Peace Corps Service on the Rise

UCSD among top 25 with graduates signing up for program

By GEOFF DIETRICH

A recent study shows that UCSD students are increasingly following up their four years of college with two years of service in underdeveloped nations.

The study, conducted by the Peace Corps, recently ranked UCSD in the top 25 large universities whose graduates sign up

Currently, 38 UCSD alumni are participating in the Peace Corps, placing UCSD 20th in the nation.

'The Peace Corps is a great opportunity for personal growth and a way to experience another culture," said Sandy Kim, the Peace Corps regional recruiter at UCSD.

Nearly 500 UCSD alumni have participated in the 37 years since the program was founded by then-President John F. Kennedy. The high turnout may stem in part from the general education undergraduate courses at colleges such as Eleanor Roosevelt and Thurgood Marshall, where students explore the relationship between different people, cultures and nations. cultures and nations.

Kim sees a connection between potential volunteers and college students.

"A lot of the students come from Eleanor

Roosevelt College, where there is a global emphasis," Kim said.

Charles Baque, acting director of the Peace Corps, announced the findings.

Through their volunteer work overseas, Americans throughout this country are able to learn more about the world in this era of globalization," Baquet said.

Baquet served with the Peace Corps in Somalia during the '60s.

Dynes Convenes Diversity Town Hall Meeting

Speakers discuss higher education, SATs and SP-1

By STEVE LEHTONEN

Staff Writer

Students, staff and faculty gathered Tuesday afternoon in the Price Center Ballroom for the second annual Diversity Council Town Hall

Meeting. The council's theme was "Embracing Diversity: A Campus-wide Responsibility."

The meeting opened with a welcome and introduction by Diversity Council Chair Deborah Wingard, with opening remarks by Chancellor Robert Dynes. Dynes opened the discourse on embracing diversity.

discourse on embracing diversity.

"We don't pursue cultural diversity because it is a noble concept, but because it really does strengthen the community," Dynes said.

Following Dynes' remarks, Catherine Joseph, vice chair of the Diversity Council, introduced the keynote speaker, Daryl G. Smith. Smith is a professor of education and psychology at The Claremont Graduate University

Smith said the road to cultural diversity in higher education, although difficult, is possible.

'We're living in the consequences of Proposition 209, and on the other hand, people are beginning to realize the importance of cul-tural diversity," Smith said. Smith talked about Proposition 209, which

passed as California state law in 1996 and ended affirmative action, making it illegal to hire on the basis of race, sex, color, ethnicity or national origin.

Smith spoke of the need for immediate changes in higher education to bring about diversity. She rebuked the common argument that kindergarten is the place to start. On the contrary, Smith proposed that the greatest need exists for graduate schooling.

"If graduate education is not engaged, we will go very short distances," Smith said.

Smith also spoke about placing value on the multiple identities of individuals and on steering clear of classifying individuals solely on the basis of color.

Smith closed her discussion rhetorically,

'Bang Bang You're Dead' Emphasizes Anti-Violence

Play based on violence in schools was performed by high school students Tuesday

By MARGARET O'NEILL

A troupe of 12 high school students from the Coronado School of the Arts performed the one-act play "Bang Bang You're Dead" at the Mandell Weiss Forum Theater on Tuesday night.

The play, written by William Mastrosimone, was directed by Liz O'Neill, a drama teacher at CoSA. At the playwright's request, the show was free and was followed by an open discussion for the audience.

The play, which is inspired by the actual May 1988 school shooting in Springfield, Ore., chronicles the mental state of the perpetrator of a high school shooting before and after he committed the crime. Kip Kinkel was the 15-year-old charged with killing his parents and two class-

mates in the Springfield shooting.

"Bang Bang You're Dead" has spread across the nation. High schools and performance groups have picked up the free script and

See BANG BANG, Page 9

A cast member has a strong emotional reaction as her father stands up and admits that he is very proud of his daughter for making a statement about violence.

EVENTS

Friday, April 6

Exhibit: Hypercycles

The Hypercycles Club at UCSD will display 15 motorcycles in the Price Center Plaza. The event is sponsored by the UCSD Hypercycles Club and will take place at 11 a.m. The event is free and open to the public. For more information call (858) 581-2587.

Film: Second Annual San Diego Human Rights Film Festival

Amnesty International at UCSD will sponsor the event, which will feature films centered on human rights issues. The festival will start at 5 p.m. in the Institute of the Americas Building. The event is free to the public.

Saturday, April 7

Special Event: Admit Day 2001

The annual celebration for newly admitted UCSD undergraduates and their families will feature festivities such as Marshall college's Cultural Celebration, Roosevelt college's "Eleanor's Island," Muir college's "Muir by the Sea," Warren college's musical entertainment and Revelle college's "Rockin' Revelle." Admit Day will start at 8 a.m. and go until 3:30 p.m. For more information call (858) 534-4831.

Special Event: VSA Culture Night

The Vietnamese Student Association will sponsor an evening of drama, dance, vocal performances and martial arts to promote cultural awareness. The event will take place at 7 p.m. in the Mandeville Center Auditorium The event is free and open to the public. For more information call (858) 534-4726.

Sunday, April 8

Party: Fusion 2001

The Multi-Asian Student Association will sponsor a hip-hop dance competition, followed by an open dance. The event will start at 6:30 p.m. and go until 11:30 p.m. The open dance will start at 10 p.m. The entire event will be held in the RIMAC Arena. It is free and open to the public. For more information call (858) 663-4733.

Monday, April 9

Special Event: A.S. Council Elections

Voting for the A.S. elections will begin and will go through Friday. Library Walk, in the Price Center and at Center Hall. For more information call (858) 534-4451

Wednesday, April 11

Special Evenbt: Exploring 'Feminine' **Bodies**

The A.S., the Women's Center, the Literature Department, the Critical Gender Studies Department and Senior Vice Chancellor Marsha Chandler will sponsor the seminar which will talk plae at 4:30 p.m. in the Price Center Ballroon. The event is free and open to the public. For more information call (858) 822-0074.

Record Number Went Abroad Last Year

The UCSD International Center recently released its annual report, ranking UCSD third in the country in number of students sent abroad. A record 756 students went abroad through either the University of California's Education Abroad Program or UCSD's Opportunities Abroad

In the last 15 years, participation in the programs has increased by 764 percent.

In hosting international students, UCSD ranks fourth, behind Harvard University, UC Berkeley and UCLA. UCSD hosted 1,612 international students during the 1999-2000 school year.

The study also stated that UCSD students studying abroad and international students studying at UCSD received a total of \$481,534 in scholarships.

Physicist, Anthropologist **Named Research Lecturers**

Lu Jeu Sham, a professor of physics, and Melford E. Spiro, a professor emeritus of anthropology, have been selected as the 1999-2000 Faculty Research Lecture Award Recipients at

Sham will present a lecture, "Dancing with Electrons (and to Herd Schroedinger Cats?)" at 4 p.m. April 9 in the Garren Auditorium in the Basic Sciences Building of the UCSD School of Medicine. Spiro will lecture on "Utopia and its Discontents" at 4 p.m. on May 14 in the Basic Sciences Building's Liebow Auditorium.

Sham's theoretical research in the area of condensed matter physics is credited with an ing. He is most renowned for his work on the density of functional theory, which he developed with UCSD professor Walter Kohn. The Kohn-Sham theory has played a major role in solid standing of wounds and also to new methods of state physics, quantum chemistry, surface healing them. physics and chemistry and nuclear physics.

Spiro founded the department of anthropology at UCSD, which has since risen to the eighth- International Cancer research and the CERIES ranked such department in the nation. Throughout Research Award to Karin.

his career, Spiro's reigning interest has been in the field of culture and personality. His other areas of study have been religion and supernatural belief, cultural theory and human nature.

A.S. Looking for Band to Open This Year's Sun God

A.S. Festivals is looking for a UCSD musical group to play first at this year's Sun God Festival. The deadline for submissions has been extended until Friday, April 6.

The committee asks that interested bands submit their CD or tape to the A.S. offices, located on the third floor of the Price Center. The band's contact information must be on the submitted CD or tape to be considered.

The top five bands will be selected to partic ipate in a Battle of the Bands, to be held April 13. The winner of the musical competition will perform in the opening slot of the Sun God concert. For more information call (858) 534-4451

UCSD Researchers Expose Bare Facts on Skin

In a study conducted recently, UCSD researchers discovered a protein that is crucial for the creation of the top layer of the skin. This is the part of the epidermis that protects the body and prevents dehydration.

The findings were published in the April 5 issue of the journal Nature.

Michael Karin, who led the research in his lab, and his team used mice to identify the proenormous impact in physics as well as in materials science, chemistry and electrical engineer- tion-inducing factor and is instrumental in the establishment of the cells that make up the outermost layer of the skin.

These findings may lead to increased under-

Speakers called for a repeal of SP-1 and SP-2

Continued from page 1 asking "If not now, when?"

Smith's words were followed by short speeches from each of the panelists from the council on diversity. The panelists addressed issues of admissions and outreach and discussed already functioning programs to counteract the trend of the increasingly

homogenous campus. Vice Chancellor of Student Affairs Joseph Watson remarked on the continuing need to press toward the goal of cultural

diversity. "I don't think UCSD has found all the solutions to cultural diversity," he said.

Watson also alluded to recent talk of eliminating of the SATs as a criterion for admission to the university

Laura Barroclough, an ethnic studies graduate, spoke on the weakness of the SAT. "The SAT is culturally biased toward students with greater amounts of money,

Barroclough said. Smith concurred, remarking that recent studies have shown that high SAT scores do not equal success in later life.

Following the speeches from Smith and the panel members, there was a questionand-answer period. The audience was allowed to address questions to the panel and to Dynes.

One group called for a repeal of SP-1 and SP-2 and gave Dynes a petition to sign that would call for such a repeal.

SP-1 and SP-2 were legislative documents passed by the UC Regents in response to the passing of Proposition 209. SP-1 and SP-2 state the university's policy on affirmative action, which is aligned with the dictates of Proposition 209.

Shuttle Service Could Save Lives

The possibility of going to Tijuana on Wednesday and Saturday nights has always been alluring for many UCSD students craving a night of dancing and entertainment that is not easily attainable at this campus.

However what is synonymous with a night in Mexico is drinking. Typically, one designated driver will stay sober while the rest of the group consumes alcohol.

However, in many cases, the designated driver for the evening ends up drinking. Rather than leaving the car at the border, the person drives it back home while under the influence of alcohol, thereby endangering the lives of everyone in the car.

Although many believe that if UCSD provided shuttle service to the border promotes underage drinking, the extra safety that it would provide is far more beneficial than any other negative side effect.

It is true that with this new shuttle, only one more person per car could drink without having to fear drunken driving. With shuttles to and from the border, fewer students' lives would be threatened by drunk driving.

To minimize these problems, the Guardian feels that the A.S. Council should work to offer a charter service to the border on Wednesday and Saturday nights. The transportation could be provided on large charter buses rented from an outside company from roughly 9 p.m. until 2 a.m. on each of these two nights.

Though similar to Triton Taxi, this program would not allow students to call at their own convenience to get a ride back from Mexico.

This would obviously make the cost prohibitive. However, if there could be distinct pick-up times when students would have to meet for their rides, the costs could be kept

We understand that this program would cost money, but corporate sponsors, such as the Mexican clubs themselves, could pay for their names to be placed on all advertisements for the program, perhaps on the buses themselves.

The buses would increase clubs' business and therefore they would have a vested interest in participating. And if they chose not to sponsor these buses, there are many companies in San Diego that would be willing to donate to this cause in exchange for some positive publicity.

However, even if other outside sponsors certainly pay the \$5 cost per person to fund the bus if necessary, as doing so would curtail the problem of drinking and driving and having to find rides to Mexico.

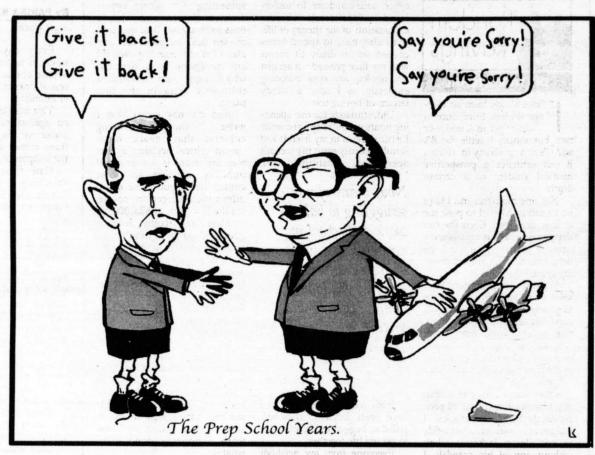

In a school criticized for a lack of social activities, providing this service for the students would make things better to a small degree, not to mention safer.

PROPS & FLOPS

Thumbs up to a 16.6 percent increase in the number of under-represented students entering in Fall 2001.

OPINION

The Results Are In: A.S. Council Members Receive Their Grades

The conclusion to a two-part series examines the performances of student elected officials and reveals whether they measure up to their own standards .

By JACOB WASSERMAN

Dear Littles and Germinates, Maybe you're blind and haven't noticed the omnipresent adverts for the A.S. elections. Maybe you're brilliant and can actually tell the difference between the Unity and the One slates. Or maybe you're in some typically collegiate state of

In that case, this article is for you. What follows is a tip-of-the-iceberg examination of some of our departing

Last quarter I gave you the 1,000word lowdown on soon-to-be ex-President Doc Khaleghi. Since I only have about 250 words each for the vice president external, the commissioner of communications, the commissioner of student advocacy and the commissioner of services and enterprises, I'm gonna go a lot easier on them. Sorry, Doc. Try to take it in stride. What follows is both a guide for how these folks did and a lesson in how to think about the new folks trying to get their jobs.

Vice President External Eugene Mahmoud graded himself down for his work with fellow A.S. Council members, Mahmoud gave himself an unfairly low D-, of self-criticism and humility that marks article is for you. a good official.

The sad truth is that good candidates, with their flashy smiles and "ain't I great" credentials, rarely have what it takes to do the job they so easily get. Mahmoud actually did look like a good candidate, despite being a last-minute entry when his good friend was disqualified, and he turned out to be a great

The vice president external is charged to do exactly the kind of macro-advocacy that A.S. President Doc Khaleghi excelled at. Mahmoud focused on his own strengths, including an immense reserve of respect and affinity for traditionally marginalized groups. He set out to make his office a place of safety and accessibility in the labyrinthine third floor. He has accomplished this mar-

PART 2 OF 2

Dear Littles and Germinates. Maybe you're blind and haven't noticed the omnipresent adverts for the A.S. elections ... Or maybe you're in some typically collegiate state of inbetween confusion. In that case, this

Mahmoud has also had his share of striking accomplishments. He ran the best Students of Color Conference in years, with a record attendance and television coverage. He contributed to the 3,500 voters registered on campus for last November's elections. His office, as he astutely pointed out. gives the A.S. Council credibility beyond simple funds distribution and student advocacy.

average, taking credit for getting more people involved with the A.S. Council but noting his poor balance of time and energy with regards to his schoolwork. But his office has a history of borderline academic probation, and in context of

this year's council, he deserves an easy A. The grade earned by Rami

Shaarawy, our commissioner of communications, was not so easy to determine. Like many of his predecessors, Shaarawy was drafted almost off the street to fill a slate and came into the job after a vote of no confidence in the Guardian, and with little grasp of the position's responsibilities. For overcoming these challenges to the point that he (and we) can take his job seriously, Shaarawy gets an A for effort.

For his actual fulfillment of the job, he does not deserve so high a grade. The commissioner of communications oversees alternative media publications such as The Koala, The Muir Quarterly, and Voz Fronteriza, to name the few that have actually published an issue or three in a noticeable way this year. Shaarawy approved a slew of new publications, few of which have actually gone to the press-

Shaarawy holds a job that has been waiting a long time for a brilliant and effective leader to transform it. It is still waiting. Shaarawy gets a B+ for outstripping his own potential, and a C for living up to the job. Call it a B-, and let's move

Of course, if a professor did that kind of fuzzy math with your grades, it would n't fly. If you got into a fight over it, you might have to fly over to Commissioner of Judicial Affairs Amy Kuo. Mostly working behind closed doors, Kuo is hard to grade without having found a client of hers who wanted to breach con-

We'll let her represent herself.

"I deserve an A-/B+ grade," she said. would have liked to have accomplished more, and I would have loved to make my office even more widely known."

wocacy.

"Seeing that I am a freshman to A.S.,
Mahmoud graded himself as a B- I think I did a pretty darn good job," she said. "Between getting acquainted with the system and understanding my position without the aid of the previous student advocate, I learned the ropes on

Society Must Combat Vicious Hate Crimes

A witness to a brutal crime demands justice

By PARISA BAHARIAN

Staff Writer

Every day, someone, somewhere, is targeted because of a difference of skin color, race, religion, sexual orientation, national origin or ethnicity.

This hostility or violence directed against minorities is termed under our law as a hate crime, for these crimes are committed with the weapon of hate.

Hate fuels the cruel words, smashing fists, battering head bashes, savage kicks and exploding bullets. Hate hurts, maims and

This rapidly spreading epidemic of hate crimes is continuing unchecked.

Half a dozen hate crimes are reported every day in California, according to the Civil Rights Commission on Hate Crimes. The Commission believes the number would be far higher if every incident were reported.

That makes at least 42 hate crimes a week, at least 180 hate crimes every month and at least 2,160 hate crimes every year that occur in California. These crimes of hate can take

the form of vandalism, arson, assault and even murder. Look around - read the news-

paper. I guarantee you will find that a hate crime has occurred in your neighborhood, for no one is exempt from attack. And hate crimes can occur

anywhere, as I discovered Friday night when I witnessed a brutal, racially provoked hate crime at the mall in my hometown of Con-

At about 8 p.m., my grandmother, two younger sisters and I were trying to get out of the Sears parking lot when our car became boxed in by a tow truck, giving us front-row seats to the savage beating of an African American tow truck driver.

Two white Nazi-looking thugs stopped the tow truck driver as he was walking over to move his truck so they could pass. The two thugs said, "You're not moving fast enough, N-word," as they started pummeling his body with their fists.

The tow truck driver tried fighting back at first, but he was no match for those fine-tuned killing machines, who then threw him to the ground and took turns slamming his head on the cement street and kicking him in the stomach

Horrified, I could only think about getting out there to stop the

In a panicked frenzy I tried repeatedly to open the passenger door, not realizing until after quite a few unsuccessful attempts that the child safety locks would not let

I shouted for my sister, who was driving, to unlock the doors. But still I couldn't open the door, and I realized too late that I was sitting on the side with a crushed door -I couldn't get out.

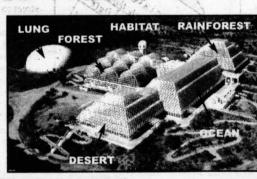

Completely helpless to stop the attack on the tow truck driver, I watched horrified as the two white thugs continued to batter away at

Hate:

Society must recognise crimes against minorities

continued from page 5

the curled-up tow truck driver, their intense and deliberate movements transfixing me. So much hate. So much pain for the poor

We did not have a phone to call the police. We sat there in the car watching the life being beaten out of this completely innocent man. Frustration mounted. We had to do some-

So we honked the horn continuously as we moved the car forward, for we were going to force those two thugs to stop even if we had to run them over.

It worked. With very deliberate motions, the two thugs got off the tow truck driver and moved with precise steps to their two-door, green Ford truck.

I do not know how the tow truck driver is now, but even after being so severely beaten he could barely walk, he still managed to get out his tools and attempt to help the lady with the car trouble.

I will never forget that tow truck man's courage and strength for not allowing those thugs to make him their victim. He fought back the only way he could, and that was to fight the pain. He the beatings, vandalism, stalking, would not allow his attackers to claim his dignity.

The question that plagued me after witnessing this horrific attack was: How was it possible to hate so much that it could drive someone to beat a complete stranger to within an inch of his

And the only answer that I came up with, is that I don't have

ing was a harsh wake-up call, making me realize what a real and dangerous threat hate is to

Hate does not bring our community together; instead, it destroys us, one bond of trust at

According to the 1997 statistics provided by the FBI, 8,049 hate crimes were reported by various police agencies across the

Even without taking into account the substantial number

I will never forget that tow truck man's courage and strength for not allowing those thugs to make him their victim ... He would not allow his attackers to claim his

of hate crimes that are never reported, the sheer strength of the reported statistics alone is evidence enough that hate continues to thrive and poison our

Yet pure numbers cannot tell the story of the terror of being made a victim of a hate crime. The actual terror and pain caused by murders and racial slurs are things that cannot accurately be measured.

Hate crimes are not confined neatly to urban cities or neighborhoods; the FBI has identified schools and college campuses as the third most common place for hate crimes to occur.

According to the Student Office for Human Relations, a hate/bias prevention and educa-

Witnessing that brutal beat- tion program at UCSD, there were seven hate incidents reported for the year of 2000.

The UCSD Guardian

The SOHR reported that less than a year ago on Oct. 12, 2000, graffiti was written on the men's bathroom, which read, "Fuck all gooks. Asians get off our white

According to the SOHR, five hate incidents occurred on our campus in 1999. The SOHR reports in 1999 that on Feb.8. feces was smeared on the door of the Lesbian, Gay, Bisexual & Transgender Association.

So it is clear that even our campus is not immune from the insidious disease of hate that is rampantly spreading throughout

But how do we as a society combat hate?

I offer this solution: We as a society must declare a war on hate. We must be diligent to speak up and speak out when witnessing a hate crime or when we hear racial epithets.

We can no longer remain silent, for silence is what hate feeds upon.

If we don't make the offenders fear any repercussions for their actions, hate will continue to spread and lead to further hate crimes.

And remember, if hate can hurt, maim and kill, so too does our silent lack of action.

Thus if hate is the weapon of choice for racists, so then our weapon of choice in the war against hate must be the spoken

Thus I am sending out a call to my fellow students: We need solidarity in order to break down the walls of hate that divide and hurt one another.

United we will triumph over hate, divided we will fail.

hate? Any volunteers?

dent advocate, I learned the ropes on my own. I fought for students on various issues and had the opportunity to see them to victory in some of their cases. I am also one of the first in a long time to even produce some publicity and information to students."

Finally, we examine Matt Conroy, commissioner of services and

Overseeing the co-ops, Volunteer Connection, A.S. Internship Office, Triton Taxi, U.S. grants, Student Cable Works, A.S. Lecture Notes, Soft Reserves, refrigerator rentals and our own dear, sweet Grove Caffe, Conroy would have had an overflowing plate if the internal leadership of all these groups hadn't been so strong.

It's not tough to oversee people who know what they're doing, but Conroy made it hard for himself. He took on the revamping of Triton Taxi, the re-negotiatiation of

CalPIRG's contract, the raising of lecture note takers' pay and various improvements to the refrigerator rental service.

Conroy gets an A for his allaround step-up-to-the-plateand-try enthusiasm. He secures this A with a good sense of when to spend his time advocating a group and when to stay out of the

You will be under a lot of pressure in the next few weeks to pick and choose according to nice words and nice clothes and pretty

Some of you will stay away from the polls because of those things, and some will just vote according to what that guy said who was talking to that girl two

get yourself out of both these categories. Meet the candidates and listen to what they have to say about their potential jobs. Are they informed hard workers, or slate-filling slackers? Ask them what they think about the people to whom I've just introduced you.

And if they try to charm you, kick 'em in the shins.

Column:

Being a slacker requires a lot of work and dedication

continued from page 5

that I'm a spoiled, pretentious brat who should leave UCSD and settle for kindergarten - and by the way, if anyone knows a kindergarten that would take me, please notify me immediately.

You may not realize that being a slacker is difficult and treacherous work. Not only are the repercussions high — my parents could cut So who will speak up against my ATM card in two - but it also subjects one to harsh criticism

(someone once told me I was a "waste of space").

stands you. I've told numerous people that there's no point in working anyway, because most of us will end up as slaves working for evil corporations. Those people looked at me as though I were

That's what I get for telling the truth: societal isolation.

Anyway, I'm hoping I'll still manage to graduate in the next 10 years. I want to go down in history as the first UCSD student who took a decade to graduate.

Maybe then I'll finally get my

Spy Plane:

Continued from page 1

stopped just short of setting an absolute condition for their release. The spokesman, Zhu Bangzao of the Foreign Ministry, said "the answer to your question" lay in China's insistence on an apology and an explanation. "It was the U.S. side that

caused this incident, and China is the victim," Zhu said at an unusual late-night press conference, held just before an American officer in Hainan met with the crew for the first time since the accident. "The United States should take full responsibility, make an apology to the Chinese government and people, and give us an explanation of its actions. But American officials,

angered by the delayed access to the crew, appeared in no mood for apologies, raising the possibil-

of a prolonged dispute. Speaking on American television Tuesday morning, the U.S. ambassador, former Adm. Joseph W. Prueher, said the American government would "have a problem" with apologizing.

American officials have suggested that a miscue by the speedier jet, traveling too close for safety, must have caused the collision, and they maintain that China has no legal right to board the aircraft or hold the airmen.

Once American officials have debriefed the crew, more details should emerge of what happened. But in the meantime, American and Chinese officials are clearly worried about the damage to relations from this episode.

> - Erik Eckholm The New York Times

So far the White House has not disclosed many details of Bush's be reduced to \$259 million next budget, which would cut taxes by year, from \$353 million this year. \$1.6 trillion over the next 10 years. But White House officials said

But Tuesday's disclosure provides the second example of significant cuts in domestic programs. Earlier, administration officials acknowledged that the budget would include cuts in some programs for children and children's hospitals.

Overall, officials said, the budget of the Department of Health and Human Services will rise by 5 percent next year, to \$55.5 billion. But all of the net increase goes to the National Institutes of Health, for support of biomedical research, not for the direct care of

But a White House spokesman said Tuesday: "We intend to phase Bush's budget request, to be out the community access prounveiled next Monday, would also gram. Creating new federal grants cut federal spending for the trainis not the best way to address ing of doctors, dentists, nurses, health care access. It's an efficacy

Budget documents show that the money for such training would

that since the documents were prepared just a few weeks ago, they had decided to make even deeper cuts. The president, they said, will seek \$140 million for training health professionals, a reduction of 60 percent from this year's level.

A White House official said, "one of our overall goals is to slow the rate of growth of federal spending." Health programs, like many domestic programs, received large increases last December because Congress and the Clinton administration showed little restraint on spending, the official

Diversity:

Thursday, April 5, 2000

Dynes says outreach is more important than SP-1 repeal

Dynes said that he was opposed to the legislation, as he was opposed to the passing of Proposition 209. However, he said that repealing SP-1 and SP-2 would not change the law that stands under Proposition 209 in California. Dynes also remarked that the present outreach programs are more important than the repeal of SP-1 and SP-2.

"I do not want to put to compromise the outreach programs for the sake of a repeal to SP-1 and SP-2," Dynes said. "I will not sign this because I don't sign these sort of things. That does not mean I will not fight the regents aggressively against SP-1 and SP-2." Students found this response unsatisfac-

tory. Alexis Montevirgen, a biology major, "My biggest concern was the reasons the

Montevirgen said. "I don't see it as a choice between outreach programs we have now and the repeal of SP-1 and SP-2. The repeal should not affect the programs we have."

Other audience questions involved the status of diversity at UCSD and the means for getting to where the university needs to

Undergraduate student Joseph Sherman-Villafañe rebutted a claim Smith made in her speech regarding the widespread participation among students fighting for diversi-

Smith said that the trend seen at most universities is that students of color are active in seeking diversity. Sherman-Villafañe claimed that the students fighting for diversity are often the underrepresented

Overall, the meeting expressed optimism for the Preuss School and for programs such as C.R.E.A.T.E., while demonstrating a need to press on for a larger amount of diversity on campus.

The council meeting will be aired on UCSD-TV on May 21 at 7 p.m. and 9 p.m. chancellor gave for not signing the petition,"

Bang Bang:

Post-performance discussion forum drew audience participation

performed it, hoping the message of the play would be conveyed to at-risk students. Matthew Weatherman played Josh, the

youth who turns in desperation to violence. Josh, like Kinkel, turns the gun on his parents, as well as five classmates.

The play featured performances by Phillip Botello, Adriana Campos, Daisy Cross, Markus Erdmann, Alison Hoover, Annika Keller, Annalyn Lehnig, Jenny McArthur, Alma Schneider, Geoffrey Sykes and Weatherman. The actors are all students

Dr. Vivian Reznik of the Academic Center of Excellence on Youth Violence Prevention was responsible for bringing the play to UCSD.

At the end of the play, much of the audience was in tears.

The post-performance forum opened an intimate discussion between the cast and audience on issues of violence.

1-800-USA-RAIL

O'Neill began the discussion with an account of her past as a violent person and her recovery from that through "nonviolent communication." Kelly Bryson, a psy-chotherapist and trainer for the International Centers for Nonviolent Communication, led the discussion.

But with Bryson's help, O'Neill said she has been able to overcome her violent tendencies. She proudly announced to the audience that she has never abused her 4year-old child.

"I've broken the chain," she said A high school student in the audience told about the "disaster drills" that are now being practiced in many high schools. Along with typical earthquake and fire drills, high school students are being told what to do if a violent act occurs at their schools. A special siren rings, the audience member told, notifying the students of gun violence or a threat on the campus.

The students involved in the play emphasized how much the experience has affected them.

The script of "Bang Bang You're Dead," as well as additional information on performance venues and dates, is available online at http://www.bangbangyouredead.com.

NEED A PROGRAM IS NOW HIRING The CSO (Community Service Officer) Program is

hiring outgoing, enthusiastic, responsible students to be part of a team working outdoors helping the community.

CSOs provide numerous services including free safety escorts, campus patrol, assisting officers at campus events such as dances and concerts, and providing general

Chocolat

"Chocolat" blends reality and fantasy in a depiction of a French town seemingly devoid of passion. This begins to change as single mother Vianne (Juliette Binoche) comes in with her daughter (and the wind) and proceeds to open up a chocolate shop at the same time Lent begins.

The conflict arises when Comte de Reynaud (Alfred Molina) recognizes the presence of temptation in Vianne and her chocolates (which have various magical attributes). Soon a battle ensues between the purity of willpower and the sinful pleasure of giving in.

The film features strong performances all around, though special mention should be given to those who take their characters

For example, Judi Dench was excellent playing Armande, the landlady renting out

She's enjoyable in that gruff, live-while-you-can way reminiscent of "Grumpy Old Men." Also, Molina's personal struggle with temptation as the pious Comte de Reynaud is as real as it can get. He fights against desire for the town but it's clear from the beginning that he's fighting for himself as

The narrative style and presence of fantasy give the story a fable-like edge. The issues Chocolat contends with are ancient. It's the solution proposed that is unique. There's a reason this film was nominated

for Best Picture - see it. - Eric Dean

Enemy at the Gates

"Enemy at the Gates" does well in presenting a picture of a war-torn time but strug-gles with details of individual characters.

The setting is Stalingrad, 1942. The Russian army is depleted and falling fast to the Nazis. It lacks hope and a hero. That hero becomes Vasili (Jude Law), a humble smiper. Eventually, he is opposed by his Nazi counterpart, Konig (Ed Harris). The winner of their snipe-off will turn the tide of the war. In addition, there is a love triangle involving Vasili, Danilov (Joseph Fiennes) and Tania (Rachel Weisz), a triangle of which Danilov gets less than 60 degrees: Tania does not love him as he loves her.

The movie loses points for wasting Harris' talents - Darth Maul had more lines. It also fails to play up the love triangle. Fiennes has the most intriguing character, yet he never gets to confront Vasili and Tania at the same time. I got tired of the eyeball shots, and the originality of sniping lost its flair after an hour. I actually found myself wanting to see more love stuff and less sniping. That's where the best acting was.

Director Jean-Jacques Annaud's emptycolored vision of crumbling Stalingrad, several intense war scenes and the suspense between sharpshooters were all plusses. Also, Vasili and Tania's sex scene occurred in a unique and provocative way — based on its location. The Russians were the good guys for once, too. This picture just might be worth a shot.

Rinder, was that this constituted a rave," Green recounted. "And the County of San Diego would not tolerate any raves, but never-theless, they gave me the name and number of the permitting department and the people 1 had to talk to in order to legalize the event." Green describes the process of moving through official channels as "the daunting task of facing probably 12 to 15 different agencies, with unknown delays trying to discourage me from doing the event." His frustrations began because "others who were doing similar events didn't have to go through the same hurdles that I had to." Furthermore, Green says that "the sheriff's department did not want the festival, and I always felt there was communication between the sheriff's department and the permitting Hostility arose among a small section of the community, who were friends with the was going to attract "undesirables" because he was bringing hip-hop and reggae musical acts. They were concerned that he could not control 5,000 to 10,000 "unruly" patrons, who would bring out-of-control drug use, drunk driving, property destruction and disrespect for the community as a whole. Story and Photos By Green says he was seen as an outsider bringing in big city attitudes to a small community. Yet Green maintained that "any busi-RINALDO DORMAN ness owner has the right to run a business anywhere, as long as it is done legally and with

iff's deputies, and at the core of this action was a local deputy's personal quest to see that his community was kept free of "undesirable" elements, regardless of the legality of his own actions. These are the accounts of a citizen's Six months prior to the event and slated for Sept. 20 to Sept. 21, Green brought his intentions to the County of San Diego. He sat down with resident deputies and the propri-etor of the facility and expressed his desires "The immediate response out of the deputies, especially resident Deputy Ralph

Whatever Happened to the Hollywood Classics?

The Guardian remembers what good acting, masterful directing and well-written scripts use to be like

By ANNE CONG-HUYEN

Thursday, April 5, 2001

Contributing Hiatus Writer

The majority of movies released today seem to have a sole purpose: to sell tickets. And what types of movies sell tickets? The movies full of gratuitous violence, nudity, sex and special effects.

Every once in a while, however, one might be lucky enough to stumble upon movies worthy of praise, but even these movies do not get the proper recognition they deserve. A good number of noteworthy films are produced by small companies or are independent films and are not well-publicized nor widely viewed. Instead, the films that are produced by large companies, with big-name celebrities, are the most popular, whether the actors can act.

It makes me wonder about what nappened to films that were actualgood - the great black and white movies that had recognizable plots and talented actors. With vast technological resources and a large pool of willing actors available, one would think that the film industry would be able to produce better films, yet it still can't.

technology, good acting and a well- Elizabeth Taylor in roles that were written script, can cause one to overlook the films of Alfred Hitchcock or Leo McCarey.

In our society today, many people lack the capability to recognize let alone appreciate - classic films because of the overwhelming presence of films that are visually dazzling yet completely bereft of any real content. It is sad that some people only know of Alfred Hitchcock for "The Birds" or "Psycho" and believe that he only made horror movies, or that some people do not even know who Humphery Bogart or Gregory Peck

The '50s were a landmark time in Hollywood history as an interval between present-day technological Hollywood and the historic silent film era. It was during this time that many talented actors and actresses, writers and directors were able to use their talents to utilize the available technology to produce remarkably touching, exciting or long-lasting classics.

Films such as Tennesee Williams A Streetcar Named The lack of good films, with the Desire" or "Cat on a Hot Tin Roof"

exception of those that somehow manage successfully to incorporate showcased popular actors such as Paul Newman, Marlon Brando and complex and in films that were disturbing yet remarkable.

perennial feel-good classics such as "Roman Holiday" or "An Affair popular Audrey Hepburn and Cary Grant. Alfred Hitchcock was a genius at combining romance, suspense and mystery in films such as "Spellbound" and "Suspi-

In order to preserve these film classics, people must watch them. Many of these classic films are being lost annually because so few care about these films that efforts to preserve them are diminishing There are only a few organizations that participate in preserving classic films, and they will not continue to do so unless the public actively shows that they want these films to be preserved.

So show these organizations that we don't want these films to "To Have and Have Not" or "Sayonara," or call the cable company and demand Turner Classic

Green: Promotor battles with

city for rights

Continued from page 10

was opposed. That minority had the connections to law enforcement agencies through local deputies, whom they were agitating. Nevertheless, Green continued to complete the required permits and move forward with the planning and booking of the event.

AUGUST 1997

About a month before the concert, there was so much hostility from a group of about 10 families that Green volunteered to go to a town meeting in Shelter Valley

On Aug. 6, 1997 he attended the the history of Shelter Valley. Green's aim was "to address the issues and concerns of the citizens." The meeting was quickly

He recalls the attitudes of the townspeople as "Who the fuck are you coming out to our town. bringing a rock concert, a punk concert, an acid-rock concert?" He found that the event was being The residents tried to point out put on. that Green could not control the could not keep the patrons within the camping site.

Green continued to petition the County of San Diego and the sheriff's department, reminding them that the majority of people wanted the event to continue as planned. However, there were a few who could not be satisfied.

Despite the opposition, Green had done everything to ensure a safe and legal event for the patrons and the community members alike. During that time, Render continued to refer to the event as a rave.

"Coming up to the date of the event, I continued to receive information that the event was still being referred to as a rave," Green said. "So

finally I called the deputy at home, but it was to the point that I thought it was going to damage the event. didn't want people thinking it was a rave, and also it put law enforcement in a position that meant I would be doing something illegally."

he says, "because if I display a safe event, and did everything by the Green tried to plead his case

"Look, what you're doing to me is wrong," Green said. "You cannot label my event a rave, because it's not a rave. Doing so will cost me money and damage the event's attendance."

Green recalls Rinder response: "Well, Mr. Green, that's my feeling, and regardless of what you tell me, I think that this event is a rave. But if you can jump through all the hurdles, and that's IF you can, then you can have your party."

As things proceeded, the motions of legality were upheld. "A couple weeks before the

event I was introduced to Sgt. Ken Prue, incident commander over the whole event, meaning that he was going to supervise all the deputies, the patrolling and the responses to the event," Green said. "I was told by Prue, who treated me as a professional, that [law enforcement officials] cannot and would not come onto the site. Furthermore, that if I needed any assistance from the Sheriff's Department, that I

Green saw this as a turnaround Everything, for me as a promoter, in the process of getting the festival

need to call a certain number."

"I felt that was great," he said. "I "undesirable people" and that he felt really good about everything, and despite Rinder, I thought I was developing a relationship with the line, including multiple bands over sheriff's department that would ensure no interference with the event, and that would be helpful in After 4 p.m.:

the future."

Green went on to discus safety plans for the event. "I informed Prue that I was and rattled. He informed Green

bringing in Elite Security from Qualcomm Stadium and that I would have 40-plus guards on duty during the concert. As attendance grew, we would bring more security members onto the site to ensure the safety of all."

City officials lie to stop party in Julian

Continued from page 13

north, going against the reasoning for that excuse. People were being pulled out of their cars without their consent, patted down, their belongings removed and searched and drug dogs were being taken

The officials were turning people away, saying the event was canceled, or sold out, or that tickets were \$50 and parking \$25. The rumors and lies were endless.

So many people had respect for law enforcement, as did Green at that time, that they believed what they were told, turned around and went home. From the time that Green was informed of the situation, attendance was directly affected. After 4 p.m., attendance went from 150-plus vehicles every hour to a dismal 20 to 30. Green realized that "with headliner acts going on at 9, 10, and 11, if this traffic flow continues, then I'm a bust financially. It's over!"

"Not surprisingly, he said, "it never got better at all."

Some did continue to pass through, but the flow staved at about five to seven cars every 15 minutes.

"Those that did make it through and were able to perceive enough to get to our gate came into contact with law enforcement at the check point, went through the experience and continued on, only because they did not believe what they were told by law enforcement," Green said. "Mostly, this is because they had some kind of personal connection with the event and did not hear that it was canceled, so they wanted to see for themselves."

Others made it through the checkpoint because law enforcement was so busy with vehicle searches that the cars were able to slip through without notice. More interesting is that there were those, like Green's father, whom Green said "looked conservative enough, as a white male in a Jeep Grand Cherokee, that he was allowed to go through without any sort of search."

"Ninety percent of the people at that check point were subjected to illegal searches," Green estimated.

While all this was happening at the checkpoint, deputies started to enter the facility on dirt bikes, contrary to what they had said would happen. Then they entered and occupied the event site for 14 consecutive hours. They raced around the park, kicking up dirt and breaking the 5 mph speed limit. Rather than driving in any sort of safe manner, they maintained speeds of 20 to 30 mph throughout the park and around people.

In what Green believes were attempts to intimidate, deputies were staring down patrons, coming into contact with people and upsetting everyone. As people later testified in court, they were made to feel very uncomfortable and always had to watch out for the reckless deputies.

Prue and several other deputies came into the site with Ford Broncos and patrol cars, all of this without the necessary consent of Green. which was directly the opposite of what he had been told by officials. Green was left to ask himself,

"What is going on?"

"I am being betrayed for what I had done, and the efforts I have put into this event," Green answered. "What I was told by the sheriff's department was not the truth, and they had some kind of goal, some kind of plan to destroy the event by way of their 'checkpoint,' and by way of their harassment.

Green tried to continue with the event, but while people were per-forming, the sheriff's helicopter did multiple fly-overs "at what I estimate to be an altitude of about 300 to 400 feet, which is extremely low."

At this height, debris and dust were kicked up constantly into the crowd and onto the stage. Green began to get reports from the bands about feedback in monitors

and of being completely drowned out by the helicopter. The extreme noise and its prob-

lems helped to push Green over the edge. "I just threw up my hands and realized that this was a disaster," he said. "There was nothing I can do but try and continue my esponsibilities as a promoter."

The strong-arm tactics began to weigh more heavily on the event and on Green as people began to take their frustrations out on him.

The endless question of "Why?" was central: "Why can't you do something about the check

"Why can't you do something about the deputies?" "Why can't you do something

about the helicopter?" "Why are we being treated this

With \$15,000 worth of bands to perform on Sunday, not a single deputy or border patrol agent was

The damage had been done," Green said. "They knew that Saturday night was the big push for

And then on Sunday it was all over — no checkpoint, no one in

the event site, nothing

Time to pay the talent and the service providers, which brings a menacing realization to Green. He is over \$80,000 in debt because the event's attendance was so low.

"I didn't get anywhere near the attendance I needed," Green said. "I needed 3,200 people to attend, but I had about 800 paid attendees."

Green said that the border patrol testified that "approximately 250 cars came through the check point every hour," which easily would have supplied Green more than the necessary attendance for a successful event.

The Aftermath:

In trying to figure out what legal action he could take against the San Diego Sheriff's Department, Green attempted to obtain an attorney. It took several attempts before Green found Mike Marrinan, who was actually willing to put forth the effort needed and would not be intimidated by the authorities.

It would be three years before the case went before a judge. Then, after a mere three-week trial, with two days of deliberation, the jury would return a unanimous verdict: The San Diego Sheriff's Department and

the County of San Diego, with named sheriff's deputies, primarily Prue, were found guilty of violating Green's First and Fourth Amendment rights, along with state claims, including negligent interference with prospected economic advantage, and awarded the full \$1.5 mil-

lion, as requested by Marrinan. The verdict was a decisive emotional victory for Green. "It was incredible to know that what they did was wrong," he said.

The power of the verdict was also in the fact that the case was such a credibility contest between Green and San Diego law enforcement.

"That's what it boiled down to," Green said. "Who did they believe? I mean, they put up 15 deputies, and the jury didn't believe any of them."

Post-trial motions were heard on March 26. Unsurprisingly, the County of San Diego has not admitted its guilt. The county is requesting a new trial and reductions in the verdict.

The countly also claims there was an error in allowing hearsay, and that cumulative damages were overlapping, so there should be only one award. Green and Marrinan have filed countermotions. Now the judge is doing further

research on the issue and should

return his findings in the next few days. If all of the county's motions are denied and the verdict is upheld, the county can try to settle with Green or take the case to the Ninth Circuit Appeals Court.

If the county's motions are granted, Green has to face the inancially and emotionally daunting task of taking the case to the next level of appeals, or trying to settle out of court.

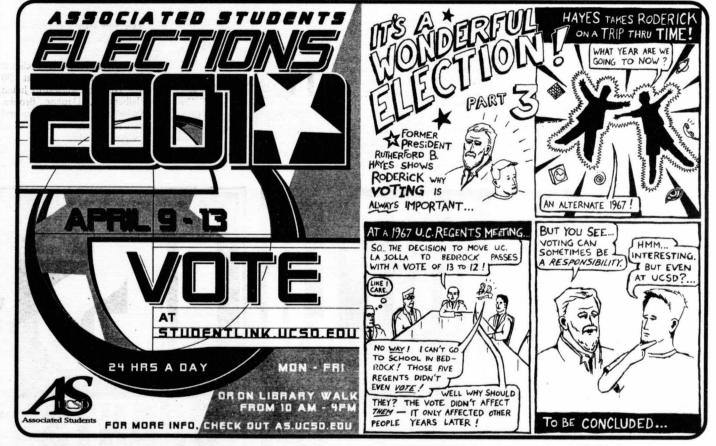

The Disagreement:

Kevin Kennedy, a spokesman for the county and senior deputy county counsel member, told the Union-Tribune that "The San Diego Sheriff's Department handled itself professionally and appropriately The deputies did nothing wrong and they dispute that any illegal searches were conducted."

Green feels that "the county will most likely have [its] motions denied and the verdict upheld, which means they will come back and offer me most of the money to see if I'm willing to finish."

Unsure of what his response will be, Green considers the possibility of spending two more years in the Court of Appeals, where anything can happen.

Green:

Promoter fights brutality of police misconduct

favor of the county, or possibly award a new trial, which would mean finding all the people who previously testified and trying to get them to speak out again. Those people want to get on with their ives, and so do I.

The prospect of ending the ordeal hangs heavily as Green considers whether he will take the money the County will inevitably

"The San Diego Sheriff's Deputies were willing to pacify the few angry voices of Shelter Valley," he said. "They knew that if the

event was a success with the minimum estimated 5,000 to 10,000 people, as stated in my permit, I would hold subsequent events at Stage Coach Trails, and they absolutely did not want that."

Now, after the trial, Green won-"That's a gamble," he said. "You don't want them to come back in a jury's decision, and why they continue to waste taxpayers money to fight a fight that I feel is done and over." The jury foreman was a county

employee, someone who would be concerned about the effect that his ruling might have on his job. However, the verdict still speaks of the level of misconduct that took One has to keep in mind that

Green was fully within the boundaries of the law. In fact, he should have been protected by the very people who sabotaged his event. could not deny the permits,

for all the requirements were met. Instead, the officers of the law took it upon themselves to interfere with the concert as it took place. When the people who are supposed to be enforcing laws can move outside the system, we suffer.

SAN DIEGO/COSTA VERDE

Though thankfully there were no losses of life because of the actions of law enforcement, the implication here is that those with power feel that they can do anything they want. This verdict, if upheld, could send a clear message to San Diego's law enforcement that this is not a police state. To put this case in perspective, it is the largest verdict in the history of San Diego for Police Misconduct.

Green's willingness to fight back against the brutality of police misconduct, and his refusal to be intimidated by government scare tactics, is a lesson for all of us. We must be ever vigilant for threats to

book to perform, not just the words that I say. A promoter may have reasons for having a hip-hop act, or a reggae act, because it is a reflection of who they are." As proven now in federal court.

A Pair of Swimmers Makes Big Splashes

Lopez, Watanabe shine at national championships

By ISAAC PEARLMAN

Associate Sports Editor

Going into the NCAA Division II Swimming and Diving Championships on March 14 to March 17 in Canton, Ohio, neither sophomore Jennifer Watanabe nor junior Sandra Lopez had much trepidation about going head to head against the other top Division II swimmers from around the nation.

"I was [nervous] a little bit," Lopez said. "But I think the support of my team helped me calm ny nerves

Neither had many expectations

for the championships.
"I didn't really have expectations," Watanabe said. "I just wanted to go out and have fun.'

Clear minds helped them in the

competition.
"Going into the meet, I tried to not think about me being ranked

first because it's a different meet and anything could happen," Lopez said. "I knew I'd be facing some tough competition."

UCSD swimming head coach Scott McGihon had other ideas. "I expected them to swim fast," he said. "I didn't plan on anybody winning a championship."

Watanabe had other ideas. On the first day of competition, she set a school record in the 200-yard individual medley with a time of 2:04.41. Her first-place finish added to the four national titles she won last year.

On day two, Watanabe came back to win the 400-yard individual medley with a time of 4:22.68, which is also a school record.

Day three belonged to Lopez, as she set both a Division II and a school record en route to winning the 100-yard breaststroke with a

Tops: Jennifer Watanabe (left) and Sandra Lopez are unstoppable forces in the pool. On the final day of competito be happy with anybody. [Watantion, Lopez set another NCAA abe and Lopez] train hard and record and school record in the have a will to win. They've both

come a long way."

The individual accomplishments just add to the team.

"Every individual title is like a team win," McGihon added. "They wouldn't be there if they didn't have their teammates to push them."

With both these top-notch swimmers returning next year, and a third overall finish in this year's NCAA Division II championships, next year's swim team is poised to

Crew:

Team from Chicago no match for the Tritons

record for the 2,000-meter on the ergometer, a machine that rowing teams use to chart their times without having to be in an actual boat, with a time of 7:20:05

This leaves Hopkins in the top three overall in Triton history in the 2,000-meter. Sophomore Emily Grev is just 0.4 seconds away from the overall lightweight record at UCSD. This shows the upcoming talent that may carry the team in the future.

The next event for Triton crew is the San Diego Crew Classic. The ninth-ranked lightweight eight team from UCSD will go against the No. 1, No. 3 and No. 5 boats in this tournament. The Tritons look to prove that they are one of the elite teams in the San Diego area.

"Last year in this tournament the lightweight team did well, and we expect most of our crew teams to advance to the finals this year," Pinkerton said. "Even though 20 top crew teams are competing, we expect the varsity eight squad to

i picked up the win.

Toreros pitcher Greg Simonet

The Tritons also used a barrage

a nod to good old Ricky Hender-

son, the '80s star who is arguably the dumbest man in professional

According to Padres General Manager Kevin Towers, though, Henderson's sales pitch was as stellar as his trademark headfirst slide. He called down to the front office one day and said, "Hey, uh, Ricky wants to play for the Padres." How can you argue with a pitch like that? The third-person reference can only help in sealing the deal.

The Padres also managed to part with prime-time hustler and fan favorite Eric Owens, and deal away young pitching standout Matt Clement. It appears that they are preparing for the future, a future that includes a shiny new stadium, filled to the brim with thousands upon thousands of screaming, adoring fans.

-Speaking of said stadium, where the heck is it? I remember

achieve championship after championship and bring boundless glory to our city by the sea. But as of now the "stadium" is little more than a hulking, stinking pit in the ground, inhabited only by city rats the size of hamburgers.

motioned me closer and told me the way of the right

that the secret treasure was not buried in that hole, but hidden deep beneath the emerald sea where it was watched over by a legion of perpetually perturbed

While this comment was of little help, a connection was quickly made. The whole ballpark fiasco has been rife with crooked conglomerations and shady, underhanded dealings.

Sordid characters of many stripes were involved, including a man near and dear to UCSD students - no, not Lupe, the dearly loved burrito concocter from Taco Motion, but Robert Dynes. Yes, that Robert Dynes, our chan-Anyway, the new ballpark was cellor and the supposed embodi-ment of everything good and

While the smoke has not yet cleared and investigations are still ongoing, it appears that those huge tuition checks we cut each quarter are just not enough to sate Señor Dynes' voracious thirst for wealth.

I hope the situation will rectify I asked a nearby hobo about itself in time, but until then one the project's progress; he must look to Lupe for guidance in

Golf Falls at CCAAs

Tritons finish fifth out of eight teams, Matt Howe leads the way

By ROBERT FULTON

Sports Editor

The UCSD golf team finished fifth out of eight teams at the California Collegiate Athletic Association Men's Golf Championship.

The event took place at Hunter Ranch Golf Course in Paso Robles, Calif. The top school was California State University Bakersfield with a 12-over-par 876. Next was Cal State Stanislaus with an 886, followed by UC Davis with a 900 and Grand Canyon University with a 911. The Tritons were well behind the pack with a 57-over-par 921.

Chico State, Cal State San Bernardino and Cal State Dominguez Hills rounded out the eight schools.

The top Triton finisher was Matt Howe, who shot a 223 for seventh place. Next came Darrin Sullivan, who shot a 226 for 13th place. He was followed by Ben Page in 25th with a 225, Alan Sheer in 29th with a 237 and Brian Revelli with a 260 for 39th place.

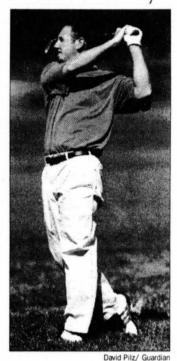

Next up for UCSD is the Grand Canyon Invitational in Phoenix on April 9 and April 10.

ow that the clock has been switched ahead, the sky's golden orb is shining and the larks are chirping like someone has filled his bird feeder with an ounce of pure, uncut, high-grade Peruvian speed, the thoughts of man and woman will inevitably turn to one thing.

Baseball, the national pasttime, the reason that your burger tastes so good and your beer feels so cold. The hardball season has sprung, with action going down in all 30 wonderful stadiums across the nation.

Here in sunny Southern California, however, things are looking dimmer than a pole dancer's chance at winning the NCAA 400-meter individual medley.

The Padres, our local team of overachieving do-gooders who have captured our hearts and our wallets (Prop C), have bumbled their way into the 2001 campaign in high fashion. Poor old Tony Gwynn, the hitmaster himself is back, and none the worse for wear, besides those decrepit knees of course. Nevertheless, it is good to see the Pad Squad's most venerable member back for one more season.

Expanding on the tired-old-veteran theme, the Pads recently gave

Women's Water Polo Loses Two, Wins Two

Tritons lose to Loyola and Davis, but top Pacific and Redlands

By SCOTT BURROUGHS

Associate Sports Editor

While you were lounging poolside late last week with a drink in your hand, the Triton water polo team was hard at work, engaging in a quartet of fiercely contested matches against some top California teams.

The Tritons first took to the cozy confines of Canyonview Pool last Thursday, squaring off against the University of the Pacific.

The hard-fought match saw a late surge by the Tigers almost usurp UCSD's quest for victory.

tory.

The Tritons carried a 2-1 lead into the third quarter, during which they piled on two more goals to establish a 4-1 lead.

The Tigers came roaring back in the fourth, scoring three goals and threatening to score more. The Tritons managed to score another goal and with that goal cinched the victory.

Emma Kudritzki was outstanding in the pool against the Tigers, scoring a game-high four goals and leading the team down the game's home stretch. Hilary Smith chipped in a goal as well.

Goaltender Megan Hubbs also turned in a stellar performance, recording nine saves and stolidly defending the cage in the crucial fourth

Cari Bertrand led the Tigers, who fell to 3-12 on the season, with two tallies in the match. Teammates Jessica Shroeder and Amanda Tucker also had goals in the loss.

The enthusiasm garnered from the tight victory soon subsided as the Tritons felt the pain of the sharp claws of the Loyola Marymount Tigers, dropping two of their three games in the LMU Invitational.

The Tritons opened the tourness with an

The Tritons opened the tournament with an excruciating overtime loss to the host team, 4-2. Their second match pitted them against the Aggies of UC Davis in a match that tested the will of all.

In a grueling tilt that went into overtime, the Tritons were the first to blink and were van-

Stare down: UCSD's Meris Bantilan-Smith scans the pool in choosing her next move during a game earlier this year.

quished by Aggie senior Kim Parker's golden goal with 2:35 left. The Tritons then showed they were a team

The Tritons then showed they were a team of grit and determination by coming back to double up on the University of Redlands, 8-4, in their final game to close out the tournament on a high note.

The Davis game was a true team effort for the Tritons, as six players got in on the scoring action. Silverman led the team with a pair of goals, while Bourret, Danielle Boyle, Courtney Hemmerly, Smith and Kudritzki had one each. The Redlands match saw more of the same unilateral effort from UCSD.

Once again, Silverman had a deuce, this time joined by Kudritzki's two, and single goals by Smith, Hemmerly, Dana Tucker and Boyle.

The Tritons will face Pomona Pitzer College at 5 p.m. Saturday at Canyonview Pool. While the Tritons' record now stands at a

While the Tritons' record now stands at a less than sterling mark, the statistics belie the progress the team has made. Coach Larry Sanders and his charges have been making strides in the water all season long and look to make an impact in their upcoming games.

The Tritons will be put to the test as they will face off against some of California's premier programs as the season winds down and the postseason approaches. They will definitely use this weekend's match with Pomona-Pitzer as an opportunity to crank their game up a notch in anticipation of the season's final stretch.

Track and Field Sweeps

UCSD hosts 1,100 athletes at invitational

By ROBERT FULTON

Sports Editor

The UCSD track and field team hosted the UCSD Spring Break Invitational on Saturday.

The event featured more than 110 competitors from various divisions, many from above the college level.

The Tritons' John Wong had an NCAA qualifying mark of 3:52.24 in the 1,500 meters.

Audrey Sung had a great day, taking the 3,000 meters in 10:15.16, also a NCAA qualifying time and one of the top times in school history.

Rob Ewanio launched the shot put 56-10 3/4 for a school record and a place as No. 2 in Division II.

Next up for UCSD is a meet at Point Loma Nazarene University on Saturday. In addition to the Tritons and the Crusaders, competitors from Azusa Pacific and Cal State San Marcos will be there.

The first field event will be at 9 a.m. and the first track event starts at 10 a.m.

Crew Attends San Diego Championships Women can't hang with fellow San Diego universities Men's varsity eight team loses for the first time in four years

By ARVIND VASAN

Senior Staff Writer

UCSD women's crew participated in the annual San Diego City Championships on Saturday. The competition featured the three top teams in the San Diego region: San Diego State University, the University of San Diego and UCSD.

In the women's novice eight race, SDSU took top honors with a time of 7:36.00. USD came in second with a time of 7:45.70, while the Triton A team came in third with a time of 8:01.50

"Honestly, the results are what we expected," said Patti Pinkerton, the second-year head coach for the UCSD women's crew team. "The big boats were too experienced for our team. USD and SDSU showed their maturity in the eight match, but on the bright side, we did improve from last year. We showed a good deal of growth, which is a great sign for the future."

In the women's novice four regatta, the Tritons kept up with the SDSU team for most of the race. However, the Aztecs showed their ability to close out races down the stretch to finish a little over thirty seconds ahead of UCSD.

"Our novice four team was quite competitive," Pinkerton said. "We experienced some equipment problems in the race, but our girls fought until the end. SDSU has an incredible team, but I can see the growth in our girls. Since last year, we have closed the distance from the top teams, so hopefully, in the upcoming years, we can overtake them."

The women's varsity eight race was again a race between SDSU and USD. SDSU finished with a burst of speed to defeat its crosstown rivals with a time of 6:57.80. The USD Toreros finished a close three seconds behind with a final time of 7:00.50. UCSD finished with a time of 7:27.20.

The true strength of the SDSU team was seen in the women's varsity four race. The two Aztec rowing teams took first and second place, leaving USD and UCSD to battle for third. The SDSU A team took the top spot with a time of 7:55.50. UCSD came in 15 seconds behind USD with a time of 8:24.30 to finish

On a side note, Amber Hopkins broke the all-time freshman

was the premiere event, UCSD varsity crew lost for the first time in four years.

UCSD men's crew competed in the San Diego City Championships on Saturday at Mission

Bay.
The event ran from 7 a.m. to

10:30 a.m. and was a combined regatta of UCSD, San Diego State

"I'm disappointed about losing the race but I also feel that the crew is faster than they raced this weekend," said UCSD men's crew head coach Michael Filippone. "The City Championships were a primer for the [San Diego] Crew Classic. I don't consider the results to be indicative of how things will end up at the end of the year."

Despite the loss in the premiere event, the varsity four boat put in the best performance of the day in the men's varsity four race.

"They showed very good speed and beat two good boats from SDSU and USD. That was by far the better performance of the men's varsity eight," Filip-

Also turning in a solid performance was the men's novice eight, which rowed to a tie with the Toreros of USD.

The lightweight and junior varsity eight squads have been moving fast and had some good races for the Triton men's rowing team as well.

Filippone continues to be optimistic about the outlook of the rest of the season.

"I feel confident and remain confident that [the varsity eight] will go fast," he said. "Right now our main goal for varsity is to make it to the finals at the Crew Classic and to see if we can place in the top three. At the novice level, we have the Newport regatta coming up."

This weekend's San Diego Crew Classic at Mission Bay is one of the premiere rowing races in the nation and draws 3,000 to 4,000 competitors each year.

In addition, thousands of rowing enthusiasts who will be appearing as spectators are expected to be in attendance.

Filippone anticipates a great event that will be attended by many parents, fellow Tritons, boat-loving spectators and UCSD alumni.
