% (\$2.61) of activity fee increase will return to financial aid. The representative party of this financial area will be the AS Commissioner of Programming. He or she would have the authority to agree to a lesser amount than the funds locked in to this financial area.

### PRO STATEMENT

-Passing this fee referendum will ensure the following:

- \* Bigger & better SUNGOD!
- \* Bigger & better concerts like Fallfest, Winterfest, and TGIOs!
- \* TGIFs on Fridays with a live band!
- \* More free shows with BIGGER NAMES!
- \* Money to bring comedians, lectures, and even country music acts!

\* Money to continue holding more frequent, better, free nooners!

-A.S. Programming needs to keep up with unforeseen costs (For example: the UCSD Tech labor cost which has doubled this year!)

-This referendum will ensure that Programming gets a guaranteed amount if the Associated Students' Budget faces further cuts in the future.

-A.S. Programming actually faced a budget cut this past year.

-We currently have one of the BEST COLLEGE PROGRAMMING OFFICES in the country. We need this money to keep performing at this level.

-The Con side is saying that this will take money away from A.S. Programming's current budget. This is wrong because the students can and will decide how much money actually goes to A.S. Programming. This referendum does not

### CON STATEMENT

Voting YES will NOT give AS Programming \$9 MORE per quarter

This fee referendum will give AS Programming a lock-in – which means \$9 per quarter per student will always go to AS Programming, but the AS activities that usually go to AS Programming (\$9/quarter currently) can go to other events, student orgs, etc. Programming funds will actually stay around the amount.

If you want more money to go to the Associated Students in general, the ahead and vote yes. But getting students pay more to the AS general account should not be hidden behind the programming AS Programming department.

Think that our AS Programming should be better with the funds they are already given? Let the students decide each how much AS Programming should don't give them a lock-in to waste.

Our fees are already high enough! We should fight against the fee increase and tax ourselves with more!

make A.S. Programming receive any less of an allocation.

-Voting for this WILL ONLY GIVE A.S. PROGRAMMING MORE MONEY which means better programming FOR YOU!

\* \* \*

The current ASUCSD Student Activity Fee is \$21.00 per undergraduate student per quarter. The proposed fee referendum would bring the Student Activity Fee to \$25.00 per undergraduate student per quarter, starting Fall 2006.

### WHAT I WILL DO!

This position was created in 2003 to serve as a point person for the various AS. However, over the last couple years AS services have been moving under other offices. For example, last year U.S. Grants moved under the VP Academic Affairs and KSDT/SRTV moved under the Commissioner of Communications. My goal for this year is to move the rest of the services such as Volunteer Connections and AS! Rides into their appropriate offices. At that point, this position should be eliminated and merged back into another position.

## AS Council Reform Referendum

### 0. AS COUNCIL REFORM REFERENDUM

Approval of the Referendum to change the ASUCSD Constitution to read as follows:

The changes to the Constitution seen below changes the Senate structure from four senators, one per grade level, per college, to two college senators per college, six campus wide generally elected senators, and six first-year senators to be appointed by the AS during the FALL Quarter. Do you approve of the change to the representation structure of the AS Council as seen below to take effect in the 2006 AS General Election?

ASUCSD Constitution  
ARTICLE II. ASUCSD COUNCIL

Section E: Membership of Council

The Council shall consist of campus-wide elected members and elected senators representatives from each college. There will also be non-elected non-voting member

**3. College Senators**

- ~~a. Sophomore, Junior, and Senior from each college. Two senators per college elected or appointed by their college.~~
- ~~b. Freshman from each college. Six generally elected campus-wide senators.~~
- ~~c. Six first-year senators, one per college, appointed by the AS Council during FALL Quarter.~~

**ARTICLE III: OFFICERS OF THE ASUCSD**

**Section D: Legislative**

**1. Responsibilities of College Senators**

- a. Shall represent the interests of their respective college and the college community within the guidelines of their respective college bylaws.
- ~~b. Shall represent the interests and needs of the students in their respective class.~~
- ~~eb.~~ Shall act as a liaison between the colleges and the A.S. Council, the college councils and the A.S. Council, and the college student body with the constitute of the other colleges.
- c. Shall be a member of at least one (1) council legislative committee.
- d. Shall complete at least one (1) Council project and provide quarterly reports progress to Council.
- e. Shall attend all meetings of the ASUCSD Senate.

**2. Responsibilities of General Senators**

- a. Shall represent the interests of the entire campus community.
- b. Shall be a member of at least one (1) council legislative committee.
- c. Shall complete at least one (1) Council project and provide quarterly reports progress to Council.
- d. Shall attend all meetings of the ASUCSD Senate.

**3. Responsibilities of First-year Senators**

- a. Shall represent the interests of first-year UCSD students.
- b. Shall be a member of at least one (1) council legislative committee.
- c. Shall complete at least one (1) Council project and provide quarterly reports progress to Council.
- d. Shall attend all meetings of the ASUCSD Senate.

**PRO STATEMENT**

Vote YES on AS Council Reform!!

**ACCOUNTABILITY** - Under the current system, any officer can be impeached by AS if they aren't doing their job - except senators. This structure makes the Senate more accountable to the campus.

**BETTER REPRESENTATION** - Not everybody

**CON STATEMENT**

Vote YES to fix our Senate!

It's AS's responsibility to provide the student sound, functional proposal on which to vote proposal is NOT sound because:

- Freshman senators SHOULD NOT be appointed by AS. Having freshman senators appointed each college allows for MORE DIVERSE representation. College councils are better provide the support needed to help freshman senators become educated representatives.
- Senators could vote on their own impeachment

affiliates with their college and year. The current system might include everybody, but it doesn't represent everybody.

**COMMUTERS AND TRANSFERS** - College-based elections favor candidates who are residents or RAs, since they have more contact in the resident halls. Under the improved structure, commuters and transfers can form campus-wide voting blocks and get a fairer chance in elections.

**TACKLES THE ISSUES** - AS handles very few college specific issues, where a senator from one college would vote different than a senator from another. This improved structure keeps the focus on projects and issues that affect the ENTIRE campus.

Currently senators are accountable to, an impeachable by, college councils. This change would empower the Senate to vote on self impeachments.

-Campus-Wide Senators would allow for representation and under-representation. Wide senators would cater to special interest groups that mobilize voters - NOT the average student. Having college senators and campus wide senators would make some people more represented than others.

**THE PROBLEM IS NOT WITHIN THE STRUCTURE...IT'S WITH PEOPLE NOT THEIR JOBS. THIS CHANGE IS NOT THE SOLUTION TO THE PROBLEM!**

## Student-Initiated Outreach and Recruitment Commission (SIORC) 2005 Proposed Fee Referendum

### 1. Developing Opportunities through Outreach and Retention Services (DOORS)

Do you support an increase of the ASUCSD Student Activity Fee by \$3 per undergrad student per quarter to support Student-Initiated Outreach and Retention? \$2 of this fee go to Student-Initiated Outreach (for SIORC funded programs i.e. high school conferences and other forms of student initiated outreach), and \$1 would go for the maintenance and growth of the Student Run Recruitment and Retention Center which, contributes to recruitment and leadership development. All allocations would be administered and decided by ASUCSD at the recommendation of the student-run Student-Initiated Outreach and Recruitment Commission. All students and student organizations would have access to this fund for community-building, outreach, and retention efforts. If approved, it shall take effect in the Fall of 2005.

#### PRO STATEMENT

As UCSD students we enjoy the benefits of attending an institution with unparalleled opportunities; it is important we in turn invest in current and future generations of students.

Reasons to support the DOORS Referenda:

**COST EFFECTIVE:** The fee, equivalent to two meals a year, can affect students' decisions to pursue higher education.

**SUCCESSFUL:** The success of referenda-subsidized student

#### CON STATEMENT

SAY NO TO INCREASED FEES

-Student fees have gone up the last 3 years. This referendum would increase them again

-We should focus our fees on improving campus life, not on more money for programs that are not aimed at the students' well-being

initiated programs on other campuses clearly indicate that the DOORS funding model would best help close achievement gaps and ensure the local youth have the tools they need to be academically and mentally prepared for the opportunities before them.

**BENEFITS CURRENT STUDENTS:** Funds will go to the Student Run Recruitment and Retention Resource Center; this will create leadership opportunities, and develop skills in event planning, communication, public speaking and management. The retention method benefits current UCSD students. It is 100% student controlled, with guidance from advisors. Vote Yes, and support opening DOORS.

for them.

A.S. already has the power allocate huge amounts of money to SIORC--over \$44 year alone!

-The State should be payin outreach, students should t for an education.

-If this referendum is appro many other groups will wan fees again?

## **PRESIDENTIAL CANDIDATES**

**Christopher Sweeten***Accepted voluntary spending limits*

As President, I will fight for the realistic goals of increasing financial aid, saving outreach programs, and fight for the rights of UCSD students.

I will continue to build on my past experiences of:

UC Student Regent Finalist | ASUCSD Commissioner of Diversity | ASUCSD Sixth So Senator | ASUCSD Legislative Liaison | Chair, Sixth College Student Council | Sixth C Resident Advisor | UC Student Association, Chair of Campus Action Committee | UC Association, Coordinator of Students of Color Conferences | Cross Cultural Center A Committee | Chancellor's Undergraduate Diversity Council

This is what I have done for UCSD students:

Lobby local, state and national elected officials on higher education affordability and accessibility | Spoken at several state wide rallies against student fee hikes | Organized Hate Speech Rally | Defended outreach and retention | Defended transfer housing

Student's Rights, Student's Movement, STUDENT EMPOWERMENT!

**Keshav Boddula***Accepted voluntary spending limits*

Running independently. I study sociology and philosophy, outreached to east county Diego, direct a mentoring program, and help CALPIRG with their cheaper textbook campaign. I believe my interactions and involvement with various people and groups around campus exemplify my ability to represent the student population externally. With an uncanny ability to sieve through persuasive rhetoric and recognize and utilize reason via logic, I will achieve progressive ends through realistic means. Generally, goals within UCSD include promoting involvement in 'college life' (organizations, athletic activities, acceptance of informal gatherings) and advising the current progressive organizations how to achieve their goals. Generally, I lead while listening to others who have more specialized knowledge in reaching the desired goal. One specific goal is to abolish the poverty wages that are being given to AFSCME workers at UCSD. I represent the students' needs and the students' needs expressed through me.

**Kevin Hanson***Accepted voluntary spending limits*

My experience and dedication with serving the UCSD student body, combined with my tangible goals and strong work ethic, make me the best candidate for AS President. ### ASUCSD ACTIVITY FEE

WHAT IS IT?

The Campus Activity Fee is the primary source of funding for the Associated Students. The current fee of \$21 is charged per student per quarter and is allocated to provide services and to represent students at UCSD. An increase in this fee would fund items such as student organization programming, A.S. a campus programming like Sun God festival, Winterfest, and Fallfest, student organization and sports club conference and national competition travel, External Affairs, College councils, campus alternative media, and student-initiated outreach. Financial aid will cover this increase since it is a mandatory

student fee. The proposed fee increase is for \$6.75 per undergraduate student per quarter.

### FACTS

- Financial Aid will cover this mandatory fee increase, as appropriate to your individual circumstance
- Students approved the previous ASUCSD general activity fee increase in 1998.
- Students selected by you (ASUCSD Council) will make all decisions regarding the allocation of the student activity fee.

### PRO

- Currently, the A.S. is able to fund about 1/3 of the total dollar amount requested by over 300 student organizations. An increase in the activity fee will allow the ASUCSD to better support the programs, travel, and operation of student organizations.
- UCSD programs have recently been affected by statewide budget cuts and further cuts in outreach and athletics are anticipated next year as a result. A larger activity fee will allow the A.S. to combat the negative effects and supplement these programs.
- With the current growth rate of the campus, increased funding can improve all-campus programming (i.e. Fallfest, Winterfest, and a bigger Sungod Festival) and allow programs to target a much larger student body.

Submitted by: Dave Beza, A.S. Vice President Finance

### CON

- Students already pay enough fees to attend UCSD.
- Instead of raising fees, the A.S. should better manage the money it already spends.
- A \$6.75 increase per student per quarter is too much for students to pay all at once.

Submitted by: Dave Beza, A.S. Vice President Finance

Do you support an increase in the current ASUCSD Student Activity Fee by \$6.75 per undergraduate student per quarter effective Fall, 2003? The fee supports activities such as ASUCSD Programming (e.g. Sungod), Student Organizations, National Competition/Conference Travel, Student-initiated Outreach, College Council Programming and Campus Activities.

## ASUCSD CONSTITUTIONAL AMENDMENT

### WHAT IS IT?

This legislation would change the selection of the eight ASUCSD commissioner positions from being elected in the A.S. elections to being appointed by a committee consisting of the incoming president, outgoing commissioner, and one senator from each of the six colleges.

**PRO**

- MORE ACCOUNTABILITY and MORE OVERSIGHT to the Student Body
- Getting the BEST PEOPLE for these important jobs instead of just finding "slate fillers" and "campus politicians" willing to run
- We define Best People as the MOST QUALIFIED and MOST TALENTED
- OPENS the OPPORTUNITY for these positions to ALL UCSD Students, not just popular "student government types" willing to run in a campaign
- This makes the commissioners LESS POLITICAL which equals MORE PRODUCTIVE
- Take the appointment away from exclusive slates and INTO THE HANDS OF VOTERS
- A CLEANER CAMPAIGN, focusing on representation rather than "politicized" commissioner positions
- A MORE KNOWLEDGEABLE VOTER focusing on electing the Best Executives and Senators
- This RAISES STUDENT VOICE on the elections that Matter
- A Cleaner Price Center!!!! ...fewer slates putting up posters for their cronies
- Say NO TO NEPOTISM, SAY YES TO APPOINTED COMMISSIONERS

Submitted by: Kevin Kelly, Thurgood Marshall College Council Chair

**CON**

- This legislation would take power away from the student vote.
- The direction a commissioner takes with their office and the decisions they make will be guided by the A.S. Council rather than the students of UCSD.
- Appointment of commissioners decreases the diversity of backgrounds and ideas in the A.S. Council.
- UCSD students are educated people, changing from elections to appointments shows disrespect for their ability to make good decisions and elect the candidates that they feel will best serve the students.
- The student organizations that work directly with the commissioners would have less of a voice on who fills that position as they would no longer be able to vote directly for the commissioners.
- Commissioners would no longer be accountable directly to the thousands of students who elected them, instead being accountable to the eight A.S. council members who appointed them.

Submitted by: Gabe Grossman, A.S. Commissioner of Programming

Hi. My name is Brian Uiga and I am running for UCSD President. I think you should vote for me. I have experience. My slate is called the New Students First of the Unity Action Parking Wave Slate. We would all be very good as politicians for this good university. I think changes need to be made to AS, and I can make them. Thank you.

I still have some words left so I think I should let everybody know that it's okay to listen to music that you like, when you vote. It makes you vote happy.

I also have a catchphrase I'm supposed to say, it is: We take on the system so you don't have to. I think it's supposed to mean something about student apathy, but I'm not sure.

**The PEOPLES PARKING PARTY: a vote for more parking!**

The PPP is the only slate that is both pro-American (Ford, Chevy, Dodge) and pro-Asian (Honda, Toyota, Nissan).

I don't need to convince you that parking is a problem at UCSD. And I think that it has been pretty clear that the current A.S. has done very little about it, (wait they *promised* more spaces and they *delivered NEGATIVE 1,200*).

**The PEOPLES PARKING PARTY will fight for the following solutions:**

- Corporate sponsorship of spaces (I got the connections).
- Fire as many meter/ticket maids as possible.
- Drastically reduce A/B spaces.

-Allow off asphalt parking in *a lot* of worthless space (UCSD has *a lot* of worthless space, why isn't yo car there?)  
 -lobby the city of San Diego to allow students to park for more then 2 hours on off campus parking spaces.

Finance is the art of priority. The artist takes up his brush dripping with dollars and creates a portrait of UCSD certainly shouldn't be represented as an old out of shape geezer. So I would make the image and healthy by painting copious amounts of sports and recreation onto the canvas. I would make the character smile by painting in a plethora of concerts, enough to make him deaf. To make things interesting, I would portray this fit deaf fellow as a monkey by seeing the UCSD Ropes Course through to completion. And the monkey had better be a fatty, so I would make it jolly by painting in lots of food. A.S. Finance is all about cutting what isn't fun or useful, so this monkey would definitely be naked. If you would like to see UCSD become a fat happy deaf naked monkey, then vote for me.

Vote Big Wave Dave and the NEW WAVE!

### Sam Shahmardi

My intention as President is to create a campus where students can directly involve themselves in campus life, but more importantly, where students will feel involved in everyday activities. A.S., though working relentlessly, exists in a state of ambiguity; the common student: Does not know what A.S. does, how it functions, or who is representing them. Considering that it is the primary role of A.S. to represent the students, there is an obvious problem. Students will have the opportunity to become directly involved in debates and key issues which evolve through the year, and there will be visible rewards and results that they can see, experience, and relate to personally. Input will become action, entertainment will boom. We will walk with purpose. The saying at UCSD is that fun comes to those who go after it: I believe it's time to bring the fun to the students.

### Phil Palisoul

Is school spirit better now than it was a year ago? The answer is a resounding NO. The time has come for change, and not just a minor change. This campus is sick, it's lethargic, and at the current moment pathetic. There is no sense of belonging, and a true lack of school spirit. No longer can we have leaders that are inefficient and ineffective. They've had their shot; now it's time to put individual goals aside and cure the problem. This university desperately needs fully capable leaders with dynamic ideas for improving school life for ALL students. These individuals can be found on the T.O.G.A.A. Slate. They are qualified individuals dedicated in the pursuit of a common goal, to improve student life and in turn improve school spirit. Together, Our Goals Are Achievable. Check out one of our flyers to see how we are going to cure UCSD.

### Colin Parent

What separates Colin Parent from the rest? Experience, concrete plans, and a team with only the best candidates. NO UNQUALIFIED SPACE-FILLERS.

#### Experience:

A.S. Commissioner of Services and Enterprises

#### **Scott Destafney**

Looking back over the past year at UCSD brings certain questions to mind. Is student life better than .. was the year before? Has the current AS government successfully facilitated the development of a campus atmosphere that students can enjoy and be proud of? Unfortunately, the answer to both of these seems to

be no. As Vice President Internal I will work to ensure that UCSD is established as a place where learning coincides with having fun. After all, isn't that what college is supposed to be about? Using previous student government experiences and leadership skills gained through years of athletic involvement, I plan to address the shortcomings on campus. These include the almost complete inexistence of school spirit and athletic support, the problems associated with on-campus parking, and various other student living issues. When I look at UCSD, I see a school with infinite potential. Vote T.O.G.A.A.

#### Kevin Cruz

Are you having too little fun UCSD? By promoting student life, the TOGAA slate hopes to make this campus a better place to live, and I, if voted to Vice-President External, will do my best to further this goal. By concentrating on the student aspect of our school, we will be looking at something that previous councils have not truly examined: how content the student body is. To have a truly great school, the student body must not only endure school, they must love it, something, it seems, that very few people do at our school. As a second year, I have seen our school from its best to its worst, from sports teams playing for titles to witnessing students wait in parking lots waiting for spaces. Our school is what we make it and TOGAA and I hope to make it much more enjoyable for the students.

Attended and spoke at several UC Regents meetings

#### PLAN:

Compile a database of intercollegiate and community resources

Provide organizational support to aid campus campaigns and events

Work with CCSA, UCSA, and USSA on student issues

Make UCSD a recognized voice for our elected officials in CA and DC

As Vice President External, my focus will be to encourage students to be informed about events, local elections and votes that affect issues such as housing and the local environment, specifically, the integrity of our beaches. While working with representatives from USD and SDSU, I will address the concern for the lack of abundant and affordable housing in the communities surrounding our schools. I will also investigate the legislation restricting in-city Greek housing and attempt to reach a compromise to expand fraternity and sorority houses in close proximity to campus. In addition to these community issues, as Vice President External, I will also scrutinize and discourage frivolous increases in student fees.

**VICE PRESIDENT FINANCE****CANDIDATE STATEMENTS****Robert Benson Babock**

Hi, my name is Bobby (Robert) Babcock, and I am running for the position of Vice President Finance. I would like to share a few reasons why I am running. Next year I will be a senior at UCSD, graduating in the spring, and I really want to help better the school in a new way before I leave. I am graduating with a major in Management Science and a minor in Philosophy. My major is one reason I am running for VP Finance. I am involved in intercollegiate sports, a dynamic I feel will aid in being part of AS. I have really enjoyed my time so far at UCSD and have been an active member of clubs, intramural sports and other extra curricular activities. I would like the opportunity to apply myself to AS to continue building up UCSD so everyone can find a place here where they belong.

**Garo Bournoutian****Ride the NEW WAVE!***Improving Student Life!**Advancing Athletics! Fiscal Accountability!*<http://www.thenewwave.com>

Going the distance to

Assure the students of UCSD that a

Responsible individual

Oversees the disbursement of THEIR money.

I will bring strong fiscal management to the Associated Students, including policies that would provide equal opportunities for student organizations to request funding. I want to put an end to the all-too-common practice of suspending the By-laws, which are in place for a reason. If By-laws need to be changed to accommodate our dynamic student population, I will work with the senators and organizations to propose new By-laws, instead of disregarding the current ones. I will provide fiscal accountability to the students of UCSD, because it is YOUR money and should be handled competently.

MARSHALL STUDENTS FIRST

As Director of Public Relations, I will keep the Marshall students better informed on council activities. As a freshman this year, I felt disconnected from the workings and activities of council, and hope that next year, I can make knowledge of Marshall Council accessible to all students.

## 2. FEE REFERENDUM QUESTION #1:

Shall the Associated Students Activity Fee be increased by \$2.00/quarter to support membership and participation in the United States Student Association (USSA) and the University of California Student Association (UCSA)?

USSA is the oldest and largest national student organization. USSA works on issues of educational access; including federal financial aid, recruitment and retention of traditionally under-represented students, and campus safety. USSA represents and advocates for all students and is the only student voice on Capitol Hill, the White House and the Department of Education.

UCSA is the recognized voice of students to the UC Regents and the California Legislature. UCSA works on systemwide issues such as tuition fee roll backs, increasing state funding to higher education, admission and retention of under-represented students to the University of California and the annual nomination of the Student Regent.

\* \$.19 (approximately 10%) would stay on campus to fund programs, campaigns and travel of UCSD representatives to UCSA and USSA conferences, meetings and state wide and national student lobby days.

\* \$.91 (approximately 45%) would go to UCSD membership in USSA.

\* \$.90 (approximately 45%) would go to UCSD membership in UCSA.

This would potentially free \$22,000 that currently is allocated out of A.S. Activity Fees to membership in both USSA and UCSA. Continuation of this fee must be approved by A.S. Council every year.

Yes 1478

No 1268
