

WRITE IN DR. YELLEN FOR SHERIFF

Election Day is June 3, 1986. You as a voter can free yourself of the \$53 millions electricity swindle which is afflicting workers and businessmen yearly.

You are being charged three times the correct price for electricity by the Imperial Irrigation District which uses these big profits to sell irrigation water to the farmland at one fourth ($\frac{1}{4}$) the correct price. The farmland is owned ninety percent (90%) by absentee people who spend the profits elsewhere and so cause bad economic conditions here. If your electricity bill is \$90, it should be \$30. You businessmen with \$600 bills should be paying only \$200.

All over the world, little people and businessmen are being swindled by the group that runs the government. Recently, you have read how these groups have been overturned in Hayti and the Phillipines. In Imperial County, the establishment is the absentee landowners with a few local big farmers fronting for them like John Benson, the I.I.D. director and the Elmore family, etc. A typical absentee landowner is the Newhall Land & Farming Co. which is one of the biggest landowners in California and which made a profit of \$37 millions last year.

You voters constantly read of crime in the local newspapers. But this common crime does not have more than one million dollars worth of money or property stolen in one year. What I am talking about is "white collar" crime which is what the electricity swindle is. There are many more "white collar" crimes here WHICH THE DISTRICT ATTORNEY AND THE SHERIFF DO NOT INVESTIGATE. They are the two main county law enforcement officials. They do not investigate for they are afraid of losing their jobs. They have a family to support but the establishment will not let them be elected if they investigate. The local newspapers are just as afraid and will not print what I say or investigate by themselves. It is no different than in Hayti and in the Phillipines-people are afraid of losing their jobs, not having food, etc.

Now I am not a lawyer and therefore can not run for District Attorney But I can run for Sheriff. My plan is to take the yearly \$41,000 Sheriff' salary and hire lawyers from Los Angeles to take legal action to break the electricity swindle. I can not hire local lawyers for they also are afraid of the establishment. If I were a lawyer, I also would be afraid.

Now I do not hate Sheriff Oren Fox and I know that his friends will feel disloyal to him if they write in Dr. Yellen for Sheriff. So I intend to appoint him UnderSheriff and he will get a good salary and be able to support his family. So you see you will not be disloyal to him. By writing in Dr. Yellen, you help yourselves and at the same time help Mr. Fox.

I also intend to use the money for lawyers so that the little people will be able to get the 225,000 East Mesa at 160 acres for \$320!!!
