by surprise - It is impossible for

to take it over land again I suppose,
which is not very pleasant I assure you.

Those men were on the wrong
track it seems, for that mine, after
all, the specimens they brought up
dont agree with those here - unless
they are deceiving by showing other
specimens.

Louis Hawk sends those two
Fox hounds for Jos. Smith. Please take
particular care of them as they are very
valuable, send word to Smith if
possible. Louis says Do not feed
them too much keep them always
hungry, give them 2 or 3 bulbs of
Garlic a week, - chopped up with their
meat is a good way. It keeps them healthy

They are the only pure bloods known in the state, therefore take good care of them.

Every one here is interested
in Copper or Silver mines, and
there are so many rich ones from
Reer River, Colorado &c that
no one will look at anything
near home, especially if they are
not worth thousands of dollars to
the ton.

If I have any letters, you may
send them to me by Lane, as I
shall be here on return str. after that
you may look for me home at any

written enough if you can wade
through it you will do well.

The Express folks, but they have not fully decided whether they will close the office or not, but I am afraid they will. Tell the merchants to make as big remittances as they can this time so that I can make a good showing to them, & induce them to continue.
