

When we are young and healthy, the bosses love us. But after we have put in 10-20-30 years or more of loyal work in making the company rich, THEY WOULD LIKE TO KICK US OUT INTO THE GUTTER. They tried to do it at Tenneco in 1971, and only the fight put up by the UNITED FARM WORKERS OF AMERICA, AFL-CIO saved our jobs and our homes. The UNITED FARM WORKERS UNION has also built us a CLINIC, now open to all farm workers, and they built the AGBAYANI VILLAGE, WHERE WORKERS CAN RETIRE IN DIGNITY. You who are young today will need this protection some day. Only by working together today can we guarantee we will have a strong union to help you when you need it...
