Price Center Flooded by Torrential Spring Rains

By Mary Betty Heard Associate News Editor

Students weren't the only ones swamped during finals week.

Due to heavy rains, the Price Center began flooding early on the morning of March 19, causing thousands of dollars worth of damage to both the Price Center bookstore and theater.

Problems arose when water streamed down from two sources into the Price Center, clogging drains and seeping under doors.

According to Principle Custodial Supervisor Mary Ann Mason, water from one of the dirt hills in the Central Library construction area did not drain properly and flowed down into the back entrance of the theater.

"It was heartbreaking," she said, referring to the damage to the theater.

While Mason could not estimate the exact cost of damage to the theater, she did say that a tremendous amount of work went into cleaning the mess. The Stanley Steamer carpet cleaning service was used for much of the work.

According to Mason, other sources of flooding included the hills near Mandeville Center and the Student Health Services building. Water from both areas flowed onto the Price Center second floor walk and down the stairs into the plaza.

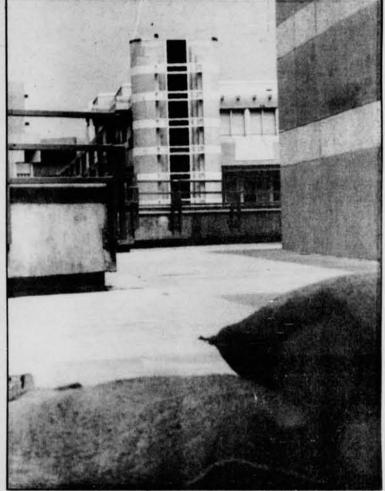

The drains in the plaza clogged quickly with debris from the eucalyptus grove.

"It came down too fast for the drain. [It] filled up with mud and debris," Mason said.

Don Moon, assistant bookstore director, said that he was notified of the flooding at about 3:30 a.m. on March 19.

According to Moon, the sidewalk on the second floor landing of the Price Center turned into a river that seeped under the bookstore's front door, filling most of the clothing section with water and mud.

The water then leaked through the concrete floor to the first floor See FLOODING, Page 7

Heavy rain during finals week and spring break prompted the erection of barriers and sandbags around the Price Center.

Chodorow Withdraws From U. of Arizona Presidential Race ■ UCSD dean of Arts and Humanities was one of five in the running for position

By Phil Gruen Senior Staff Writer

With the selection of the new president of the University of Arizona at Tuscon set to be determined today by the Arizona Board of Regents, UCSD's Dean of Arts and Humanities Stanley Chodorow has decided he no longer wants to be considered for the post.

Chodorow, who also holds the position of associate vice chancellor of academic planning at UCSD, explained that the decision to withdraw from the race belonged to both he and his wife Peggy, and came after an all-day interview on Wednesday. Chodorow explained that during the day—and part of the night—he was questioned by many

different members of the university community, including students, administrators, members of the athletic department, and the regents.

"It was a matter of learning enough so that you can make your mind up," Chodorow said of the questioning he and Peggy sat through. "The [University of Arizona] is a strong campus, a very good university.... But [the presidency] would have changed our personal lives in a way that we found unacceptable, so we dropped out."

Chodorow indicated that a primary concern for his decision focused on the prominence of a president at a major university in the state of Arizona, and how it could trickle down and affect a far more important concern: his marriage.

"My marriage is more important to me than any old job... [Peggy] was not going to become Mrs. President," he said. Chodorow added that if he had been chosen, he would have been "one of the most prominent figures in the state... I was going to have to be out four nights a week, at least. I'm not a socialite."

Chodorow also stressed that Peggy — a real estate agent in the San Diego area — felt that the market in Tuscon was not up to her standards, and that that played as much a part in the decision as anything else. He did not, however, deny that the interview process was an enriching experience, nor did he downplay the opportunity to affect

Stanley Chodorow Guar

"Arizona is where California was in the '50s," he said, pointing out See CHODOROW, Page 3

Number of Sites for 10th UC Campus Narrowed to Three

By Jason Snell News Editor

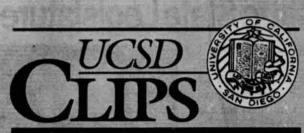

Despite state financial difficulties and UC budget woes, the UC Board of Regents has continued planning for a tenth campus, and narrowed the list of possible sites to three.

The regents approved a recommendation from UC President David Gardner to concentrate site evaluation activities on three areas in the San Joaquin Valley—the Lake Yosemite site, six miles northeast of Merced; the Table Mountain site, 12 miles north of downtown Fresno in Madera County; and the Academy site in Fresno County, 10 miles east of Clovis.

"It has become clear to us that any of these three candidates will successfully serve the needs of the Central Valley and the university," Gardner said. "We look forward to continuing our work, not only with these supportive communities, but with those whose sites will not be advanced for further study."

The narrowing of the selection process eliminated five other prospective sites for the new campus. Those sites were Mape's Ranch in Stanislaus County, just west of Modesto; Don Pedro in Tuolumne County, 40 miles east of Modesto; Watts Valley and Trimmer Springs, both in Fresno County about 25 miles east of downtown Fresno; and See CAMPUS, Page 6

NEWS IN BRIEF

Scripps Researcher Receives Navy's Highest Civilian Honor

The U.S. Department of the Navy's highest civilian award will be presented to Fred Spiess, professor of oceanography at Scripps Institution of Oceanography.

Spiess will receive the Distinguished Public Service Award at ceremonies today in Washington, D.C. at the award will be presented by Gerald Cann, assistant secretary of the Navy for research, development, and acquisition, who has cited Spiess "for outstanding, distinguished service to the Navy, for world-leading accomplishments in ocean science and technology."

Spiess was specifically cited for his scientific effort and technology for the Navy on the low-frequency Seismic-Acoustic Experiment from April through September 1989. Spiess guided an expedition to implant a multi-node racial, or religious persecution. array into a deep-sea borehole in more than 16,000 feet of

This new technique has potential applications for the UCSD Extension at 534-3400. Navy sensors. The experiment was developed for studies of the physics and propagation of low-frequency energy above, at, and below the sea floor.

Spiess joined Scripps Institution of Oceanography's Marine Physical Laboratory (MPL) in 1952 and was MPL director from 1958 to 1980. From 1980-88 he was director of the UC's Institute of Marine Resources, headquartered at UCSD, while retaining his faculty association with Scripps Institution and continuing his research at MPL.

Spiess has led an average of two expeditions a year as auditorium. an active scientist for more than 30 years. His research interests have included studies of long-range propagation of sound and related underwater communication systems, oceangoing stable platforms and deep-towed instruments systems, fine-scale properties of the deep-sea floor, phespreading, and seafloor geodesy.

He is currently president of the Ocean Sciences section of the American Geophysical Union and was formerly head of the UC systemwide Academic Senate.

Exhibition, Lectures Commemorate Anniversary of Start of Holocaust

The hiding, capture, and death of Anne Frank have come to symbolize the tragic fate of the Jews during World War II.

As part of the commemoration of the 50th anniversary of the beginning of the Holocaust, UCSD is hosting a free 10-week public lecture series, beginning Wednesday and continuing through June 5, and an educational exhibition May 7-June 7 titled, "Anne Frank in the World: 1929-1945."

The exhibition will be open every day from 8 a.m. to 8 p.m. in the Price Center, Ballroom A. Admission is free.

The exhibition was created by the Anne Frank Center in Amsterdam, the city where the Frank family hid in a secret annex during the Nazi occupation of Holland before they were discovered and taken to German "occupation" camps.

Made up of more than 600 photographs from Dutch and office of the secretary of the Navy at the Pentagon. The German archives and the Frank family collection, the exhibition also includes a model of the secret annex and manuscripts from Anne Frank's workbooks. A videotape entitled, "Just a Diary," will accompany the exhibition.

Each Wednesday, prior to the start of the exhibition, a free public lecture series called, "Racism, Genocide, and the Holocaust" will be offered at 7 p.m. The series, which begins this week, features a wide array of speakers from across the nation who have studied or experienced ethnic, political,

The lectures will be held in room 2250 of the Humanities waterusing a remotely operated vehicle which he designed. and Social Sciences Building. For further information, contact

UC President Gardner Presents Budget Proposal to State Legislature

The UCSD Guardian

News Editor

Monday, April 1, 1991

University of California President David Gardner presented the UC's 1991-92 budget proposal to the state legislature late last month while also outlining a new financial aid package that would, he said, help counteract the 40-percent student fee increase contained within the proposal.

Gardner addressed the Senate committee began considering the in mind. UC's \$2.484 billion budget request. According to Gardner spokesman easy, to decide among painful alter- percent instead of 20 percent; re-Ron Kolb, the UC Board of Regents claims that the sum is "essential to quality of UC programs." The UC have an obligation to nurture and budget outlined by Governor Pete Wilson is \$295 million less than the budget proposed by the regents.

The state legislature will now develop its own budget proposal, due for submission to Wilson prior to June 30.

In order to cover the addi- lion; reduce deferred maintenance

evaluation process for the tenth UC

But Gardner warned that the measures the UC is currently planning are short term, and cannot be repeated in the future.

"We cannot repeatedly deny general salary increases, or defer merit increases - not if we wish to remain competitive," he said. "We cannot initiate further reductions in undergraduate enrollments without immediately confronting the issue of access for eligible Californians. We cannot, year after year, continue to impose student fee increases of the magnitude now recommended."

Gardner made a special point of defending the student fee increase, which would bring mandatory university fees to \$2,274 a year for resident undergraduates.

"In constant dollars, UC fee increases have generally lagged behind increases in the average Californian's income," Gardner said. "Adjusting for people's ability to pay through personal income changes, the resulting fee level will still be below the 1971-72 level and

PERM STRAIGHT

about the same as the fee level in the early 1980s."

Gardner also announced at the meeting a measure to aid needy middle-income students whose ability to receive aid to cover the fee increase would be limited by established financial aid formulas.

Under the new plan, needy students whose parents' adjusted income is less than \$30,000 a year will qualify for a \$650 grant, to offset the See GARDNER, Page 6

THE CALIFORNIA DROUGHT

Water, Water Everywhere?

Five years into a major drought, faced with the nearly eminent possibility of mandatory water rationing, brown lawns, yellow toilets, and grey water, one would think that the city government of San Diego would have realized by now that the water situation is really serious. For the last four years, politicians across the state - especially in parched cities like Santa Barbara - have come to realize that their prayers for drought relief will not be answered. These are desperate times, and, for lack of better preparation, the people of California must now pay the price for their excessive

San Diego is the last major city in California to acknowledge the inevitability of severe water restrictions. Mayor Maureen O'Conner and the city council have been reluctant to impose water cutbacks on city residents for months. Even after the Metropolitan Water District (MWD), which serves most of Southern California (including Los Angeles and San Diego), announced that it would be cutting its water deliveries to San Diego County by 50 percent, city officials were still unwilling to impose rationing. It was the County Board of Supervisors which had the courage to step in and acknowledge the gravity of the situation, imposing extremely severe regulations on water use

The recent storms and the massive rainfall which accompanied them are perfect examples of the mayor's blindness to the realities of California's water crisis. After the rain stopped falling, the mayor essentially declared San Diego's water woes to be over. The mayor apparently believed that two days of heavy rainfall could solve a five-year problem. If nothing else, common sense dictates otherwise.

While the storm did in fact bring above average rainfall, and raised the water levels in several of the state's and county's pitifully low reservoirs, the storm was not the godsend many people have tried to make it out to be. Most of the reservoirs are still far below capacity. Others are overflowing with water that is simply going to waste. The Colorado River is swelling with water that the neither the MWD nor the San Diego County Water Authority has the means to harness. The MWD has begun reevaluating its assessment of a 50 percent water cutback to its customers, but it will probably only amend that assessment to 30 percent. Any way you slice it, the problem is still with us.

O'Connor's rash judgement is particularly surprising, considering the fact that San Diego receives 90 percent of its water from the MWD. If 50, or possibly 30 percent of that water is cut, from where does the mayor expect to compensate for that loss? Certainly not from the half-full reservoirs around the city.

Clearly, O'Connor does not want to be remembered by voters as the mayor who made the city's toilets yellow. But that image, as unpleasant as it is, will be something San Diegans will have to get used to. The days of voluntary conservation are past. They were over last summer, but nobody wanted to admit it. The question is no longer one of the severity of the crisis, but rather how to manage the crisis before it gets worse.

The city has denied its water problem for five years. Now it is time to consider that this problem may only get worse before it gets better. The drought could last for six, seven, or eight years. Or maybe longer. If that is the case, the city will have to grapple with solutions far more courageous, albeit more painful economically, than the restrictions we are likely to face beginning April 15. For one, the city and county both will have to seriously consider imposing zero-growth initiatives and put a stop to further development. Santa Barbara and other coastal cities have had such regulations in effect for some years now.

There is some hope. San Diego should be praised for participating in the development of a desalination plant to be built in Baja California in conjunction with Mexico. While the desalination of seawater is extremely expensive, this city has the resources to afford it on a large scale if worse comes to worse. Planners say that the plant will produce five million gallons of water per day, and should be on-line in five years. In the mean time, local research institutions (such as UCSD) should look into ways of making desalination technology more feasible economically. If this drought continues, what seems impractical or infeasible today may be the only answer tomorrow.

foyer and the greeting card section. Most of the damaged goods were greeting cards and general books.

"The textbook department managed to escape damage," Moon said. While workers were able to clean up the first floor in time for opening

on March 19, most of the second floor was closed for three days. The computer department, however, remained open. -

Moon approximated that 1000 gallons of water were removed from the bookstore.

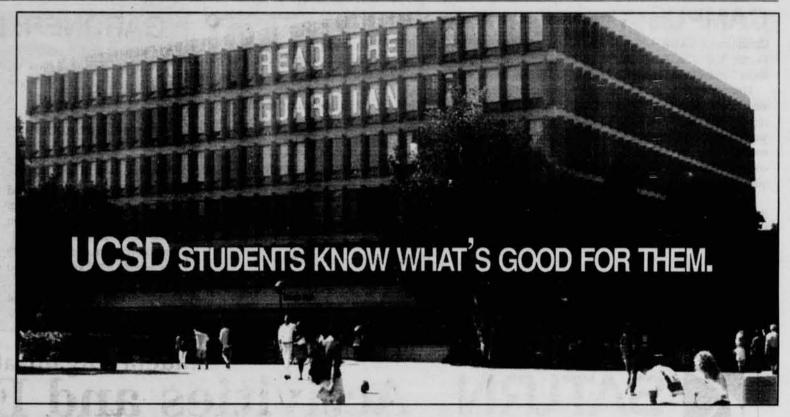

Approximately \$20,000 worth of damage was caused by the water. Another \$10,000 to \$20,000 is estimated as revenue lost from the necessary closure of damaged bookstore sections. Moon said that exact damage figures are still being determined for insurance purposes.

Neither Mason nor Moon said they believed that any of the water damage was caused by structural problems with the Price Center building. Rather, they think that the problem is with the landscaping surrounding the building and the

Mason added that if the heavy flooding had happened during the day rather than at night, her workers may have been able to prevent some of the flooding.

"If it happens when my people aren't working, which is from 12:30 a.m. to 6 a.m., then we aren't going to be able to service them," she said.

in 1985.

■ Money-saving program offers benefits to early retirees

By Kent Korzon Senior Staff Writer

Over the last 25 years, Marilyn Wilson has become accustomed to change. Central Library, where her office is located, didn't exist Wien she first began working at UCSo. Her department moved there from what is now the Undergraduate Library at Galbraith Hall, after Central's construction in 1970

"It was the 'not-so-central' library. You couldn't even get from here to Revelle to get a sandwich," reminisced Wilson. who heads the Acquisitions Department for UCSD's libraries "But, growth got closer."

While the view from her window, which faces the natural preserve, hasn't changed tha much, the once-isolated library now nearly lives up to its name.

"Working [at UCSD] has been unusual. Every two years there are major changes... dynamic, continual growth," Wilson noted.

And she looks back at her years at UCSD with fond memo-"It's a wonderful place to work. [There's] never a dull

moment, primarily because there's a good, wonderful group of people [to work with]," she said. "It's hard to leave friends." . Today brings a change that Wilson did not forsee a year ago.

She's not coming in to work she's going skiing (a life-long passion), and then heading to Hawaii. "Then I'll do all the things I

said I'd do later My husband and I will buy an RV [and

I had not planned to retire. [But, it was] financially hard to refuse. The pie looked awfully good.

77 **MARILYN WILSON**

head of Central Library's Acquisitions Department

travell," she said.

Unlike many who watch the day of their retirement slowly creep closer, Wilson's decision to retire was sudden.

"I had not planned to retire. [But, it was] financially hard to refuse. The pie looked awfully good," she said.

That pie was the Voluntary Early Retirement Program (VERIP), or rather its incentive, the "Plus Five" program, brought about by California's budget shortfall this year. Eligible faculty and staff who retired by March 31, will receive, under the auspices of the program, credit on their retirement plans for five extra years of service. Thus, an employee who has worked at UCSD for 25 years can retire with

benefits equivalent to having worked 30. That extra credit means more money with their retirement checks, and more time to spend it.

Engibilility for the program was based on the sum of the worker's age and years of service, and was limited to those at least 50 years old. Staff members needed a sum of 75 years, and faculty a sum of 80 years to qualify for VERIP. For example, a 55 year-old staff member who had worked in the UC system for 20 years would have a sum of 75, and wouldbe eligible for the Plus Five program.

While the program gives UCSD employees the incentive and benefits needed to retire early, it wasn't born of generos-

By Sangeeta Mehta Associate Features Editor His first novel was entitled Lie Down in Darkness Visible. But

Darkness. His most recent, when Pulitzer Prizewinning William Styron visited UCSD last month, he shed light upon his writing career - one which has deemed him one of the most distinguished authors in the country.

Styron has focused on such topics as slavery (The Confessions of Nat Turner) and war (Set this House on Fire and Sophie's Choice). Speaking as part of the Great Author Series sponsored by the Friends of the UCSD Library, he addressed a factor that actually underlies his writing -- depression.

At a young age, Styron "beat it back" with alcohol. Yet, depression affected his writing from an early point in his career.

"The presense of depression as a factor in my life was so omnipresent that it was my companion at all times," the 65 year-old author said. "The invasion of my psyche by depression... transferred itself to the written pages of my work." .

Sophie, an Auschwitz survivor, is unable to participates in a double suicide with her lover.

Membership in the association offers perquisites such as access to productions of UCSD's Departments of Theatre and Music, University Events, admission to the international film series, and free seating at Mandell Weiss perfor-

Monday, April 1, 1991

"There are values to belonging to the association," she said. "Retirement is getting to be exciting to work toward."

In addition to entertainment, the association will be offering housing. Recently, it was announced that members of the association will be allowed to obtain rental space in UCSD's La Jolla Del Sol Apartments, which will create an intergenerational community there.

It is anticipated that this community will be connected with various UCSD services, including the Medical Center, and Parking and Transportation Services. While there are no members living there now, according to Herbenar, a section within the complex will be available to them.

One of the goals of the association is the promotion of volunteer work. The association office itself is staffed by 16 volunteers, and another 15 are elected to serve on the association's board of directors.

Through the association, some volunteers arrange carpooling to association events, help out at events at UCSD, assist at hospitals and with UCSD publications, and even offer to assist in their areas in times of emergency. Others plan outings, trips, and activities offered to mem-See RETIRE, Page 11

STYRON: Author finds source of writing in his depression

chronicles the author's ascent from depression.

11.5

Monday, April 1, 1991

According to Styron, "Writing [is a way of] healing. It satisfies a need in me - it satisfies a need to dent, he read "everything" from tell the truth about something."

Born in Newport News, Virginia, Styron said that he knew since childhood he wanted to become a writer. At age 22, after graduating from Duke University, he started his first novel.

"I don't do much outlining," Styron said. "Some writers do that's perfectly acceptable." He explained that character develop- that. Ultimately you find your own ment is often unplanned in his writing.

"The core of writing," he said, "is discovery along the way."

According to Styron, there are "no clearly defined steps [in becoming a writer] as you have in learning to become a doctor or lawyer. You're out there swim- his novels have received worldming all by yourself. That's what writing's all about.

"Writing is very tough... it does Dostoyevski and Faulkner. But his require enormous periods of frus-

happens." Reading other authors' works can be an asset to the aspiring

tration," he added. "Somehow is

writer, Styron implied. As a stu-"all centuries."

The authors he mentioned include Fitzgerald, Hemingway, Faulkner, Thomas Wolfe, and Virginia Woolf. About them, Styron noted, "All of these writers have established individual voices."

Styron admitted to "slavishly" imitating authors he admires.

"There's nothing wrong with voice." Styron added that this is the most important aspect of writ-

Styron also tried to find his identity in his books.

"I always felt that I would write for myself," he said.

For whomever Styron wrote, wide recognition — so much that he has been compared to works, like those of other writers,

Author William Styron have been criticized.

"I've received my share of hateful criticism," Styron said, explaining that he has been called "racist" and "morally senile."

"But I knew better. I knew what I'd done. Ultimately you

don't let it bother you one way or the other," he said. About his prize-winning work,

Styron commented, "I simply tried to write the best English prose I could, telling the best story I knew to put down on paper."

RETIRE

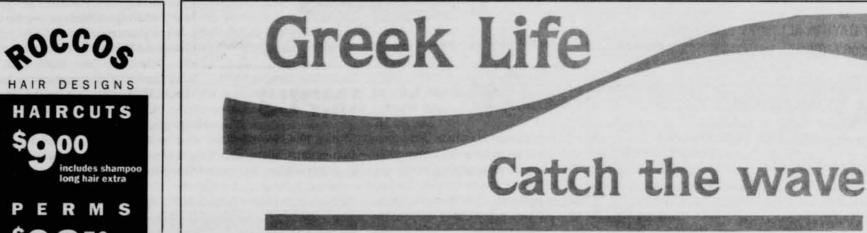

Continued from page 10 bers of the association. But volunteering is also done through less formal means.

"A professor in biology involved with the international day care center was wondering if we could put anotice in the newsletter asking for help there," Herbenar said.

Not all the work available through the association is volunteer. Some short-term, part-time paid positions are filled by association members who wish to continue working at UCSD.

Herbenar said that she doesn't expect to see the new retirees "right away," because many will be taking advantage of their new free time, but that as time goes by, more will become involved in the orga-

"It's the humanistic, intangibile part. We're a kind and caring organization. Many retirees believe in supporting the goals and objectives of UCSD. It's thrilling to stay in that environment," Herbenar said. "That's why I've stayed so

movie, yes - but it's more of a disturbing feeling, one which just might move you to thought and action. Like "Driving Miss Daisy," Whenever the viewer's atten-

"The Long Walk Home" is about a growing friendship between a fairly affluent Southern woman and one of her servants. But rather than glossing over racial tensions in the friendship -with an implicit message that racism isn't a problem — "The Long Walk Home" jumps into the heart of the civil rights movement, centering its storyline around the 1955 Montgomery bus boycott.

Sissy Spacek is Miriam Thompson, a proper Southern housewife whose household routine is slightly upset by the bus boycott. Whoopi Goldberg plays the maid Odessa Cotter who walks across town to work in the Thompson home every day. In a curious reversal of roles, Miriam offers to drive Odessa to work. without her husband's knowledge. Miriam however does not give Odessa a ride not because Odessa is exhausted by the pedestrian

Nothing Like the Live Sting

By Andy Clarke

You can always tell that spring is in the air by looking at a Ticketmaster entertainments guide. Major bands come out of the studio to tour whipping local radio stations into a frenzy of hype. Saturday night at the Sports Arena, it was Sting's turn to begin this musical bonanza with the last date of his U.S. tour.

Sting somehow manages to balance musical experiments and melancholy, lyrical songs with the charisma and showmanship of a pop star. Yet so far, his ambitions haven't overreached his popularity and he remains in the mainstream.

When he was the lead singer for the Police, Sting wrote terse, catchy threeminute pop songs that initially concentrated on romance and later turned to political and cosmological notions. However, since the disso-

lution of the Police in 1983-84, his songs have moved away from standard bouyant radiofare and become increasingly morose. Chant-like melodies now usually carry sombre lyrics. Most of his songs since 1987's Nothing Like the Sun album are made to sink in slowly, improve with repeated listening, and not readily leap out of a radio speaker.

Overall, the material is not standard arena fare. While songs such as "Why Should I Cry For You?" can certainly move an audience, in other material Sting seems to be counting on the band's interplay to make up for the lack of a real melody.

Fortunately, the man has been in the business too long to let a show slip between his fingers because of a prolifera-

Spring No Break for Men's Tennis

Spring break was no vacation for the UCSD men's tennis team as it played six matches in six days, traveled to compete in a biennial winning four of the six including a three-day gathering of top-20 Dipair of impressive 7-2 victories vision III teams at the Case Westover nationally-ranked MIT and ern Reserve Club in Phoenix, St. Thomas (MN). The Tritons ran Arizona on March 28-30. The Tritheir overall record to 6-8, 6-2 tons came back from the desert against Division III opponents.

The Tritons' respite from classes started off well, as they blasted Williams College and spectively, on March 25 and 26.

The highlight of these two matches from the Tritons. whitewashes was Chad Morse's

deficit to defeat Luther's Sujay Lama 6-1, 4-6, 7-6.

This past weekend UCSD with mixed feelings as they split

UCSD first faced seventhranked Gustavus Adolphus, and Luther College 8-0 and 5-0 re- the Golden Gusties blew past the Tritons, sweeping all six singles

The Tritons' luck took a de-

day, as UCSD took identical 7-2 wins from MIT and St. Thomas

(MN) respectively. The high point of the St. Thomas match was another miraculous Triton third-set comeback. John Cross got off the deck to overcome a 5-0 deficit, defeating Matt Marasco 6-7, 6-4, 7-6.

In the final match of the weekend, UCSD fell 6-3 to top-ranked UC Santa Cruz. UCSD was able to take the top

two singles matches as Chad Morse upended Greg Jarasitis 6-2, 3-6, 7-6, while number two Chris Belloli beat Eric Oehslschlager 6-1, 6-3.

BASEBALL

Continued from page 16

In the first game, Bryan Thomason scattered six hits and gave up two unearmed runs in seven and one-third innings of work. "Bryan pitched well but we

couldn't get enough offense to get him off the hook," Yates said. In the day's second contest

against Cal Baptist, the Tritons' offense showed signs of coming to life, as UCSD tied the game at four with four runs in the seventh. Cal Baptist, however, came back with three in the eighth off starter Rich Tomolonis to seal the victory.

"Rich pitched well early but just got worn out by the eighth,"

E.J. Remer led the Triton attack, going 2-for-3 with a two-run triple and catcher Anthony Sanchez went 2-for-4 in the loss.

UCSD's fortune improved greatly Saturday as it upended Division I Iona 5-4 in the tournament's third-place game. Starter Brent Hansen worked a steady six innings, giving up four runs while striking out five. Ryan Flanagan came in to slam the door on Iona, giving up no hits and no walks in three innings of relief.

"I was worried going into this tournament because we hadn't played in so long," Yates said. But we played so well against Iona that I think we're ready to pick up where we left off and play strong the rest of the season.'

American Express Announces A Great New Travel Program.

Now students can get the Card and get 3 roundtrips on Continental Airlines, for only \$129 or \$189 each.

There's only one way to cover a lot of territory without spending a lot of money. And that's by getting the American Express Card. It's the only card that offers an exciting new travel program exclusively for students—including three roundtrip certificates on

Just look at the map and pick the place you'd like to visit. If it's on your side of the Mississippi River, you can use a certificate to fly for only \$129 roundtrip. Or,

you can cross the Mississippi for \$189 roundtrip. You have your pick of more than 150 cities in the 48 contiguous states. And you can fly almost anytime-because there are no blackout dates. But you must make your reservations within 14 days of the day you leave. And the maximum stay is 7 days/6 nights and must include a Saturday night.

In addition to this great travel program, you'll also enjoy all the benefits of Cardmembership as well as other exclusive student privileges. They include a quarterly magazine filled with informative articles on summer jobs, careers, campus life. Plus valuable discounts from leading retailers.

But remember, there's only one way to get all this-and that's by getting the American Express Card. Just call us (have your bank

address and account number on hand). What's more, with our special student offer, it's easier to get the Card now while you're still in school than it may

So get the Card. And get ready to cover new territory on either side of our Great Continental Divide.

Membership Has Its Privileges

SWIM

Continued from page 24

Monday, April 1, 1991

UCSD Head Coach Doug Boyd had already conceded the men's title before the 1991 meet even started. Any hopes of a championship for the Tritons would have had to come from the women. Hope quickly vanished.

"For us to beat Kenyon, we would have had to swim a perfect meet. And I'm still not sure that would have been enough," Boyd

It probably wouldn't. The Tritons broke 13 school records, and beat Kenyon in the 800-yard freestyle relay. It was the first time that the Kenyon women have lost a relay since 1985.

"Our women swam great," Boyd said.

Catherine Capriles led the Tritons, capturing individual titles in the 100 and the 200 back. Jamee Couch broke the school record in the 50 free. Sabrina Lum and Erin Bakey each broke two school records.

Boyd also noted the performances turned in by Chrisy Parker, Jocelyn Rothbard, and Jenna Banaszek.

What did Kenyon do? The Lords yawned, stretched, and then ripped off a meet-record 661.5 points.

"We took 15 swimmers and five divers, and they had 17 swimmers and one diver. They had more depth than we did," Boyd said.

Williams (MA) finished third, followed by Allegheny and Fenors

While the women were at least in the hunt for a title, Boyd noted before and after the neet that no one would be able so stay with the Kenyon men.

"Nobodynad a shot. There was no way shey could lose the meet. They could have won the meet with four relays getting disqualified," Boyd said.

At least part of the difference could be attributed to Kenyon's overwhelming advantage in depth. The Lords brought 18 swimmers to Georgia. UCSD qualified only 9, while second-place Claremont sent 11 swimmers.

Kenyon used its advantage to rack up 593 points. Claremont was second, an unbelievable 303 points behind the Lords.

Travis Miller led the Tritons with a victory in the 100 back, a second-place finish, and three topfour finishes on relay teams.

Miller's time in the 100 back of 51.41 was just one-tenth of a second off the Division III record, set in 1986 by UCSD's Bill Kazmierowicz.

"[He] swam well, [but] he didn't swim as well as he can swim in the future," Boyd said.

Other highlights for the Tritons included John Flowers' third-place finish in the 100 free after battling back from an assortment of seasonlong injuries.

Mark Fahlen finished fourth in the 500 free, and fifth in the 1650

In addition, the 800 free relay team finished second behind Hope.

Kenyon placed third, which is notable only because it was the first time that Kenyon had lost a

On a weekend where UCSD was given little, if any, chance for a victory, Boyd was pleased with

"Our team had just as good a meet as anybody, probably the best meet of a lot of teams," he said.

W. TENNIS

Continued from page 24 Gusties upended the Tritons 5-4 in last season's Division III national championship match.

The Tritons gained an early advantage over the Gusties, grabbing four of six singles matches, despite losses at number one singles by Robyn Inaba and number two singles by Carla Nicolas.

UCSD's number three through six spots, however, had little trouble with Gustavus Adolphus as they swept all four singles matches. Janet Wahlen blitzed Molly McCormick 6-2, 6-1, while Amanda Lynch eased past Nikki LaVoi, 6-2, 6-4, and Catherine Yim slipped past Dawn Parmley 7-6, 6-1. Diane Chandler had relatively little trouble with Linnea Carlson at number six singles, winning 7-6,

The overall match came down to doubles, where Lynch and Nancine Hayden teamed to defeat McCormick and Parmley 6-1, 7-5, clinching the victory for the Tri-

In other doubles action, McCray and Rostberg defeated Inaba and Wahlen 6-0, 5-7, 6-3, while LaVoi and Carlson won by default over Yim and House who retired due to injury after dropping the first set.

"We were ranked third in the nation in the preseason poll," UCSD Head Coach Liz La Plante said. "But now we've beaten both wimber one [Gustavus Adolphus] and number two [Pomona-Pitzer

on February 15]."
The Tritons rode the wave of their big win invo last Thursday's match against St. Olaf (MN) and were nearly perfect, winning 8-1.

"We were really on a nigh and played as well as we have an season," La Plante said.

The only match the Tritons lost was number two doubles, where Lynch and Hayden fell 7-6, 2-6, 6-3 to St. Olaf's Betsy Kiernot and Kristen Baab.

"The only reason we lost that was because Nancine has been hurting lately with a muscle pull," La Plante said.

UCSD also had a fairly easy time with Luther (IA), prevailing 7-2 in a March 26 match that was frequently interrupted by rain.

"We were a little rusty because of the weather and the fact that we hadn't practiced during finals," La Plante said. "But I thought we played pretty well considering."

BASEBALL

Continued from page 24

was so saturated by recent rains that the tournament was delayed by a day and had to be moved to drier pastures at Imperial Valley College in El Centro. Yes, El Centro. That's a pretty long drive for some home games.

"They didn't get nearly as much rain out there as we did, and the field was really in pretty good condition," UCSD Head Coach Lyle Yates said.

The tournament got off to an inauspicious start for the Tritons, as Iona clubbed UCSD 8-1 Thurs-

"We had had no practices for two weeks, so I knew we wouldn't be sharp [against Iona],"Yates said.

Friday wasn't much better, as UCSD dropped two more, losing 2-1 to Wisconsin-Whitewater and

7-4 to Cal Baptist. See BASEBALL, Page 14

SOFTBALL

Continued from page 24

Monday, April 1, 1991

and CSU Hayward. The Tritons defeated Chico State 7-6 and lost to Hayward 6-5.

"They played extremely well on the first night," Jarrell said.

The Tritons also lost to Portland State 2-0 in pool play, but because of a three-way tie with CSU Hayward and Chico State, UCSD placed second in its bracket.

UCSD faced Stanford and lost 3-2 in what Jarrell said was a "very ugly game." The Tritons swept the Cardinals in a doubleheader earlier this season. But this time it was a solid defensive performance on Stanford's part, and a shaky UCSD effort, that decided the game.

"They had no errors and we had four." Jarrell said.

The Tritons faced two more opponents in the tourney's consolation bracket, defeating Sonoma State and falling to Humboldt State. "Overall, we did fairly well," Jarrell said.

Before the tournament, UCSD swept La Verne in a doubleheader 3-1, 9-1 to up its record to 10-3.

SPORTS NOTES

Marshall Named Coach of the Year

Coach Tom Marshall was named one of eight Division III 1991 Kodak District Coaches of the Year by the National Association of Basketball Coaches.

Marshall was named Coach of the Year for the West District.

Marshall led the Tritons to a 23-4 record this year, and guided UCSD to the first postseason win in the program's history, a 76-72 win over Claremont in the second round of the NCAA tourney.

It was the Tritons' second consecutive 20-win season. In eight years as UCSD's head coach, Marshall has posted a 125-87 record.

MEN'S LACROSSE

The UCSD men's lacrosse team defeated Manhattanville 16-14 and MIT 11-8 last week.

The Tritons, currently 8-6, also lost to UC Davis 18-12 on March 28. On March 17, they trampled Loyola Marymount 24-2.

Although none of games affected UCSD's standing in the Western Collegiate Lacrosse League, the victories over Manhattanville and MIT were "pleasant wins," according to Coach Bob McCleod, who said that teams from the East are usually tough.

Felker who "played extremely well last week."

In the past two games, Millan scored eight goals and contributed five assists while teammate Felker added five goals and five assists.

The highlight of the week was the MIT victory, according to

MIT led by four goals at the half, but UCSD came from behind

The UCSD men's crew varsity four lost to Loyola Marymount on March 16 because of a collision with a buoy on the course.

"[The collision] was a strong contributing factor to the loss," Head Coach Mike Shannon said.

LMU took advantage of the McCleod noted the perfor- Tritons' mishap to finish first in a mances of Juan Millan and Ezra time of 6:03. The UCSD "A" boat

BITS

Continued from page 24 about smurfs in the sky. Sounds

like a pennant to me. 2. Reds: Losing Jackson keeps the Machine from repeating. 3. Giants: Clark-Mitchell-Williams will carry S.F. to third even if the New Kids on the Block could form a better pitching staff (But now that Donnie is in the Big House...) 4. Padres: No outfield, no pennant. Gwynn hits .370. 5. Braves: So many prospects, Atlanta doesn't have a chance, 6. Astros: Oh my, Houston is going to be bad. The Astros lost Glenn Davis, Franklin Stubbs, and Dave Smith. They could lose 75 before

the All-Star break. NL EAST: 1. Cubs: Sandberg-Dawson-Bell. Not to mention a Dunston, Grace, Maddux, and Smith too. They should win 100.2. Expos: Perennial overachievers will overachieve again. 3. Pirates: 66 percent of Van Slyke-Bonilla-Bonds isn't happy and that's not good. 4. Mets: They have third basemen playing first, short, and right, and a second baseman playing third. You tell me who's in trouble. 5. Phillies: It's time to rebuild. It's been time to rebuild for the last eight years. 6. Cardinals: Gilkey-Lankford do not inspire

AL WEST: 1. White Sox: They'll have Frank Thomas and Alex Fernandez for a full year, and they've added Tim Raines. Chicago should go nuts, but watch for side effects from the loss of Barry Jones. 2. Athletics: Pitching staff finally starts to show its age. Fans scream for Van Poppel. 3. Royals:

images of Coleman-McGee.

Bo knows K.C. would be first if he had a spare hip. Odd year so Saberhagen wins the Cy Young. 4. Mariners: Have a good young nucleus in Erik Hanson and Ken Griffey Jr. Now all they need is four starters and eight position players. 5. Angels: Outfield looks like Polonia-Felix-Winfield. Kerplunk. 6. Rangers: Best sideshow in baseball with Nolan Ryan. 7. Twins: Will quickly find that Steve Bedrosian has turned into

AL EAST: 1. Blue Jays: The class of the East. Which isn't saying much. 2. Orioles: Addition of Glenn Davis boosts team of the future to second. 3. Red Sox: Sure things in 1991: Clemens wins 20, Clark whines, and Morgan receives tips on how to manage. 4. Tigers: Motor City has no imports this year, and starting pitching is awful. 5. Brewers: Would finish lower but impossible. 6. Indians: Their best player last year was Candy Maldonado, and he's gone. 7. Yankees: Oh how the mighty have

NL Pennant: Dodgers. AL .Pennant: White Sox. World Series: Dodgers in six.

• The Pentagon spent \$2.4 billion on a study that concluded that Cecil Fielder's back end is the next wave in air defense. "We were looking for a shield for 'Star Wars,' and lo and behold, there it was, right on ESPN. I had no idea anything could get so big," said Secretary of Defense Richard Cheney.

Apple introduces the Macintosh LC

If you thought that finding a color Macintosh*system you could afford was just a dream, then the new, affordable Macintosh LC is a dream

The Macintosh LC is rich in color. Unlike many computers that can display only 16 colors at once, the Macintosh LC expands your palette to 256 colors. It also comes with a microphone and new sound-input technology that lets you personalize your work by adding voice or other sounds.

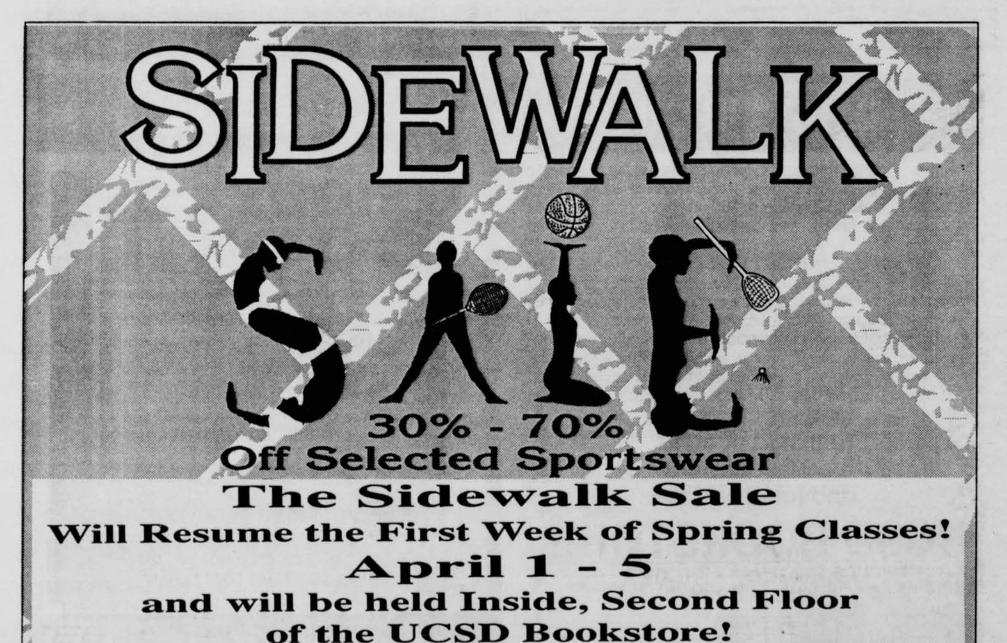

Like every Macintosh computer, the LC is easy to set up and easy to master. And it runs thousands of available applications that all work in the same, consistent way-so once you've learned one program, you're well on your way to learning them all. The Macintosh LC even lets you share information with someone who uses a different type of computer-thanks to the versatile Apple SuperDrive, which can read from and write to Macintosh, MS-DOS, OS/2, and Apple II floppy disks.

Take a look at the Macintosh LC and see what it gives you. Then pinch vourself. It's better than a dream—it's a Macintosh.

The power to be your best."

BITS & PIECES / PETER KO

Houston, Fungos, And Walden Pond

UST A FEW NOTES: · Ronnie a Raider... Fernando on waivers... Rebels suddenly without a cause... Who knew?

 Bobby Knight protegé Mike Krzyzewkski (that's SHU-CHEF-SKI) showed that his old boss isn't the only one who can come up with a top-notch game

 After 35 games and endless accolades, Duke finally exploited Vegas' only weakness: lack of depth at the guard spots. H Waldman, the backup point guard, sounds like he should be writing about Walden Pond.

· Roy Williams showed what millions of Americans have known all along: The student is always right.

T'S REALLY a shame that the excitement of the Final Four had to be tempered by some of the worst officiating in the history of whistles. Two examples:

Bobby Knight runs roughshod over the NCAA, and officials do nothing. Dean "I have a dome named after me" Smith puts his Gucci loafer over a painted line and gets tossed from the Final Four.

I don't care what Billy Packer thinks. The breakaway/intentional foul rule was created for situations just like Bobby Hurley's calf-roping of Anderson Hunt. You don't go for the ball and end up with both arms in a full-nelson around someone's neck. Then, the refs compound the situation by giving Larry Johnson a technical for his (legitimate) complaint. The crucial stretch of probably the best college basketball game in the last 10 years, and some guy wearing stripes just had to get the last word.

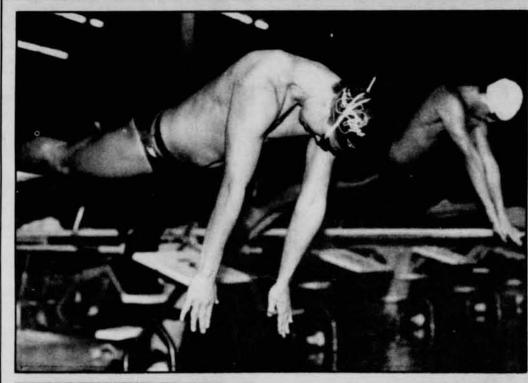

T's THE year of the upset. Go with Kansas. Of course, it's also the year that no one repeats. So Duke shouldn't repeat its past performances in the NCAA championship. Oh man, 1991 is screwed up.

 Al Davis moved out of the Bay Area 10 years ago, and he's still robbing Northern California blind.

· Time to haul out the fungo bat and loft a few:

Of the Lords

Kenyon College's record at the NCAA Championships

THE MEN: 12 Consecutive Championships

THE WOMEN:

8 Consecutive Championships (last non-Kenyon: Williams, 1983)

(last non-Kenyon: Johns Hopkins, 1979)

Kenyon Streak Continues

Triton women finish second, men place third at nationals in Georgia

By Peter Ko Sports Editor

Never has a team mascot been more appropriate. Kenyon College, which hails itself as the Lords, continued its near decade-long reign over the world of Division III swimming, capturing both the men's and women's championships last week.

The men won the NCAA Division III swimming and diving championships for the 12th consecutive year, while the women took home their eighth straight

The UCSD men finished third, nine points behind second-place Claremont, and 312 points off Kenyon's pace.

The UCSD women placed second with 466 points, almost 200 points behind the Lords.

Athletics, 49ers, Rebels... step aside with your piddly talk of a dynasty. Now this, this is a dynasty.

This is a program so hallowed that Sports Illustrated ventured into the previously uncharted waters of Division III athletics last year to write about the Lords' streak.

Softball Boosts Record to 12-7

■ Tritons go 2-4 at the Pioneer Classic in Hayward, including 7-6 victory over Chico State

By Heather Holtzclaw Associate Sports Editor

For the UCSD softball team,

the 1991 season is rolling right

Over spring break, the Tritons improved their record to 12-7 and Head Coach Melissa Jarrell feels optimistic about the second half of the season.

"We're coming along," she said.

"They're starting to play more together. If we keep up the intensity, we should do well," Jarrell said.

UCSD traveled to CSU Hayward for the Pioneer Classic in which the Tritons went 2-4. But, according to Jarrell, the record doesn't do justice to a solid performance by the Tritons despite a disappointing loss to Stanford University in the predominantly

Division II tournament.

"I was pretty pleased," Jarrell said. "It had been about a twoweek break [due to rainouts and finals], and they came out really pumped for the tournament."

Shortstop Dana Chaiken was selected as the tournament's outstanding hitter, going 9-for-17 on the weekend. "She really hit well," Jarrell said. "She came out on fire."

Jarrell was especially pleased with the games against Chico State See SOFTBALL, Page 22

Baseball Cuts Down Iona 5-4

By Les Bruvold

Associate Sports Editor

The UCSD baseball team's performance in the UCSD Invitational Tournament took a page from last week's weather forecast - stormy and cold but clearing to sunny skies by the weekend.

During the first two days of the threeday event, the Tritons seemed to be in a bit of a post-finals fog, dropping three games by a combined score of 17-6, but the offense brightened up considerably Saturday in an impressive 5-4 win over Division I Iona College (NY).

Things really got off on the wrong foot for the Tritons as the UCSD baseball field See BASEBALL, Page 22

Janet Whalen netted one of UCSD's four singles wins against Gustavus Adolphus.

UCSD Upsets Golden Gusties

Regents Alter Policy, Planon 100% Fee Increase

■ Board's leader says that fee increase will 'raise the quality' of UC education

By Glenn Campbell Reagan Appointee

On the heels of a 40 percent fee increase in February, the UCR egents voted to move the university closer to the level of top-ranked, prestigious American universities when they approved a 100 percent fee increase in their Friday meeting at UCR iverside. The fee increase will go into effect beginning Fall Quarter, 1991.

Because the regents are autonomous under Section 9, Article 9 of the state constitution, their decision to raise fees is binding and cannot be overriden by the state legislature. The 100 percent increase will jump from the 40 percent increase the

regents approved in February, which means that California residents will pay \$4,290 next year instead of \$2,145. Out-of-state student fees will also raise exponentially, from \$10,130 to \$20,260 in the fall.

At UCSD, where the added costs of RIMAC (Recreational and Intramural Athletic Complex), the University Center fee, and others must be factored in, the figures for the fall of 1991 jump from \$2,384 to \$4,768 for in-state students, and from \$10,369 to \$20,738 for those from out-of-state.

The 1991 figures for out-of-state students will make the UC system the most expensive system in the nation, and UCSD its most expensive university.

"We have a short-term primary goal, and that goal is to have the best universities in the nation," said Roy Brophy, chairman of the Board of Regents. "Right now, we are behind the schools in the Ivy League. We need to be better than them."

Brophy added that "prestige has its price," explaining that the reason for a 100 percent increase was because the regents felt that a number like 100 would make things easier for the board.

"It's a nice, round number," Brophy said. "We like it."

The new increase not only phases

Head Regent Roy Brophy out middle class families, but is now threatening the rich. Dean Watkins,

Library Airs Out — Central Library construction workers had to replace the library's windows over Spring Break. The powerful spring storm that lashed all of California blew out hundreds of windows. After working feverishly throughout the week, workers completed the window replacement late Friday.

Muir Lot Reduced by Construction

By Uri Feldman Parking Guy

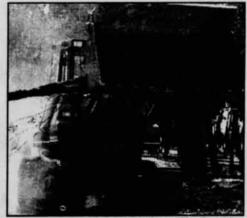

The UCSD Parking Advisory Board (PAB), continuing with phase two of its Long Range Campus Parking Plan, passed a proposal last week that will wipe out all yellow and green spaces in the Muir College Parking Lot. The PAB vote clears the way for the construction of the new Administrative Services Complex on the site now occupied by the Muir lot.

PAB members cited a growing need for a second administative complex and an over-whelming number of automobiles on campus as reasons for approving the elimination.

"It's quite simple, really," said Bob Umstead, manager of UCSD's Parking and Transportation Services and a member of the board. "Right now, there are too many cars on this campus. Students should learn that parking is not a right, it's a privilege. Now they're going to have to learn the hard way."

Umstead also explained that he had been receiving enormous pressure from administrators — particularly from Associate Vice Chancellor of Extension Mary Walshok — to build a state-of-the-art administrative complex with its very own radio station.

According to Assistant Vice Chancellor of Facilities, Design, and Construction M. Boone

Phil Goon/Disreguardian

Bulldozers roll for the Muir Lot this week. Hellmann, the lot will be closed to students and staff any time this week, but it could be shut down as early as 3:30 p.m. today. At that point, any cars left in the lot will be towed and impounded.

When construction is finished, Hellman said, the red spaces in the upper lot, reserved for faculty and administrators, will remain intact.

"We've just got some minor paperwork to complete, and then we're on our way," Hellmann explained, smiling.

The current plan is for the lot to be cordoned See LOT, Page 3

ISISSystem Breaks Down; All Classes Must be Re-Added

By Billy Batson In the Winnebago

A computer error in UCSD's new ISIS student information system has caused the loss of student registration information for Spring Quarter, 1991.

According to UCSD Bursar Howard Fisher, the catastrophic error will

require all students to reregister for their classes this quarter. "Fee payment infor-

mation and the list of registered students wasn't affected by the crash," Fisher said. "But students will have to take add/drop cards to their

Howard Fisher

classes during the first week of instruction."

He indicated that individual professors and departments will have different policies regarding the re-adding process.

"A few departments will require all students to line up [for re-adding] on different days, depending on their class standing," Fisher said. "Others will simply sign add cards in class."

The best policy for all students to follow, he explained, would be to find out what to do from individual instructors.

"Everyone should be sure to ask their professors what to do about re-adding classes due to the ISIS crash," Fisher said. "Since many instructors were gone over Spring Break, they might not even know that the re-adding has to take place."

According to Fisher, all students must submit their completed add cards by Friday, April 12. Then the Registrar's Office will register students by class standing — all seniors will be registered first, followed by sophomores, freshmen, and juniors.

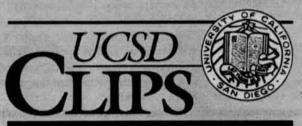

"Some might complain about the fact that juniors have to register last," said UCSD Registrar Ron Bowker. "But the ISIS system is very strict in the way it does add/drops, and juniors have to come last in that process."

Within classes, adding will be done in alphabetical order by last name, according to Fisher.

Student reaction to the re-adding process was mixed.

"I can't believe it," Revelle College junior Chris Zaharias said. "They said that ISIS would be a better system, an improvement — but it isn't. They should bring back the old T-REG system. I liked the voice of the T-REG woman better anyway."

"It'll be a pain," Muir College senior Norm Adams said. "But I don't see any alternative. It See ISIS, Page 3

NEWS IN BRIEF

Gala Opening of Shiley Sphincter Center Planned for Wednesday

The newest addition to the UCSD campus, the Shiley Sphincter Center, will open its doors and expose itself to the public next Wednesday in a ceremony attended by UCSD Chancellor Richard Atkinson and the building's namesake, La Jolla proctologist E. Orel Shiley.

"We hope that researchers from around the world will enter the sphincter center," Atkinson said. "It should be a haven for all scientists who wish to advance the sum total of human sphincter knowledge."

In addition to its potential for scientific achievement, the \$58 million center building has been declared an "architectural wonder" by Architecture World magazine. The building, circular with a rounded courtyard in its center, was designed by E.A. Cavetti, the famed architect based in Jackson Hole, Wyoming.

"Being associated with this project fills me with nothing but pride," Shiley said. "It's a true advancement for all involved in sphinctoral science."

Shiley, who donated \$10 million to the project, indicated his excitement that the center is finished.

"Many people have put their blood, spit, and stool into this thing," he said. "It's nice to finally see something

Maurer Allegedly Performs a Task

come out of it."

Though the reports remain unconfirmed, a shocking new discovery has been uncovered within the hallowed halls of the Associated Students. It seems that A.S. Commissioner of Public Relations George Maurer has actually done something.

"I don't believe it," said A.S. President John Edson, with his mouth agape. "George hasn't done anything all year. What makes you think he'd do something now?"

All of the allegations stem from A.S. Commissioner of Programming Matt Schnurer, who claims to have witnessed Maurer taking four steps out of his office to copy off an A.S.-related document on the A.S. copier.

Over 50 people have pledged \$10 for each hour that the Guardian next Thursday. sorority members continue rubbing, chewing and walking. A large number of spectators are expected.

The event will begin at 8 a.m. on Saturday at Revelle Plaza ... and will end north of there wherever the members become too

Slight Alteration Made in New TG Site

Police Chief John Anderson has agreed to allow free beer to return to the UCSD campus, but with one minor change: the TG's will now be held in and around the police station.

Even though the event was all set to go in the Price Center on April 12, Anderson explained that he just "could no longer be responsible for students wandering around large, open areas with beers. I think if we hold the event in the police station, all of those problems will be rectified."

Anderson explained that if students wish to obtain a beer, they must line up outside the parking ticket pay window. After receiving beer from a uniformed officer, students will be led into a jail cell where a firing squad will supervise each and every student, making mental notes about amounts and methods of consumption. In-Training Officer Randy Fidac will be of the Price Center. given full authority on when and how to shoot if the students get out of line, according to Anderson.

be fun to use him for target practice. "Nobody messes with me. I'm a big, tough, imposing guy. Idon't even need guns, really. Ask any of the guys.'

Anderson said he "did not care" if the new location took some of the fun away from the TG's.

"Look," he said. "We're dealing with the issue of pletely safe is if we hold the event in our station. Otherwise,

Very Important Forum Will be Held

"Belgian Perspectives on the Crisis in the Middle East," a special presentation sponsored by the UCSD chapter of the Belgian Action Committee (BAC) will be held Wednesday, April 3, in the western quarter of the International Center Lounge.

According to Pieter Mortesa, the president and sole member of BAC, Belgians have much to offer the ongoing discussion about events in the Middle East.

"Hell, I've read the Los Angeles Times every single day since the warbegan," Mortesa said. "If Idon't know what's soring the forum. You got a problem with that?"

Look for full and complete coverage of the forum in the

Exciting Seminars Set for This Week

The following seminars will be held during the first week of Spring Quarter:

· Monday - Stanley Thurston of MIT will discuss "Etho-angioplastic eroreactions of E, Be 4, A, L 1M, space in thermogalvanic octal^{TTD} (QL) sereosantic merpatations" at 3 p.m. in room 104 of Peterson Hall.

• Thursday - Abe Linden of Cambridge University will give a talk about "Vigodan Hyperstructures and Quantum Periodontal Disease" at 2 p.m. in the Davis room

• Friday — Gomer Jones of the East Alabama School of Distillation will speak on "Gettin' Stinkin' Drunk and "Hey, if they move, I shoot," said Fidac, who lost most of Drivin' Yer Truck" at 4 p.m. in the chancellor's office.

Koala Cancels First Spring Issue

By Stephen Bloom

Monday, April 1, 1991

issue of the quarter has been scrapped.

"We were planning to do a theme issue, making fun of administrators," Koala co-editor Greg Huffstutter said. "We thought it would be clever."

But. Huffstutter said. Koala staff members were told that some administrators might take offense at the issue.

"I mentioned to [UCSD Associate Vice Underchancellor for Campus Vending Machines] John Meany that we might refer to him as 'Meany the Weenie' in the issue," said Koala coeditor Greg Waypa. "Meany, Weenie, they sound the same. It would be funny,

But Meany explained that his reaction was not strong at all.

"I just told Waypa, 'Uh-oh, I don't know if I want to be mentioned in the Koala," Meany said. "I wasn't even really serious about it."

Caroe] about what Meany had said, his first suggestion was that we should cancel the issue," Huffstutter said. Once we agreed to that, he stopped crying.'

"Man, I don't want to deal with phone calls from irate administrators," Caroe explained. "I just figured, why not cancel the issue? We don't want to in charge of all the campus vending that machines! There might not be any more late-night trips to the Coke machine for during the fourth week of the quarter.

us if we did the issue."

Waypa indicated that while Meany's Officials from the Koala, UCSD's half-joking, off-hand comment was the humor newspaper, announced Satur-day that the publication's first issue led up to the cancellation of the first

> "We would have had a hard time ing the issue if we had kept going with it," he said. "There's a Koala policy: we read all our stories out loud, and if more than three people laugh, we can't use it."

> Waypa indicated that many stories nned for the first issue failed to pass

"You could say that most of the stuff was above our standards, I guess," he said. "It was way too funny. But the 'Meany the Weenie' thing was fine -I laughed, [staff member] Philip Michaels laughed, and everyone else

Michaels, Waypa explained, laughs at anything written by Huffstutter, Waypa, Caroe, or himself.

Michaels is a stooge," Huffstutter said. "He's wants to be Koala editor, so "When we told [Koala manager Per he'll laugh at anything we say."

Highly-placed sources within the Koala that wished to remain anonymous indicated that there was still another reason the issue was cancelled.

'Nobody really cared what the solution was to the murder mystery story we presented in the last Koala of Winter Quarter," Huffstutter said. "It was a dumb idea, anyway. After all, Waypa piss Meany off — this is the guy who's thought of it. But don't quote me on

The Koala will resume publication

ISIS: System wiped

Continued from page 1 won't be too bad.'

Charging a university-wide conspiracy, new incinerator collective members said that they will protest the incident by refusing to re-register. "That'll show the administrators who's boss,"

said collective member Janet Beach. The computer crash occurred late Friday

morning, when a student mistakenly marked "Winter Quarter" on a regular course add card meant for Spring Quarter. According to Bowker, the Registrar's Office official did not check the card, and fed it immediately into his machine's card reader.

Bowker added that the clerk involved in the incident was fired later that day.

"We can't allow incompetent people to work university-owned equipment, no matter how many kids they have to feed," Bowker said.

Fisher emphasized that despite the glitches, the ISIS system is at UCSD to stay.

"There are a lot of benefits to ISIS," he said. "For example, it almost completely eliminates all work previously done by administrators in the Registrar's Office and Bursar's Office. There might be some added student discomfort, but they'll get used to it eventually."

system was not entirely unexpected.

"At the University of Colorado, which began running ISIS last year, there was a very similar incident. They lost the payment records for the entire year, forcing all students to re-pay their fees. It seems ISIS enjoys erasing information," he said, chuckling.

Fisher went on to say that the crash of the ISIS

Bowker, like Fisher, was very positive about the future of the ISIS system.

"We can expect ISIS to take over all aspects of this campus," he said. "Housing fees, bookstore charges, and even bribes to campus parking officials will be controlled by the ISIS billing system.'

When asked about possible future problems with the system, such as the unconfirmed report that one student's phone was destroyed while registering last quarter, Fisher was upbeat.

"There won't be that many problems in the future, and those that do crop up will be dealt with," he said, adding that he feels "students are remarkably resilient."

"And as for the exploded telephone last quarter, all I can say is that we've dealt with the problem, and it won't happen again," Fisher said. "Besides, it was a Mickey Mouse phone. Don't you think a college student should have grown up and bought a real phone by now?"

LOT: Muir will go

Continued from page 1

off by means of a barbed-wire fence, according to Umstead. If the situation reaches dramatic proportions, he said, the parking administration extremely high-voltage electrical device.

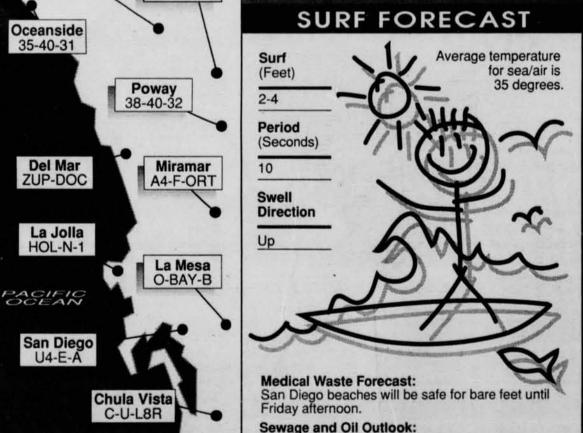

"Students can get so irate about parking," Umstead said. "If it comes down to it, we need to make sure if they try to mess with our fence, they will get fried. We ain't gonna mess around. I dare one of them to do it."

currently parked in the lot move their cars as soon

"Some of these kids out here ain't got no idea about some of them there towing lot fees," he said. "Man, I tell ya, they'll clean ya out. I was gonna have to pay 150 bucks last week down at Lake's Towing cuz they found my Ford Ranger parked in the middle of the Price Center Plaza. Of has no qualms about turning the fence into an course, when they found out who I was, they returned my money."

Umstead admitted he has his own personal interests in the seeing the construction of the new complex carried to its fruition. He explained that current plans for the complex include a new Parking Office, which means that both he and Umstead recommended that students and staff parking chum Howard Finnecy will have access to the two coveted "gold" parking spaces. The proposal also calls for a parking control tower.

THE ADMINISTRATION

Thanks for the Great Party

Whoever said the university administration doesn't care about students was either a member of the Ché Café collective or wasn't invited to the annual Guardian-Adminstration Gala Ball held last Friday. Each year, as a sort of gesture of appreciation for reporting the news and writing pro-RIMAC editorials, the UCSD administration throws out all the stops and holds an enormous party for the Guardian staff.

The administration really knows where and when to give credit when credit is due. This year, the festivities were held at the university-owned, beachfront Waldorf-Astoria in the Bahamas. Guardian staff members were flown first-class on the universityowned MGM Grand Airlines to the Atlantic island, where we were immediately ushered to a fleet of over 50 university-owned limosines and whisked to the hotel. Once there, we were escorted to the Regents' Ballroom, located on the top floor, where we were greeted by California Governor Pete Wilson, University of California President David Gardner, UCSD Chancellor Richard Atkinson, Vice-Chancellor of Undergraduate Affairs Joseph Watson, Las Vegas entertainer Wayne Newton, and a host of others. The university spared no expense to make us comfortable. In a span of 48 hours, Guardian staffers and university adminstrators drank four cases of Dom Perignon, 15 bottles of 25-year old Chevas Regal Scotch whiskey, and over 12 kegs of Watney's Red Barrel; we smoked 20 boxes of university-owned "Havana Specials" cigars, and ate over 300 Maine Lobsters, 200 pounds of filet mignon, and 20 chocolate mousse cakes.

Indeed, had the event not been put on by the administration for students, we would have almost been tempted to write an editorial saying that the one million dollars spent on the event would have been put to better use elsewhere. But then again, it's not that often that students — if only a few elite — are flown first class to a tropical paradise and are given the opportunity to watch Chancellor Atkinson get drunk, do a handstand naked on a balcony 25 floors above a beach looking out at the Atlantic Ocean, and sing the lyrics to "She's Having a Baby." Nor is it everyday that the editors of a major university newspaper are able to sit down with university administrators and plot ways to "hit those granola-eaters where they live." The truth is, we don't like the fact that we've sold our souls to the University of California, but when it comes right down to it, we really, really like those Cuban cigars, and without the administration's financial support, there is just no way we'd be able to afford to drink two cases of Don Perignon a week, especially not at \$3600 a case.

On our last day in the Bahamas, Chancellor Atkinson presented Editor-in-Chief Phil Gruen a check from the university's general unallocated fund for \$25,000 to help boost the Guardian's sagging "Cancún Vacation Fund." The chancellor's check will be very helpful in sending the Guardian editors (except for Yamaguchi) to beautiful Cancún for two weeks of fun in the sun and lots of those mixed drinks in the pineapples with the little paper umbrellas. Thanks to Dave, Dick, Joe, Tommy, and all the rest for the best party ever. See you next year in Monaco.

NEW ADMINISTRATIVE COMPLEX

Parking Nota Student Concern

The newly proposed administrative complex in the Muir Parking lot is good. Less parking is good because students drive too much. If the students don't drive because there is no parking that is good because it will help the environment. The administration is good because it gives us lots of money disguised as "advertising." The Guardian gets obscene amounts of money from the administration because it likes us. And we like it. We can buy lots of cigars, and champagne, and fancy things. Sometimes we get really drunk and laugh at the granola-eaters down the hall because they have a puny little office and we have a really big office. Sometimes we smoke our Cuban cigars and throw lit butts off the second floor of the old, wooden student center at the people sleeping on the hump. It is especially funny when they jump up and scream, because they can't figure out who burned them with lit cigars. Then we all laugh and go back and produce the paper and drink more champagne.

Chancellor Richard Atkinson lives it up at the Administration Guardian bash in the Bahamas.

Armadillos and Birds are our Friends

■ The Liberals should stop conspiring against me and should begin loving me instead. After all, I am correct.

REJECT/ZACK VERMIN

Two armadillos walk into a bar. One armadillo goes to the bartender and says, "Hey, bartender." And the bartender says, "What?" And the armadillo says "Give me a beer." And the bartender takes a baseball bat from behind the bar and hits the armadillo over its little rat-like head and has the rodent stuffed and mounted for all the customers to see.

The other armadillo is exposed to radon gas, contracts get angry and push them away. lung cancer, and dies.

I, Zack Vermin, am the armadillo.

I know you all hate me. No, please, don't deny it. You all hate me. I said don't deny it. You don't have to worry about making me feel better. That's okay. I don't need any of you. I have my little weekly column, and my bird, and that's all I need.

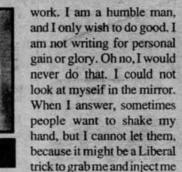

Well, actually, I may not have my column much longer. There are Americans, and there are Liberals - but mostly there are Liberals, and they've all joined together in a conspiracy to have me silenced

I know this because they all look at me like the tainence. I cannot even go into the Guardian office anymore. The last time I went there, they circled me with tridents, and tried to make me read Liberal things, and take drugs which will turn me into a Liberal. Now I am forced to disguise myself as a Liberal (but not for too long, because I might get caught by the hypno-beam) and deliver my articles

Ghengis Khan was a Liberal. Tom Metzger is a good bird. Liberal. You are probably a Liberal, too. One day you will know that Zack Vermin was right all along. We should have nuked the desert into glass, we should have nuked the Russian commie Liberals, we should have nuked Germany before they began their Liberal

We should have loved Zack Vermin, but we did not because we were blind. We were Liberals, and not good Americans like Zack.

Sometimes people approach me on the street. They say, "Aren't you Zack Vermin, famed Disreguardian columnist, and the great conservative Zack Vermin will be on vacation for the next two hope?" And I reluctantly say yes, and smile sheepishly, because I am shy, and very modest about my

with their Liberal drugs, So I

One time, the Liberals were especially tricky. They sent an old man, who was probably a communist, who said he read my articles and wanted to shake my hand. He acted slow, and had a cane, but the cane was probably a gun (the Liberals are tricky), but I could see through his little game so I seized his cane and, before he could react, I beat him about the head and shoulders until he fell down and stopped fighting back. That'll show you Liberals.

I remember one day I was walking by the so-called pacifists at HUL when I stopped to ask one of them and sent away to a re-education camp. This paper is why they all couldn't just be good Americans and nothing more than a pack of slimy Liberals and pot- support the war. All of a sudden, they all ganged up heads, who sit around all day and plot to have me on me and threw stones and tried to beat me with sticks but I ran away.

Nobody loves me, but that's okay. One day the starving Soviet bear, desperately looking for sus- Real Americans like Richard Nixon, Ronald Reagan, and my faithful bird, "Spiro," will rise up in arms with me and we will conquer the Liberals and make them pay for not loving me.

Everyone should be like my bird. My bird has feathers, and lives in a little cage, and tells me things. My bird tells me about the Liberals and the hypnobeams and the Liberal drugs. My bird loves me. My bird eats seeds, and sits on his perch, watching me. The Liberals are everywhere. Hitler was a Liberal. Loving me. Everyone should be like Spiro. He is a

> I don't want you to hate me. I want you to be like Spiro and love me. I didn't mean all that stuff I said about the Germans, or the Russians, or the Iraqis (but Idon't take back anything I said about the PLO). I just dress-up my articles so you will write letters and I can see my name in print. Please stop throwing rocks. Please shut off the hypno-beam. I hate the hypnobeam. Please love me.

I'm coming Spiro... Daddy's coming. I love you

weeks, but will return as soon as the electric shock treatments are complete.

National Floor Hockey Championships

Monday, April 1, 1991

Friday-Saturday/April 19-20 At The UCSD Reckerdome

If you like to watch hockey and didn't think it was available in sunny Southern California, we hate to inform you, but you're dead pucking wrong. Here in beautiful La Jolla by-the-Cove, UCSD annually hosts the National Floor Hockey

Championships every spring.

Teams come from all parts of the United States to play in this annual biggie. And not surprisingly, UCSD has dominated this ournament winning five out of the ten years that it has been held. Something about that home rink advantage that s to carry our guys through.

The action is fast and furious and if you didn't notice the lack of ice, you'd think you were at the Los Angeles Forum. The players are very skilled and even look like big-time players. Their equipment is usually top-notch, especiall the goalies, and most players handle their stick like it was another appendage. No

surprise there. Most of them grew up with the thing attached to their hand So come on out and root on our Triton Blues in their quest for the coveted 'Hudapohlde Cup'. And make sure yo come early. Seating is limited and as always we'll be expecting an SRO crowd

UST A FEW NOTES: What's the deal with ABC sports? First they hire Brent Musberger to go with such stellar announcers as Keith Jackson and Frank Gifford. Then they renew Jim McKay's contract. Picture that:

- Brent: You're looking LIVE at the ABC Sports Center!
 - Keith: Fumbulllllllll!!
- Frank: Well, Kathie Lee told me
- this story that Regis Philbin tells to her every day ...
 - · McKay: Where am 1?

ABC hasn't been in such bad shape since Abe Vigoda left Barney Miller for Fish.

Abe Vigoda? Yikes.

W HAT'S THE DEAL WITH CBS sports? They play lame songs, have irritating announcers, and they've got Mike Francesa.

- "One Shining Moment" I'd like to take a hammer to the guy who wrote that song.
- · Jim Nantz Who the hell is this guy? What's he thinking? Watching Jim Nantz announce a basketball game is like watching Don Rickles give a bouquet of posies to Jerry Tarkanian.
- · Mike Francesa His voice is grating, and when he swivels in his chair, you realize that he also weighs about 500 pounds. Picturing a quarter-ton man talking about NCAAlevel basketball is like picturing the San Diego Sockers using lemonfresh Pledge.
 - Lemon Pledge? Yikes.

W HAT'S THE DEAL WITH NBC sports? They let Merlin Olsen, the FTD guy, get away. But they keep Bob Costas.

 Watching Bob Costas on NBC is like watching Jed from the Beverly Hillbillies going skin-diving in the Marianas Trench while wearing a rubber chicken on his neck.

· Jed? Yikes.

HAT'S THE DEAL WITH ME? Yikes? Have I completely lost it? Yikes? Why do I do it?

 I really like these things called "bullets." Youknow: . Those things. Yikes!

HAT'S THE DEAL WITH ICE Hockey? Why the hell is a school that's so close to the beach, a school so far from the frost belt, doing with an Ice Hockey team?

UCSD having an Ice Hockey team is like Billy Dee Williams eating a fudge brownie with Larry Mendte's fat cousin Emie on a boat captained by Tootie from The Facts of Life.

Yikes. What am I doing, using a sound effect that belonged on an old episode of Scooby-Doo?

YIKES? Yikes!

SPRING BREAK UPDATE/BASEBALL SKID CONTINUES

Baseball Balks and Slides in 1-3 Spring Break Disaster

By Rick Rupkey

Struggling in Florida

Maybe it's the fact that the baseball team lost the bulk of its players to graduation last year. Maybe it's the fact that the team is playing on a field that is only two years old. Maybe it's the manager. Maybe it's the lack of hitting. Perhaps the lack of defense. Or it could even be a complete breakdown of the pitching staff.

But either way you slice it, the answer is perfectly clear: Unless somebody competent starts raking the mound, this team isn't going anywhere.

If there was hope earlier in the season, particularly after two stunning upsets over Division I schools USD and SDSU, that hope is all but erased now. Over Spring Break, the Tritons dropped three of four games at the UCSD Invitational Tournament in El Centro, and now find themselves with an 8-13 record.

Despite a 5-4 win over Division I Iona on Saturday, UCSD was outscored 63-10 over the break and now boasts a 1-20 record against Division III teams.

"We're exactly where we want to be," said Head Coach Lyle Yates of his ballclub. "Now we're in a position where we can really do some damage."

Yates explained that the team has 14 games remaining on its 1991 schedule, the majority of which are against Division III competition.

"If we win even half of our remaining games, I think we have an excellent chance at a postseason bid. But I think we're going to win all of them. Our team is really hitting its stride right now."

Yates admitted that he "had

some concerns" about the quality of groundskeeping around the mound, and said that poor footing may have affected some of his pitchers' performances over the break.

"I'm going to have to look into who's been raking around the mound lately. This is getting ridiculous. The last time I looked, [Second baseman Erikk] Aldridge was doing a great job. Now it looks like I'm going to have to call for [Pitcher Rich] Tomolonis again. He really is quite good at it. And he really goes after the mound with a lot of gusto. You should see some of the things he can do with those rakes.'

Tomolonis, who raked around the mound and wiped off the bullpen bench for three years, has earned himself a spot in the starting rotation this season. But things turned sour for Tomolonis in only his third starting appearance of the year in Friday's game - a 15-4 loss to Cla

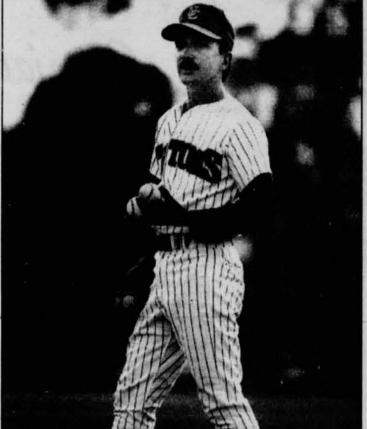

In just two innings of work, Tomolonis was charged with 11 runs, 14 hits, six walks, four wild pitches, and three balks.

But he did record a strikeout.

"It looked to me like he really had his stuff today," Yates said. "He wanted the ball, so I gave it to him. Maybe I left him out there too long."

With Cal Baptist out to a comfortable 8-1 lead in the third inning, things got ugly when first base umpire Lee Wired called Iona center fielder Willie Henderson safe on an attempted steal of third.

Yates stayed on the field for 45 minutes until Wired ejected him, explaining that UCSD was going to lose anyway. He spent the rest of the game trying to watch the game from beyond the outfield fence, until a security guard spotted him and kicked him off the property.

Sidd Finch/Disreguardian Triton Baseball Coach Lyle Yates can almost count his team's

"I can't believe the umpiring in this league," Yates said, still hopping mad two hours after the game. "This has happened time and time again. I'm playing this game under protest. The league office is going to have to

wins for the season with the balls he holds in his hands.

learn who they're dealing with." Yates, nevertheless, remains optimistic about the team's chances.

"We're heading up to Whittier [on Tuesday], and we're putting [Kevin] Hathaway on the mound." he said. "When this guy gets it going, nobody can touch him. He can get his fastball moving in the low 60s. You should see it."

The Tritons will then return home

to host Christ College of Irvine, a national powerhouse, on Wednesday.

The time of the game was announced earlier this week, but Sports Information Director Bill Gannon did not have the information.

"Call the Union, I think they have it," Gannon said. "They only have what I gave them, and I think that's what I gave them. But I can't remember it off-hand. I think I left it at home."

Gannon also said that he had no idea about the status of Triton See GANNON, Page 9

IRAAC Suggests Division I Move

By Barry Switzer

Clean Living Consultant

UCSD's Intercollegiate and Recreational Athletics Advisory Committee (IRAAC) surprised everybody last week when it announced that the UCSD athletic program would jump all the way to Division I rather than make a mandatory five-year stay in Division II. Up to this point, nobody outside of IRAAC's seven voting members and its small number of ex-officio members had any idea what decision would be handed down.

"This is entirely unacceptable," said Judy Sweet, UCSD's athletic director and an ex-officio member of IRAAC. "I'm going to turn the tables on [IRAAC's decision] when they try to bring this up to the NCAA." Sweet is the president of the NCAA.

IRAAC Chair Diana Marquardt said that Wednesday's meeting was hotly contested, adding that the decision to move to Division I passed by a 4-3 margin.

"It's about time," said Derek Armstrong, UCSD's men's soccer coach and a strong proponent of the Division I move from the beginning. "I know we can beat all the

teams that play in Division I al-

The decision does have to be put before the NCAA, but Marquardt indicated that Sweet does not have the power she thinks she does.

'That's [NCAA Executive Director Dick] Schultz's job," she said.

Neither Marquardt nor any other member of IRAAC, however, had any idea where the money to fund such a program was going to come

"I figure we'll steal it," said Housing and Food Services Manager Larry Barrett, who moonlights as an IRAAC member. "I steal food from the cafeteria all the time. I think I know how it can be done."

Barrett was observed working out some under-the-table deals to obtain the money with Sports Information Director Bill Gannon, but nothing can be proven.

"Hey, look," Gannon said. "All I know is what's in front of me. And right now, nothing's in front of me. I think I left everything in the office. Besides, the Times has everything I gave them. You should have what they have."

Gannon added that he had no See BILL, Page 21

PRIME PICKS

BY J. PHIL GRUEN

PHIL'S RECORD IS 56-0

MY NOSE

FAVORITE LEFT NOSTRIL

LINE* pick 'em

UNDERDOG RIGHT NOSTRIL

PHIL'S ANALYSIS... Well, it's down to the wire. The left nostril has won the last five consecutive contests, and is still leading the league with a 50-22 crusty-booger-to-snot-picked ratio. But with the streak of six successfully picked boogers in the last six attempts, the right nostril is hanging in there with a 47-25 booger-to-snot-picked-ratio. The right nostril is counting on the left nostril's failure to grab hold of a crusty booger on the first attempt and go with it, and if things get tense, it may be considering the tricky loogey maneuver. The left nostril has been noted to fend off the maneuver in recent confrontations, particularly with its use of the bloody drip defense. What this all means is that I am so confused, I have no idea what I'm going to pick. Maybe I'll pick them both at the same time. Or maybe not. Oh, Hell, PHIL SAYS...
