PLACER TIMES Print--J. corner of 2d Street.

This is the 2nd observance
of Thanksgiving in Calif
officially.

Following from the
"Atta California." Dec 6, 1849

Thursday 29th ult. was
Thanksgiving day, by appointment
of Governor Riley, and this
time-hallowed, sacred New-
England festival was observed
in various sections of California,
we are informed with consid-
erable fervor. It is the first
appointment of a general day
of Thanksgiving which has
been officially made since the
occupation of the country by
Americans, although two years
ago in this City (San Francisco)
the sons of New-England met in
happy commemoration of
their beloved custom, but
altogether from the natural
impulses which the day inspires.

ODE,

WRITTEN ON THE OCCASION OF THE
THANKSGIVING FESTIVAL,
AT SACRAMENTO CITY, NOV. 30th, 1850.

Air—"Auld Lang Syne."

New England Hills, New England Homes,
We breathe our song to you;—
The peaceful roofs—the sunny domes—
The friends whose hearts are true.
New England Hills, New England
Homes,
We summon you to view;
However far the truant roams,
Thought lingers back to you.

We hear the sweet New England Bells
Ring forth their Sabbath peals;
From hill to hill the music swells,
And o'er remembrance steals.
New England Hills, New England
Homes,
We summon you to view;
However far the truant roams,
Thought lingers back to you.

We see our homes in quiet lie
Among New England's hills:—
And memory of the days gone by
Our song with sadness fills.
New England Hills, New England
Homes,
We summon you to view;
However far the truant roams,
Thought lingers back to you.
