UNDERGRADUATE STUDENT ELECTION/REFERENDUM

APRIL 20-21-22, 1977

PART A -- ASSOCIATED STUDENTS OF THE UNIVERSITY OF CALIFORNIA AT SAN DIEGO OFFICES REQUIREMENTS:

The following candidates are presented for consideration by all registered undergraduate students for election to those offices specified in the ASUCSD Constitution Article V, Section A, subsections 3,4, and 5 provide that:

- 3. No student shall hold any of the offices designated in this Constitution who shall not have at least an overall 2.0 grade point average or who shall not be eligible to hold the position for its entire term.
4. No student shall run for more than one elective office during any one election.
5. All regularly elected ASUCSD officials shall take office six academic days after the general election and shall serve for one (1) year or until removed from that office.

In order to be elected to an ASUCSD office, a candidate must receive at least 50% plus one vote of the validated votes cast for that office. In the event no candidate receives the required number of validated votes for a particular office, the two candidates receiving the first and second highest number of validated votes for that office will participate in a runoff election on May 3 and 4.

VOTING INSTRUCTIONS:

For each of the following offices the candidates are listed in an order determined by chance. Place an "X" in the box next to the candidate you prefer for each office. Voting for more than one candidate for an office or marking your ballot outside of the boxes provided will invalidate your vote for that office.

When you have finished voting, tear off the ballot number stub in the upper right hand corner of the ballot. Deposit the stub in the box provided and fold your ballot and place it in the separate ballot bag.

## 5. Intercollegiate Athletics Upgrade & Football Referendum

The University of California, San Diego's Intercollegiate Athletic Philosophy states that because of the vast diversity of UCSD's athletic program it is unrealistic to suppose that adequate finances will ever be available to support all of the programs in their entirety. Because of this philosophy, many of the Inter-collegiate athletes are forced to pay for their equipment and travel costs, sometimes amounting to hundreds of dollars.

In addition, the administration of UCSD has determined that in order to establish an Intercollegiate Football Team at UCSD, a referendum must be passed by the students specifically stating an increase in student fees in order to finance the football program. As a result of this increase, all students will be admitted to home football games without admission charge.

If passed, the funds generated by the referendum below will be used to upgrade UCSD's intercollegiate sports programs and to establish a Division III Football Program.

Do you support an increase of \$6.50 per quarter in the "Rec Facility Fee" effective Fall Quarter 1987, to be administered by the Director of Athletics on approval of the Intercollegiate Athletic Advisory Board to further finance the existing Intercollegiate Sports and establish a Division III Football Program?

Yes - 1204

No - 755

## 6. Coop Referendum

Do you approve of an increase in the current University Center Fee by \$1.00 (one dollar) per quarter per student; locked in to specifically pay for a Coop Administrative Staff and to facilitate the expansion of existing on campus student-run cooperatives and the establishment of new UCSD student-run cooperatives.

Yes - 1399

No - 511

Q-041

This is to confirm that the ICRHA referendum held May 31, and June 1 has met all conditions as established prior to the election. The final vote tally was 525 in *support* of increasing the fee; 271 *opposed* to increasing the fee. This breaks down to 65.95% yes; 34.04% no. Total votes cast were 796 and represent 22.33% of the voting pool.

The election was very well run and has been praised by the League of Women Voters for the organization and professionalism of the students. I feel that the students did an excellent job.

Sincerely,

### INTERCOLLEGIATE ATHLETICS UPGRADE AND FOOTBALL REFERENDUM

Because of the diversity, growth, and large number of participants in the UCSD Intercollegiate Athletic Programs, it has become increasingly more difficult to adequately support UCSD athletic teams in their entirety. Presently, many of the student-athletes are paying for preseason expenses, equipment, and travel costs.

Students have expressed interest in establishing an Intercollegiate NCAA Division III football team. It has been determined that in order to establish a football team, a referendum must be passed by the students authorizing the creation of a new fee. If the referendum passes, the funds generated by the new Intercollegiate Athletic fee will be used to provide additional financial support to existing intercollegiate athletic programs and to establish a Division III football team. Further, should the referendum pass, the new fee will allow all UCSD undergraduate students to be admitted free of charge to all future regular season intercollegiate home events, including home football games.

Do you support the creation of a Intercollegiate Athletic Fee of \$15.00 per quarter effective Fall 1988, with a maximum of \$10.00 allocated to the establishment and operation of a football program and the remainder of the increase to provide additional financial support to existing intercollegiate athletic teams? Funds received through this assessment will be administered by the Intercollegiate Athletics Department with the advice of the Intercollegiate and Recreation Athletics Advisory Committee.

# **1990 ASUCSD REFERENDA QUESTIONS**

## **1) STUDENT PARKING FEE REFERENDA QUESTION**

Currently, student parking fees are earmarked to fund parking facilities and on-campus road improvements. The University has allocated parking fees to on-campus road improvements not related to parking facilities.

**1404 - No**

## **3) REFERENDA QUESTION ON NUCLEAR WEAPONS LABS**

The University of California manages the Lawrence Livermore and Los Alamos National Laboratories, the only two labs authorized to design, develop, and test all U.S. nuclear weapons.

The UC Regents are required to make a preliminary decision in September of 1990 whether to continue the University's management responsibilities. The current Department of Energy contract with the University expires in 1992.

The University's primary duty in managing the labs is to appoint directors to each of the labs. The UC does not participate in the programming or budgeting processes of the labs; this is done by the Department of Energy and the Department of Defense.

The University receives a management fee of twelve million dollars of which approximately half is available for University use. From this, the University allocates \$1 million annually to support collaborative research between the labs and UC faculty and students. This money makes up less than 1% of the UC's total research budget.

Over fifty percent of the labs' budget goes to the research and development of nuclear weapons and seventy seven percent of the labs' total budget goes to military research in support of national policy as communicated to the labs by the Department of Energy. The remaining money is allocated to non-military research programs.

There have been four faculty reports regarding the management of the Labs. The first three recommended continued UC management of the Labs only if substantial modifications in the nature of University management occurred. The most recent Academic Senate report, the Jendreson Report of 1989, recommended that the University should discontinue its management of the Labs.

**Do you support the University of California's management of the weapons laboratories at Livermore and Los Alamos?**

**787 - Yes**

**772 - No**

**361 - No Opinion**

1. A convention shall be open to all members of the ASUCSD.

VOTER INFORMATION  
STUDENT RECREATION FACILITIES REFERENDUM

- \* This is an all-student referendum to construct, maintain, and operate new student recreation facilities consisting of a swimming pool with jacuzzi, racquetball courts, night lighting on the Muir field, and a jacuzzi at the Natatorium.
- \* The construction cost is \$1,006,000 which will come from a Regents' loan for that amount which has an interest rate of 9.5% and is repaid over a 25 year period at \$106,595 per year. The loan is secured by a mandatory \$5/quarter/student fee which also provides maintenance and operating funds. Based on 10,000 students, there is a minimum of \$43,405 per year for maintenance and operation. Additional income comes from non-student user fees and rent when school is not in session(e.g., Summer).
- \* All costs were researched by the UCSD Architects and Engineers Office and the Capital and Space Management Office.
- \* No fees will be collected until the Facilities are ready for student use, in Fall 1981.
- \* There are no additional use fees for registered students.
- \* Non-students must pay a use fee.
- \* The student fee will be included in student fee scholarships and grants via Student Financial Services.
- \* The student fee may be changed only by a direct all-student vote.
- \* At the end of the 25 year debt retirement period, there will be a direct all-student vote to approve the fee level for continued maintenance and operation.
- \* The question will appear on the ballot as follows:

Shall the Students of the University of California at San Diego assess themselves a fee of \$5.00 per quarter per student for the sole purpose of constructing, maintaining, and operating Student Recreation Facilities consisting of a swimming pool, jacuzzi, five racquetball/handball courts, and a shower/locker room located just north of the Warren West Field, a jacuzzi at the Natatorium, and night lighting on the Muir Field, said Facilities to be governed by the Student Recreation Facilities Charter?
- \* The size of the new pool is 25 yds X 25 m. Each jacuzzi is 15' in diameter. The racquetball courts are standard size 20' X 40'. The locker room has 100 dressing and 500 storage lockers. Solar heating and natural ventilation are used in the designs.
- \* The Facilities are run by a student committee, consisting of 6 voting representatives, one each appointed by the ASUCSD, the GSC, and each College Council, and 3 non-voting consultants. The Facilities annual budget report is public and must be submitted to the ASUCSD, the GSC, each College Council, and the consultants.

This referendum requires a 2/3 majority vote to be valid.

## 1991 Spring Election Referenda Questions

- 1) While every other UC has a Women's Resource Center funded and staffed for a wide range of counseling and support services for women, the UCSD Women's Resource Center has no paid staff and only receives limited funding from the ASUCSD as a student organization. The University maintains that all services for women are currently being met and should be met by existing University services and considers all of the University departments to be funded at a level to serve women students efficiently. The A.S. government believes that such a service being geared towards women will better meet the needs of women students on campus, and should be funded by the University.

Should the University pay for staffing at the Women's Resource Center?

Yes 804 No 346

- 2) The University has plans to build a 900 car underground parking garage. While University parking fees will fund this project, some University officials would like to exclude student parking from the structure.

Should the University make the allocation of parking spaces proportional to the amount of funding each group (e.g., student, staff, and faculty) contributes?

Yes 808 No 158

- 3) Among other charges, the Campus Community Planning Committee gives final approval to the planning and construction of all buildings on campus. Currently, there are five faculty, five administrative, one staff, one graduate and one undergraduate representative who have voting privileges on this committee.

Should the University allow more student voting representation on this committee?

Yes 1033 No 128

- 4) As increasing numbers of Latino and Pilipino/Filipino students have met minimum University enrollment guidelines, the University has decided to discontinue targeted High School outreach to those groups. The Associated Students Council is against this on the grounds that these groups still have below average High School graduation rates which are used as a basis for establishing target enrollment numbers.

Should the University continue targeted High School outreach to these groups?

Yes 799 No 333

- 5) Third College is planning to establish a course that would award students general education credit for volunteer public service work in the community.

Should the remaining four colleges actively work to establish similar courses awarding general education credit for volunteer public service work in the community?

Yes 972

No 193

- 6) If a program offering academic credit for volunteer work were established, would you participate?

Yes 921

**REFERENDA QUESTIONS****1. REFERENDA QUESTION #1:**

## 2. FEE REFERENDUM QUESTION #1:

Shall the Associated Students Activity Fee be increased by \$2.00/quarter to support membership and participation in the United States Student Association (USSA) and the University of California Student Association (UCSA)?

USSA is the oldest and largest national student organization. USSA works on issues of educational access; including federal financial aid, recruitment and retention of traditionally under-represented students, and campus safety. USSA represents and advocates for all students and is the only student voice on Capitol Hill, the White House and the Department of Education.

UCSA is the recognized voice of students to the UC Regents and the California Legislature. UCSA works on systemwide issues such as tuition fee roll backs, increasing state funding to higher education, admission and retention of under-represented students to the University of California and the annual nomination of the Student Regent.

\* \$.19 (approximately 10%) would stay on campus to fund programs, campaigns and travel of UCSD representatives to UCSA and USSA conferences, meetings and state wide and national student lobby days.

\* \$.91 (approximately 45%) would go to UCSD membership in USSA.

\* \$.90 (approximately 45%) would go to UCSD membership in UCSA.

This would potentially free \$22,000 that currently is allocated out of A.S. Activity Fees to membership in both USSA and UCSA. Continuation of this fee must be approved by A.S. Council every year.

# CAMPUS LIFE FEE REFERENDUM BALLOT

This Referendum proposes a fee to provide funding for additional student activities, events, and programs and to expand and renovate facilities at UCSD. The fee generated by the 2001 Campus Life Referendum, hereafter referred to as "the Campus-Life Fee" would be assessed at \$71.40\* per quarter from each enrolled undergraduate and graduate student.

\* The Campus-Life Fee will initially be assessed at \$70.70 per student per quarter and will increase by \$0.35 once sixth college begins enrolling students and again when seventh college begins enrolling students.

**Referendum Conditions:**

- The Campus-Life Fee will be collected starting in fall quarter 2001 with the exception of the line-item allocations for sixth and seventh colleges.
- The line-item allocations for sixth and seventh colleges will be collected starting in the first fall quarter of enrollment for each respective college.
- The Campus-Life Fee will be allocated quarterly to the areas or units in the dollar amounts listed below in Chart #1.
- The Campus-Life Fee will never increase beyond \$71.40.
- As enrollments increase, each area or unit will continue to receive the same per student allocation each quarter in order to offset inflation and account for the increasing number of students.
- Every three years the Registration Fee Committee will review the Campus-Life Fee in order to make recommendations on potential reductions to the Campus-Life Fee with the exception of contractual obligations.
- If state funds, donations, or other moneys become available to support adequately any areas or units receiving allocations from the Campus-Life Fee, the quarterly fee will be reduced by an amount to be recommended by the Registration Fee Committee.
- All changes in state funding or moneys received by the university impacting areas or units funded by the Campus-Life Fee shall be made known and available to the Registration Fee Committee.
- In the future, if an area or unit receiving allocations from the Campus-Life Fee no longer exists, the Campus-Life Fee will be reduced by the amount of the allocation.
- The Chancellor's Office and UCSD Administration will provide all funding necessary to relocate the Campus Police and clear the site for Price Center expansion on non-student fee sources.
- The money allocated to Sports Facilities by the Campus-Life Fee shall be used only for lighting at Warren Field, synthetic turf at Muir Field, and twenty-four hour use of the Main Gym.
- Decisions regarding the expenditure of the allocations resulting from passage of this referendum will be made by existing or formed committees with students comprising at least two-thirds of the voting members.
- The Administration will, with the exception of the aforementioned examples, under no circumstances change the per student per quarter allocation amount.

# CAMPUS LIFE FEE REFERENDUM BALLOT

This Referendum proposes a fee to provide funding for additional student activities, events, and programs and to expand and renovate facilities at UCSD. The fee generated by the 2001 Campus Life Referendum, hereafter referred to as "the Campus-Life Fee" would be assessed at \$71.40\* per quarter from each enrolled undergraduate and graduate student.

\* The Campus-Life Fee will initially be assessed at \$70.70 per student per quarter and will increase by \$0.35 once sixth college begins enrolling students and again when seventh college begins enrolling students.

**Referendum Conditions:**

- The Campus-Life Fee will be collected starting in fall quarter 2001 with the exception of the line-item allocations for sixth and seventh colleges.
- The line-item allocations for sixth and seventh colleges will be collected starting in the first fall quarter of enrollment for each respective college.
- The Campus-Life Fee will be allocated quarterly to the areas or units in the dollar amounts listed below in Chart #1.
- The Campus-Life Fee will never increase beyond \$71.40.
- As enrollments increase, each area or unit will continue to receive the same per student allocation each quarter in order to offset inflation and account for the increasing number of students.
- Every three years the Registration Fee Committee will review the Campus-Life Fee in order to make recommendations on potential reductions to the Campus-Life Fee with the exception of contractual obligations.
- If state funds, donations, or other moneys become available to support adequately any areas or units receiving allocations from the Campus-Life Fee, the quarterly fee will be reduced by an amount to be recommended by the Registration Fee Committee.
- All changes in state funding or moneys received by the university impacting areas or units funded by the Campus-Life Fee shall be made known and available to the Registration Fee Committee.
- In the future, if an area or unit receiving allocations from the Campus-Life Fee no longer exists, the Campus-Life Fee will be reduced by the amount of the allocation.
- The Chancellor's Office and UCSD Administration will provide all funding necessary to relocate the Campus Police and clear the site for Price Center expansion on non-student fee sources.
- The money allocated to Sports Facilities by the Campus-Life Fee shall be used only for lighting at Warren Field, synthetic turf at Muir Field, and twenty-four hour use of the Main Gym.
- Decisions regarding the expenditure of the allocations resulting from passage of this referendum will be made by existing or formed committees with students comprising at least two-thirds of the voting members.
- The Administration will, with the exception of the aforementioned examples, under no circumstances change the per student per quarter allocation amount.

## RIMAC Annex Advisory

1.

The RIMAC Annex is a new construction project that will be located adjacent to RIMAC and the NCRA field. The project will utilize approximately \$10 million in revenues generated from student fees and will include a café, terraced outdoor seating areas, two lounges with a coffee bar, a convenience store and a large meeting/activity room. No new student fees will need to be assessed for this project; it will be funded from the facility reserves and donated moneys. Revenues generated from this facility will be utilized to offset the cost of RIMAC operations.

The proposed amendments to the  
Revelle College Council Constitution

The proposed amendments to the Revelle

Warren College Council Constitution  
flexibly incorporate more student representation in accordance with the recently passed A.S. Constitution. One amendment proposes 4 Class Representatives with the understanding that each Representative will carry out class projects. Furthermore, the Freshman Representative will no longer be required to take council minutes due to more expectations of his/her position. Finally, the Chair's voting powers have been adjusted to reflect Robert's Rules of Order for reasons of greater discretion and council efficiency.

College Council Constitution conflict with some of the traditional proceedings of the Council. Allowing the Chair to vote when it may affect the result potentially eliminates the Chair's position of impartiality. Additionally, there is concern for the potential abuse of this change in voting power. Another amendment shifts the responsibility of minute taking from the Freshman Representative to the Clerk of the Council. It has been a tradition for the Freshman Representative to take minutes with the intention of him/her to become affiliated with the Council and its proceedings. This shift may deprive the Freshman Representative of this learning experience.

VICE CHANCELLOR JOSEPH W. WATSON  
Student Affairs

SUBJECT: Result of Intercollegiate Athletics Fee Increase Referendum

Dear Vice Chancellor Watson:

On December 18, 2006, Chancellor Fox approved a request from the Associated Students to conduct a fee referendum election to increase the Intercollegiate Athletics fee by \$78.04 per student per quarter effective Fall Quarter 2007 and adjusted annually with the California Consumer Price Index. The election was conducted on TritonLink from January 29 through February 2, 2007 in accordance with the *ASUCSD Election Bylaws* and Section 18.00 of *UCSD Policies and Procedures Applying to Student Activities*.

The UCSD undergraduate students voted in favor of the fee increase, with 55.8% voting in the affirmative, and 44.2% voting in the negative. The percentage of registered undergraduate students participating in the election was 41.9%, thereby satisfying the minimum voter turnout requirement to make the fee referendum valid. This number is based on the number of registered undergraduates on the last day of voting, which is consistent with *The Constitution of the Associated Students of the University of California, San Diego*, which states in relevant part that "the number of students casting ballots must equal or exceed 20% of the registered students affected by the fee at the time the election is held."

Attached is the Certificate of Election signed by the Associated Students Special Election Manager which includes the actual ballot language, certifying the aforementioned to be true. I endorse the result of the election and recommend that you forward it to the Chancellor for her approval and submission to the President for final approval.

Harry Khanna  
President  
Associated Students
