UNIVERSITY OF CALIFORNIA, SAN DIEGO

Volume II Number 1

September 26, 1965

## PRESIDENT KERR WELCOMES STUDENTS

It is a pleasure to extend a warm welcome to those of you who are beginning your academic careers at the University of California and to the many others who are resuming your work today.

This year the University expects to have more than 80,000 students enrolled on nine campuses -- from Davis in the north to San Diego in the southern part of the state. To this truly impressive fraction of the nation's able young scholars, the University offers a great many opportunities. They include a wide variety of academic programs and courses, cultural events and activities, intercollegiate and intramural athletics, and student-sponsored activity programs of many kinds. Which of these opportunities you grasp -- how many of the invitations to participate you accept -- will be matters for your own individual decision. But the decision should be made with care, for it will largely determine the course of your University career and even, perhaps, of your whole life. I wish each of you every success in making the choice that is right for you.

Clark Kerr

## WELCOME TO UCSD!

To all of our incoming freshmen, you are now an important part of a new and exciting campus. To our returning sophomores, you have been the pioneers in establishing the Revelle College curriculum and the beginning of traditions for years to come. All of you will find the academic program challenging and stimulating and we hope that you will profit greatly by your experience on the San Diego campus. Your

campus life should be well-rounded and we hope as the semester progresses you will become involved in some of the UCSD organizations and activities. The officers of the associated students have worked hard during the summer in an effort to make the 65-66 academic year rewarding and enjoyable for all concerned.

Ted Forbes  
Dean of Student Affairs

## FROM THE CHANCELLOR

This year UCSD begins its second year of undergraduate instruction. The present freshman class is much larger than its predecessor, and the total enrollment of the campus has soared from 540 to 1,350. I hope that as we grow larger we will not lose the sense of community of faculty and students which was so evident last year. I think I can speak for the faculty when I say that they have a commitment to provide both undergraduates and graduate students with a stimulating intellectual environment. The undergraduate curriculum is still in the experimental stage, and we shall welcome comments from the students as to how it might be improved. Such comments last year were very valuable.

In these early years of the campus' development there will be certain deficiencies in available facilities for social activities. But I hope you will share with us the excitement of building a new university. We do not yet have many traditions -- you will help to create them. We do not yet have ivy-covered walls, but there is no moss growing on them either. UCSD is no place for those who enjoy the quiet life and the well-trodden ways. During your years here you may sometimes be vexed but you will never be bored.

John S. Galbraith

## GOVERNMENT AND THINGS

One of the first questions that many entering students ask is "How is your student government organized here at UCSD?" This question is very important on a small campus like ours, because each student is close to the government and has an unusual opportunity to participate and assist in the shaping of the government in these early stages.

Our government consists of three branches similar to those of the United States government. The Executive branch is composed of the ASUCSD President and his appointive cabinet. The President selects a Commissioner of Activities, Commissioner of Spirit, and the various other cabinet posts to help him carry out his executive duties.

The Legislative branch is our ASUCSD Senate. Two Representatives elected from each class (Freshman, Sophomore, etc.) and two Representatives from each of the twelve colleges will eventually bring the total number of student Representatives to thirty-two plus three faculty Representatives. This year twelve Representatives have been elected at large and two more will be elected from each of the Freshman and Junior classes for a total of sixteen student Representatives.

A Judicial Council consisting of four elected Judges and three Judges appointed by the Senate investigates possible cases of unconstitutionality and violations of the Honor Spirit.

During the past year the ASUCSD has sponsored several dances and other activities, but most of its efforts have been toward general organization. Several traditions have been set up, such as the Watermelon Drop at the end of the year, and the fact that no Freshman may ride in the elevators during Registration Week and the first week of school. Sweatshirts and decals may now be purchased, and other items will be available at a later date.

The Senate partially established the Bylaws to the Constitution last year, and has worked through the summer to complete most of the

remainder of the Bylaws. The Senate also has worked on such projects as Freshman Orientation Activities, a service project for La Jolla, school improvements and many others.

The Judicial Council has worked hard to establish an effective Honor Spirit on the UCSD campus. Of course, an Honor Spirit cannot exist without the full cooperation of every student, and the Judicial Council has developed a foundation from which our Honor Spirit may grow.

In a very abbreviated form, this is how our government is organized and what it has

accomplished so far. Suggestions, comments and lots of help are welcome.

Janet Albin  
ASUCSD Vice President

## SANSCRIPT POLICY

Editorials appearing in SANSCRIPT cannot be construed as being necessarily representative of student opinion. They reflect only the opinions of the Editor or author, as the case may be. It is hoped that SANSCRIPT can be of interest to graduate students as well as undergraduates. Therefore graduate contributions, help, and opinions are desired. Letters to the Editor may be submitted to SANSCRIPT through the Student Affairs Office, B2116, and will be published at the discretion of the Editor. Letters may concern themselves with any aspects of curricular or extra curricular life. All letters must be signed and must not exceed reasonable length. I welcome all suggestions. Thank you.

WELL....

Well, it's been a long hot summer and I'm convinced that the thought of returning to school looks infinitely more appealing now than it did four months ago. Before us, we have a new year, new classes and teachers, new friends and experiences. To welcome all my friends and fellow students back seems repetitious, but never-the-less -- welcome back. To all the incoming students, I feel I can greet you in behalf of the whole of UCSD, not only my fellow classmates who share my desire to meet and work with you. Good luck.

## AWS PRESENTS "CAL SCENE '65"

The Associated Women Students (AWS) will present a cavalcade of campus fashions during the 'noon hour', Wednesday, September 29. These fashions, provided through the courtesy of Walker Scott, will be modeled by Sophomore women on the court between Bonner Hall and the Physics-Chemistry Building. Everyone is invited to attend. Gals come to see what is in style and guys come to see the gals!

## NOTICE

Second College Provost John Stewart's lecture "Culture in America", scheduled for 10:00 a. m. Friday, October 1 has been re-scheduled to occur during the Convocation, 8:30 a. m., Monday September 27. Provost Stewart's topic has been changed to "How to waste your time successfully."

(Editorial Comment: Incoming students are advised to take notes due to the potential value of the content of Provost Stewart's lecture.)

## NEW YORK CAST STARS IN GREEK DRAMA

The University of California Intercampus Cultural Exchange Program will bring the original New York cast of the CIRCLE IN THE SQUARE THEATRE production of The Trojan Women by Euripides to Sherwood Hall, Thursday, October 7. The play will begin at 8:30 p. m.

This particular production of The Trojan Women is a new translation by Edith Hamilton. It is the recipient of the New York Drama Critics Circle Award. Seating is reserved, and tickets are available at \$4.00 and \$2.00 in the Arts and Lectures office on the 7th floor of Building B. Sherwood Hall is located on Prospect Street in La Jolla.

## SANSCRIPT and TRIDENT HELPERS NEEDED

Are you interested in becoming a functioning part of UCSD's academic, cultural and social life? One of the best ways to do this is to take an active interest in either SANSCRIPT, UCSD's official student newspaper, or the TRIDENT, UCSD's official student yearbook.

Yearbook or newspaper work is the quickest way to acquaint oneself with one's surroundings. If you have a desire to investigate, to research, to write you are "newspaper material". If your interests are more creative or pictorial, you may be "yearbook material." Find out!

If you are interested in yearbook work, either contact Miss Kathy Bower through the Student Affairs Office or attend a meeting to be scheduled during the first week of classes. If you are inclined to become a Hemmingway and wish to work on SANSCRIPT contact Mark Hinderaker at 454-0900 or write to 8480 Paseo del Ocaso, La Jolla. A meeting of interested parties will be scheduled. Watch for an announcement.

## SPECIAL INTERESTS? JOIN OR FORM A CLUB!

Mr. Robert F. Topolovac is a new acquisition of the Student Affairs Office. Bob is in charge of student activities at UCSD. If you have a special interest and it lends itself to the formation of a club, Bob is the man to see. Among advantages which can be gained by organizing are the use of University facilities, membership with the University community and the services of his office. So, if you like chess or sky diving, yoga or sports cars, or if you are a liberal or conservative, theologian or musician, contact Bob in Building B, room 2116 and he'll help you organize with others of your breed.

114  
DR. REVELLE HONORED  
IN FIRST COLLEGE DEDICATION

Dr. Roger Revelle, instrumental in the development of the University of California's San Diego campus, will be honored in a formal ceremony which will dedicate the First College in his name, Friday, October 1. This will take place at 4:00 p. m. in the Building B Plaza on the upper campus.

Dr. Revelle, currently Director of Harvard University's Institute of Population Studies, was a former Director of Scripps Institute of Oceanography. Dr. Revelle served as chief campus administrator while virth was given to the ideas and plans which established UCSD as a general campus. Dr. Revelle first envisioned the plans for a school of science and engineering, plans which later blossomed into the establishment of the First College. It is thus appropriate, as was decided by the University Board of Regents on January 22, 1965, that the First College be named in honor of Dr. Revelle.

UCSD Chancellor, John Galbraith will preside over the 4:00 p. m. dedication ceremonies. Dr. Walter Munk, Associate Director of the Institute of Geophysics and Planetary Physics, will serve as master of ceremonies. Dr. Revelle's career will be recounted and his contributions to science, public service and education noted in speeches by Dr. Edward Goldberg, Revelle College Provost, Dr. Carl Eckart, UCSD Vice Chancellor for Academic Affairs, Dr. Herbert York, former Chancellor at UCSD, and Dr. James Arnold, Professor of Chemistry and Acting Dean of Graduate Studies.

Dr. Revelle will deliver the principal address, which will be followed by an informal reception to be held in the area of Ellentown Road, west of the Building B parking lot and campus living units.

An effort will be made to allow as many UCSD students as possible meet with and talk to Dr. Revelle.

NOBEL PRIZE CHEMIST TO SPEAK ON MOON

Dr. Harold Urey, of the UCSD Chemistry Department and winner of the Nobel Prize, will deliver a lecture, "Exploring the Moon" at 1:30 p. m. Thursday, September 30. The

lecture will be delivered in the auditorium of the new Humanities-Library Building. This will be an excellent opportunity for UCSD students to become familiar with one of UC's most distinguished research scientists. Everyone be sure to attend.

EARLIER INHABITANTS OF UCSD?

Mr. James Moriarty, authority on anthropology and a staff member at Scripps Institute of Oceanography, will speak on "Pre-Historic Inhabitants of the Campus" at 10:00 a. m., Thursday, September 30. Mr. Moriarty, in addition to being an expert on "dead Indians", is an accomplished speaker. The talk will be held in the Humanities Library auditorium. It promises to be very interesting. Attend and discover what went on before the "Class of '68" arrived at UCSD.

FRIDAY NIGHT DANCES

How receptive are you to the idea of having weekly Friday evening dances in either the Camp Matthews Reception Hall or Recreation Center. A rock and roll band could be engaged to play for your Friday evening entertainment. These dances could be financed by a door admission or through joint sponsorship by the Associated Students (AS), Associated Men Students (AMS), Associated Women Students (AWS) and by the Sophomore Class.

If you are either in favor or in opposition to this idea, you may express your written opinion in the form of a letter to the Editor, SANDSCRIPT, c/o the Student Affairs Office.

JOBS? JOBS? JOBS?

The Student Employment Office requests that UCSD faculty or friends needing work done consider the possibility of hiring student help. Many students are dependent upon wages earned from part time jobs to finance their college educations. If anything from a gardener or babysitter to a chauffer is needed, please alert the Financial Aids Office, Building B room 2116 or extension 1328. Thank You.

### VARIETY SHOW PROMISES TALENT

The curtain will rise on UCSD's second annual Variety Show at 8:30 p.m., Wednesday, September 29. The gala affair will be held in the Camp Matthews Open Air Theatre. Greg Polster, who nearly got last year's show thrown off campus, will emcee the display of undergraduate talent. Familiar sophomore talent will include Chris Curlee, Mike Koziniak, and Jim Cole with folksinging routines.

The always popular "Vice Squad Raid" will occur approximately 20 minutes after intermission, after which time the talent show will switch in location from the Open Air Theatre to the North Shores Sub-Station. Seriously though, attend at 8:30 p.m., Wednesday evening and be pleasantly surprised. It might be wise to bring along a blanket to sit on.
