Aligning Production, Installation & Contracting

→ from SSC Charleston

"James" on Alignment:

- "We're moving in a direction that is very positive for the customer." — on combining contracts into a single RFP (multiple award contracts).
(although ~~multiple~~ one "winner" per sub-contract)
- "Homogenization is not the answer."

• Task at Hand: Create a Corporate Production capability for the SPAWAR integrated product line.

• "We are looking for innovation in production. We need that for the SPAWAR product line."

• "We have raised the bar, from a quality management perspective."

• The Approach: ^{includes} Develop ~~as~~ a contracting strategy that fosters & supports the G's capability ~~to~~ to perform its inherent technical & acquisition roles.
