## Governments current Economic Performance and continued Stability at all Political and Administrative Levels will return National Alliance to Government in 2007. However, constant change of Ministers, Departmental Heads, Statutory Corp Heads 12 months prior to the 2007 Election will be costly for National Alliance.

### 1. Political Stability a Milestone in 30 years

In the last 30 years after Independence on the 16th of September 1975 many of us currently in our prime times today were celebrating the occasion at the respective primary schools without really knowing what the celebrations were for. However, as we grew older each year we came to understand what independence meant and what September 16th 1975 stood for. Sir Michael Somare initiated the celebrations on that day and has continued doing so for the last 30 years. This also makes him the longest serving elected leader to celebrate independence while still remaining has an elected leader.

From that day onwards until 2002 Papua New Guinea produced six Prime Ministers. Among them Somare has served more years as Prime Minister followed by Wingti, Chan, Namaliu, Skate and Morauta. The longest serving Prime Minister than was Sir Rabbie Namaliu with a total of 4 years of continued Priminership. This record looks certain to be broken by the Chief having reached the safe zone. Most likely he will continue as Prime Minister until July 2007. Papua New Guineans must be proud to admit that we have achieved political stability after almost 30 years of independence. Prime Minister Somare sets another milestone by becoming the first leader to serve the full five year term as Prime Minister of Papua New Guinea.

### 2. Political Stability will deliver if there is also stability at the Departmental Head, Board and Management Levels?

For positive growth and development to take place stability is the key success factor. At the political, administrative, board and management levels there must be stability. The current Somare Governments wide publicity to reshuffling the cabinet 12 months prior to the General election will not be good for the country. At the political level each new Minister may take an average of 6 to 8 months to settle into his new portfolio and the remaining 4 to 6 months will not be sufficient to produce results. The change of Departmental heads, Board Directors and the Management will not make any miracle over the remaining 12 months. Public opinion suggest that while such changes is the prerogative of the elected Government 12 months into the 2007 national election is too short a time for any one to produce results that will benefit the country.

Papua New Guinea and its people are very observant as is shown from the past records that Governments who think for themselves and become too greedy normally do not return in the elections. The Chief came into Government in 2002 because of similar selfish and greedy attitudes of the than Government. At this point in time there is no need for a change of Ministers, Departmental Heads, Boards and Management of Statutory corporation heads. These changes are not necessary because they are not good for the country. In reality these political convenience changes destroy the spirit of the political stability that took 25 plus years to achieve. All leaders tend to talk about stability when joining up with the Government but the degree of truth in such statement is only known to the politicians themselves.

### 3. Recent Changes to the Telikom Board, Kokonas Industry and much talked about changes at the MRDC, Finance Department, Works and Justice is not Necessary.

Many people believe that the talk about making wholesale changes in the Government institutions around this time of the year are not genuine changes to impact upon the respective organizations. The recent changes made to the Telikom Board is one classical example. Out of 1,000 respondents interviewed both verbal and by phone calls to Southern Highlands, Western Highlands, Morobe Province, East New Britain, West Sepik Province, Milnebay Province and the National Capital District between the 23rd and 28th of February 2006 reflect that the Governments sacking of Dr Gubon and his board was a mistake based on ill advice. An overwhelmingly majority of 75 percent of the respondents expressed support for Dr Gubon to be reinstated.

Table No. 1 - Opinion Expressed on Sacking of Telikom Board

Telikom Board Sacking	Total Respondents	Male Respondents	Female Respondents	Total Percentage
Approved	200	144	56	20
Disapproved	750	487	263	75
Do not Know	50	29	21	5

The respondents expressed that Dr Gubon and his board have performed very well in the past three years. They have consecutively made healthy profits for Telikom in the last three years during the toughest of times when the issue of the Telikom Privatization was almost ripping Telikom apart. They further expressed that reasons given by the Prime Minister for sacking Dr Gubon have been very shallow and unjustified contrary to the performance record of the board. Based on their given reasons they feel that the Prime Minister should reconsider and reinstate the Chairman to the Telikom Board.

Only 20 percent of the respondents felt that the Prime Minister as Minister responsible for Telikom has exercised his legitimate powers to remove the board. They claim that the new board was also comprised of credible people

with vast business experiences.

However, the same 20 percent also felt that the Prime Minister should reconsider the sacking of the chairman to ensure continuity and consistency in Telikoms good achievements in the past three years. While 5 percent or the respondents refused to make any comments because they did not know enough about the subject to give an opinion.

Table No.2. Opinion on Ministerial Reshuffle & Other Pending Sackings

The same number of respondents also expressed as shown above in table 2 that since election is only 12 months away the Government should not make too many reshuffles both at the political, administrative and board levels. This view was supported by 47.9 percent against Ministerial reshuffle and 67.5 percent change against administration managers.

Opinion on Ressuffle & Sackings	Yes, Ressuffle & Sacking OK	NO, Ressuffle & Sacking Not OK	Do not Know	Total Respondents
Ministerial Resuffle	479 (47.9%)	361 (36.1%)	160 (16%)	1,000 (100%)
Dept Secretary Board & Management	675 (67.5%)	302 (30.2%)	23 (23%)	1,000 (100%)

Some highly speculated changes including the position of the Deputy Prime Minister, Treasury & Finance Minister, Agriculture to name a few. These ministerial positions should not be reshuffled as they have been part of whole Government team that have turn the economy around. At the departmental level the head of Finance, Works, Managing Director for MRDC and few more are being speculated to be replaced. These group of people should not be replaced until after the 2007 national elections. The respondents felt that with the elections 12 months away the Government should focus more on completing mos of the initiatives they've started since taking over from Sir Mekere in July 2002.

### 4. Changes and Reshuffle will be costly for the Current Government in 2007 National Election

The Somare Government has done well so far by prudently managing and turning the economy around. The value of the Kina against the US Dollar has appreciated while the foreign exchange reserves in the Central Bank has gone past the K300 million. Inflation has reduced drastically to below 12 percent and investor confidence has been on the up hill. It is projected that over the next 10 years PNG will strengthen the down stream processing. The growth phase of such developments shall depend upon the stability in Government and its institutions.

The current Government has done well with the people currently in the system. It is advisable for the PM to maintain the same group of people and complete his term as Prime Minister and face the poll in March of 2007 with the current team. Causing unnecessary instability in Government and the Government machinery can also be costly to the Government.

### 5. Conclusion

Based on the independent analysis it is considered more appropriate for the Prime Minister to stick with the current team of leaders and managers and face the 2007 elections. The Government's five years in Government has been fruitful in turning the economy around and achieving stability in Government. The Government should not consider sacking any departmental head, board or management of any government owned business arm within the next 12 months before 2007. Considering the overwhelmingly support for Dr Gubon and his high successful performance in Telikom he should be recalled to continue to head the Board to ensure consistency and continuity in the Telikom Board. Good people everywhere are hard to find and Dr Gubon is one such person whose reputation should not be tarnished through sheer politics. Every good citizen is an asset to this young country and as such we must all protect good impact people.

## Cat® Vibratory Soil Compactors

**CS-563E**  
**CP-563E**

Designed to provide...  
**Outstanding Performance,**  
**Reliability and Fuel Efficiency.**

The 563E Series Compactors are high production units. Standard dual amplitude, changeable from the operator's station, expands the application range. Operate in high amplitude to get density on thick lifts in the fewest passes. Select low amplitude when operating next to structures, when approaching final density, or to avoid fracturing aggregates. Patented eccentric weight design assures positive amplitude selection and helps extend vibratory system service life.

## PM Opens Pangia District Office

**People of Pangia in the Southern Highlands will now be served from a new District Office built at a cost of K1.5 million.**

The new building, named the Brian O'Neil Complex was officially opened by the Prime Minister, Grand Chief, Sir Michael Somare after being dedicated to God by the Head of the Lutheran Church, Bishop Wesley Kigasung on Saturday, 11th February 2006.

The Office Complex is an initiative of the Member for Ialibu-Pangia, and Opposition Leader, Hon. Peter O'Neil under the District Support Improvement Program with the support of the Southern Highlands Provincial Government.

Despite the heavy down-pour in the later part of the celebrations, people showed their pride of the new building with display of colorful Wiru, Kewapi and Imbongu singing and dancing.

Prime Minister Somare told more than 30,000 people that he will support development projects in the electorate initiated by Mr O'Neil for the good of the people.

He wants to see more MPs to develop their district headquarters by using funds allocated to them.

Head of the Lutheran Church, Reverend Kigasung

told the crowd that all leaders must be good stewards of economy, which God has richly given to the people of Papua New Guinea.

"That is what PNG is lacking", he said.

The contingent of political leaders who accompanied the Prime Minister for the occasion included the Minister for Transport and Civil Aviation, Hon. Don Polye, Minister for Culture and Tourism, Hon. David Basua, Member for Gumine, Hon. Nick Kuman, Member for Madang, Hon. Alois Kingsley, Member for South Fly, Hon. Conrad Haoda, Member for Tari, Hon. Tom Tomiape, Member for Kandrian Gloucester, Hon. David Sui, Member for Wewak, Hon. Kimson Kare, Member for Namatani, Hon. Byron Chan, Member for Moresby-North East, Hon. Casper Wollom, Member for Imbongu, Hon. Timothy Tala and Southern Highlands Governor, Hon. Hami Yawari.

Other public figures who were also at Pangia included the Chairman of Telikom Board, Dr Florian Gubon and some members of his Board, Acting Telikom Managing Director, Mr Noel Mubiha, Deputy Secretary, Department of State Enterprises and Information, Mr Paulias Korn, Deputy Police Commissioner, Mr Garry Baki and kickboxing champion, Stanely Nandex. ■

# Govt Prepares For ACP-EU Conference

**T**he Government has allocated K9 million to host the largest international conference of the African Caribbean Pacific (ACP) Group of States and European Union (EU) member countries in May-June this year.

The Council of Ministers Meeting, which runs from May 28 to June 2, 2006, will be staged at the Sir John Guise Indoor Sports Complex, Waigani, while the opening ceremony will be held at the National Parliament on June 1.

The ACP Ministers meeting will be held from May 28 - 30, while the EU Ministers meeting will run from June 1 - 2.

Director General of the National Events Council Secretariat, Ambassador Aiwa Olmi, said an estimated 500 participants from the 79 ACP countries and 27 EU Member states are expected to attend the meeting.

The ACP Group's main objective, among others, are to sustain development of its Member States and their gradual integration into the global economy, which entails making poverty reduction a matter of priority and establishing a new, fairer, and more equitable world order; and to establish and consolidate peace and stability in a free and democratic society.

The Group over the years, extended its activities to cover trade, economics, politics and culture in diverse international agencies, such as the World

Trade Organization (WTO).

The ACP Group, which exclude Cuba, are signatories to the Cotonou Agreement, or the ACP-EU Partnership Agreement, which binds them to the European Union.

Meanwhile, a technical team from the ACP-EU Secretariat in Brussels, accompanied by Papua New Guinea's Ambassador to Brussels, Mr. Isaac Lupari, recently visited the country to finalize arrangements and requirements for the meeting.

They inspected the conference venue, hotels and outlined their office needs as well as the seating arrangements for the conference.

They also met the Minister for Foreign Affairs and Immigration, Hon. Sir Rabbie Namaliu, Chief Secretary to Government, Mr. Joshua Kalinoe, Secretary for Foreign Affairs, Mr. Gabriel Pepson, Trade and Industry Secretary, Mr. Alois Tabereng and Police Commissioner, Mr. Sam Inguba.

Chairman of PNG Events Council, Sir Peter Barter, has also appealed to the people to work with the Government to make the conference a success.

Sir Peter added that Papua New Guinea was very proud that Sir John Kaputin is the Secretary General of the ACP.

"Our Foreign Minister, Sir Rabbie raised his hand to have PNG host this conference, because he wants to show the members of ACP and EU that PNG is a peaceful country with many unique cultures and sites for tourists to enjoy and great

potential for investors and other businesses.

"We will look after our visitors and assure them that contrary to what some countries are saying, Papua New Guinea does not harbor terrorists," Sir Peter said.

He said this would be a second chance for PNG to showcase the potentials of this country like what was done in 2005 with the

30th Independence Anniversary celebrations and related events.

Sir Peter stressed that people came out to show the world that negative publicity by foreign interest was of no relevance to the Government and people of Papua New Guinea.

The first ACP conference was held in the country in 1991.

In the meantime, the PNG Events Council Secretariat has

secured about 500 rooms in hotels and motels in the National Capital District to accommodate delegates to the Meeting. An agreement will be signed shortly to secure the hotel rooms

Mr. Olmi also pays tribute to hotels and motels around Port Moresby, for supporting Government's effort in staging this important event. ■

## New Electoral Roll Registration Progressing

**P**apua New Guinea will have a complete new electoral roll for the 2007 General elections.

Electoral Commissioner, Mr. Andrew Trawen explained that this is not an update of the previous Electoral Roll used in the 2002 general election but a new roll in view of the "very compromised" Electoral Roll that has been in use since the 1977 General Election.

The Commission has completed preliminary roll registration for the Highlands region and is now completing the exercise in the National Capital District and the Lae Open electorate. The exercise for all other provinces began this month (February).

Mr Trawen said the preliminary electoral rolls will be sent out for public scrutiny before a final Roll is created for the 2007 elections urging all eligible voters to cooperate with officers involved in the exercise.

"Ensure you are enrolled in order for you to vote using the new Limited Preferential Voting System or if you want to stand as a candidate in the 2007 election. We want to remove the ghost names that have prevailed since the 1997 elections and have been abused by voters and candidates alike."

Mr Trawen said the Commission after a careful analysis of the 2002 elections decided to prepare complete new electoral Rolls for the highlands provinces, NCD and Lae Open Electorate as it was the opinion of the Electoral Commission, after consultation with various independent reports, that the rolls were so compromised, it was not deemed appropriate to use the Rolls with updates for the 2007 elections.

"The Electoral Commission, after further consultation and a review of its strategy has decided that it will not update the existing Electoral Rolls for the other provinces but will now create complete new

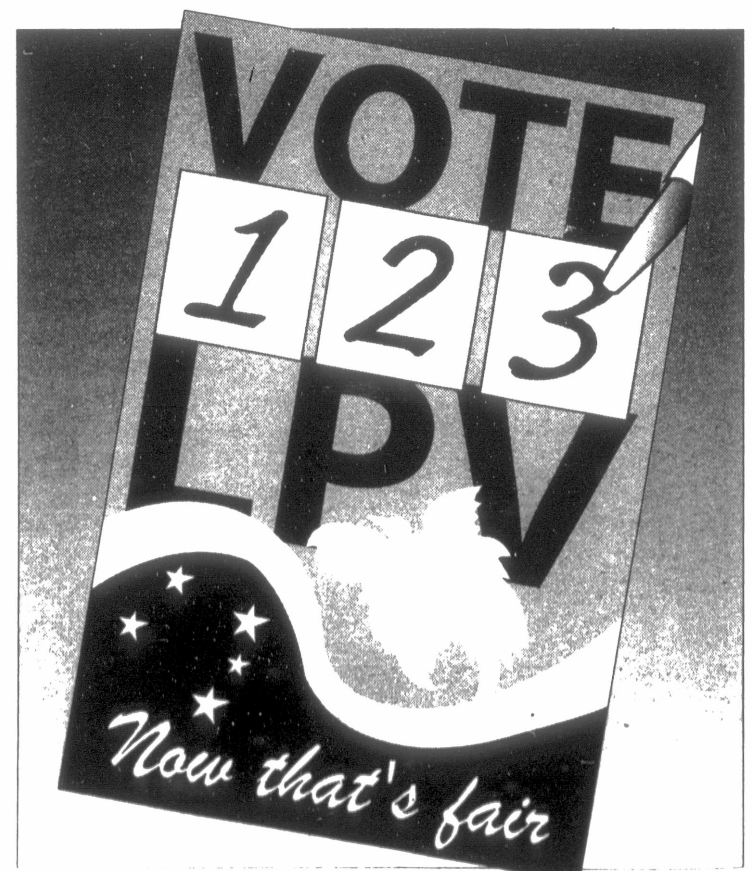

Electoral rolls for all other electorates in the country.

"From the review, the Commission has found that every Electoral Roll is compromised to an extent that there must be complete new rolls.

"Statistics show that there is a large over enrolment and a large proportion of the roll consists of 1997 roll names, which have been found to be not legitimate," he said.

He said as to date, the Commission is taking a stock take and quality control assessment of the Electoral Roll registrations being received and will go back to respective electorates if the Commission sees a need for the Electoral Rolls to be further refined to an unaccepted level of accuracy.

The exercise to register people in the common roll will run simultaneous with awareness on the Limited Preferential Voting system that will be used in the 2007 elections. ■

# PM Awards Anniversary Medals

**M**any Officers of the Prime Minister's Department were among those that received recognition for their services with the awarding of 30th anniversary medals by the Prime Minister, Grand Chief, Sir Michael Somare.

They were among a number of recipients of the anniversary who missed out being bestowed on the 30th anniversary celebrations in September 2005..

Sir Michael performed the medal pinning at the Morauta House on the afternoon of 9th February 2006.

His personal staff including his daughter Ms Bertha

Somare, three long resident businessmen and the Registerer of Political Parties Mr. Paul Bengo were among other recipients of the awards.

The recognition of George Constantinou of Constantinou Companies, James Seeto of the Seeto Kui Group of Companies and John Wild of PNG Airlines comes as a gift for remaining in the country to do business both in good and bad times.

"You deserve to be awarded for your loyalty and service to this country and its people during hard days and crisis times", Sir Michael said.

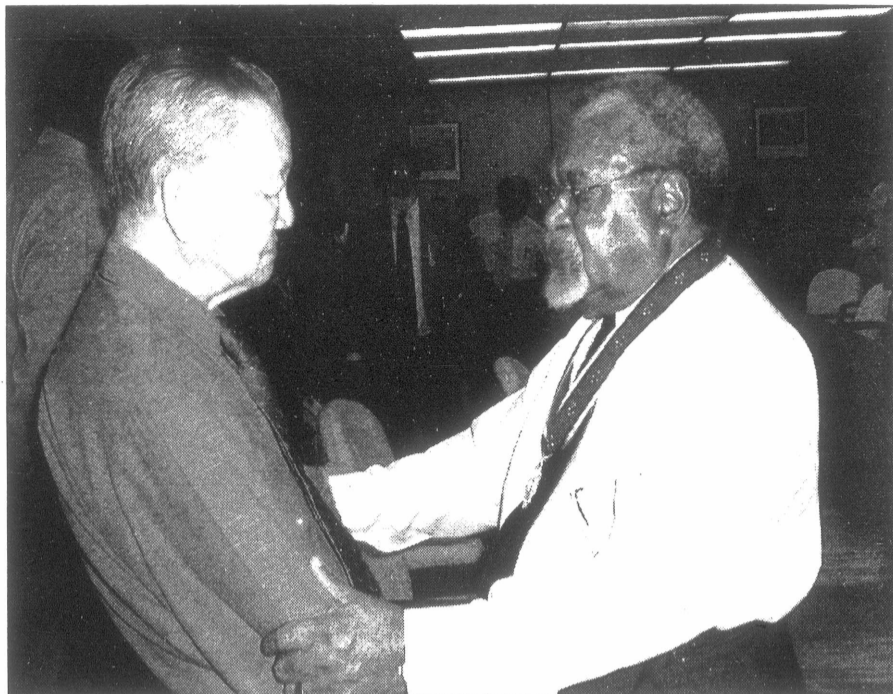

He said he is very pleased with the recipients, as the medals are the hall -mark of their efforts and dedication of been loyal in the service pro-

sion.

"I don't look for loyalty and beg for it because it is hard to find it these days, but I found it in you as I look and see who are loyal", Prime Minister said.

On behalf of the recipients, the Registrar for Political Parties Mr. Paul Bengo s thanked the Prime Minister for recognising their efforts.

Other recipients were Glen Blake, Timothy Bonga, Desmond Bundu, Esther Arua, Constable Ekonia Puki, Mr. Michael Itaar, Ms Seki Karingal, Mr. Steven Kori, Mr. Susuve Laumaea, Mr. William Nindim, Post Courier Editor Mr. Oseah Philemon, Mr. Barney Rongap, Ms Bertha Somare, Mr. Sumasy Singin and Ms Rachael Tomriesa. ■

## Keep the Leadership Code: Geno Urges

**C**hief Ombudsman, Mr. Ila Geno has strongly urged leaders to keep the leadership code of ethics in their conduct when performing their duties as Heads of Departments and Statutory Bodies.

Mr. Geno said this during his keynote address to the Heads of Departments and Statutory Bodies at the Fourth Annual Dedication at the Anglican Church in Port Moresby on January 26, 2006.

Mr. Geno told the leaders to maintain and follow the leader-

ship code at all levels and be the servants of the people and the Government of Papua New Guinea.

"If we maintain and follow the leadership code all throughout, this will be seen as a measure to our role as leaders", Mr. Geno said.

He said the Constitution and the Organic Law on Duties and Responsibilities of Leadership sets the moral and ethical standards and it is vital that all leaders use this as a guide to direct their official and private conduct. ■

## UN's ILO Mission Visits

**A**n International Labor Organization (ILO) Mission comprising of the Director of South Pacific, Mr. A. M. Zakaria and Ms. Surkafa F Katakafono was in Papua New Guinea for a week-long visit from January 15-22 to promote Decent Work Country Programmes for 2006-2007.

The team also visited a number of government ministries and employers', workers' and organizations including donor agencies such as the UNDP, AUSAID, NZAID and EU - with the view to identify ILO's support to PNG.

The mission also conducted a dialogue with the Education Minister and Minister for Social Welfare including Secretaries and senior officials of government ministries, employers' and workers' organizations.

The discussions focused mainly on sustainable development with particular reference to promoting employment and engaging youth and underemployed persons in gainful economic activities.

It also discussed areas such as review of labor legislations, industrial relations, HIV/AIDS in the workplace, social protection, workers' compensation, occupational safety and health and other economic and social issues pertaining to the medium term plan of PNG.

The mission has identified the following key areas of ILO collaboration for 2006-2007:

■ Promoting fundamental principles and rights at work through a review of labor legislation and promoting ILO conventions such as freedom of associa-

tion, collective bargaining, non-discrimination in employment and occupation, abolition of child labor and abolition of forced and compulsory labor.

■ Promoting decent employment and income for women and men in urban and rural areas concentrating on job opportunities in the formal sector and informal economies. It has been emphasized that the ongoing ILO/AUSAID/SBDC assistance on Start and Improve Your Business would need to be assessed for long-term sustainability. Job creation in general, with particular reference to informal economies will require integrated approach by Government Ministries and private sector organizations such as Employers' and Workers' Organizations. There was a propos-

al to form a Ministerial body for policy direction with the participation of major Ministries and Social Partners.

■ Working with UNDP and NACS, ILO is engaged in promoting workplace policy on HIV/AIDS. In this initiative it has promoted the partnership between Government, Employers and Workers.

■ Strengthening institutions of social partners was also on the agenda for ILO collaboration.

The mission also undertook a mission to Rabaul with the SIYB Programmed Manager Mr Tibawi Longai and the SIYB Chief Technical Adviser Mr Roy Matenga to see how the training programmed of SIYB is progressing there with the view to promote entrepreneurship at local level. ■

# Education Plan On Target

The Education Department will continue with the implementation of the National Education Plan 2005-2014. Secretary for Education, Dr. Joseph Pagelio, said the plan is on target and that the department is committed to ensuring that all children have access to quality education. He noted that the plan includes targets for increasing the number of teachers, improving the quality of teaching, and expanding access to tertiary education. The department will strive to keep more than 8,000 institutions open and employ

37,000 teachers. Other targets include Assess and certify 100,000 grade 8, grade 10 and grade 12 candidates through national examinations and establish 300 new elementary prep classes and 150 new primary grade 7 classes. Another target is to train 2,000 students in vocational skills training centres, and 1,000 students in technical and vocational centres and complete 1,500 training for 2.5 new elementary, primary and secondary teachers. The secretary said the department will continue the curriculum reform and support

in-service for teachers in teaching the new curriculum and implementing the HIV/AIDS Policy for the National Education System. He said teachers are expected to teach the reform curriculum materials for all elementary and primary grades (EP Grade 8) now in school. He said work will continue this year on developing the new curriculum for Grades 9 and 10 for implementation in 2007. The secretary urged provincial in-service committees to work hard in organising effective in-service programs to help their teachers teach the new curriculum. ■

## SDA Schools To Join The National Education System

The Seventh Day Adventist (SDA) run schools throughout the country will now join the National Education System.

This follows approval by the National Education Board which confirmed the amalgamation of all the SDA schools into the national education system. The decision by the National Education Board to amalgamate the SDA run schools comes after its recommendation to the Minister for Education Hon. Michael Laimo to consider the mission schools as a member of the National Education System, as provided for in Section 55 of the Education Act of 1983.

The implementation begins in 2006 depending on when individual provinces are able to provide for teachers and salaries in their budgets. A Memorandum of Understanding in being drawn up to be signed by the State and the church to formalise the arrangements. Upon full implementation, 8,000 elementary to grade 12 in 70 schools will join the National Education System this year. An estimated 300 teachers who teach in the SDA schools will now have the opportunity to become members of the National Teaching Service under the provisions of the Teaching Services Act. ■

## National Song Writer Dies

Prime Minister Grand Chief, Sir Michael Somare has announced that the man who wrote Papua New Guinea's national song, Tom Shacklady has died.

The Late Mr Shacklady died of a stroke on the early morning of Wednesday 25th January 2006 in his home in Sydney, Australia at the age of 88. Sir Michael extended his heartfelt condolences to Mr Shacklady's family and described him as a 'legend'. He said his name is embedded in Papua New Guinea's history. "He will be remembered with

pride for a very long time - as long as every school child stands in the morning assembly to sing the national song, or as long as our nation sporting heroes stand tall at a podium," Sir Michael said. The Late Mr Shacklady served with the Royal PNG Police Constabulary from 1962 to 1982. He was Director of Music and Bandmaster based at Kila Barracks in Port Moresby and was involved in recruiting and mentoring members of the Police Band including the current Bandmaster Chief Inspector Pala Walo. Mr Shacklady wrote the national song 'O' Arise' just prior to self-government in 1973. ■

## FORESTRY / AGRICULTURE

# Western Province Gets Eaglewood Project

**P**apua New Guinea Forest Authority (PNGFA) has signed a Consultancy Services Agreement with PNG Sustainable Development Program Ltd (PNGSDPL) to manage and develop the eaglewood resource in Western Province.

The agreement is for phase one of the Eaglewood Resource Inventory and Assessment in the Middle and North Fly districts of Western province.

Phase one is field assessment and appraisal; phase two is awareness and training; and phase three is resource development, marketing and management.

The Agreement was signed between the National Forest Service Acting Managing Director Terry Warra and PNGSDPL General Manager and then acting Chief Executive Officer Camillus Midire at the PNGSDPL office in Port Moresby on January 6, 2006

PNGSDPL is funding the eaglewood project and with the PNGFA's technical expertise, they hope to increase income base opportunities for village communities in the Middle and North Fly districts of Western

province.

Phase one will cost about K220,000.00 and will cover project planning and field inventory; mapping of occurrence and distribution of eaglewood; having in place strategies for development and management; and develop training programs.

Speaking during the signing ceremony Mr Midire said that PNGSDPL is excited to work with PNGFA on the eaglewood project as it looks for ways to enhance the Western province people economically before the mine closes in a few years time.

"PNGSDPL is managing shares formerly held by BHP which it sold to the company when it exited from the Ok Tedi Mine some years ago. PNGSDPL supports the government's economic advancement activities particularly in the Western province because Ok Tedi mine is located there," Mr Midire said.

He added that PNGSDPL is very much aware that the mine has about eight years remaining before all the minerals are mined out resulting in its closure. It is therefore making every effort to get the people involved in economic activities which they will continue with after the mine closes.

The acting CEO said that PNGSD-

General Manager of PNG Sustainable Development Program, Mr. Camillus Midire (right) handing over a copy of the agreement to Acting Managing Director of the National Forest Service, Mr. Terry Warra

PL has looked at forestry, fisheries and agriculture and has found forestry to have the biggest opportunity for people in Western province.

Mr Midire stressed that PNGSDPL is basically a financier and identifies partners which it works with to make projects become realities.

"The ultimate objective of PNGSDPL is benefit for the local community. We work with our partners with the

aim to create projects and let the community run them and eventually own them so that it can sustain their livelihood," Mr Midire said.

"With your technical know-how in forestry, we want you to help us to contribute to the well being of the Western province communities.

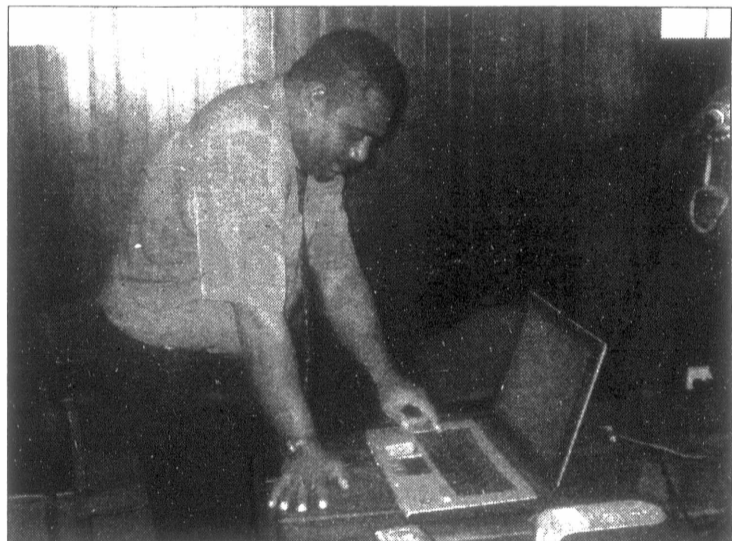

"Our Board has approved this project and we are excited about this opportunity and are looking forward

to the outcome of this investigation," Mr Midire said.

He added that the eaglewood project is the first forestry project PNGSDPL is involved with and is already interested in two other forestry projects.

In response, Mr Warra said that PNGFA is also happy to participate with PNGSDPL in the eaglewood development project. ■

## Trade Minister Launches SBDC Website

Minister for Trade and Industry, Hon. Paul Tiensten officially launching the SBDC website at the Gordons office in January 2006.

**P**apua New Guinea now has a window of opportunity for its Small and Medium Enterprise sector in international markets.

This follows the launching of the Small Business Development Corporation website by Trade and Industry Minister, Hon. Paul Tiensten last month.

The SBDC website - [www.sbdc.gov.pg](http://www.sbdc.gov.pg) - is a deliberate attempt by the organization to assist the Small and Medium Enterprises (SME) sector to access relevant market and business information.

Minister Tiensten said the website will hopefully be a window for PNG's SME sector to the world and will open up new international markets.

"It is recognised and has been dis-

cussed in many national forums and seminars in Papua New Guinea, the lack of access to relevant market and business information.

"Even the current SME Policy identifies Information access as one of the constraints to SME development in PNG.

"It has also been realised that a lot of information is institutionally driven rather than market, industry or sectoral driven.

"It has been highlighted in many APEC/SME related forums that PNG is lagging behind in terms of having an official SME website or portal.

"In other words, of the 21 APEC economies, PNG is the only economy that does not have an official government SME Website, ranks poorly in terms of ICT infrastructure, ICT application and no national policy on normalisation.

"Most of the other APEC member economies are in advanced stages of having a highly informative SME Sector.

"The use of ICT in business is the way of the future and unless we as an economy vigorously pursue and embrace this we may find ourselves missing out on market opportunities due to globalisation.

"Given this back drop, there is a room for lot of improvement by PNG in terms of ICT awareness creation, as well as ICT ownership and application by business and commerce in keeping with global trends.

"This project/initiative is being undertaken by SBDC in an attempt or effort to address the lack of access to market/relevant business information by the SME Sector.

"Nonetheless, the overall issue of normalisation cannot be solved by a single entity such as SBDC and needs a more concerted push on a national scale by the government," the Minister said.

Managing Director of SBDC, Mr. Brian Komun shared the same sentiments adding that the website will enhance the information system in SME.

"Our main aim is to promote SMEs to enable Papua New Guineans to be self-sufficient, thus improving their standard of living and contributing to the development of the country," Mr. Komun said.

"We are the Government's lead agency in the promotion of its SME Policy.

"The challenge on SBDC, therefore, is both an exciting and challenging, especially in this day and age of information technology and globalisation," he said. ■

# National Executive Council And CACC Meeting In Alotau

## Milne Bay A Model Province

The NEC program in Alotau was dedicated by Father Igara of the Lutheran Church dedicated on 15th February 2006.

During the program, Prime Minister Sir Michael Somare praised the Milne Bay people for hosting the Cabinet meeting.

Sir Michael said: "Milne Bay has the potential for a tourist destination and people will have to preserve the natural beauty. The Government will upgrade Gurney airport to take inter-national flights.

"I am surprised that accommodation facilities such as motels, lodges and guest houses have increased drastically over recent years."

He said people need to trade cultures and natural environment especially beautiful reefs to tourists who enjoy diving and seeing the natural beauties. ■

## Bailasi is Confirmed As New Administrator

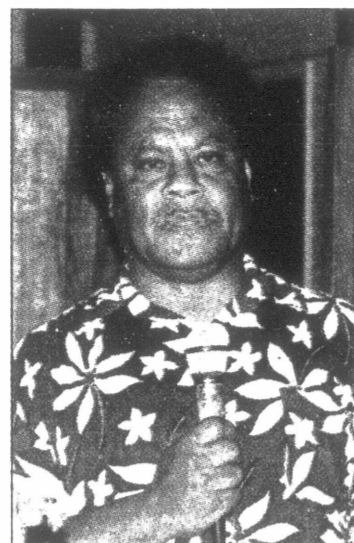

The National Executive Council has confirmed the appointment of Mr. Henry Bailasi as the new Administrator for Milne Bay Province.

Prime Minister Grand Chief, Sir Michael Somare said the cabinet has revoked Mr. Bailasi's acting appointment and confirmed him to the position for a period of four years.

Sir Michael congratulated Mr. Bailasi on his appointment and urged all provincial leaders, public servants and politicians in the province to work closely together with Mr. Bailasi to ensure basic services are delivered accordingly to the people of Milne Bay.

"NEC has endorsed Mr. Bailasi as the Milne Bay Administrator during its meeting last week using the merit-based appointment process that has been put place to ensure that professionals with appropriate qualifications fill in top bureaucratic positions that becomes available in the public service.

"Mr. Bailasi has proven himself as a worthy candidate for the challenging job heading the provincial

public servants since his appointment as acting administrator in 2003.

"The appointment of the provincial administrator will stabilise the provincial public service and re-establish the relationship between the provincial government and the provincial administration," Sir Michael said.

Mr. Henry Bailasi was the Deputy Administrator prior to his appointment as the Administrator for Milne Bay province. ■

## Milne Bay A Model Province For PNG

Chief Secretary to Government, Mr. Joshua Kalinoe says Milne Bay Province is an ideal model for the rest of the country to follow with respect to planning and service delivery.

Mr Kalinoe said following their visit to Milne Bay last week, members of the Central Agencies Coordination Committee (CACC) were impressed with the cooperation and collaboration between the provincial politicians and the provincial administration in running the affairs of the province.

"The province has a clear vision for service delivery and they know exactly what they want to do in the medium to long term.

"If all our 19 provincial administrations and their national politicians, especially the Governors, work together harmoniously to deliver basic services to the people, we would go a long way indeed.

"Such collaboration between the political and administrative arms of government is what is needed during this time," Mr Kalinoe added.

The CACC members visited Samari, Logea and Kwato Islands last Tuesday as part of their provincial visit program.

Mr Kalinoe said CACC has given an undertaking to rehabilitate the community hall, which is one of the oldest buildings still standing on Samarai Island. Built in the early fifties, the hall will be renovated to maintain its originality.

He said: "Samarai and the surrounding islands of Kwato and Logea have so much historical significance to this country as they served as trading posts for early explorers and a mission station for the London Missionary Society.

"The historical perspective of the place could be used to sell it as a tourist destination as some of the buildings that were erected during that era still remain standing," he said.

Mr Kalinoe added that Historical Tourism is something that the CACC is promoting and would like to sell to the rest of the country and Milne Bay's tourism potential in this product remains untapped and needs to be fully exploited. ■

## Outcome Of CHOGM Meeting

In an earlier decision, Cabinet has endorsed an Information Paper on the outcome of the Commonwealth Heads of Government Meeting (CHOGM) held in Malta from 25-27 November 2005.

PNG was represented at the meeting by the Prime Minister Sir Michael Somare and Foreign Affairs & Immigration Minister Sir Rabbie Namaliu.

"As a member of the Commonwealth, PNG has and

continues to benefit from this important international meeting which addresses political, economic and social issues some of which are of significant importance for our advancement."

"PNG has benefited from the various programs and arrangements initiated by the Commonwealth Secretariat which included technical assistance provided by CFTC and other related bodies," said Sir Moi.

Cabinet has directed that the relevant agencies, including the

Department of Prime Minister & NEC and Foreign Affairs & Immigration to undertake the necessary follow-up actions to implement the CHOGM Leaders' decisions.

During a stopover in Dubai, Prime Minister Sir Michael invited Emirates Airlines to consider developing a partnership arrangement with Air Niugini, and proposed establishing diplomatic ties with the United Arab Emirates (UAE) due to its strategic location to Europe, the Gulf and the Mediterranean regions. ■

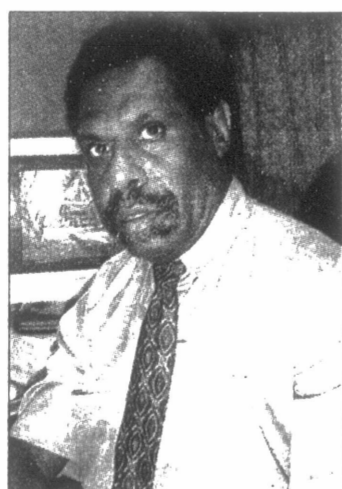

## Electoral Boundaries Commission Report Before Parliament

Prime Minister Grand Chief Sir Michael Somare said the main agenda to go before Cabinet this month would be the 2005 Boundaries Commission Report.

The National Executive Council, during its recent meeting in Alotau, took note of the government's parliamentary business that is ready for deliberation during the weeklong session this week.

Upon receiving the 2005 Boundaries Commission Report from Chairman of the Electoral Boundaries Commission, Mr. Andrew Trawen, Sir Michael said he accepted the report on behalf of the government and would present it in Parliament for deliberation.

"There has been no change to the electoral boundaries since 1976. Normally, the boundaries should be reviewed every ten years but that hasn't been done because of the unstable political climate that we have experi-

Electoral Commissioner, Mr. Andrew Trawen.

enced over the years," he said. Coincidentally, Sir Michael presented the initial electoral boundaries report for the current electorates in 1976.

Other government businesses to go before Parliament include seven proposed bills, three reports and eight ministerial statements that are currently on the Notice Paper. ■

## Development Initiative For Milne Bay

The Government has given the green light to the Milne Bay Development Initiative.

And the Prime Minister, Sir Michael Somare has called for support of all stakeholders in the provinces to ensure that this initiative is successfully implemented.

Sir Michael said: "Alotau is blessed with many beautiful islands, marine resources, land, friendly and good-natured people. It has an ideal location and has the natural setting for the promotion of the tourism industry.

"In recognition, this government has committed itself to providing essential infrastructure that will support the development of tourism for the province and the country."

He said this particular initiative is part of the government's tourism plan in establishing four strategic gateways and hubs under a 'Model Tourism Programme'.

The NEC has approved an initial K3 million to upgrade security and airport facilities to interna-

tional standard by September 2006.

Sir Michael also said NEC has also agreed to allocate funds in 2007 budget for the second phase of the infrastructure upgrading project that will allow Gurney airport to receive larger commercial and international flights.

The NEC also made several declaration's including Samarai Island becoming a National Historical Heritage Island and Alotau-Garuahi-Sirisiri-Agaun road as a national highway.

"Milne Bay is PNG's largest maritime province and while providing a safer ocean for our people to fish, we are also opening up our waters for further economic opportunities," said Sir Michael.

He added that agriculture is the way forward for PNG and we cannot ignore efforts to enable landowners to develop the oil palm industry in the province.

The national government will work with the provincial government to facilitate this model in order to expand the oil palm industry in Milne Bay. ■

## Cabinet Meets Prov. Executive Members

Deputy Prime Minister, Hon. Sir Moi Avei (right) is welcomed by traditional Milne Bay dancers upon arrival in Alotau. Behind him is Minister for Culture and Tourism, Hon. David Basua.

Prime Minister, Sir Michael Somare and his Cabinet met the Milne Bay Provincial Executive members in Alotau.

Cabinet Ministers listened to concerns raised by the PEC while implementing changes and developments at the provincial and district levels.

"I wholly support the initiative to hold NEC meetings in different locations around the country because too

often we hear complaints that Waigani is not in tune with our rural areas," Sir Michael said.

The Prime Minister urged PEC members, Chambers of Commerce and community leaders to take advantage of these meetings to exchange views and impress upon national leaders the way forward in facilitating development.

He said Alotau is the gateway into Milne Bay Province and there were

some great initiatives seen that were commendable.

"Milne Bay has the potential to develop small cottage marine and fisheries industries and notable resource facilities that we visited in Alotau are the Disaster Media Centre and the Wanigil Education Centre," he said.

Sir Michael also said that since coming into office in 2002, the government has offered initiatives to increase and encourage investment in sectors such as mining and agriculture.

"We have a ministerial committee in place that is tasked to introduced a comprehensive tourism development programme for PNG.

"Seriously considering sustainable options of developing our economy rather than relying heavily on the exploitation of our non-renewable resources, the main advantage of encouraging sustainable options of development is that more of our people can involve in these industries.

"Tourism is an obvious sector in which everyone can take part," he said.

Sir Michael was well received by the people, especially children of Milne Bay who lined the streets and gave a warm welcome.

He emphasized the need to increase employment opportunities.

He said the work of the government is to provide necessary infrastructure for development but said this must be done in partnership with the business sector and the community. ■

## DEFENCE FORCE

# Kila Is New Maritime Director

**C**ommander Murphy Kila has now been appointed as Director Maritime in the Defence Force for the next two years.

Commander Kila takes over command from the outgoing Director, Commander Clement Tele, who served in the post for 12 months and has also been identified to go on retrenchment under the Defence Force Reforms.

44 year old Tele comes from Valupai village in Talasia, West New Britain province while the incoming Director Kila is from the Gulf Province.

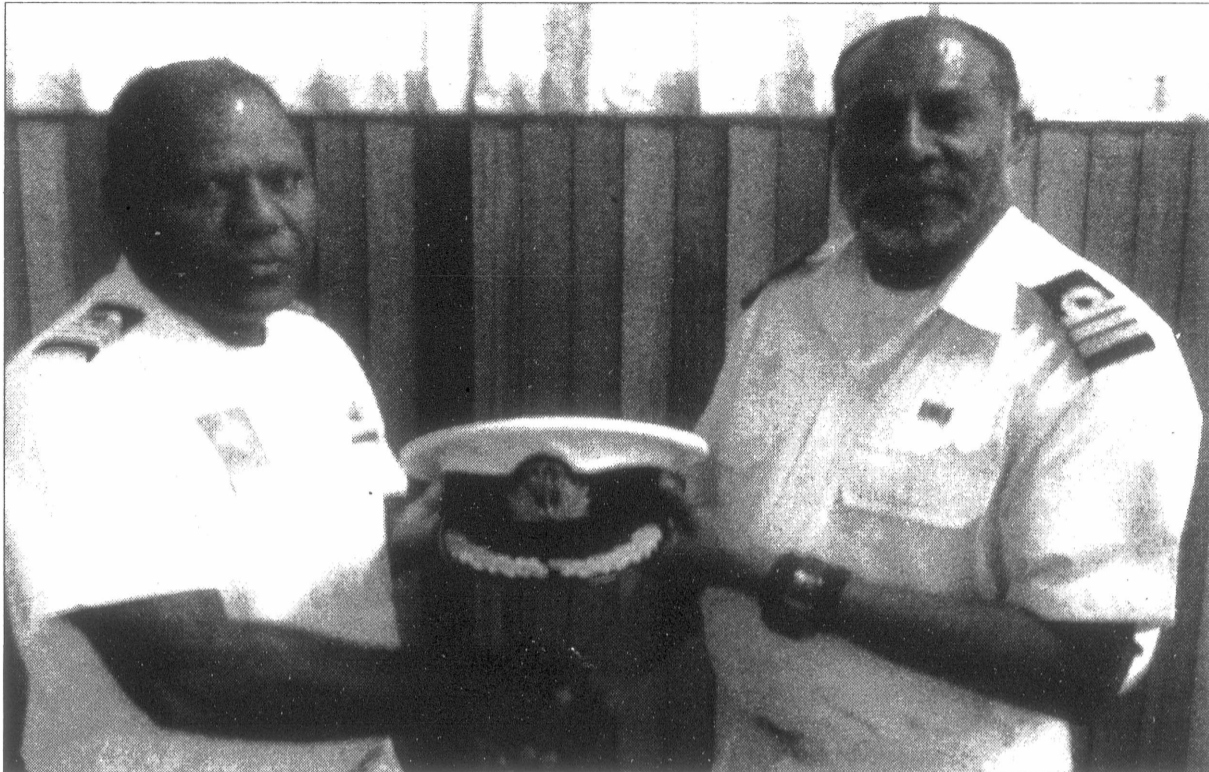

Outgoing Director Tele said he is going out from the post a happy man because during his term the

Maritime Element of the Force achieved some of its objectives like "Exercise Kakadu 2005" and most of all last year, the PNGDF Maritime Element underwent 10 surveillance patrols under the MOU signed with the Fisheries Department.

He has every confidence in his successor to carry on from where he will leave off.

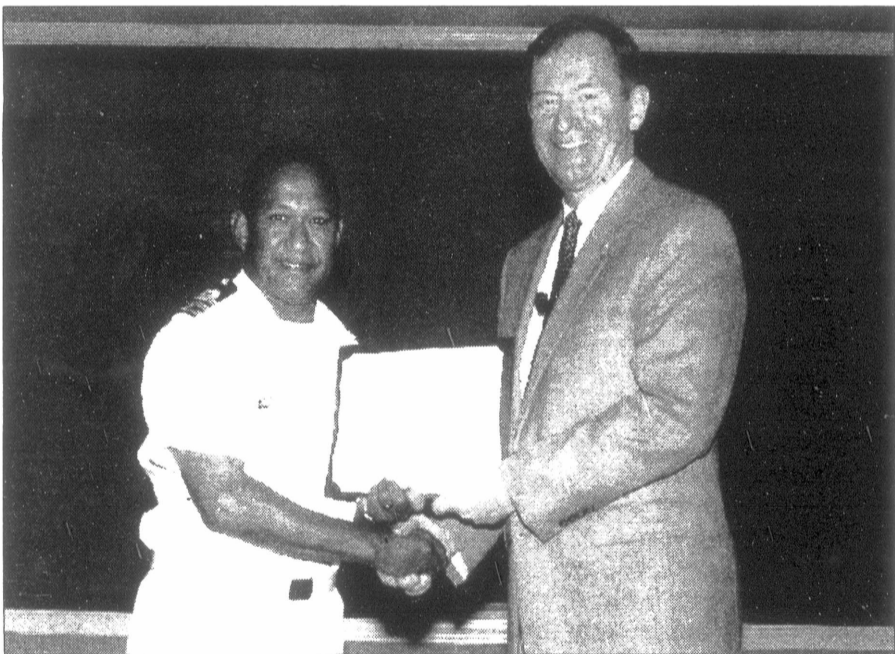

Meanwhile, the new Director said during his term he'd rather see improvement and change in attitude and professionalism in his officers and sailors.

"I'd rather see my ships at sea also manage the limited resource that we have to bring about good results." Commander Kila said. ■

## Officer Graduates From American Center

Commander Tau Ila (left) receiving his diploma from the President of the Asia Pacific Center for Security Studies, Retired Lieutenant General, Ed Smith.

**P**NG Defence Force Director of Technical Services, Navy Officer, Commander Tau Ila has recently returned from Honolulu after completing an Executive Course at the Asia-Pacific Center for Security Studies.

Commander Ila graduated with a diploma after a 10 week course studying regional security with 93 other senior military and civilian government leaders from 34 countries throughout the Asia-Pacific region.

The Asia-Pacific Center for Security Studies is a Department of Defence regional study, conference and

research center with a mission to provide a forum where current and future military and civilian leaders from Asia-Pacific nations gather to enhance security cooperation through executive education, professional exchange and policy-relevant research.

Countries represented at the course were American Samoa, Bangladesh, Bhutan, Cambodia, Canada, Chile, Comoros, Cook Islands, Fiji, Guam, India, Japan, Kiribati, Madagascar, Malaysia, Maldives, Mauritius, Micronesia, Mongolia, Nepal, Pakistan, Papua New Guinea, Philippines, Republic of Korea, Russia, Saipan, Samoa, Singapore, Sri Lanka, Taiwan,

Thailand, Tonga, United States and Vietnam.

Papua New Guinea was represented by Commander Ila and Chief Superintendent Awan Sete from the Royal PNG Constabulary.

Commander Ila said the general overview of the executive course provided background scenario of security issues within the region and also provided the relationships and challenges these issues provide to the region.

It also examined these challenges and tried to determine solutions and or adapt approaches that would be necessary to improving regional security and also enhance security cooperation between nations in the region.

"From the military, civilian or Non Government Organisation perspective, the course was certainly informative and worthwhile.

"The outcome of the course is able to transform one's thinking from that of his or her country to that of regional, or being a partner to security concerns of the region.

"It also highlights the needs for any military or defence organisation to be mindful of any security developments within the region as well as globally.

"Having this mindset would enable one to be more proactive on international security dealings", Defence Force Chief of Staff Navy Captain Alois Ur Tom said. ■

## Soldiers Issued New Uniforms

**A** new set of uniforms have been issued to Defence Force soldiers this month after the Australian government made the donation.

Soldiers from Murray Barracks and Headquarters PNG Defence Force each received two pairs of uniform, boots, socks and under shirts last week from their Quarter Stores.

The soldiers expressed gratitude to the Australian government for their support and some stated that they have been working without uniforms for the last six years.

The soldiers thanked the Commander, Commodore Peter Ilau as well as the Force's hierarchy, the National

Government and also the Australian government for their generosity.

Meanwhile the Acting Commander PNG Defence Force Navy Captain Alois Ur Tom has warned soldiers that the uniforms are not to be given away or sold to civilians. "These are your working clothes and are not for civilians to wear and walk around the streets, take care of what is issued to you now and take pride that you are servicemen or women." Acting Commander Tom said.

Captain Tom has also cautioned civilians not to wear Defence Force Kumul pattern uniforms because if they are seen, the uniforms will be removed from them by civilian police, Military police or any member of the Defence Force. ■

# Red Cross Receives Generous Funding

**T**he PNG Red Cross Society (PNGRCS) has received another pace of funding assistance this year worth of K250,000 for its community programs.

The funding comes from the

PNG Sustainable Development Program (PNGSDP) approved under its Community Sustainable Development Program (CSDP) to support the PNG Red Cross Society's community based economic activities.

Officials from both organizations in Port Moresby on 27th January 2006 signed the agreement between the two organizations.

General Manager of PNG Sustainable Development Program Mr. Camillius Midire

says the funding is part of their responsibility in promoting community based activities with key partners. He said the PNGRCS is a humanitarian organization and is a key partner to PNGSDP.

"The assistance provides guaranteed funding of K50,000 annually for five years. This will allow the PNG Red Cross Society to plan and implement some of its economic based projects in the community", Mr. Camillius said.

The PNG Red Cross receives funds mainly from its international Bodies, Local businesses, and individuals and through fundraising activities such as the Miss PNG Charity Quest, Commercial First AID Training and the rental of facilities.

Chairman of the PNG Red Cross Society Mr. Bernard Lukara was pleased with the funding assistance by PNGSDP.

"I am very happy with the organization as part of the funding will be used to wind up the Manam aid that we are currently into it", Mr. Lukara said.

Mr. Lukara said the PNGRCS with number of other organizations have been providing assistance to the displaced Manam Islanders following the October 2004 volcanic eruption.

In congratulating the recipient Mr. Midire stressed the importance of partnership saying that the company's support will help to enhance the work of the humanitarian organization. ■

General Manager of PNGSDP, Mr. Camillius Midire and Chairman of PNGRCS Mr. Bernard Lukara seal the agreement with a handshake.

## HIV/AIDS Policy Implementation

**T**he Education Department is now focused on the challenges of implementing HIV/AIDS Policy which was launched on World AIDS Day last year.

The Policy involves colleges and schools to teach students and to promote the fight against HIV/AIDS through the national educational

institutions. The Department's challenge is to reach every teach, student, family and community about the consequences of the deadly disease. The Department is making sure that messages received about HIV are made known to young people and that teachers are trained to teach about HIV. Officials say the message is for every person to accept individual responsibility for

protecting themselves, their families, their communities and their work places against HIV/AIDS. This year, the Education Department will establish an HIV/AIDS coordination and monitoring group at the national level. This group will coordinate and monitor how the policy is being implemented, through a National HIV/AIDS Coordinator. ■

# Sir Paulias Attends Legal Year Opening

Governor General, Grand Chief Sir Paulias Matane

**G**overnor General, Grand Chief, Sir Paulias Matane attended the opening of the 2006 Legal Year by the legal fraternity in Goroka on Wednesday 1st February 2006.

The event was held at the Four Square Gospel Church where the Governor of Eastern Highlands Province, Hon. Malcolm Smith, judges, magistrates, lawyers, court staff, senior public servants, policemen and CIS officers were also attended.

Sir Paulias said corruption in high places is taking root and members of this noble profession, have an onerous duty to fight this evil in our country.

He said: "Our country, as we all know, is made up of people from many different cultures and traditions with over 800 distinct languages and it is very fragile, but with God's grace, we have come this far since we attained political independence from Australia in 1975.

"We must admit that many of the institutions of good governance are not functioning as well as they ought to be.

"They need good, hardworking and honest people to run these institutions to move this country forward." He said.

He added that church services have now become an integral part of the legal year opening in the National Capital District and in Provincial Headquarters where judges are resident.

He said the occasion meant much more to lawmen and lawwomen as it brought lawyers, judges, magistrates and those people who work with them like police and CIS officers in the administration of justice.

"This is the occasion on which judges, magistrates, lawyers and members of the two disciplinary forces, and public servants honour and submit to the authority of God as the court calendar year opens for legal services to the people of Papua New Guinea," he said.

He reminded all who attended that

their calling to the noble profession came with duties and responsibilities to the profession, their families, their communities and the country.

Sir Paulias said it was timely to remind those in authority, the importance and independence of constitutional institutions charged with the responsibility to servicing the needy and under-privileged Papua New Guinean.

He mentioned the office of the Public Solicitor as being almost forgotten for his constitutional function to provide legal aid services to the ordinary people.

He urged practicing lawyers to make their services more accessible and affordable to the ordinary people.

"I am aware that judges are promulgating rules that will promote alternative disputes resolutions to enable mediation of disputes.

"That is a commendable move and I urge lawyers to embrace that concept and begin to adopt the mediation process so that costly litigation are minimized," he said. ■

## GG Returns From Waitangi Festival

**G**overnor General, Grand Chief Sir Paulias Matane has returned from attending the Waitangi Day in New Zealand on 6th February 2006.

He went to New Zealand, after accepting an invitation from the Governor General of

New Zealand to be her guest at the Waitangi Day.

The visit provided an opportunity for Sir Paulias to meet New Zealand leaders and exchange views on topics of bilateral and mutual interests and also share ideas on issues affecting our two countries.

Sir Paulias returned on 10th February 2006. ■

## Security Unpredictable: GG

**T**he security environment in the region including PNG is unpredictable since the events of September 11 in New York 2001, says the Governor-General, Grand Chief Sir Paulias Matane.

"Transitional crimes like human smuggling, drug trafficking, arms and money laundering, are more frequent within the region as well as PNG," he says.

Sir Paulias disclosed this at the First Royal Pacific Islands Regiment (1RPIR) end of the year parade at Taurama Barracks in Port Moresby early this month.

He said these were security issues over the past years, which challenged the sovereignty of Papua New Guinea and the role of Papua New Guinea Defence Force to defend the country.

"The need for a strong defence force becomes more and more

prominent throughout the globe and PNG is no exception, even during our internal security operations we need to be serious about how we conduct ourselves professionally on and off duty", Sir Paulias said.

Sir Paulias lamented that a strong and effective force enables a secure environment thus allows confidence in many aspects, through investment, regional partnership, tourism and many more. ■

## Investiture Ceremony

**A**n investiture ceremony for the Orders of Papua New Guinea, "Logohu" took place at Government House on the 23rd February this year.

The first Investiture of the Logohu was at the National Parliament on 29th September last year and was witnessed by her Royal Highness Princess Anne.

The normal imperial awards on the Queen's Birthday will still take place and the new years and independence awards will be replaced with PNG awards "Logohu".

This means there will be three investiture ceremonies in a year. One will be the Queen's Birthday Imperial Awards, two will be the new year's awards (Logohu), and Independence awards which is also Logohu.

There are 116 recipients for the New Year Logohu awards. These recipients

were selected from all sectors of the communities including from rural areas and it is the biggest investiture ceremony.

The Official Secretary to the Governor General, Mr Tipo Vuatha said it was a direction from the Prime Minister Grand Chief Sir Michael Somare that the ceremony takes place during the Parliament session so Members of Parliament will attend the ceremony as guests.

He said Government House was not meeting the airfares and accommodation costs for recipients traveling to Port Moresby and said that this was a government initiative to award people who had served the country with trust and dedication, but funds are not made available to meet the costs.

He urged the recipients to secure fund for their own airfares and accommodation cost while staying in Port Moresby for the ceremony. ■

## GOOD GOVERNANCE

# Public Servants Face More Challenges: Kalinoe

Chief Secretary to the Government, Mr. Joshua Kalinoe

**Chief Secretary Joshua Kalinoe has said 2006 will be another year of challenges and opportunities for public servants.**

Mr Kalinoe was speaking at the dedication service for Central Agencies Coordinating Committee (CACC) members and Departmental Heads held in Port Moresby on 26th January 2006.

"An extension of the Treasury Rollout program, the District Services Improvement Program (DSIP) will be implemented in a number of provinces.

"It will be officially launched in Alotau in February this year where Milne Bay Province will have the benefit of being the first province to roll out this program.

"This is an extension to the District Treasury Rollout Program. Under DSIP other essential services, like police, rural lock-up, magisterial services, health and education inspectorate services will be positioned in the districts rather than at the provincial level.

"This program is a direct response by the government on the need to bring basic services to rural communities and villages. It will be managed both by the national and provincial public servants with financial resources centrally located in the Department of Finance," Mr Kalinoe said.

He said CACC will provide the overall supervision on its implementation through the Secretary for Finance.

"Second phase of the

Highlands Highway Rehabilitation Program from the border of Simbu and Western Highlands Province to Mendi and Wabag will commence this year and work on the Simbu, Western Highlands sector will commence very shortly after the successful selection from tender bids." He said.

Mr Kalinoe said financing of the rehabilitation work on the highway is solely by the government of Papua New Guinea adding that the financing structure was determined by the CACC in which the NEC accepted after CACC's recommendation.

"This is what PNG can do without too much dependence on foreign aid.

"We have the resources but we have to prioritise them," he said.

A number of very important policy decisions to be implemented this year apart from DSIP were also highlighted.

These include feasibility studies on a health insurance scheme for all Papua New Guineans, networking Papua New Guinea with information and communication technology including upgrading of our telecommunication and the lifting of the monopoly on mobile telephones.

Mr Kalinoe also said that being the largest Melanesian Spearhead Group country, we must take the leadership role in making the MSG initiatives work for the interest of all its members.

"We have to provide a united-front and Heads of Departments and Statutory Authorities must provide the required leadership," he said. ■

## Dedication To Be An Annual Event

**Chief Secretary to Government, Mr Joshua Kalinoe said the dedication ceremony will now become an annual event on the CACC calendar.**

Mr Kalinoe said as a predominantly Christian country, 'we have to have time in our routine activities to honour and respect the different faiths we believe in regardless of which religion each of us follow'

"It is important that we make time available to renew our commitment to our spiritual beliefs and values," he said.

He said: "2005 was a year of many challenges and opportunities for the public service.

"We continued the process of implementing important and vital policy decisions of the government under difficult and trying circumstances.

"Despite the geographical and logistic nightmares, public servants continued their efforts in varying degrees of efficiency to deliver government services to our people.

"We started the year with the implementation of the Treasury Rollout Program, the agriculture revolution, new and ongoing infrastructure projects, including phase one of the Highlands highway rehabilitation program." He said.

He added that negotiations on the Ramu Nickel project pro-

gressed on schedule and the construction of the Kainantu mine, were among a number of impact projects that public servants worked on.

"Teachers, medical workers, police and correctional service officers continued their efforts in both urban and rural communities" he said.

Mr Kalinoe acknowledged the efforts of these public servants, particularly in remote locations where access to the rest of the country is on a weekly or monthly basis.

He also said more has to be done on improving basic services to the majority of people who live and work under difficult circumstances. ■

## K12.5 Million Road Improvement Plan

**The deteriorating Ialibu-Pangia road in the Southern Highlands is to get a major K12.5 million upgrading this year.**

The National Government has secured K11.5 million from the Asian Development Bank and the Provincial Government will top up K1 million for major upgrading of this road.

Speaking at the opening of the Pangia District Office Complex on Saturday, February 11, the Southern

Highlands Governor, Mr Hami Yawari and his Government has already allocated K500, 000 for upgrading of the road.

The Provincial Government also gave K100,000 to upgrade Pangia airstrip, enabling planes to land and take-off safely.

He expressed appreciation for the effort in securing the ADB loan for upgrading infrastructure and other development priority in Southern Highlands for Papua New Guinea is to progress in the next 30 years. ■

## NEC Approves Land Task Force

**The NEC has approved the establishment of the National Lands Development Task Force to implement the recommendations of the National Lands Summit.**

Acting Prime Minister Sir Moi Avei has received the report and recommendations of the National Land Summit.

Sir Moi said NEC has directed the Department of Lands & Physical Planning to consult with other institutions of Government to implement the recommendations of the report.

It also directed the Department to view the report and its recommendations within the context of the current reforms of the Government,

including the Public Sector Rightsizing initiative and within the overarching development goals of the Medium Term Development Strategy.

NEC has also directed the department to ensure that its roles and responsibilities do not conflict with the functions of the Task Force.

Meanwhile the National Executive Council has also endorsed a statement on the outcome of the 36th Pacific Island Forum meeting to be presented to Parliament.

Acting Prime Minister, Hon Sir Moi Avei said the Pacific Islands Forum was a success and an achievement for PNG.

He made this remark when presenting a report on the outcome of

the Pacific Island Forum to Cabinet recently.

"As the Chair, Prime Minister Sir Michael Somare ensured that the meeting was successful by endorsing recommendations of the Forum Officials Meeting held in Suva in October last year.

"Sir Michael also introduced the carbon trading issue as a country initiative, and more importantly ensured that the Pacific Plan was adopted by colleague Leaders during the retreat in Madang," Sir Moi said.

NEC has directed the Department of Foreign Affairs & Immigrations to coordinate and implement the various aspects relating to the outcomes of the meeting, including the Kalibobo Roadmap. ■

## Women Empowered

**The Womens Fellowship Group of Games village in the nation's capital attended a workshop which covered courses on cooking, dip dyeing and sewing.**

About eighteen women participated in the workshop and graduated with certificates at Games Police Barracks on Monday 19th December 2005.

Sponsored by National Capital District Commission, the theme of the workshop was: "Empowering Women With Skills And Knowledge To Be Self Reliant and Successful"

While addressing the women, Deputy City Manager Iva Kola said women are now taking the lead in developing skills. She spoke words of encouragement and thanked them for their interest and participation.

"We mothers must continue to

serve our families and also educate our children and involve them in such community work," she said.

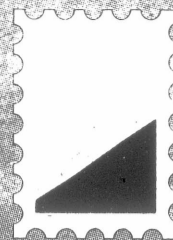

The Inter-fellowship women's workshop graduation served as an opportunity for the women of Games Village to gain confidence and skills in household activities in order to pass these skills to their daughters and take care of their families.

Group Secretary and Coordinator for Women's Group Mary Pige who has been working closely with the Women's Group President Susan Gilalong, said the group is engaged with NDC Social Services to coordinate sustainable projects.

Ms Pige said there will be outreach programs in other centres and at the police barracks. Apart from these, the group is invited to Wau and Bulolo in October and November this year for similar activities. ■

## K1m Funding Assistance

**S**ix Community Development Projects in the country will now benefit from Papua New Guinea Sustainable Development Program Limited (PNGSDP). The company has provided more than K1 million funding assistance under its Community Sustainable Development Program. (CSDP).

The funding assistance follows an agreement signed between the company and partner organizations in the country. The agreement signed on the 21st of December 2005, in Port Moresby was with the understanding of promoting community centered development activities in the country.

PNG Sustainable Development Program has so far committed K4.6 million for 22 projects under the community sustainable development program, half of these are in Western Province.

The four funded projects from the six are the Gama - Bamu capacity building in Western Province which received K194, 200 for micro fishing, crocodile skin and handicraft projects.

Yanpela Didiman Program in Morobe Province received K98, 474 for agriculture extension for Erap valley community, and PNG Events Council received K250, 000 for the sponsorship of a national quiz competition for high schools.

Director-General of PNG Events Council Secretariat, Ambassador Aiwai Olmi signs the agreement. Looking on from left is the CEO of PNGSDP, Mr. Robert Igara.

The fourth recipient was Sir Buri Kidu heart Institute received K32, 900 towards the purchase of an echocardiography mobile machine for its centre in Port Moresby.

The other two will be signed in due course. These are the PNG Red Cross Society, which received K250, 000, and the Kiunga Women's Development centre in the North Fly District received K239, 600.

This was part of PNGSDP's contribution to the 30th Independence Anniversary celebrations.

Chief Executive Officer of PNGSDP Robert Igara said high level of

commitment and community support are required from the respective communities to ensure the projects are implemented successfully.

"The communities are the ones that will ensure the implementation of the projects are well supported by members and partner organizations", said Mr. Igara.

While congratulating partner organizations, Mr. Igara said successful implementation and ownership of the projects are secure but more importantly there benefits are available to the communities well into the future. ■

## NBC Revives Radio Drama

**T**he National Broadcasting Corporation is now hosting a new serial drama, "Kunai Strit"- based on a life story of a family living in a settlement.

Launched on Tuesday 31st January 2006 at the Ela Beach Hotel, the twenty-minute drama is full of humor as the characters involved come to life-those characters that you and I have come across in real life and those we can associate with. These main characters are Big Mama and husband Petrus, their family members, friends and neighbours.

Kunai Strit touches on contemporary life and issues in PNG and will also highlight health and social messages. Kunai Strit is the hub of activity for the neighbourhood, and the people living there will be celebrating, commiserating, offering their views, opinions and sometimes wisdom or foolishness, and living life as best they can.

The serial will use the talents of scriptwriter Albert Toro, of Buka, as well as some new, young and talented writers. Nora Vagi Brash, well-known playwright and poet, will be script editor, and local talent will form the cast. NBC producer Fred Ume has returned to start the revival of NBC drama.

Kunai Strit will be written and broadcast in Tokpisin, on the Karai network at 7.10 pm on Saturdays from February and will be repeated on Wednesdays at 2.05 pm.

The drama provides entertainment, especially for provincial areas where people rely on radio, with the added benefit that information can be conveyed unobtrusively, in a way that people are likely to remember because it's in the context of the way they live.

The drama is produced in Tok Pisin, making it accessible to most people in PNG, and deals with issues affecting ordinary people and the way they live, making public affairs and information more accessible and more easily understood in the listener's context.

The production will include new recording equipment, training for scriptwriters and producers, and salaries for writers and actors, is being funded by the Australian Government through the Media for Development Initiative.

This initiative aims to support an open and democratic media that gives voice to all PNG citizens, and to increase the debate on development issues within PNG.

Kunai Strit is being produced with the assistance of Mike Ladd (Radio National) and Kenya Kala (Radio Australia), from the Australia Broadcasting Corporation, who have been training the scriptwriters and production staff.

Apart from Kunai Strit is another programme "Maus Bilong Ples" which will give people a voice and also tell the people that what they have to say is worthy of being heard by others. Maus Bilong Ples will also be launched shortly. ■

## PM Saddened By Diplomat's Death

**P**Prime Minister Sir Michael Somare has written to the widow of the late Li Zhenjun, Chinese Ambassador to Papua New Guinea expressing sorrow at his passing.

Sir Michael wrote: "It is with great sorrow that I received the advise on the untimely passing of your husband and the Late Ambassador of the People's Republic of China to Papua New Guinea, His Excellency, Mr Li Zhenjun.

"The late Ambassador was a true diplomat who served his

country faithfully and with distinct diligence. He worked hard to promote and strengthen the relations between PNG and the People's Republic of China," he added

Sir Michael said PNG would always remember his personal intervention in obtaining Chinese Government contributions towards national development projects around the country, as well as assistance towards alleviating problems from natural disasters.

Two examples would be the K10 million support towards HIV/AIDS and also the assis-

tance given towards victims of the Manam disaster.

"I am personally grateful for your late husband's tireless efforts in getting the Government of the People's Republic of China to support many development projects.

"On behalf of the Government and the people of PNG, please accept our most heartfelt condolences. Our prayers and thoughts are with you during this time of bereavement," Sir Michael said.

The late Li Zhenjun passed away in Beijing, China on 05th January 2006 during his recreation leave. ■
