PORGERA PATROL REPORT NO.2 of 1970/71  
PAI'ELA CENSUS DIVISION

Attached herewith please find above report.

A little longer and Mr. Warrick's report would have qualified for the archives as historical value only. The patrol was completed on 26/5/71 and it arrived at my Office, yesterday, 22/12/71.

Mr. Warrick is to be transferred to Laiagam on 12th January, 1972, and in future will compile his reports at Laiagam within the stipulated time period of two weeks. An officer stationed at Porgera, an important mining centre of the future, needs to be able to report efficiently, frequently and within the current news value limits.

Some Comments:- Whether or not the economic future of the Pai'ela will be hopeless, can be easily determined and influenced by the drive and energy of an Officer in charge of that area. Lack of enthusiasm can rarely be attributed to the indigenous people of an isolated area such as the Pai'ela, and all they generally need is some interest taken by the patrolling officer of the area. The future of the area is what he makes of it. Not once have I seen Mr. Warrick come into Laiagam to discuss the economic future of these people with the Rural Development Officer, to ask him to do something in the line of coffee plantings, importation of European pigs, growing of chillies, bananas etc. Income from sale of pigs in the Laiagam area for the year 1970/71 was \$24,650.

Planning: A couple of pens are to be constructed with heavy timber fences, for promising personalities, at a location near KOROMBI Airstrip. These pens should be surrounded by Kaukau gardens for handfeeding purposes.

Action: O.I.C. not to rely on Agric. assistance but to go ahead himself. Collect cash from promising entrepreneurs, as Mr. Winchcombe did and order a batch of boars and gilts for improvement of local stock and deal directly with Goroka. Prices range from \$18 to \$22 per pig.

Roads, Bridges & Airstrips:

The motorcycle tracks were surveyed and commenced by Mr. Winchcombe in 1969 and halfway completed by Mr. Brereton in 1970, they should now be nearly completed, if not entirely completed. All too frequently the words "impossible to rectify" are a part of Mr. Warrick's vocabulary. Both abovementioned officers did spend \$200 each in purchasing road-working tools for these tracks. Where are they now? And why would it be impossible to supplement them out of subsequent Road funds received? It is just a matter of taking the time to order them. Funds for the PAGUBIALI bridge, \$2,000 have been received and a design has been requested from the Local Government Engineering section of P.W.D. Boroka, but with no result so far.

13

**Planning:** All funds for bridge to be expended as soon as possible according to list of materials to be ordered by the L.G. Engineering Section. Motor cycle to be based at KOKOMBI Airstrip

**Action:** Mr. Brereton stated in his report No.4 of 1969.70 that the Pai'ela people were eager to construct the Motorcycle tracks. I can't see how their attitude should suddenly change. Their eagerness should be supported to the fullest extent by the O.I.C. and the Admin. Motor cycle formerly allocated to Porgera be replaced. O.I.C. to originate correspondence.

Law and Order:

I am quite confused as to how the situation in respect to Law and Order, really is in the Pai'ela. Mr. Warricks starts off saying that it is in fact very healthy and in the end he contradicts this statement by saying that it would "...take very little to spark off widespread trouble throughout the Fai'ela."

**Action:** O.I.C. to mount a patrol as soon as possible and report on this aspect in detail

Political:

It is of little use to follow a pattern established by previous reports reporting year after year, the same shortcomings and problems of the area. What counts is to know what planning Mr. Warrick has in mind and what action he has taken to overcome the backwardness of these people in this respect.

It is remarkable to see how quickly some of the most illiterate people can grasp the idea of political development, if time is taken to explain the subject to them.

**Planning:** O.I.C. to obtain tapes from Political Education Officer and have recorded on them various aspects of political development, in the Pai'ela dialect.

**Action:** O.I.C. to arrange recording and make a commentary on the contents of the tapes after playback sessions, at various Assembly points.

Census:

I don't think Mr. [redacted] knows what he is about when he calculates his Birthrate at 19 per 100 people and says that the Death rate cannot be calculated accurately. A Birthrate of 150 to 2904 people gives a birthrate of 5.17% and deaths of 21 people from 2904 shows a death rate of .72%. This gives a natural increase of 4.35%. A reconciliation with previous years figures would have been helpful.

	Total Census 1969/70	2849
Add Births .....	150	
Migrations In	73	
	<u>223</u>	
Less Deaths	21	
Migrations Out	44	
	<u>65</u>	
	Increase -	158
	Estimated pop.1970/71	3007
	Enumerated	<u>2904</u>
	Discrepancy	103

This is too large a discrepancy to leave be and Mr. Warrick will re-submit these figures and Census statistics in the new pro-forma at a later date.

I am certainly not impressed by Mr. Warrick's report and I would have made him do it again if it had not been already well overdue.

N.A. Van Ruth

Asst. District Commissioner

LAIAGAN,  
W.H.D.

PORGERA PATROL REPORT 2 of 1970/71.

PAIELA CENSUS DIVISION.

PATROL CONDUCTED BY W.P. WARRICK P.O.  
Patrol Accompanied By MONDO 0842  
NUGAE 0968  
KOMET 2275  
PAKIRI 1940  
MALIPU A.P.O.  
YALA INTERPRETER.

Area Patrolled PAIELA CENSUS DIVISION.  
DURATION OF PATROL 10/5/71 to 26/10/71  
LAST PATROL INTO AREA MAY 1970.  
OBJECTS OF PATROL  
1. Conduct Population Census  
2. Self familiarization  
3. Roads and Bridges  
4. General Administration.

TERRITORY OF PAPUA & NEW GUINEA.

11

PATROL DIARY.

MONDAY 10/5/71

Prepared for Patrol on Station until 1600. To ARAPIS by vehicle thence to ABARAGA by foot.

TUESDAY 11/5/71

Departed ABARAGA for MANDUAKARI 0730. REACHED Pergera PAIELA Divide 1300 Thence descended to MANDUAKARI in heavy rain. Reached MANDUAKARI 1500. Moved into rest house bought food informal talks with headmen. O night.

WEDNESDAY 12/5/71

TALKS with headmen until 0900. Conducted population census, completed 1430. Heard two minor disputes and continued talks with headmen until 1800. FLAG LOWERED O'NIGHT.

THURSDAY 13/5/71

DEPARTED MANDUAKARI for KANJAWI 0800 arrived 0945. TALKS with locals until 1030. Conducted Census. Completed 1330. Native complaints until 1530. Talks with headmen and Locals until 1800. Flag lowered O'night.

FRIDAY 14/5/71

Departed KANJAWI for TARONGA. Arrived 1000. Moved into rest house. Talks with assembled people. Conducted Census. Mediated in minor disputes and discussions until 1800. Flag lowered 1800. O'night.

SATURDAY 15/5/71

LEFT FOR KOMANGA 0800. Arrived 0940. Talks with headmen until populous turned up. Census 1100 to 1300. Talked with several Locals over minor problems, thence with headmen over work projects. Flag lowered 1800. O'night.

SUNDAY 16/5/71

Observed KOMANGA.

MONDAY 17/5/71

LEFT 0745 for WAIMARAM. Arrived 1000. Moved into rest house. Census. Census started 1100 Completed 1300. All P.M. on native disputes and discussions over work projects and items of interest Flag lowered 1800 O'night.

TUESDAY 18/5/71

To KOROMBI 0800 Arrived PAGUIALI river 1130. Thence steep ascent to KOROMBI, arriving 1315. Moved into house. Commenced Census 1430 completed 1600. Talks with locals. Inspected station and airstrip. Flag lowered 1800. O'night.

WEDNESDAY 19/5/71

Left for INGALEPE 0900. Arrived 1030. Terrible Track Census started 1100, finished 1130. Talks with assembled population numbering about 25 until 1400. Returned to KOROMBI. Heard 2 minor disputes then had a good look around station. Flag lowered 1800 O'night.

(10)

THURSDAY 20/5/71.

Left for ASPARINGA 0800 . Arrived 0930. Moved into rest house. G  
General discussions with locals until 1100. Census taken. Completed 1215.  
Local Court convened for 1 case. Rest of P.M. with Locals and headmen  
discussing topics of interest. Flag lowered 1800 O'night.

FRIDAY 21/5/71.

To TAGOBA 0800, arriving 0845. Moved into rest house. Census  
started 1000 finished 1230. Local court convened until 1500. Thence  
3 minor disputes. Thence discussions. Flag lowered 1800 O'night.

SATURDAY 22/5/71.

Departed TAGOBA 0830. Arrived PIAWE 1310. Moved into rest  
house. Bought food. Census not taken due to population being almost  
100 percent Seventh Day Adventist Discussions with TULTUL until 1600  
thence Census figures extraction. Flag lowered 1800. O'night.

SUNDAY 23/5/71

Observed PIAWE.

MONDAY 24/5/71.

Census taken 0800 finished 0830. Talks given to people.  
No minor disputes. Departed 0930 Arrived BEALO 1330, Moved into rest  
house. Census taken 1400 to 1430. Two minor disputes heard.  
Discussions with Tultul and Locals until 1800. Flag lowered 1800.  
O'night.

TUESDAY 25/5/71.

Departed 0800 for YUYAN. Easy walks arrived YUYAN 1400.  
Moved into Rest house. Discussions with headmen over MAIP/Porgera  
Road Labour. Flag lowered 1800 O'night.

WEDNESDAY 26/5/71.

Left YUYAN 0800. Arrived MUNGALEP at Midday. To ARAPIS  
to pick up vehicle. Thence to Porgera. Equipment returned to store.  
POLICE STOOD DOWN.

END OF PATROL.

TERRITORY OF PAPUA & NEW GUINEA.

(1) INTRODUCTION.

No patrol instructions were issued from the Sub-District Headquarters for this patrol so none are included in this report.

The prime objects of the Patrol were the updating of the Census Registers to facilitate the compilation of the Common Role for the forth coming Elections, and my own self familiarization with the area.

The patrol was most interesting and it was very well received at all assembly points. Food and carriers were in ample supply.

This Division has been well covered by previous reports, so only topics of interest and importance have been included in this one.

People in the Ferguson District... of money for... and... about... for this... according to... Ferguson... and... several... from the... Northern... according to...

The... would be... knowledge of... the area... partially... returned... will take... the...

with... and... of these... with... since...

(8)

TERRITORY OF PAPUA & NEW GUINEA.

(A) ECONOMIC

SITUATIONS:-PRESENT AND FUTURE.

The sole cash crop which has been introduced into the PAIELA in recent years has been coffee. Samples have been planted by D.A.S.F. representatives of MANDUAKARI, KANJAWI, TARONGA, WAIMARAM and TAGOBA in 1969 and 1970. During the Patrol, it was observed that 60 percent of the crop had died and the remainder looked to be on its last legs. Nevertheless, a Rural Development Assistant has put new plantings in different locations and with better and more regular care, this crop might be more successful.

The interest shown by the D.A.S.F. in the PAIELA has been most appreciated by the people, and has encouraged them to dig fish ponds which now number about 6 for CARP and to build one bushstyle pig project. So, enthusiasm is not lacking in the area. There are now approximately 25 men from the PAIELA engaged in the Highland labour scheme and, at each Assembly point, there were many volunteers many of whom have - since the completion of the Patrol-joined the scheme.

People in the Forgera Census Division who receive large sums of money for gold payments and occupation fees, always pass a certain amount on to their PAIELA cousins and these transactions between related families and lines would constitute the major venue of money for this division. Just prior to the patrol, an occupation Fee amounting to over \$4000.00 was paid to a group of landowners in the Forgera and, during the patrol, it was noticed that most absentees from census were men who had gone to Forgera "to get their share" and several complaints regarding the inequitable distribution of this same money, were brought to the patrol. Quite a number of young men from the PAIELA are working as labourers for native gold miners in the Forgera and approximately 20 are employed by the Company at present searching for gold and carrying out exploratory work.

Trade Stores in the PAIELA number only four and all are mission run. Talks with the persons operating these stores would indicate that turnover is low and they are little more than a service to the people.

The Economic future of the PAIELA is bleak, or perhaps a better word would be hopeless. The population of the area is small and a good percentage of the able bodied men are engaged as labourers outside the area. Communications within the Division are poor, consisting of partially completed motorcycle paths and walking tracks and the proposed motorcycle paths through KANJAWI, MANDUAKARI, WARUWARI thence Forgera will take a very long time to complete due to shortage of labour and the hostility of the terrain.

These communication and Transport difficulties constitute the main barrier to economic development in this area. At the present, the motorcycle roads are being steadily worked on and should be finished in a year provided the people's enthusiasm can be maintained. Completion of these paths will mean that every rest house and Assembly Point in the PAIELA with the exception of PIawe and BEALO will be inter-linked, with KOROMBI Airstrip and Base Camp as the centre. This will, of course, improve communications greatly.

7

In the immediate future, it is intended that coffee be planted in every Assembly Point area in the PAIELA and fish ponds will be encouraged. The pig project previously mentioned is only very small, however with assistance from the Rural Development Assistant, it will soon grow and will be joined by others. A cattle project in the Forgera Census Division has been started, but not yet finalized, and this one project will give a good indication if or if not, cattle will be successful in Forgera. Until these results are known, no cattle project will be started in the PAIELA.

---

6

(B) ROADS BRIDGES AND AIRSTRIPS

An inspection was made on the Lutheran airstrip at Korombi and it was found to be in excellent condition. This strip is of private category only and it is now used once a week by The Missionary Aviation Fellowship and this is the freezer run for the European Missionary on the Station. The strip is entirely maintained by hand tools as the now Board-of-Surveyed PWD tractor at Korombi is no longer operable.

The motorcycle tracks as previously mentioned, are pushing ahead at a satisfactory pace and the people in the division remain fairly enthusiastic to complete them as soon as possible. At every assembly point, complaints regarding the lack of tools were made to the patrol however this situation is impossible to rectify as there is no funds allocation for this project and all implements in the Porgera are required for the Porgera to Laigam road. The locals were told to make do with what they had.

The Motorcycle track starts at Tagoba goes to Asparinga, Korombe Ingalepe Waimaram Komanga Taronga Kanjawi and finally Manduakari. From Manduakari it will eventually go all the way to Porgera via Waruwari. This will be exceedingly difficult to accomplish and it will not be seriously considered until the internal net work is completed.

Bealo and Piawe are too far removed from the valley to be included in the network and the population in the area is so small that it would be hard put to even build a decent walking track.

Walking tracks from Manduakari to Korombi and Tagoba were good though the route is very precipitous in places-particularly from the Pagubiali river to the Korombi Airstrip. From Tagoba to Piawe and Bealo the track is a nightmare of rotten foliage and slippery logs with undergrowth of just sufficient height to whip one in the face every few steps. As the population is so low in this area, the track is scarcely used and this accounts for its condition.

A large native material bridge on the Pagubiali river is to be replaced by a cable bridge and \$2000 has been allocated to this project. All bridges, apart from that, were in good condition.

---

(3) SOCIAL

(1) LAW AND ORDER.

A very healthy atmosphere with regard to the above, was found to exist in the PAIELA, there being no signs of a return to the "TUMBUNA" way of life. All persons are engaged on the construction of the motorcycle tracks and regular Police patrols are always in the area keeping an eye out for trouble and seeing that the road work is properly attended to. If ever a disturbing TRAIT was found to be emerging, it would be quickly identified and nipped while still in the bud.

At every assembly point at least two complaints were heard however these were of a trivial nature and were easily settled. During talks with headman, it became evident that they were content with the law and order situation and discussions tended to centre around road projects and minor matters.

The Local Court heard a total of 4 cases, all of which resulted in convictions. At the first two Assembly Points when only 2 native disputes were brought forward., I began to get the impression that the locals were not bringing their disputes and worries before me and I told them so. However I was assured that this was not the case so I let the matter go at that.

At WAIMARAM , a man killed his wife in February this year and he was jailed for seven years. The people were very happy with his punishment and a compensation."MOGA" to the dead wife's relatives had been successfully completed just prior to the Patrol.

Nevertheless, I feel that a close watch must be maintained on the situation in the PAIELA, either by Administration or Police Patrols constantly in the area as it would, in my opinion anyway, take very little to spark off widespread trouble throughout the PAIELA.

(2) EDUCATION.

A small community school exists at KOROMBI and this is the sole school in this division. The school is staffed by Lutheran Mission Personnel and it is of preparatory literacy Pidgen standard only. 30 children attend and, under the circumstances the Lutheran Mission is doing a good job in this regard. The school, run by the Catholic Mission, at KOMANGA has closed down due to shortages in staff.

(3) HEALTH

Aid Posts are situated at KOROMBI, KOMANGA and TAGOBA and the end of 1971 will see a new Post at BEALO and at WAIMARAM. Coverage, for the Paiela, is therefore quite good however the MANDUAKARI-KANJAWI end of the valley is a little neglected. Two Triple Antigen Patrols by staff from the Porgera. Hospital had been conducted earlier in the year and all infants under 3 years of age were treated. Leprosy Patrols conducted by Miss.G.Gessner from Wapenamanda, visit the area every six months to dispense treatment for all who need it.

Accompanying the Patrol was one Aid Post Orderly and it appeared that the only illnesses brought forward were Malaria, severe colds and routine complaints such as stomach upsets and wounds.

During the census, deaths of approximately 6 infants were recorded and all were diagnosed by the A.P.O. as being caused by "DRIPELA KUS" - Pnumonia I presume.

Generally however, the health of the populous was good and the new Aid Posts would help provide even better Medical Services.

(D)

FOIA

Though Political Education was not one of the objects of the Patrol. I did have informal discussions with headmen and leaders on topics such as the House of Assembly and The Forth Coming elections. It was made very plain to me that the people were not particularly interested in these topics, however it appeared to me that a candidate for the forth coming elections had already been marked and the present member's name - POIO-URI had been forgotten completely.

When I told the headmen of the proposed Porgera Council they were interested but they expressed a desire to be left out of it until they had gained some means of obtaining a regular income so they could pay taxes.

All existing village leaders appeared to be doing their best and all were doing fairly regular work on their motorcycle tracks. As few native disputes from PAIELA are ever brought to the office at Porgera, it appears that the village leaders are quite capable of settling them at the village level.

It will be an uphill struggle to instill some sort of knowledge of the governmental set up into the minds of these people, however if each patrol that enters the area spends a certain amount of time discussing and lecturing politics, then I'm sure a certain amount will seep in and Political awareness will increase as a result.

(E) MISCELLANEOUS

CENSUS

A census was taken at each Assembly Point by the Patrol. The Census Registers for MANDUAKARI, KANJAWI, TARONGA and KOMANGA could not be located prior to the Patrol so new ones had to be compiled starting from scratch.

INGALEPE was replaced PIPIRANGA and it is now included in the Village Register and Common Role.

Village Population Register forms are attached.

Total Population for the PAIELA 2904

666

---

CONCLUSION

All the objects of the Patrol were achieved and the Patrol itself was most enjoyable.
