Panoramic View of San Diego with the Hotel Robinson—San Diego is a City of 50,000 population, with the most even climate in the world: an unlimited supply of pure mountain water, the cheapest in the state. 446 miles of boulevard being constructed in the county costing \$1,250,000. Rails now being laid on the San Diego and Arizona Railroad. With the completion of the Panama Canal, Uncle Sam's coaling station and other contemplated improvements and the World's Fair in 1915 conservative estimates San Diego's population will reach 200,000.
