MINNEAPOLIS 40, MINNESOTA

April 1, 1964

Dr. Leo Szilard
Salk Institute for Biological Study
P.O. Box 9499
San Diego, California 92109

Dear Dr. Szilard:

Your former employer, The University of Chicago, has advised us that you have inquired about the individual Life policy applied for on March 9.

We have processed the application but have not yet issued the policy since the policy date will be May 2, 1964. You may be assured that your insurance protection will be in effect for the interim period between March 31 and May 2. Your Group Certificate elaborates on this.

Mr. Gallagher of The University of Chicago has also mentioned that you are now residing in California. So that you may receive the best possible service in connection with your new policy, we will have our Los Angeles Office handle the final preparations. The policy will be in force in one of our Field offices near your residence or place of employment as you prefer.

If you should have any further questions about your new policy, you may contact Mr. Oren McDonald, Manager of the Group Insurance Division in our Los Angeles Office.

Sincerely,

Leo J. Casey, Assistant Manager
