IMF satisfied with PNG economic performance - Philemon

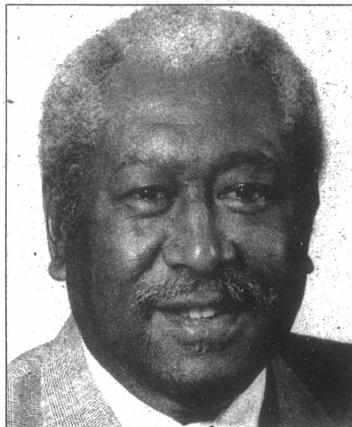

Finance Minister Bart Philemon announced that the Papua New Guinea Government's meeting with an International Monetary Fund staff team in March for the annual consultation to discuss recent economic developments and prospects for 2004 and the medium term was very encouraging.

As part of its wide-ranging consultations, the team held discussions with Prime Minister Sir Michael Somare, and the Ministerial Budget Committee.

"The IMF team expressed satisfaction with the improvement in the economic situation since the last consultations in June 2003," Mr Philemon said.

"Budgetary policy had been strengthened considerably mostly through tighter expenditure controls and the deficit was held to 2 percent of GDP in 2003, compared with over 5 fi in 2002. This facilitated a decline in the rate of inflation from 20 percent in the year to the March quarter to 8 fi percent in the year to the December quarter 2003."

Better weather conditions helped boost output and strengthen the external payments position. Real GDP growth is estimated at about 2 fi percent in 2003, after three years of weak growth, with higher agricultural and mineral production. Strong world commodity prices underpinned a sharp rise in export

Hon. Bart Philemon

receipts. In addition, official external reserves rose to the equivalent of 6 months of non-mining imports and the Kina appreciated.

The IMF team endorsed the appropriateness of the government's 2004 budget target of an overall deficit of (1 fi) percent of GDP and the team was assured that the government's target would be observed.

In these circumstances, inflation should continue to decline and the exchange rate should remain relatively stable. This would permit a gradual decline in interest rates during the year, which would help to revive private sector activities. The IMF team also noted that the government's deficit target was consistent with the objective of reducing the economy's public debt to GDP ratio.

While welcoming the positive economic developments, the team

highlighted the challenge of boosting PNG's growth rates.

The government underscored the importance attached to the government need to accelerate structural reforms in line with its development strategy to promote faster sustainable growth and poverty alleviation.

In the public sector, actions would be taken to reduce the wage bill and allocate greater funds to health, education, and infrastructure, Mr Philemon said.

Mr Philemon said, to promote private sector growth and investment, it was necessary to improve governance and law and order, provide a friendly regulatory regime, and address land reform issues.

Finance Minister Mr Philemon stressed that the success of the medium-term reform program depends crucially on the unwavering actions of the Government to maintain a sustained record of policy implementation.

While external conditions could prove less favorable in future, especially if export prices declined, present policies are consistent with building on the hard fought macroeconomic achievements of the past year.

And in the meantime, Mr Philemon said, the Fund will maintain the close policy dialogue with the government in order to assist Papua New Guinea in carrying out its economic program.

Bart issued inscribed stock tender

The Minister for Finance and Treasury, Honourable Bart Philemon, has announced the commencement of the 2004 Inscribed Stocks issuance program in line with the budget financing plans.

Mr Philemon confirmed that Cabinet has approved the Inscribed Stock tender program for 2004 which would include four tenders in 2004 with first tenders issued on 14th April 2004.

He said, the dates for the three subsequent tenders will be announced at least one week prior to the time of tender.

"A minimum of K200 million will be issued this year with maturity dates of 15th November 2005 and 15th November 2006 and coupon to be determined prior to the tender," said Mr Philemon.

"The Government will begin the program with a small volume initially and could increase the volume progressively depending on market appetite.

The Inscribed Stocks program is part of a broader policy to minimise the debt burden through restructuring the domestic debt portfolio of the Government with

the reintroduction of longer term fixed rate debt instruments, thereby minimising rollover as well as interest rate risks; a key objective of the Government's debt management framework.

The Government is looking at a number of programs for the domestic debt market, one of such programs involves examining the scope for introducing a debt switching program later in the year to enable participants and investors to switch from existing Inscribed Stocks and Treasury bills to the new Inscribed Stocks. This would assist in developing the market and creating an environment to improve secondary market liquidity."

Mr Philemon said the government recognises the need for continued open dialogue with the financial markets and investors alike to maintain corporate trust by taking a bi-partisan approach in gauging their views and support for the Government's objective of re-activating the medium to long term government securities market.

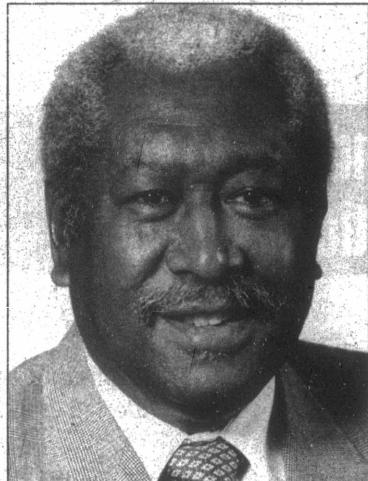

He said the Government sees the role of the private sector as an important element in the creation of a secondary market.

EU praised for helping PNG development - Bart

The European Union has been commended for its contributions to the development of Papua New Guinea both prior to its membership on the African, Caribbean and Pacific(ACP) states in 1977 as well as before gaining independence in 1975.

Speaking at the Shuman Day or European Day celebration held at the Parliament State function Room on 10th May ,Minister for Treasury and Finance, Mr Bart Philemon said "we are thankful that since becoming a member of the ACP_EU group of countries PNG has benefited from a total of around 712 million Euros or over 2.8 billion kina at today's exchange rate.

"This assistance was sourced from the 6th to 8th European Development Fund and from facili-

Hon. Bart Philemon

ties such as Stabex, Sysmin, the Structural Adjustment, and the European Investment Bank.

The main areas that this assistance was directed to were:

- the social sector of mainly Health and education which benefit-

ed from 33 million Euros'

- The agriculture sector and rural development projects which benefited from 37 million Euros,

- The economic sector, mainly the construction of roads, bridges, airports, hydroelectricity facilities which benefited from 92 million Euros,

- The budget support which benefited from 181 million Euros

- As well as many other projects in capacity building and micro-project programmes .

The Government and the people of PNG gratefully thank and acknowledge the kind assistance from the peoples and governments of the EU, the Minister said.

Mr Philemon said the Government and the people of PNG are also grateful for the recently signed Contonou Agreement and the

increased volume of EU assistance under the 9th EDF which runs from 2002 to 2007.

Under the 9th EDF the EU support to PNG as indicated in the PNG-EU 2002-2007 Country Strategy Paper and the National Indicative Programme which was signed by the former Prime Minister and the European Commission on 26th April 2002 includes 166 million Euros or over K660 million and will go to :

- 81 million Euros is indicated to cover long term development operations, to be used as follows: 35 million for Education, Training &Human Resource Development;25 million for the Rural Communities Water Supply &Sanitation and 21 million for the Institutional capacity Building and Governance of which 6 million Euros will be used to support non-state actors.

■ The other 85 million Euros includes 50 million of the sysmin Programme and 35 million to be mobilised to provide additional support when this becomes necessary as a result of external factors

- The Economic Partnership Agreement or EPA which will replace the current economic and trade relationships between the EU and the ACP states including PNG and the Pacific will also be used from the resources from the 9th EDF as well as from resources directly earmarked for this purpose.

"Despite the many challenges that PNG has faced in the past and still faces particularly its capacity to fully and efficiently implement EU's development assistance we acknowledge the confidence that the EU has in PNG by increasing the volume of assistance under the 9th EDF.

Knowledge is power says Temu

The Government is committed to seeing Papua New Guineans have access to information and communication technologies (ICT) and the relevant applications, for the betterment of their well-being.

On commemorating World Telecommunications Day this month, Minister for State Enterprises and Information, Dr Puka Temu, emphasized that access to knowledge was a powerful tool for empowering people and communities for new opportunities, dignity and improved standards of living.

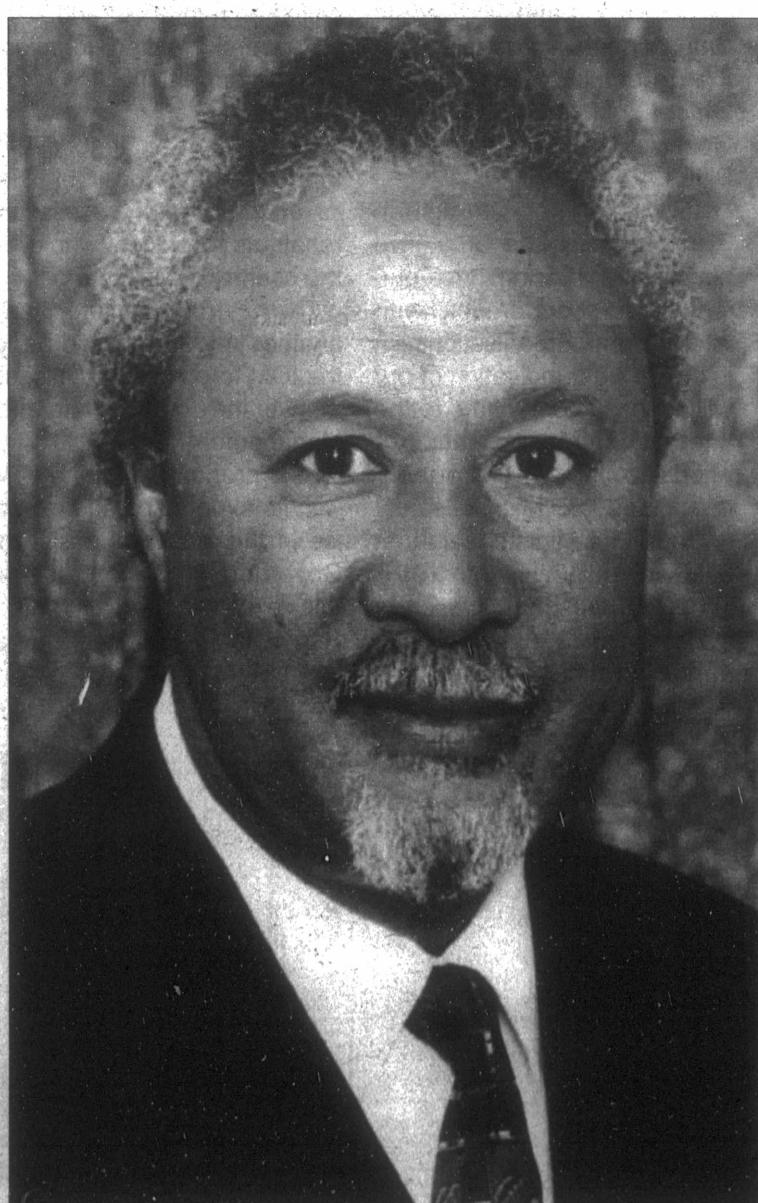

He said the development of ICT could play an important role in reducing poverty and enhance the country's economic prosperity.

"Papua New Guineans are missing out on the benefits of information and communication technologies, as key catalysts for social, economic and cultural development".

The Government is in the process of reviewing the National Policy on Information and Communications, with special emphasis on the development of ICT to ensure that it enhances other government programs on export driven policy, poverty reduction and good governance.

Dr Temu said ICT plays a key role in the social, cultural and political progress as well as prerequisite to productive and sustainable economic advancement.

He added that the Government would create a policy environment necessary to enable citizens to enjoy the benefits of ICT, and called on stakeholders - government, private sector, communications industry, NGOs and civil society to participate in formulating and implementing ICT policy

issues.

He said the Office of Information and Communications has been directed to revise the National Policy on Information and Communications 1994 to ensure ICT is guided and especially the users are not overcharged.

Dr Temu said the Government's commitment was demonstrated through its decision to create a new Department of State Enterprises, Information and Communication.

The Department of Personnel Management has recently approved the Structure.

"To enable Papua New Guineans to enjoy the benefits of ICT by commencing with the review of NPIC 1994, it is the Government's intention to secure the involvement and participation of all affected players in their respective societies who will have a stake in the formation of, and implementation of ICT policies," Dr Temu added.

GOVERNMENT DECISIONS FROM NEC

The Prime Minister, Hon. Sir Michael Somare has announced that the National Executive Council has recently decided on the following:

1 PNG to host regional disaster conference

The Prime Minister, Sir Michael Somare, said Pacific Island countries are susceptible to a large number of hazards, including earthquakes, volcanic eruptions, tsunamis, drought, tropical cyclone, floods, landslides and frost.

"There is also a high potential risk of technological and man-made disasters like oil spills, industrial pollutions, unregulated land use, and environmental degradation caused by development activities, population movements, and changes in lifestyle and attitudes," Sir Michael said.

The Prime Minister made these comments when announcing the National Executive Council's endorsement of PNG to host the 12th Pacific Regional Disaster Managers' Conference from 7-9 June 2005.

Sir Michael said these natural and man-made disasters have resulted in considerable loss of life, property and livelihood, and are constraints to sustainable human and economic development.

"The absence of a systematic disaster management sys-

tem to deal with such disasters in an effective and proactive manner has increased the vulnerability of our island communities.

"Some parts of the region are more vulnerable to disasters than others but there is an urgent need to strengthen and prepare our disaster management.

"The level of preparedness for disasters and the level of disaster management undertaken vary from country to country, however, we recognise and realise the need for our communities to be organised and prepared for any disaster that might impact on our people.

Sir Michael said the Disaster Managers' Conference would be an ideal forum to enable participating countries to exchange ideas, experiences and knowledge in disaster management.

"Natural and man-made disasters must to be managed in a systematic way, rather than on an ad hoc basis; our approach to disaster management must be holistic and proactive rather than reactive," Sir Michael said.

2 PNG and IOM to sign cooperation agreement

The Prime Minister said today that the National Executive Council has authorised the Minister for Foreign Affairs & Immigration to sign a Cooperation Agreement on behalf of the State with the International Office of Migration.

Sir Michael said the signing of the Cooperation Agreement will also entail the setting up of an IOM office in PNG.

"The establishment of the IOM office complements other arrangements like the MOU on Mutual Cooperation on Migration, Refugees, Irregular Migration and People Smuggling with Australia, and the re-establishment of the Office of the UN High Commissioner for Refugees in PNG.

"It will further strengthen PNG's position as an active player in enhancing close dialogue and cooperation with international organisations. It is also a clear indication of our willingness to contribute to the international community's efforts to combat these modern crimes," Sir Michael said.

The Prime Minister said that IOM was established in 1951, and PNG has had Observer status since 1998. IOM offices and operations around the world help governments and

civil society, among others, through:

Rapid humanitarian responses to sudden migration flows;

Post-emergency return and reintegration programmes;

Facilitation of labour migration;

Assistance with voluntary return of irregular migrants;

Aid to migrants in distress;

Training and capacity-building of officials;

Measures to counter trafficking in persons;

Migration medical and public health programmes;

Mass information and education on migration; and

Research related to migration management and other services.

Sir Michael said that benefits to PNG include the IOM using its own funds to process and repatriate foreigners who enter the country illegally.

The Prime Minister said another key area would be for the IOM to conduct an assessment of the country's Migration Management.

"It is proposed that the IOM, with its experience and expertise in this area will assist the Government by undertaking this exercise and submit a Report to PNG for consideration," Sir Michael said.

3 Govt endorses concurrent accreditation for High Commissioner Bogari

The Acting Prime Minister, Hon Moses Maladina, said that the National Executive Council has endorsed PNG High Commissioner to New Zealand, H.E. Lucy Bogari's concurrent accreditation to Niue.

Mr Maladina said Ms Lucy Bogari is currently serving in Wellington, New Zealand after Cabinet appointed her to the post in January 2002. Ms Bogari was also accredited to several other countries, including Cook Islands, Tonga and Samoa.

The Acting Prime Minister said Ms Bogari's concurrent accreditation to Niue will enable her to conduct bilateral consultations with the Government of that country on issues of mutual interest to both countries.

"This is a reflection of this Government's commitment to maintaining and enhancing cordial bilateral relations with countries of the region," Mr Maladina said.

4 NEC endorses Article 98 agreement

The Prime Minister, Sir Michael Somare, has announced the National Executive Council's endorsement for PNG to enter into an Agreement with the United States of America regarding the Surrender of Persons to the International Criminal Court.

Sir Michael said the Agreement relates to Article 98 under the Rome Statute of the International Criminal Court, which was done in Rome in July 1998.

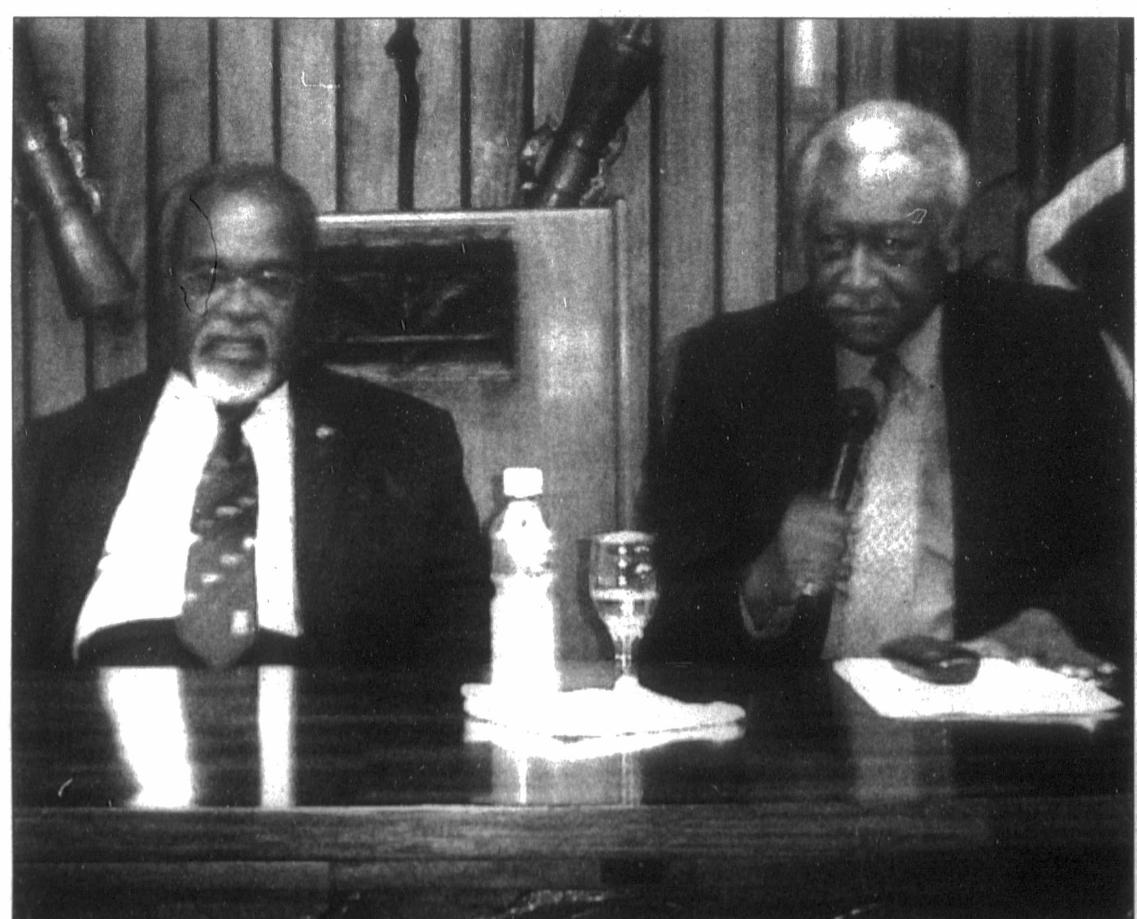

"Under the Agreement, when the US extrades, surrenders, or otherwise transfers a person of PNG to a third country, the US will not agree to the surrender or transfer of that person to the ICC by the third party, without the expressed consent of the Government of PNG, and vice versa," Sir Michael explained.

The Prime Minister said that both parties agrees, subject to their respective international legal obligations, not to willingly facilitate, consent to, or cooperate with efforts by any third party or country to effect the extradition, surrender or transfer of a person of the other party to the ICC.

"Papua New Guinea's intention to engage our disciplined forces in regional and international peace keeping duties also warrants the need for us to seriously consider entering into the Agreement," Sir Michael said.

The NEC has also directed the Departments of Foreign Affairs & Immigration and the Attorney General to immediately work on drafting instruments for the enabling legislation to be effected.

The Agreement, when signed, will have to be ratified by Parliament.

GOOD GOVERNANCE

Govt Printing Office - The way forward on reform

The Chief Secretary to Government, Mr Joshua Kalinoe, said the Government Printing Office is an excellent example of how effective the Government's Reform program can be if undertaken properly.

Mr Kalinoe said the GPO has performed admirably since being asked in 1999 to reduce its staff strength from 148 to just 30 officers.

"The GPO should be congratulated for becoming more cost-effective. I am pleased they have taken the approach of not dying out, but revitalizing and self-sustaining itself," Mr Kalinoe said.

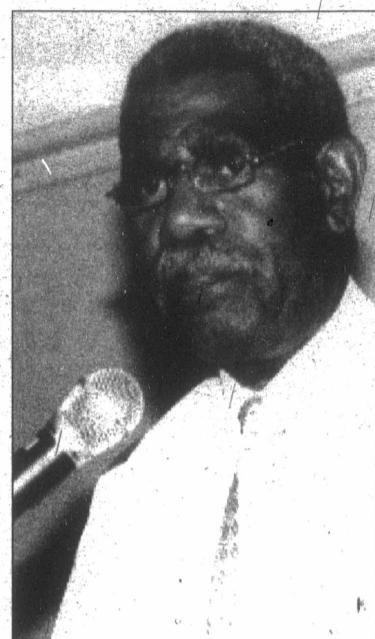

"The success of the GPO is not only the result of hard work by its staff, but demonstrated evidence of professionalism and international standards of quality and performance required by the democratic system of government worldwide.

The Chief Secretary made the comments when launching the GPO's Corporate Structure and Business Plan on Thursday (22nd April 2004).

"I am pleased that in its Corporate Plan, the GPO is addressing the need for cost effectiveness through the Public Service Restructure program.

Mr Kalinoe said that the Government is looking at rehabilitating its core assets and maintaining them so that their functions and contribution to the overall Government service delivery is maintained.

"I believe in organizational dynamics because like people,

Chief Secretary Joshua Kalinoe

organizations do grow and expand and do have a stage where, once it reaches a stage of life, it revitalizes itself depending on the circumstances," Mr Kalinoe said.

Mr Kalinoe said he would ensure that the GPO remains an important part of Government.

"It has to be 100 percent owned by the Government because we are dealing with not only legal matters, but Government Security and some information are restricted to the Government.

"It is important for professionalism as well as security issues and legal considerations that the government has its own printing capacity," the Chief Secretary said.

Meanwhile, the Government Printer, Mr Ken Kaiah, said it "is a great day for GPO" when the Corporate Plan (2004-2008) and Performance Review

Govt against colonial rule in remaining Pacific territories

The Government is committed to ending the process of colonial rule in the remaining 16 territories on the United Nations list, which also included five territories in the Pacific Region.

Minister for Foreign Affairs and Immigration, Sir Rabbie Namaliu, said this while addressing the Seminar on Advancing the Decolonization Process in the Pacific Region in Madang this month.

He emphasized that colonial rule, or the continued existence of non-self governing territories, represented an era that was in the past and should not be 'our' future.

He added that since the inception of the United Nations sixty years ago, the decolonisation process has been achieved in most continents, and many countries in the Pacific have achieved nationhood as a result of the work of the UN and the Special

Committee.

Sir Rabbie called on the Special Committee to implement the mandate that was achieved in recent years.

The five territories in the Pacific still under colonial rule, share a number of common features and common problems in particular.

"They are small in area and population, and face real challenges on issues of viability and sustainability – issues that many independent nations in our region also face," Sir Rabbie said.

The seminar will seek to examine these key issues.

"I also believe the seminar needs to examine the reform and revitalization process the United Nations General Assembly itself has driven in recent years to ensure the UN remains relevant and effective in a rapidly changing, challenging world," Sir Rabbie said.

He added that "Leaders of the Pacific Islands Forum had agreed

in Auckland, New Zealand, to encourage closer contacts with non-sovereign Pacific Territories through progressively granting their observer status at Leaders meetings and associated meetings of the Forum Officials Committee. New criteria for participation should be developed and grounded in the region's interests."

Sir Rabbie commended the people of Tokelau Islands and their administering power, New Zealand on their progress of securing harmony, goodwill and cooperation between each other.

He also paid tribute to the people of New Caledonia and the Government of France in making progress under the Noumea Accords. Papua New Guinea and other countries of the Pacific Islands Forum remain committed to the Noumea Accords, which pave the way forward for the people of New Caledonia to exercise their right of self-determination.

Report, reflecting back to the years 1999 and 2003, were launched.

"We were delighted to present all the reports of our performance, which indicates positively that what we have set up, sets off the GPO into the next five years," Mr Kaiah said.

The Government Printer said when they rationalized and downsized their staff, they made

over 148 positions redundant and downsize to just 30.

"With the downsizing it was the right size for the Government to start off with a new chapter and it has proven to be a very successful operation where we have minimized cost, and made savings to the Government; we are able to sustain our operation from revenue retention," Mr Kaiah said.

Mr Kaiah said one of his major objectives he will be implementing this year is the relocation and re-equipping of the office.

"These are the main obstacles that we are faced with and this is the right time to look at them so that we can be able to provide efficient service to the Government of the day," Mr Kaiah said.

Deptal heads and chief executives of govt agencies need to visit provinces and districts: Chief Sec

The Chief Secretary to Government said today he will be encouraging departmental and statutory agency heads to make regular visits to the provinces and districts in the country.

"I met a local council representative from the Chuave District who wanted to know if any assistance was forthcoming after 52 houses were completely destroyed by a landslide.

Councillor Joe Owa told me the landslide happened two weeks ago and the relevant government authorities had yet to visit the site," Mr Kalinoe said upon returning to Port Moresby yesterday.

Mr Kalinoe said he would follow up with the Works and Natural Disaster authorities, but suggested that the affected Queen's Corner people be immediately attended to. It appears that the Simbu Provincial authorities may not have attended to their plight.

The Chief Secretary was in Goroka with the members of the Public Sector Reform Management Unit (PSRMU) from 26-28 March. They were later joined by the Secretary for Finance, Mr Thaddeus Kambanei who visited all the District Treasuries in Eastern Highlands Province.

Mr Kalinoe has already taken the CACC to visit agricultural projects

in Kimbe (West New Britain), Alukuni (Central Province), and educational institutions in East Sepik Province.

In Goroka, Mr Kalinoe was given the honour to officially declare the Bena Bena High School as a Secondary school. The Secretary for Education, Mr Peter Baki was also present, together with the Governor for EHP, Hon. Malcolm Kela Smith.

The School Board had presented a proposal to Mr Kalinoe for the school to be accorded secondary school status when he first visited last December. The proposal was then passed onto the Education Department.

Mr Kalinoe said the Education Department was able to grant the upgrade to the school largely because of the cooperation of the students, parents and the School Board.

The Chief Secretary said that Bena Bena is the second school to be given secondary status, after Goroka Secondary High School.

"The direct result of this is that more students from the province will be able to continue onto Grades 11 and 12. These students would have otherwise missed out on further tertiary education," he said.

Mr Kalinoe then travelled by road from Goroka along Daulo Pass, Waterbung and onto Chuave

in the Chimbu Province.

"I was able to see for myself the state of the highway from Goroka to Daulo Pass, to Waterbung and onto Chuave in the Chimbu province. Due to the wet weather, there are landslides along the soft areas of the Daulo Pass near Eastern Highlands and Chimbu border, which require a lot of structural attention.

However, Mr Kalinoe noted that maintenance work on the portion between Kassam pass and Watabung in Eastern Highlands have been completed with sections of the Daulo Pass being worked on. He said work is continuing in the Watabung to Mt Hagen portion.

IRC hosted Oceania Customs Conference in Madang

PNG Internal Revenue Commission hosted the 6th annual conference of the OCO from 22 to 26 March 2004. The Commissioner General, Mr David Sode, chaired the meeting.

Conference was attended by 21 of the 23 member administrations. Nauru and American Samoa were the 2 administrations that did not attend. In total there were 36 delegates from Australia, the Cook Islands, Fiji, French Polynesia, Guam, Kiribati, Republic of Marshall Islands, FSM, New Caledonia, New Zealand, Northern Marianas, Niue, Norfolk Islands, Palau, PNG, Samoa, Solomon Islands, Tonga, Tuvalu, Vanuatu and Wallis & Futuna.

Next year Guam will play host to the annual OCO conference.

The conference deliberated and progressed on a number of key issues ranging from trade facilitation, law enforcement, capacity building and communication. Given the rise in global terrorism, the conference highlighted the increased security threats posed to the OCO region from transnational criminal activities. In that light, the conference reinforced the need for communication and cooperation between law enforcement agencies and regional groups. Notably, some countries in the region already have joint law enforcement agency transnational crime units established.

On capacity building, the conference was pleased to note from several countries including PNG IRC that capacity building and institutional strengthening projects were underway in conjunction with a move to Customs automation.

The conference agreed to re-examine its strategic planning process to develop a clear strategic direction for OCO. Australia, New Zealand and New Caledonia have offered to work closely with the OCO Secretariat in redefining the work plan.

In terms of logistics and support, the delegates to the conference expressed gratitude to the PNG organising team headed by Mr S Tau-Vali for being instrumental in making this a most successful and culturally enjoyable conference. Mr Tau-

Vali attributed the success to his hard working team and resource support from IRC executive management.

The Commissioner General, Mr David Sode expressed thanks to the Australian Customs Service for supporting the PNG Customs with financial contribution to uplift 14 delegates from Pom to Madang and return. The domestic airfares for the remaining delegates were paid by the IRC. New Zealand Customs Service also supported the IRC with donation of conference pens with IRC logo imprinted on them.

On arrival in Madang on Sunday 21/3/04, the delegates were warmly welcomed to the province by Hon Peter Barter at a welcome reception hosted by the Governor of Madang, who unfortunately could not make it in time for the occasion.

The conference was officially opened by Hon Bart Philemon on Monday 22/3/04. He also hosted the welcome dinner on Monday 22/3/04 evening while the Commissioner General Mr David Sode hosted the farewell dinner on Friday 26/3/04. Australia, New Zealand and the French territories in the Pacific hosted dinner functions on 3 other nights.

A half day harbour cruise was organised on Thursday 25/3/04 with an opportunity to expose our foreign delegates to the beauty and tranquillity of this beautiful country.

On the last day of the conference, Mr Sode being chairman of the conference arranged for the delegates to pay a visit on a local primary school and donated sporting equipments valued at K500. The money expended to purchase the equipment was donated by all delegates during the meeting. Holy Spirit Primary school of Madang played a major part in escorting heads of delegations to the official opening program.

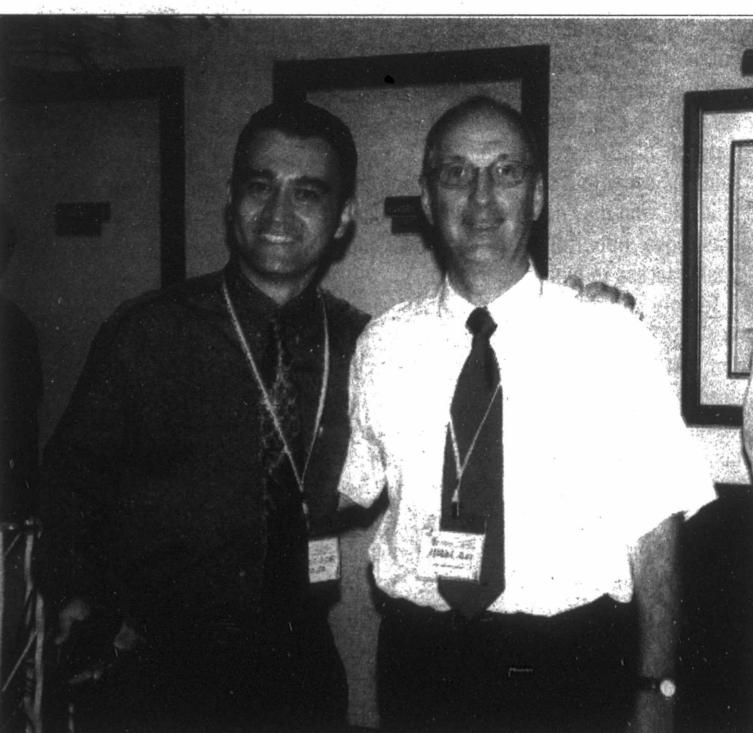

The conference also had the benefit of having some short sessions in between the meeting to hear about business activity in Madang. Mr Bob Middleton spoke on his barramundi farming at Dylor plantation while Ms Sue Robson spoke on tourism with particular reference to Melanesian Tourism Service. These presentations created a lot of interest from the Pacific Island delegates and many expressed a desire to visit the country again sometime in future, but as tourists.

EDUCATION

Scholarship:

The Director-General of Higher Education, Dr Philip Kereme has announced that his Office is currently reviewing the Tertiary Education Study Assistance Scheme (TESAS), which has been in force for the last four years.

Dr. Kereme said the aim of the review is to strengthen the scheme especially the term and condition of the award.

"The National Tertiary Scholarship Scheme (NATSCOL) was set up in 1975 to assist tertiary students to receive tertiary education", Dr Kereme said.

Up until the end of 1995 students attending tertiary institutions were fully subsidised through NATSCOL sponsorship.

He said during that year, the government developed a user pay policy, which allowed all higher education institutions to charge tuition fees. The new scheme, which was implemented in 1996, required all students to pay a portion of the tuition fees, which at the time was 10% of the tuition fee.

Dr Kereme said this percentage was to have increased annually by 10%, however has not eventuated due to certain factors such as the drought in 1997 and the continuous economic constraints and other natural disasters that occurred in PNG.

"In 1999, due to the increasing cost of higher education, the government recommended for a review of the 1995 user pay policy and requested for a cost recovery scheme to be developed to allow for greater cost sharing by recipients of higher education", Dr Kereme said.

He said this scheme would also allow for talented students who may not afford higher education costs, equal opportunity to participate and have greater access to higher education.

The Tertiary Education Study Assistance Scheme (TESAS) was developed as a result of a review of NATSCOL towards end of 1999 and introduced in January of 2000.

Dr Kereme said Higher education is very important for economic and social development of a nation. It is the responsibility of the state to ensure that institutions of higher education equip individuals with the knowledge and skills required for jobs in the public and private sectors.

"Higher education generally is expensive and therefore it is heavily dependant on government funding, however, with increasing higher education costs and expanded enrolment in the sector, the state alone is not able to support all students in higher education", Dr Kereme said.

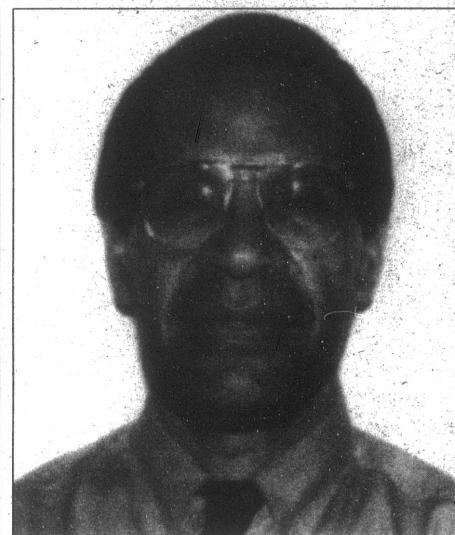

He said the state therefore, had adopted the user pay policy. This allows for recipients of higher education to share cost of their education and training with the state.

TERTIARY EDUCATION STUDY ASSISTANCE SCHEME (TESAS)

The TESAS has been developed to assist tertiary students to meet the cost of their education. It is a cost sharing system where students pay certain percentages of the higher education cost while the state pays the rest through the scholarship. The TESAS has four categories of awards which includes:

- The Academic Excellence Scholarship (AES),
- Higher Education Contribution Assistance Scheme (HECAS),
- Self-sponsor, and
- The Private / Corporate / Foreign Government Sponsor.

In addition to these awards, a Loan Scheme

Director-General of Higher Education,
Dr Philip Kereme

has been developed to assist students in category (b) and (c) to assist them in the payment of their fees.

ACADEMIC EXCELLENCE SCHOLARSHIP (AES)

The Academic Excellence Scholarship (AES) is awarded to students who attain academic excellence in their studies and score a Grade Point Average (GPA) of 3.6 to 4. Student's grades would be either all "A" or a combination of "A and B". AES students receive full scholarships, however, pay one percent (1%) of the average unit costs toward board and lodging and the state subsidises the rest of the costs.

HIGHER EDUCATION CONTRIBUTION ASSISTANCE SCHEME (HECAS)

The HECAS is awarded to students who obtain a GPA of 1.6 to 3.5. They will have scored combination of grades ranging from "A" to "D". Students in this category are required to pay seven percent (7%) of the total unit cost. For example, university students pay K1,050.00 while the state subsidises the balance of K2,700.00. At non-university institutions students pay K131.25 while the state subsidises the balance of K1,743.00. However, universities and colleges charge additional service fees ranging from K50.00 to over K2,000.00.

The recipients of HECAS attending universities are eligible to apply for a loan under the TESAS scheme, whilst only self-sponsoring students attending non-university can apply for TESAS Loan.

SELF-SPONSOR

The students within the self-sponsored category are those whose GPA ranges from 0.8 to 1.5 and are not eligible for TESAS sponsorship. Students under the self-sponsor category at public funded universities pay twenty five per cent (25%) of the total unit cost, which is K3,750.00. Self-sponsored students at non-university institutions pay the full cost of K1,875.00. These figures do not include service fees charged by institutions.

Students under this category do not benefit from direct government funding however, indirectly, the state subsidises the education of these students as sponsors pay only a portion of the total unit cost at universities and colleges.

TESAS and how it is awarded to students in Higher Education review

PRIVATE/CORPORATE/FOREIGN GOVERNMENT SPONSOR

Students within this category are sponsored either by industries, corporate organization, and employers of foreign governments. The sponsors pay fifty per cent (50%) of the total unit costs at public institutions.

TESAS LOAN SCHEME

A TESAS Loan Scheme has been developed to assist disadvantaged students attending universities and non-universities to pay for their fees if they are unable to pay the required fee. Disadvantaged refers to students from very remote areas of the country, disabled, unemployed parents with no source of income, orphans etc. To be eligible for a loan, students need to pay the fifty per cent (50%) of the required fee upfront.

The disadvantaged students are considered as a special group for tertiary education in order to give equal opportunity to those who are financially disadvantaged or physically disabled.

STUDENT SELECTIONS USING GRADE POINT AVERAGE SYSTEM

The establishment of the Grade Point Average (GPA) system as a minimum requirement to determine student's eligibility for studies at tertiary level has been in practice since 2000. In December each year Institutions of Higher Education (IHE) come together to the Central Selection Unit (a venue determined by the OHE) to select students for their respective institutions. Apart from the above criteria, institutions have their own selection criteria to select a student depending on the needs and program requirements. Some course programs require a combination of subjects school leavers have taken in high schools. For example, a student wanting to study computer Science at the University of Technology must have taken English and Maths A with a combination of Chemistry and Physics or Chemistry and Biology.

The GPA is calculated as follows: Each grade is awarded a point with the highest point of 4 awarded to an "A" grade or "Distinction" and the lowest point of 1 awarded to "D" or "Pass". An "E" grade is awarded a Zero point and is equivalent to a "FAIL" grade. For example:

Grade of A or Distinction	4 Points
Grade of B or Credit	3 Points
Grade of C or Upper Pass	2 Points
Grade of D or Pass	1 Points
Grade of E or Fail	0 Points

Grade Point Average (GPA) is calculated by adding up the points and dividing it by the total number of subjects a student studied in the school.

THE ROLE OF THE OFFICE OF HIGHER EDUCATION, RESEARCH, SCIENCE AND TECHNOLOGY AT THE NATIONAL SELECTIONS.

In all selection processes, the Office of Higher Education, Research, Science and Technology (OHERST) coordinates the National Selections. Selection of students into the Institutions of

Higher Education (IHE) is the sole responsibility of the institutions. The staff of OHERST do not participate in the selection of students. The OHERST awards TESAS to students selected by institutions into their programs who have met the requirement under the GPA system. However, after the official selections are completed, OHE selection coordinators negotiate with institutions to fill vacancies.

TESAS AWARD QUOTA

The Government sets a quota for each category of TESAS award. The main objectives of setting a quota are: (a) to meet the skilled manpower requirements in given occupational categories, and (b) to limit the number of sponsorship to the level of funding. At the Selection time, IHE are given a quota for each program of studies they run. Institutions select students according to their quota and forward list to OHERST where scholarship is awarded. OHERST awards scholarship by working from the students with the highest GPA points and downward until the quota is filled. Students who miss out under this process are placed on self-sponsor even though they meet the GPA requirement. The TESAS award cannot be made to all the students who are selected due to funding limitations.

ELIGIBILITY FOR TESAS

To be eligible for a scholarship under TESAS an applicant must fulfil all the following requirements:

- Must be a Papua New Guinea citizen;
- Must have been selected by an institution of higher education to study in a program recognised by the state;
- Must have had his/her name submitted by the institution of higher education to the office of Higher Education and is within the TESAS quota for the program;
- Must be a full time student at the institution;
- Must not be in receipt of any other scholarship;
- Must be an undergraduate student;
- Must have grade point average (GPA) score within the specified range for each category as follows:
 - i. Academic Excellence Scholarship - 3.6 to 4.0
 - ii. Higher Education Contribution Assistance Scheme - 1.6 to 3.5
 - iii. Self-Sponsor - 0.8 to 1.5 or even better and admitted by an institution.
- Must not have been excluded from an institution on academic grounds under TESAS or NATSCOL previously.
- Must not have been terminated for any disciplinary reason; and
- Must pay the 'user pay' component of the fee. HECAS and Self-Sponsor students must pay at least the 50% of the required fees before applying for a student loan to complete the full fees required.

SCHOLARSHIPS BENEFITS

The TESAS benefits under each category are as follows:

EDUCATION - Continued

Scholarship: TESAS and how it is awarded to students in Higher Education review

Categories 1 and 2:

- Book and equipment allowance for one academic year;
- Tuition fees (as appropriate) for one academic year;
- The most economical means of transport (air, road and sea) to terminal nearest to home and institution;
- Subsidised board and lodging for the academic year;
- Repatriation of a student's body in the event that, a student dies; this include coffin expenses and airfares to the nearest airport/strip to home; and a ticket for one person who accompany the body.

Category 3:

- Students have access to the TESAS Loan Scheme.
- Disadvantaged students may be eligible for return airfares.

Category 4:

- No TESAS benefits apply to this category of students.

CONDITIONS FOR RETAINING OF TESAS

The TESAS award is granted to selected students on the basis of their academic performances and their exemplary conduct and behaviour, and is therefore a privilege and not a right. TESAS award is given for one academic year only and will be reviewed at the end of every year. It may be terminated at the end of every year, if awardees fail to maintain the eligibility requirements.

TERMINATION OF TESAS AWARD

Acting upon the advice from the institutional authorities, the TESAS award shall be terminated automatically when an awardee is: (a) terminated by the institution on academic grounds; (b) is terminated by the institution on disciplinary grounds; (c) withdraws from study on her or his own accord and, (d) whose behaviour is unsatisfactorily or continuously misses classes that may affect the student's academic performance or program requirements.

APPLICATION FOR TESAS AWARD

TESAS scholarship is awarded through the Student Support and Scholarship Branch of the Office of Higher Education. Application for TESAS sponsorship should be directed to:

**The Director, Higher Education Support Division
Office of Higher Education
P O Box 5117
BOROKO, NCD**

TESAS has four categories:

- 1: Academic Excellence Scholarship (AES);
- 2: Higher Education Contribution Assistance Scheme (HECAS);
- 3: Self-Sponsorship (SS); and
- 4: Private and Corporate Sponsorship (PCS).

1. DETERMINATION OF TESAS

A student who is awarded the Academic Excellence Scholarship (AES) under TESAS will contribute 1% of the total unit cost towards the cost of his/her education. A student who is awarded TESAS sponsorship under the Higher Education Contribution Assistance Scheme (HECAS) is expected to pay 7% of the total unit cost and those that come under Self-Sponsors will pay 25% of the total unit cost.

The Private Sponsor category consists of students who are sponsored by their employers,

overseas students and Papua New Guinea students who are sponsored by overseas Governments. Students in this category do not qualify for TESAS financial assistance. This category of students will pay 50% of the unit cost for university education and 100% of the direct student cost of non-university education.

The State reserves the right to:

- (a) Nominate the programs to which the TESAS applies;
- (b) Determine the number of scholarship places available each year; and
- (c) Determine the conditions for granting of the award.

2. ELIGIBILITY FOR TESAS

To be eligible for a scholarship under TESAS an applicant must fulfil all the following requirements:

- (a) Must be a Papua New Guinea citizen;
- (b) Must have been selected by an institution of higher education to study in a program recognised by the state;
- (c) Must have had his/her name submitted by the institution of higher education to the office of Higher Education and is within the TESAS quota for the program;
- (d) Must be a full time student at the institution;
- (e) Must not be in receipt of any other scholarship;
- (f) Must be an undergraduate student;
- (g) Must have grade point average (GPA) score within the specified range for each category as follows:

- iv. Academic Excellence Scholarship - 3.6 to 4.0
 - v. Higher Education Contribution Assistance Scheme - 1.6 to 3.5
 - vi. Self Sponsor - .8 to 1.5
- (h) Must not have been excluded from an institution on academic grounds under TESAS or NATSCHOL previously.
 - (i) Must not have been terminated for any disciplinary reason; and
 - (j) Must pay the 'user pay' component of the fee. HECAS and Self-Sponsor students must pay at least the 50% of the required fees before applying for a student loan to complete the full fees required.

3. SCHOLARSHIPS BENEFITS

The TESAS benefits under each category are as follows:

Categories 1 and 2:

- (a) Book and equipment allowance for one academic year;
- (b) Tuition fees (as appropriate) for one academic year;
- (c) The most economical means of transport (air, road and sea) to terminal nearest to home and institution;
- (d) Subsidised board and lodging for the academic year;
- (e) Repatriation of a student's body in the event that, a student dies; this include coffin expenses and airfares to the nearest airport/strip to home;

Category 3:

- (a) Students have access to the TESAS Loan Scheme.
- (b) Disadvantaged students may be eligible for return airfares.

Category 4:

No TESAS benefits apply to this category of students.

4. CONDITIONS FOR RETAINING OF TESAS

- (a) The TESAS award is granted to selected students on the basis of their academic performances and their exemplary conduct and behaviour, and is therefore a privilege and not a right; and
- (b) TESAS award is given for one academic year only and will be reviewed at the end of every year. It may be terminated at the end of every year, if an awardee fails to maintain the eligibility requirements.

5. TERMINATION OF TESAS AWARD

- (a) Acting upon the advice from the institutional authorities, the TESAS award shall be terminated automatically when an awardee is terminated by the institution on academic grounds;
- (b) Acting upon the advice from the institutional authorities, the TESAS award shall be terminated automatically when an awardee is terminated by the institution on disciplinary grounds; and,
- (c) Whose behaviour is unsatisfactorily or continuously misses classes that may affect the student's academic performance or program requirements;
- (d) The TESAS award is terminated when the awardee withdraws from study on her/his own accord.

6. TESAS RENEWAL UNDER ACADEMIC EXCELLENCE AND HECAS

- (a) Students who withdraw for reasons other than on medical grounds will not be considered for the Academic Excellence Scholarship (AES) or the Higher Education Contribution Assistance Scheme (HECAS). The student will be expected to self-sponsor on readmission. Self-sponsorship will be for one year; the student must prove that he/she deserves a second chance of Academic Excellence Scholarship or the HECAS.
- (b) Students who withdraw on medical grounds will be given favourable consideration for renewal upon producing medical documents (documentation is of the date of withdrawal);
- (c) All renewals will be considered to the prescribed quota for TESAS places in individual tertiary institutions. Students must score the Grade point average of 1.6 or better.
- (d) TESAS award on AES and HECAS will be renewed only once.
- (e) Students who are under AES and HECAS and have been excluded/suspended from studies on disciplinary grounds will not be reinstated in the AES or the HECAS award.
- (f) Female students who withdraw on pregnancy grounds will not be considered for categories 1 and 2 of the TESAS sponsorship on readmission. However, they will be considered if and when they have scored the required grade point average of 1.6 or better on completion of one academic year.
- (g) Self-sponsored students who are terminated on academic grounds are allowed to take out loan twice only upon each re-enrolment.

7. CHANGE OF PROGRAMS

Students who wish to change their program of study must apply to the Office of Higher Education for approval of transfer of sponsorship. The Principal, or the Heads of Departments/Faculties concerned in writing must support the application.

8. TESAS AWARD QUOTA

The Government sets a quota for each category of TESAS award. The main objectives of setting a quota are:

- (a) To meet the skilled manpower requirements in given occupational categories; and
- (b) To limit the number of sponsorship to the level of funding.

9. THE STUDENT LOAN SCHEME

- (a) The loan facility is available to students enrolling at universities under categories 2 and 3 and disadvantaged students under category 3 at non-university institutions.
- (b) It does not include students who are sponsored by employers or corporate bodies under category 4.
- (c) A student seeking this loan assistance is required to provide evidence that they come from disadvantaged families.
- (d) In order to obtain a loan a student must have paid 50% of the required fee and attach the original receipt to the loan application form.
- (e) The loan will be repaid by the recipients after completing their studies and are employed. Each loan beneficiary will be registered with the Internal Revenue Commission who will administer a graduate tax scheme.

10. TESAS SPONSORED STUDENTS AT GOVERNMENT RECOGNISED INSTITUTIONS

The Academic Excellence Scholarship does not cover students studying at Government recognised private institutions. Students studying TESAS sponsored courses must maintain a minimum grade point average of 1.6 or better.

11. SPECIAL AWARDS

Academic Excellence Scholarship (AES)

- (a) Under Academic Excellence Scholarship, one hundred (100) awards are for females.
- (b) Fifty (50) awards are for medical students.
- (c) The remaining awards will be for other disciplines.

Higher Education Contribution Assistance Scheme (HECAS)

- (a) Under HECAS one thousand (1000) awards are for eligible female students.
- (b) This special award is provided to eligible female students to address the gender equity issues.

12. FEES PAYABLE

Under each TESAS category the fees payable are specified in schedule 1. Students have the option to reside off campus in which case they pay the required user pay component only.

13. APPLICATION FOR TESAS AWARD

TESAS scholarship is awarded through the Student Support and Scholarship Branch of the Office of Higher Education.

Application for TESAS sponsorship should be directed to:

GOOD GOVERNANCE

PSC strengthen capacity

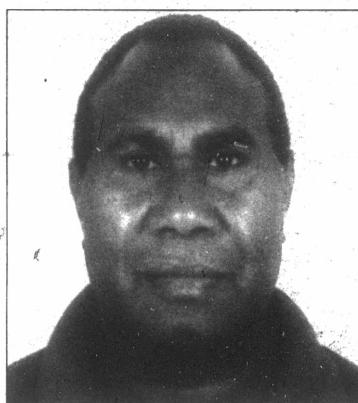

The Chairman of the Public Services Commission, Mr. Jerry Tetaga, OBE, says that the Commission's role in restoring merit based appointments to the most senior levels of the Public Service is starting to make a difference.

Last year's constitutional changes provided the PSC with a much more proactive role in the selection, appointment, suspension and dismissal of Departmental Heads and Provincial Administrators. Previously, the PSC's role was very limited.

Mr. Tetaga explained that all positions are now advertised and the PSC assesses candidates on merit and provides a ranked short list to the National Executive Council (NEC). In the case of Provincial Administrator vacancies, the short list is sent to the Provincial Executive Council (PEC) for consideration before NEC considers the candidates.

Cabinet then makes an appointment from the short list.

Another important aspect of the PSC's new role is the PSC's involvement in appointments when a

Mr. Jerry Tetaga, OBE

Departmental Secretary or Provincial Administrator position is vacant for less than 3 months. In such cases, the PSC recommends a suitable candidate to NEC for a decision from a short list of candidates. Before PSC makes its recommendation it has to consult with the portfolio Minister and CACC on the suitability of the candidates. In the case of Provincial Administrators, PSC first consults the PEC through the Governor of the Province.

The process of dismissal has also been strengthened. Dismissal of Departmental heads and Provincial

Administrators are done at the recommendation of the PSC. This will only occur following a PSC investigation into the existence of grounds for dismissal as set out in the Departmental Head's contract. These grounds consist only of the following:

- Misbehaviour;
- Breach of contract or terms of employment
- Incompetence;
- Ill health;
- Consistent poor performance; and/or
- In the interests of the state (as determined by the PSC)

The PSC is currently revising its internal procedures to ensure that it performs its strengthened role as fully as possible. This includes revising the PSC's selection and assessment processes, including the use of interviews, to ensure quality of short listed candidates for all top level Public Service positions.

Mr. Tetaga further explained that the PSC's assessment processes will ensure that the merit selection applies and only the best quality candidates will be referred to PEC and NEC for consideration.

New ICCC commissioners appointed

The Prime Minister, Sir Michael Somare has announced the appointed of Mr Thomas Abe as the acting Commissioner of Independent Consumer and Competitions Commission (ICCC) on May 7 2004.

Two new Commissioners also appointed are Chris Gideon as the resident Associate Commissioner and Paul Baxter as the non-resident Associate Commissioner of ICCC.

He said the Commissioner posi-

tion was a fulltime one while the position of the two associate commissioners would be part-time.

"As required by law, one of the associate commissioners must be a non-resident with international economic expertise," the Prime Minister said.

He said ICCC is the country's main economic regulator entrusted with the promotion of fair competition and efficiencies in the industries while protecting bona fide interests of consumers with regard to price, quality reliability of

goods and services.

"This is an enormous responsibility and these appointments mark an important milestone in the formation of this important regulatory body. The government expects ICCC to get on with the important task of discharging its regulatory functions for the well being of the stakeholders, he said.

He said the commissioners who are all qualified and experienced would ensure effectiveness as the national economic and competition regulator.

New PSC Secretary

In a move to strengthen the role of the Public Services Commission, the Chairman of the Commission, Mr Jerry Tetaga has announced the appointment of several very senior officers key strategic positions.

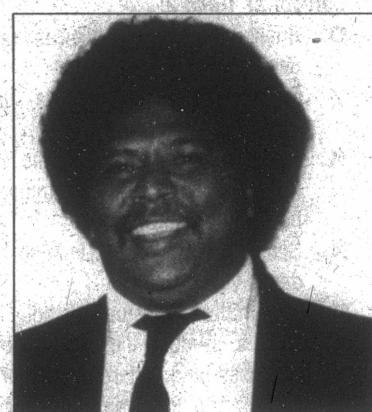

Mr. Jerry Tetaga has announced the appointment of Mr. Andol Sione as the new Secretary of the Commission.

A career public servant from the Mortlock Islands in Bougainville, Mr. Sione holds a Masters Degree in Business Administration from the University of Central Queensland, Australia.

Commencing his career as an educationist, he held senior positions previously with the Department of Education, Attorney General and his career recently with the Department of Personnel Management.

Mr. Tetaga said Mr. Sione has served the public service for more than thirty-two years, therefore he brings with him a wealth of experience, which he will use to guide the Commission.

He also announced the Commission will begin investigating Public Service matters in the provinces with the appointment of a new Director to head a team that will probe personnel matters in the provinces. The new Director is Cliff

Mr Andol Sione

Kowih from the Manus province and he joins PSC with twenty-seven years experience, behind from the Police department, the Ombudsman the Electoral Commission and the ANZ bank as Investigator.

Another Investigator from the Ombudsman Commission Kipson Solok from Baluan in the Manus Province has accepted the PSC offer, to head investigations into National Departments in Port Moresby.

Journalist Jack Sion assumed the role of Senior Public Relations and Planning Officer.

Mr. Tetaga said the positions were created but were never filled and with budgetary allocation this year, the Commission was able to recruit officers to occupy the positions.

He said by filling the positions the Commission was also fulfilling its responsibilities as set out under the Constitution.

Upgrading and sealing of Kisenapoi - Ialibu road

Prime Minister Sir Michael Somare has announced that the National Executive Council has approved the upgrading and sealing of the 15.6 km Kisenapoi-Ialibu road in the Southern Highlands Province.

"The upgrading of this road to all-weather surface will service the rural population in the districts of Pangia, Ialibu, Kagua and Erave and will be the first improved link to the proposed Gulf/Southern Highlands Highway," Sir Michael said.

The Prime Minister said the project is a co-financing arrangement with ADB and there is approved funding available for this project.

The Prime Minister said Cabinet has awarded the contract to the recommended contractor, Carson and Pratt Services for the Upgrading and Sealing of the road at a cost of more than K11 million.

"The project will create direct and indirect employment and business opportunities in the project area," Sir Michael said.

HEALTH - MEDIUM TERM EXPENDITURE FRAMEWORK

Primary health care priority

The Department of Health is going full steam with the implementation of the Government's strategies aiming at improving the health of our people through the use of available resources.

Secretary for Health, Dr Nicholas Mann, says the health sector aims to improve the lives of the people through provisions of better primary health care service that ultimately would result in making better the health of our people in the rural areas.

He said the direction taken was in line with the Government's policy on deriving maximum outcome from existing resources by prioritizing program areas and readjusting organizational set-ups. The Department of Health is pursuing this measure under the Mid Term Expenditure Frame work (MTEF 2004 – 2006).

The MTEF is translating the Government's new Medium Term Development Strategy (MTDS 2003 – 2007) into action and the PNG's National Poverty reduction Strategy (NPRS) that provide the guiding framework to ensure that

Government expenditure, at all levels, have the greatest impact on improving lives and health.

On the basis of the MTDS, the National Health Plan (2001 – 2010) and District Minimum Standards, the MTEF develops the expenditure program for level of resource and what it will pay for.

Equally, the MTEF compliments and enriches annual activity planning process that allow sector agencies to review previous years performance on an annual basis and sets new performance targets for the next year to work towards.

Tools used in developing the MTEF are the overall program performance of the health sector, the volume and seriousness of diseases in the country, the cost effectiveness of intervention programs, and the implementation process at the service delivery sites such as health centers and aid posts.

Resource allocation under the MTEF in 2004 to 2007 falls in two categories. These categories are interventions and systems support.

Interventions refers to programs aiming at addressing priority health

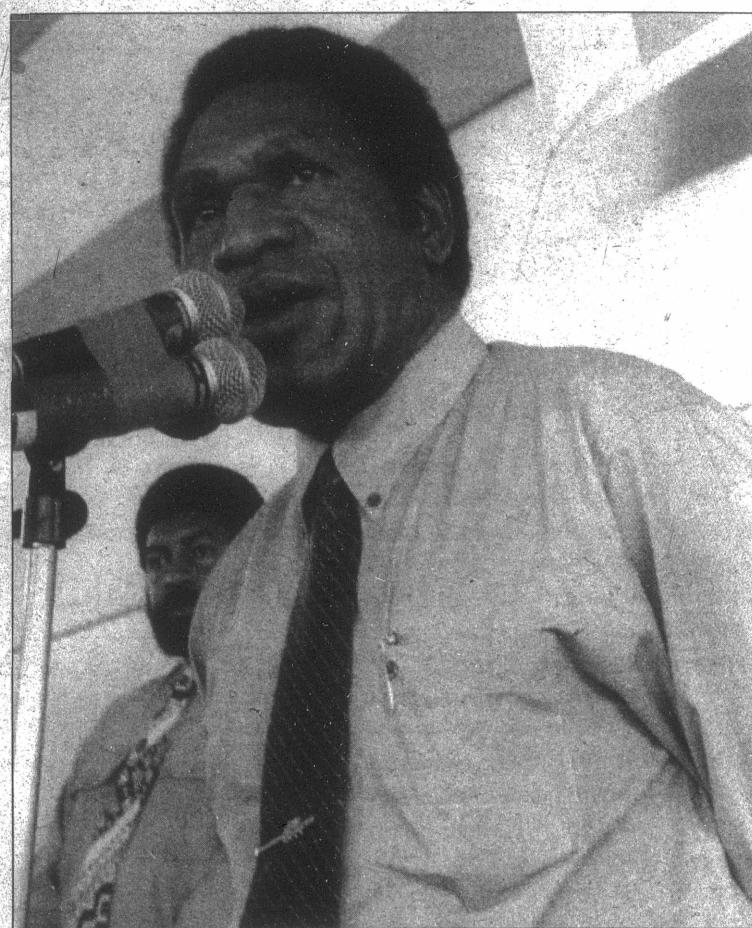

issues, and systems support refers to areas of Department of Health and its administration need to do to support dealing with the public health issues such as training, medical supplies, communication, transport and other support areas.

The Department now makes a shift in cutting down on the expenditure on areas of system support and intervention that are of less priority to the highest priority areas of immunization, malaria, safe motherhood, HIV/AIDS and water supply to rural labour wards.

Two organizational areas also identified as priority and they are monitoring and supervision.

Of the intervention programs, malaria remains at the top followed by immunization, safe motherhood, HIV/AIDS, and water supply. These diseases and or conditions associated deemed to have impacted the health care services and could cost more if not contained.

The outcomes, as envisaged by the National Health Plan 2001 – 2010 will contribute to positive health outlook for the country in the years to come.

Secretary for Health, Dr Nicholas Mann in public appearance also drives on the message of working together as a team with the available resources for better health outcomes.

BOUGAINVILLE RESTORATION AND RECONSTRUCTION

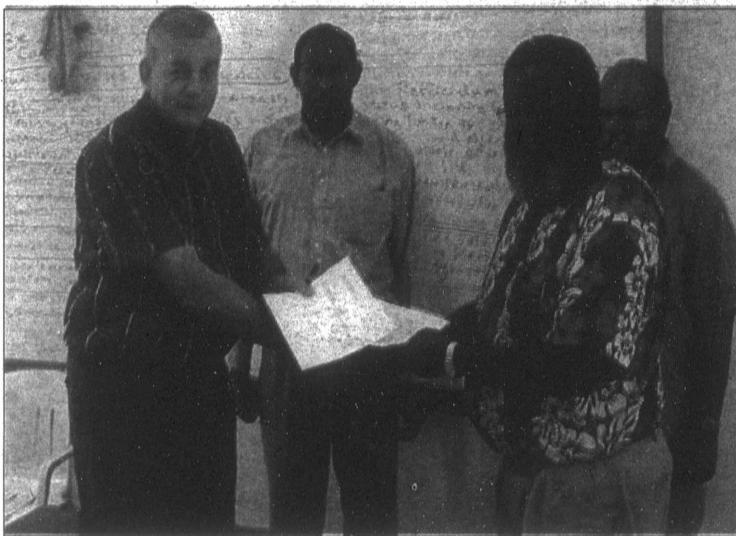

Destruction of weapons and construction development for Bougainville moving well

The Minister for Inter-Government Relations, Sir Peter Barter, has said the disposal and destruction of weapons in Bougainville continues to make good progress.

Former combatants and communities from the remaining No-Go Zone around Panguna are making a significant contribution.

While there are still challenges to be met, the prospects that conditions will soon be conducive for holding free and democratic elections for the Autonomous Bougainville Government continue to improve.

Sir Peter said, recently that, the BRA's A Company took part in a well-attended ceremony in Arawa, and publicly destroyed a

total of 91 weapons previously collected in the "No-Go Zone".

Earlier this month, members of

the Me'ekamui Defence Force participated in a weapons destruction ceremony at Piruana Village in the

Kieta District. These initiatives have helped build confidence in neighbouring communities and peace generally in Bougainville.

By the end of April, more than three-quarters of the guns put away and stored in accordance with the weapons disposal plan contained in the Bougainville Peace Agreement have been destroyed.

The process in four of the ten Districts involved (Bana, Selau-Suir, Torokina and Wakunai) has been completed. Other Districts are moving ahead. A number of recent reconciliations have helped strengthen mutual trust and consolidate peace on the ground.

Again, others are planned. At the same time as these very important developments have been occur-

ring, the Bougainville Constitutional Commission (BCC) has been meeting and giving detailed consideration to the National Government's response to the BCC's Second Draft of the proposed Bougainville constitution.

Officials from the Department of Justice & Attorney-General and the Bougainville Peace & Restoration Office have been attending to answering questions, clarify issues, and help lay the groundwork for the Bipartisan National Committee's next meeting with the BCC. This meeting is scheduled for early May, as soon as Committee members can be properly briefed on the BCC's latest meetings, and our Parliamentary commitments allow.

Bougainville constitution

The Bougainville Constitutional Commission (BCC) and the Bipartisan National Committee have resolved some issues on costing and complexity of the system of government in the proposed Bougainville Constitution of the autonomous Bougainville government.

Minister for Inter Government Relations, Sir Peter Barter and Minister for Justice, Mark Maipakai, recently attended a meeting in Bougainville on the proposed constitution for the autonomous Bougainville government, with Members of the Bougainville Transitional Consultative Council.

A meeting is set for June this year for the Bougainville Constituent Assembly to consider the final draft of the proposed constitution.

Sir Peter said concerns raised on the social impact and prospects for promoting social and political harmony in Bougainville and the country as a whole, were also resolved.

"The critical issues are those concerning the need for consistency between the proposed

Bougainville constitution and the National Constitution - as amended to implement the Bougainville Peace Agreement," Sir Peter said.

The final approval and implementation of the Bougainville constitution depends on ensuring that it complies with the terms of the National Constitution, as this will be the key for endorsement by the National Executive Council, and gazetted, on direction by the Governor General.

Meanwhile, Sir Peter also welcomed the appointment of James Tanis, as a member of the Bougainville Interim Provincial Government.

Mr Tanis will be responsible for Peace and Reconciliation on Bougainville and ensure that Government policies and activities remained focused on peace.

Sir Peter said the initiative was a step forward to practical-building in Bougainville.

"Mr Tanis's willingness to accept the challenge of becoming politically responsible for Peace and Reconciliation on behalf of the Government show how far the Bougainville peace process has come," said Sir Peter.

The appointment took place at a swearing-in ceremony held in a special session of the District Court in Buka last Friday.

Sir Peter and the Minister for Justice, Hon. Mark Maipakai, who also represented the Bipartisan National Committee at meetings with the Bougainville Constitutional Commission, attended.

The leaders sworn in as members of the Bougainville Interim Provincial Government included James Tanis representing Bana; Raymond Hareke for Hakia-Halia; and Cosmas Neging for Nissan and Atolls.

Speaking after the ceremony, Sir Peter said, 'The Governor's decision

to invite James Tanis to join the Bougainville Interim Provincial Government and James Tanis's willingness to accept the challenge of becoming politically responsible for Peace and Reconciliation on behalf of the Government show how far the Bougainville peace process has come.

James Tanis takes up his new position with a background of experience as a trusted adviser in the inner counsels of the Bougainville Revolutionary Army (BRA), Vice-President of the Bougainville People's Congress (BPC), and participation in both the Peace Process Consultative Committee (PPCC) and the Bougainville Transitional Consultative Council.

He has worked hard to remove the psychological and other barriers around the remaining 'No-Go Zone' in the Panguna area.

He has played a major role in encouraging former combatants and communities there to put away and destroy their guns, and help make the peace process truly Bougainville-wide.

James Tanis' personal journey is one of commitment and reconciliation for peace.
